NOTES TO UNAUDITED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2025 AND 2024

Note 1 – Organization and basis of accounting.

Business Description

Broadcast Marketing Group, Inc. (the “Company” or “BDCM”) was originally incorporated as Ranger International, Inc, under the laws of the State of Florida on January 21, 1987. The Company completed a name change to Imagica Entertainment, Inc. effective June 10, 1996. On June 30, 2005 Broadcast Marketing Group, Inc. (formerly Grime Stoppers International Inc.) merged with Imagica Entertainment, Inc. and the surviving Corporation was Broadcast Marketing Group, Inc. The company was engaged in consulting and business advisory services.

On February 28, 2023, the Company acquired 100% ownership interest in Aurora Technology Holding Limited (“ATH”). Through its 100% owned subsidiary Shenzhen Shengtu Technology Co., Ltd. (“Shengtu”), ATH conduct IT consulting business. The acquisition closed effective on February 28, 2023 and has been treated as a business combination under common control. As the transfer of Shentu’s business to the Company was between entities under common control of the Founder, the acquisition was accounted for in a manner similar to a pooling-of-interests with the assets and liabilities of the entities mentioned above carried over at their historical amounts. Accordingly, these consolidated financial statements have been prepared as if the corporate structure of the Company had been in existence since the beginning of the periods presented.

On April 4, 2025, the Company sold its 100% ownership interest in Aurora Technology Holding Limited to a third-party.

Basis of Presentation and Organization

This summary of significant accounting policies of Broadcast Marketing Group, Inc. (“the Company”) is presented to assist in understanding the Company’s financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the accompanying financial statements. While the Company has commenced generating revenues from its principal business purpose during the most recently completed quarter ended December 31, 2022, we remain in the development stage in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic No. 915 (SFAS No. 7). The Company has elected a fiscal year end of December 31.

The accompanying financial statements are prepared on the basis of accounting principles generally accepted in the United States of America (“GAAP”). The accompanying financial statements have been prepared assuming the continuation of the Company as a going concern. To continue as a going concern, the Company is actively pursuing additional funding and strategic partners to enable it to implement its business plan. In addition, the Company is also working to devote more efforts to improve its operation and generate more profits. Management believes that these actions will allow the Company to continue its operations through the next fiscal year.

Note 2 – Summary of significant accounting

Policies Principals of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its 100% controlled subsidiaries: Broadcast Marketing Group, Inc., ATH and Shengtu. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenses during the reporting period. Management bases the estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from these estimates.

Cash and Cash Equivalents

For purposes of reporting within the statement of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Accounts Receivable

The Company's accounts receivables arise from provision of services to customers and reimbursements for our of invoiced to customers. In general, the Company invoices for services rendered at the time the service is provided or the cost incurred. In the event the Company does have accounts receivable, the Company will evaluate each reporting period to provide a reserve against accounts receivable for estimated losses that may result from a customer's inability to pay based on customer-specific analysis and general matters such as current assessments of past due balances, economic conditions and forecasts, and historical credit loss activity. Amounts determined to be uncollectible will be charged or written-off.

Revenue Recognition

The Company has adopted ASC 606 — Revenue from Contracts with Customers. Under ASC 606, the Company recognizes revenue from service related agreements and contracts by applying the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to each performance obligation in the contract; and (5) recognize revenue when each performance obligation is satisfied. Customers are billed for services as they are performed either based on agreed contract terms. Once a contract is determined to be within the scope of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606 at contract inception, the Company reviews the contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company expects to recognize revenues as the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied.

Intangible Assets

Intangible assets are the copyrights of software. Identifiable intangible assets are carried at acquisition cost less accumulated amortization and impairment loss, if any. Finite-lived intangible assets are tested for impairment if impairment indicators arise.

Basic and Diluted Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with ASC 260, *Earning per Share*. ASC 260 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing Diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

Fair Value of Financial Instruments

FASB ASC 820, Fair Value Measurements and Disclosures, defines fair value as the exchange price that would be

received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. FASB ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level of input that is significant to the fair value measurement of the instrument.

Foreign Currency

Translation and Remeasurement Items included in the condensed consolidated financial statements of the Company and its subsidiaries are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The Company's reporting currency is the U.S. dollar. The functional currency of subsidiaries based in China is the RMB. Companies based in the State of Florida operate in US Dollars. All transactions initiated in RMB are translated into U.S. dollars in accordance with Accounting Standards Codification ("ASC") 830-30, "Translation of Financial Statements," as follows: monetary assets and liabilities are translated into U.S. dollars at exchange rates as of the balance sheet date and non-monetary assets, liabilities and equity are translated at historical rates. Sales and expenses are translated using a weighted average exchange rate for the period. All resulting exchange differences are recognized as other comprehensive income, a separate component of equity.

Income taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and net operating loss and credit carryforwards. Deferred tax assets and liabilities are measured at rates expected to apply to taxable income in the years in which those temporary differences and carryforwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statement of operations in the period that includes the enactment date. A valuation allowance is recorded when it is not more likely than not that all or a portion of the net deferred tax assets will be realized.

Recently issued accounting pronouncements

The Company has reviewed other recently issued accounting pronouncements and plans to adopt those that are applicable to it. The Company does not expect the adoption of any other pronouncements to have an impact on its results of operations or financial position.

Note 3 – Going Concern

The accompanying financial statements have been prepared assuming the continuation of the Company as a going concern. As reflected in the accompanying consolidated financial statements, the Company had a negative retained earnings or accumulated deficit as of December 31, 2024. This raised doubt about its ability to continue as a going concern. In

view of the matters described above, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain financing and succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

To continue as a going concern, the Company is actively pursuing additional funding and strategic partners to enable it to implement its business plan. In addition, the Company is also working to devote more efforts to improve its operation and generate more profits. Management believes that these actions will allow the Company to continue its operations through the next fiscal year.
