Expressed in Canadian Dollars
(Unaudited)

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

In accordance with National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim consolidated financial statements, they must be accompanied by a notice indicating that an auditor has not reviewed the financial statements.

The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with the standards established by the Chartered Professional Accountants of Canada for a review of condensed interim consolidated financial statements by an entity's auditor.

MILLENNIAL POTASH CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended February 28, 2025 and February 29, 2024

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Millennial Potash Corp. (the “Company”) was incorporated in British Columbia under the Business Corporations Act on July 21, 2015 and its head office is located at Suite 300 – 1455 Bellevue Avenue, West Vancouver, British Columbia, V7T 1C3. On January 24, 2023, the Company changed its name from “Black Mountain Gold USA Corp.” to “Millennial Potash Corp.” The Company is listed for trading on the TSX Venture Exchange (the “Exchange”) as a Tier 2 mining issuer under the symbol “MLP.V” (formerly “BMG.V”) and on the OTCQB Venture Market under the ticker symbol “MLPNF” (formerly “BMGCF”).

The Company’s exploration and evaluation assets are at the exploration stage and are without a known body of commercial ore. The business of exploring for exploration and evaluation assets involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish mineral property reserves, to acquire construction and operating permits and to construct mineral property and processing facilities. The amounts shown as exploration and evaluation assets represent acquisition, holding, and exploration and evaluation costs and do not necessarily represent present or future recoverable values. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the Company obtaining the necessary financing to complete the exploration and development of the properties, the discovery of economically recoverable reserves and future profitable operations.

These condensed interim consolidated financial statements for the six months ended February 28, 2025 and February 29, 2024 (the “Financial statements”) have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. These adjustments could be material. As at February 28, 2025, the Company had not advanced its properties to commercial production and is not able to finance day to day activities through operations. These events and conditions indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and/or raise equity capital or borrowings sufficient to meet current and future obligations.

These Financial statements were reviewed, approved and authorized for issue by the Board of Directors on April 29, 2025.

2. BASIS OF PRESENTATION

Basis of presentation

The Financial statements of the Company have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

Foreign currency translation

The Financial statements of the Company are prepared in its functional currency, determined on the basis of the primary economic environment in which the entity operates. The functional currency of the Company and its subsidiary Equatorial Potash Pty Ltd. (“Equatorial”) is the Canadian dollar (“CAD”) while the functional currency of Equatorial’s wholly owned subsidiary, Mayumba Portases SARL, is the Central African franc (“XAF”).

MILLENNIAL POTASH CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended February 28, 2025 and February 29, 2024

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (continued)

Foreign currency translation (continued)

Foreign currency transactions are translated into functional currency using exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the period end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined. Where applicable, the functional currency is translated into the presentation currency using the period end rates for assets and liabilities, while the operations and cash flows are translated using average rates of exchange with the exchange differences arising on translation being recognized in other comprehensive income or loss.

Basis of consolidation

The Financial statements of the Company consolidate the accounts of the Company and its subsidiaries. All intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation. Subsidiaries are those entities that the Company controls by having the power to govern the financial and operating policies. The existence and effect of potential voting rights that are exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Company.

	Incorporation	Functional Currency	Percentage owned	
			February 28, 2025	August 31, 2024
Equatorial Potash Pty. Ltd. ("Equatorial")	Australia	CAD	70%	70%
Company owned by Equatorial				
Mayumba Portasse SARL	Gabon	XAF	70%	70%

During the year ended August 31, 2024, the Company acquired 70% ownership in Equatorial and thereby acquired a 70% interest in Mayumba Potasse SARL (Note 4). During the year ended August 31, 2024, the Company dissolved one of its former subsidiaries Mohave USA Gold Corp.

Subsidiaries

Subsidiaries are all entities over which the Company has exposure to variable returns from its involvement and has the ability to use power over the investee to affect its returns. The existence and effect of potential voting rights that are exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date on which control ceases. Adjustments to non-controlling interest are accounted for as transactions with owners and adjustments that do not involve the loss of control are based on a proportionate amount of the net assets of the subsidiary.

Significant accounting estimates and judgments

The preparation of these Financial statements in accordance with IFRS Accounting Standards requires the Company to use judgment in applying its accounting policies and make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial statements and in the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions.

MILLENNIAL POTASH CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended February 28, 2025 and February 29, 2024

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (continued)

Significant accounting estimates and judgments (continued)

The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about significant estimates and critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in these Financial statements has been presented in the Company's annual financial statements for the year ended August 31, 2024.

3. MATERIAL ACCOUNTING POLICY INFORMATION

These Financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's annual financial statements for the year ended August 31, 2024 and are presented in Canadian dollars, which is the Company's functional currency.

New standards not yet adopted and interpretations issued but not yet effective

A number of amendments to standards and interpretations applicable to the Company are not yet effective for the six months ended February 28, 2025 and have not been applied in preparing these Financial statements nor does the Company expect these amendments to have a significant effect on its consolidated financial statements.

4. ACQUISITION OF EQUATORIAL

In January 2023, under an agreement with the shareholders of Equatorial (Note 6), the Company acquired 25% ownership of Equatorial by making a cash payment to the shareholders of Equatorial of \$343,917 (US\$257,000) and by issuing 650,000 common shares valued at \$237,250. As at August 31, 2023, the Company accounted for its ownership interest in Equatorial using equity accounting (Note 7).

In February and March 2024, the Company issued a further 550,000 common shares valued at \$132,000 and made cash payments of \$204,000 (US\$150,000) thereby earning an additional 26% for total ownership of 51% of Equatorial. As at March 1, 2024, based on its ownership interest and the Company's decision-making power, the Company determined it had control of Equatorial. The acquisition was determined to be an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The net assets acquired did not meet the definition of a business and the Company was determined to be the acquirer.

MILLENNIAL POTASH CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended February 28, 2025 and February 29, 2024

(Expressed in Canadian dollars)

4. ACQUISITION OF EQUATORIAL (continued)

The Company allocated the fair value of consideration paid for the acquired assets and liabilities based on their fair values on acquisition date.

	Total
	\$
Consideration:	
Cash paid	547,917
Shares issued	369,250
Exploration and evaluation expenditures	2,966,409
Total consideration	3,883,576

Balance, February 28, 2025	11,330,812

Banio Potash Project

In September and October 2022, the Company entered into a binding memorandum of understanding ("MOU") and a definitive agreement ("Definitive Agreement"), respectively, with the shareholders of Equatorial, a private Australian company, for the option to acquire up to a 100% interest in the Banio Potash Project ("Banio") in Gabon by acquiring all of the issued and outstanding shares (the "Equatorial Shares") of Equatorial. Equatorial's wholly-owned subsidiary, Mayumba Potasse SARL, holds a 100% interest in Banio. Banio is located in Gabon, Western Africa on the Atlantic coast and is situated at the southern part of the country.

Pursuant to the MOU, Definitive Agreement, and subsequent amendments, in order to exercise the option, the Company will make option payments as follows:

	Cash US\$	Shares #	Ownership earned %
Upon signing of binding MOU	(paid) 18,750		
Within ten days of TSX approval of the definitive agreement	(paid) 257,000	(issued) 650,000	(acquired) 25

(Expressed in Canadian dollars)

6. EXPLORATION AND EVALUATION ASSETS (continued)

Banio Potash Project (continued)

In January 2023, the Company received approval from the Exchange for the Definitive Agreement and the option to acquire Banio and completed the cash payment and share issuance required to acquire the initial 25% interest in Banio through its acquisition of 25% of Equatorial Shares. As at August 31, 2023, the Company accounted for its ownership interest in Equatorial using equity accounting (Note 7).

In October 2023, the Company entered into an agreement amending the Definitive Agreement providing that the US\$300,000 due to the vendors of Banio within ten days of completion of Phase 2 drilling would instead be due: (i) US\$150,000 upon completion of a current resource estimate in a report in form required by NI 43-101; and (ii) on or before December 31, 2024, a further US\$150,000. It was also agreed between the parties that upon making the US\$150,000 payment in (i) and issuance of 550,000 of the Company's shares, the Company would earn an additional 26% interest in Banio for a total 51% interest.

In February 2024, the Company completed a mineral resource estimate report and issued 550,000 shares to the shareholders of Equatorial. In March 2024, the Company made the US\$150,000 payment in (i) above, and thereby earned an additional 26% interest in Equatorial, and as a result the Company had a 51% interest in Equatorial. As at March 1, 2024, based on its ownership interest and the Company's decision-making power, the Company determined it had control of Equatorial.

In June 2024, the Company entered into an amending agreement which removed the Company's requirement to incur US\$12,000,000 in exploration and evaluation expenditures on the property.

In July 2024, the Company made a cash payment of US\$300,000 and issued 1,000,000 shares of the Company to earn an additional 19% interest in Equatorial. The Company recognized a corresponding change in its non-controlling interest of Equatorial.

As at February 28, 2025, the Company holds a total of 70% interest in Banio.

7. EQUITY INVESTMENT

As at August 31, 2023, the Company had paid to the shareholders of Equatorial \$343,917 (US\$257,000) and issued 650,000 common shares valued at \$237,250, thereby acquiring 25% ownership pursuant to the terms of the Definitive Agreement. In March 2024, the Company completed the required cash payment and share issuance to earn 51% ownership (Note 6). In addition, the Company had advanced \$4,498,558 (US\$3,420,833) as at March 1, 2024 (August 31, 2023 - \$3,423,917 (US\$2,505,998)) for exploration programs on Banio.

During the year ended August 31, 2024, the Company recorded a loss on the equity investment of \$7,652 which represented the Company's portion of Equatorial's loss for the period prior to acquiring a 51% interest; as a result, the carrying value of the investment on acquisition was \$5,397,181 (August 31, 2024 - \$3,994,192). Upon the Company acquiring a 51% interest in Equatorial, the Company transferred the carrying value of the investment of \$5,397,181 to exploration and evaluation assets on acquisition of Equatorial (Notes 4 and 6).

The following table is a reconciliation of the investment in Equatorial:

	\$
Balance, August 31, 2023	3,994,192
Acquisition	336,000
Cash contributions – exploration advances	1,074,641
Share of loss of equity investment	(7,652)
Transferred to exploration and evaluation assets on acquisition of Equatorial (Note 6)	(5,397,181)
Balance, August 31, 2024 and February 28, 2025	-

MILLENNIAL POTASH CORP.

(Expressed in Canadian dollars)

8. RIGHT-OF-USE ASSET AND LEASE LIABILITY

As at February 28, 2025, the Company has a lease for an office space in Vancouver, Canada.

Right-of-Use Asset

	Office Leases
	\$
Cost:	
At August 31, 2023	220,960
Lease modification	109,726
At August 31, 2024	330,686
Lease modification	(9,006)
At February 28, 2025	321,680
Depreciation:	
At August 31, 2023	161,767
Charge for the period	105,875
At August 31, 2024	267,642
Charge for the period	54,038
At February 28, 2025	321,680
Net book value:	
At August 31, 2024	63,044
At February 28, 2025	-

Depreciation of right-of-use asset is calculated using the straight-line method over the remaining lease term.

Lease Liability

	Lease liability
	\$
At August 31, 2023	63,918
Modification to lease	109,726
Lease payments made	(117,000)
Interest expense on lease liabilities	10,638
At August 31, 2024	67,282
Modification to lease	(9,006)
Lease payments made	(60,000)
Interest expense on lease liabilities	1,724
At February 28, 2025	-

The lease liability was discounted at a discount rate of 8% as at February 1, 2022. In October 2022, prior to the expiry of the lease in February 2023, the lease was extended for an additional year, to expire in February 2024 and the monthly lease payments were increased to \$9,500 per month. As a result, the Company recognized a modification to the right-of-use asset and lease liability of \$109,243. The modified lease liability was discounted at discount rate of 12% commencing as at October 1, 2022.

In January 2024, prior to the expiry of the lease in February 2024, the lease was extended for an additional year, to expire in February 2025 and the monthly lease payments were increased to \$10,000 per month. As a result, the Company recognized a modification to the right-of-use asset and lease liability of \$109,726.

	February 28, 2025	August 31, 2024
	\$	\$
Accounts payable	664,295	314,859
Accrued liabilities	45,070	212,613
	709,365	527,472

10. SHARE CAPITAL

Authorized share capital

The Company has authorized an unlimited number of common and preferred shares without par value.

Issued share capital

During the six months ended February 28, 2025:

On December 4, 2024, the Company closed the first tranche of a private placement ("November 2024 PP") by issuing 5,644,000 units at a price of \$0.30 per unit for gross proceeds of \$1,693,200. Each unit consisted of one common share and one-half of one common share purchase warrant, with each whole warrant exercisable at \$0.40 per share for a period of two years from the date of issuance. The Company incurred commissions of \$46,998 in connection with this tranche.

On February 10, 2025, the Company closed the second tranche of the November 2024 PP by issuing an additional 7,000,000 units at a price of \$0.30 per unit for gross proceeds of \$2,100,000. Each unit consisted of one common share and one-half of one common share purchase warrant, with each whole warrant exercisable at \$0.40 per share for a period of two years from the date of issuance. No additional commissions were paid in relation to the second tranche.

During the six months ended February 28, 2025, the Company issued 314,500 common shares in relation to the exercise of share warrants and transferred \$17,159 from reserves to share capital.

During the year ended August 31, 2024:

The Company issued 550,000 common shares valued at \$132,000 in connection with the requirements to earn a 51% interest in the Equatorial Shares (Note 4).

The Company issued 5,750,000 common shares for gross proceeds of \$1,092,500. The Company incurred related finders' fees and share issue costs of \$44,652.

The Company issued 5,924,000 units for gross proceeds of \$1,481,000. Each unit consists of one common share and one-half share purchase warrant. Each whole share purchase warrant is exercisable for a period of two years at a price of \$0.35 per share. The Company valued the share purchase warrants using residual value method and reallocated \$148,100 from share capital to reserves. The Company paid cash commissions and share issue costs of \$40,955 and issued 103,600 finders warrants with an exercise price of \$0.35 and an expiry date of June 18, 2027 valued at \$11,244 in relation to the private placement.

The Company issued 1,000,000 shares valued at \$210,000 to earn an additional 19% for total ownership of 70% of Equatorial (Notes 4 and 7).

10. SHARE CAPITAL (continued)

Issued share capital (continued)

During the year ended August 31, 2024 (continued):

The Company issued 2,050,000 units for gross proceeds of \$512,500. Each unit consists of one common share and one-half share purchase warrant. Each whole share purchase warrant is exercisable for a period of two years at a price of \$0.35 per share. The Company valued the share purchase warrants using residual value method and reallocated \$92,250 from share capital to reserves. The Company paid cash commissions and share issue costs of \$23,510 and issued 73,360 finders warrants with an exercise price of \$0.35 and an expiry date of July 12, 2027 valued at \$6,968 in relation to the private placement.

The Company issued 4,000,000 units for gross proceeds of \$1,000,000. Each unit consists of one common share and one-half share purchase warrant. Each whole share purchase warrant is exercisable for a period of two years at a price of \$0.35 per share. The Company valued the share purchase warrants using residual value method and reallocated \$220,000 from share capital to reserves.

Stock options

The Company has adopted an equity incentive plan, pursuant to which the board of directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, and technical consultants to the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance of stock options will not exceed 10% of the issued and outstanding common shares exercisable for a period of up to ten years from the date the common shares are listed on the Exchange. The number of common shares reserved for issuance to any individual director or officer will not exceed five percent (5%) of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants will not exceed two percent (2%) of the issued and outstanding common shares.

Options may be exercised 90 days following cessation of the optionee's position with the Company, provided that if the cessation of office, directorship, or technical consulting arrangement was by reason of death, the option may be exercised within a maximum period of one year after such death, subject to the expiry date of such option.

In January 2024, the Company granted 2,181,000 stock options to certain directors, officers, and consultants at an exercise price of \$0.35 per share. The options were valued at \$556,373 using the Black-Scholes pricing model with the following assumptions: term - 5 years; risk-free rate - 3.43%; expected volatility - 153.25%; and expected dividends - zero.

In November 2024, the Company granted 1,350,000 stock options with an exercise price of \$0.30 per share to various directors, officers, and consultants of the Company. The options were valued at \$250,965 using the Black-Scholes pricing model with the following assumptions: term - 5 years; risk-free rate - 3.14%; expected volatility - 83.32%; and expected dividends - zero.

In February 2025, the Company granted 1,850,000 stock options with an exercise price of \$0.51 per shares to various directors, officer, and consultants of the Company. The options were valued at \$628,260 using the Black-Scholes pricing model with the following assumptions: term - 5 years; risk-free rate - 2.69%; expected volatility - 82.26%; and expected dividends - zero.

During the period ended February 28, 2025, the Company recorded share-based compensation of \$879,225 (February 29, 2024 - \$571,304) related to stock options vested.

10. SHARE CAPITAL (continued)

Performance Share Units ("PSU's")

In April 2023, the Company adopted an equity incentive plan for its directors, officers, and employees, under which it is authorized to grant PSU's to a maximum of 5% of outstanding common shares.

In February 2024, the Company granted 3,000,000 PSU's to certain directors, officers, and consultants of the Company with a fair value of \$750,000 at grant date. The PSUs were to be vested on February 27, 2025. On February 26, 2025, the Company extended the vesting date to February 27, 2026.

During the period ended February 28, 2025, the Company recorded share-based compensation of \$368,852 (February 29, 2024 - \$3,941) in relation to PSU's.

A summary of PSU activities are as follows:

	Number of PSU's
	#
Balance, August 31, 2023	-
Issued	3,000,000
Balance, August 31, 2024 and February 28, 2025	3,000,000

As at February 28, 2025, the Company had 3,000,000 PSUs outstanding.

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments consist of cash, amounts receivable, accounts payable and accrued liabilities and lease liability. The fair value of cash, accounts receivable and accounts payable and accrued liabilities approximates their carrying values due to the short-term nature of these instruments. The carrying value of the Company's lease liability approximates its fair value due to being discounted with a rate of interest that approximates market rates.

The Company is exposed to a variety of financial risks by virtue of its activities including currency, interest, liquidity, credit and commodity price risk.

(a) Currency risk

The Company conducts the majority of its exploration and evaluation expenditures in United States dollars. As such, it is subject to risk due to fluctuations in the exchange rates of the Canadian and US dollars. As at February 28, 2025, the Company had a foreign currency net monetary liability position of approximately US\$57,632 (August 31, 2024 – US\$211,485). A 10% change in the US dollar relative to the Canadian dollar will result in a foreign exchange gain/loss of approximately \$8,074 (August 31, 2024 – \$28,532).

MILLENNIAL POTASH CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended February 28, 2025 and February 29, 2024

(Expressed in Canadian dollars)

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)

(b) *Interest rate*

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk as it does not have any assets or liabilities that are affected by changes in interest rates.

(c) *Liquidity risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash on hand to meet its financial obligations.

(d) *Credit risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The maximum exposure to credit risk is equal to the fair value or carrying value of the financial assets.

(e) *Commodity price risk*

The ability of the Company to explore and evaluate its exploration and evaluation assets and the future profitability of the Company are directly related to the price of potash. The Company monitors potash prices to determine the appropriate course of action to be taken.

12. CAPITAL MANAGEMENT

The Company's capital structure consists of cash and share capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In order to carry out the planned activities and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to externally imposed capital requirements.
