

Alternative Reporting Standard: Disclosure Guidelines for the Pink[®] Market

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. Companies on the Pink Market that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.²

Pink Current Information Tier

To qualify for the Current Information Tier:

1. **Subscribe to the OTC Disclosure & News Service:** To submit an application, visit [Gateway](#) to sign in or create a new account. Allow OTC Markets Group 2-4 weeks to process your application and provide authorized user credentials to OTCIQ.

2. **Publish Initial Disclosure:** Upload the following documents through OTCIQ:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the Current Fiscal Year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

Qualifying Financial Statements include:

- Audit Letter, if audited
- Balance Sheet
- Statement of Income
- Statement of Cash Flows
- Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- Notes to Financial Statements

3. **Publish the annual Management Certification:** Companies must certify basic company information initially and annually within forty five (45) days of a company's annual report due date.
4. **Verify Profile:** Verify the Company Profile through OTCIQ. This includes the complete list of current officers, directors, and service providers; outstanding shares; a business description; contact information; and the names of all company insiders and beneficial owners of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the Pink Current Information tier.

5. **OTC Markets Group Processing of Reports:** Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted.
6. **Ongoing Requirements:** To qualify for Current Information on an ongoing basis, companies must:
- Publish reports through OTCIQ on the following schedule:
 - Quarterly Report within **45 days** of the quarter end
 - Annual Report within **90 days** of the fiscal year end
 - Complete an annual Management Certification within **45 days** of the annual report due date.
 - Maintain a Verified Profile. At least once every six months, review and verify the Company Profile through OTCIQ.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.
 - Maintain an Active standing in the Company's State of Incorporation.

Pink Limited Information Tier

Companies that do not meet the requirements of the Pink Current Information tier set forth above may still qualify for the Pink Limited Information Tier by meeting the following minimum disclosure requirements.

1. **Annual Financial Statements:** Publish one set of Qualifying Annual Financial Statements which cover the past 2 completed fiscal years, provided the most recently completed fiscal year is within the past 16 months.
2. **Verified Profile:** The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. "Company Insiders" shall include the beneficial owner of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
3. **Ongoing Requirements:** To qualify for Limited Information on an ongoing basis, companies must:
 - Publish reports on the following schedule:
 - Annual Financial Statements as outlined in Item 9 within 120 days of the fiscal year end. Should a change in FYE occur, no more than 16 months may elapse from the fiscal year end of the prior Annual Financial Statement.
 - Review and Verify the Company's profile information through OTCIQ at least once every 12 months.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.

Current Reporting of Material Corporate Events

In addition to the disclosure requirements above, all companies on the Pink market are expected to promptly release to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events are considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents, or if the material events occurs after the publication of such disclosure documents, the issuer shall publicly disclose such events by disseminating a news release **within four (4) business days** following their occurrence and posting such news release through an Integrated Newswire or the OTC Disclosure & News Service.³

Material corporate events may include:

- Changes to the company's shell status. Please refer to our [FAQ on Shell Companies](#)

³ "Integrated Newswire" shall mean a newswire service that is integrated with the OTC Disclosure & News Service and is included on OTC Markets Group's list of Integrated Newswires, as published on <https://www.otcm Markets.com/corporate-services/ir-tools-services>

- Changes in control of issuer
- Departure of directors or principal officers; election of directors; appointment of principal officers
- Entry into or termination of a material definitive agreement or material agreement not made in the ordinary course of business
- Completion of an acquisition or disposition of assets, including but not limited to merger transactions
- Creation of a direct financial obligation or an obligation under an off-balance sheet arrangement of an issuer
- Triggering events that accelerate or increase a direct or contingent financial obligation including any default or acceleration of an obligation or an obligation under an off-balance sheet arrangement
- Costs associated with exit or disposal activities including material write-offs and restructuring; Material impairments
- Unregistered sales of equity securities
- Material modification to rights of security holders
- Changes in issuer's certifying accountant
- Non-reliance on previously issued financial statements or a related audit report or completed interim review
- Change in a company's fiscal year; Amendments to articles of incorporation or bylaws that were not previously disclosed in a proxy statement or other such disclosure statement.
- Amendments to the issuer's code of ethics, or waiver of a provision of the code of ethics
- Any changes to litigation the issuer may be involved in, or any new litigation surrounding the issuer
- Officer, director, or insider transactions in the issuer's securities
- Disclosure of investor relations, marketing, brand awareness, and stock promotion activities which might reasonably be expected to materially affect the market for its securities or otherwise deemed material by the issuer
- A company's bankruptcy or receivership
- Termination or reduction of a business relationship with a customer that constitutes a specified amount of the company's revenues
- Any material limitation, restriction, or prohibition, including the beginning and end of lock-out periods, regarding the company's employee benefits, retirement and stock ownership plan
- Earnings releases
- Other materially different information regarding key financial or operation trends from that set forth in periodic reports
- Other events the issuer determines to be material

Image Protect, Inc.
Notes to Consolidated Financial Statements
For the Period Ending March 31, 2025

NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

Image Protect, Inc. (the "Company") (formerly Image Technology Laboratories, Inc.) was incorporated on December 5, 1997, and commenced operations on January 1, 1998. On December 1, 2015, the Company merged with Clear Art, Inc. ("Clear Arts"), in a transaction treated as a reverse acquisition, and the business of Clear Arts became the business of the Company. The Company has developed a web application that monitors the global Internet to seek and collect evidence for illegally used visual content. The web application crawls the internet to identify illegal use and sends notices to identified infringers or their hosting company (ISP).

On December 1, 2015, Clear Arts, Inc. (doing business as Image Protect), a private California corporation which is the historical business, entered into an Agreement and Plan of Merger (the "Merger Agreement") with the Company and all of the stockholders of Clear Arts (the "Clear Arts Shareholders") whereby the Company agreed to acquire all of the issued and outstanding capital stock of Clear Arts in exchange for 44,601,962 shares of the Company's common stock. On December 3, 2015, the merger was filed with the state of Delaware and Clear Arts merged with and into the Company and the separate corporate existence of Clear Art ceased and after the closing, the Company is the surviving entity pursuant to the Merger Agreement. The number of shares issued represented approximately 70.0% of the issued and outstanding common stock immediately after the consummation of the Merger Agreement. In addition, Mr. Jonathan Thomas who was the President and a stockholder of Clear Arts, was appointed to the Board of Directors and was engaged as President and COO of the Company. Mr. Jonathan Thomas received 37,733,000 shares out of the total 44,601,962 shares of the Company's common stock per the terms of the Merger Agreement.

As a result of the controlling financial interest of the former stockholders of Clear Arts, for financial statement reporting purposes, the business combination between the Company and Clear Arts has been treated as a reverse acquisition with Clear Arts deemed the accounting acquirer and the Company deemed the accounting acquiree under the acquisition method of accounting in accordance with FASB Accounting Standards Codification ("ASC") Section 805-10-55. The reverse acquisition is deemed a capital transaction, and the net assets of Clear Arts (the accounting acquirer) are carried forward to the Company (the legal acquirer and the reporting entity) at their carrying value before the acquisition. The acquisition process utilizes the capital structure of the Company and the assets and liabilities of Clear Arts which are recorded at historical cost. The equity at closing is the historical equity of Clear Arts retroactively restated to reflect the number of shares issued by the Company in the transaction.

NOTE 2 – BASIS OF PRESENTATION, GOING CONCERN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements are unaudited, but in the opinion of management of the Company, contain all adjustments, which include normal recurring adjustments, necessary to present fairly the financial position at March 31, 2025, and the results of operations and cash flows for the year ended March 31, 2025. Certain information and footnote disclosures normally included in the unaudited financial statements that have been prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although management of the Company believes that the disclosures contained in these unaudited condensed financial statements are adequate to make the information presented therein not misleading.

Going concern

These unaudited financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business. As reflected in the accompanying unaudited financial statements, the Company had a net loss of approximately (\$4,708) for the quarter ended March 31, 2025, and net cash used by operations of approximately (\$4,494) for the quarter ended March 31, 2025, and an accumulated deficit, stockholders' equity and working capital deficit of (\$4,147,103), \$391,193, and (\$72,712), respectively, at March 31, 2025. These matters raise substantial doubt about the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon achieving profitable operations and/or obtaining additional financing. The unaudited financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. The Company plans to raise capital through the sale of equity or debt instruments to implement its business plan. There is no assurance these plans will be realized.

Use of estimates

The preparation of the unaudited financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Significant estimates during the quarter ended March 31, 2025, include the useful lives of website development cost, allowance for doubtful accounts and contractual allowances, collection of accounts receivable, beneficial conversion of convertible notes payable, the valuation of derivative liabilities and the valuation of stock-based compensation.

Fair value of financial instruments and fair value measurements

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The Company classifies assets and liabilities recorded at fair value under the fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. The fair value measurements are classified under the following hierarchy:

- Level 1—Observable inputs that reflect quoted market prices (unadjusted) for identical assets and liabilities in active markets;
- Level 2—Observable inputs, other than quoted market prices, that are either directly or indirectly observable in the marketplace for identical or similar assets and liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets and liabilities; and
- Level 3—Unobservable inputs that are supported by little or no market activity that is significant to the fair value of assets or liabilities.

The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts receivable, prepaid expenses and other current assets, accounts payable and accrued expenses approximate their fair values because of the short maturity of these instruments.

The Company's convertible notes payable and loan payable approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for similar financial arrangements at March 31, 2025.

Transactions involving related parties cannot be presumed to be carried out on an arm's-length basis, as the requisite conditions of competitive, free-market dealings may not exist. Representations about transactions with related parties, if made, shall not imply that the related party transactions were consummated on terms equivalent to those that prevail in arm's-length transactions unless such representations can be substantiated.

ASC 825-10 "*Financial Instruments*", allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be reported in earnings at each subsequent reporting date. The Company did not elect to apply the fair value option to any outstanding instruments.

Fair Value of Financial Assets and Liabilities Measured on a Recurring Basis

N/A

Cash and cash equivalents

Cash and cash equivalents consist of cash and short-term highly liquid investments purchased with original maturities of three months or less. There was \$842 of cash or cash equivalents at March 31, 2025.

Accounts receivable

Accounts receivable are presented net of an allowance for doubtful accounts and contractual allowance. The Company maintains allowance for doubtful accounts and contractual allowance for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowance when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balance, the Company considers many factors, including the age of the balance, a customer's historical payment history, its current creditworthiness and current economic trends. Accounts are written off after exhaustive efforts at collection. Account balances deemed to be uncollectible are charged to bad debt expense and included in the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

Due to the nature of the industry in which the Company operates, certain estimates are required to record net revenues and accounts receivable at their net realizable value. Accounts receivables are reported at the estimated net realizable amounts from settlement fees for services rendered. The company had an accounts receivable balance of \$39,145 at the quarter ended March 31, 2025. The Company performs periodic analyses to assess the accounts receivable balances. The Company records an allowance for doubtful accounts and contractual allowance (to reduce gross billed charges to a contractual or estimated net realizable value) based on management's assessment of historical and expected estimated collectability of the accounts such that the recorded amounts reflect estimated net realizable value. Upon determination that an account is uncollectible, the account is written-off and charged to the allowance for doubtful accounts. The Company's allowance for doubtful accounts and contractual allowance are a reduction to accounts receivable on the Company's financial position. The Company fully reserves through its contractual allowances amounts that have not been written off because the collection process has not been exhausted. The Company adjusts the historical collection analysis for recoveries, if any, on an ongoing basis. During the quarter ended March 31, 2025, the Company recorded contractual allowances of \$0.

Property, plant and equipment

Property and equipment are carried at cost. The cost of repairs and maintenance is expensed as incurred; major replacements and improvements are capitalized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition. The Company examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable. Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Revenue recognition

The Company follows ASC 605-10 "Revenue Recognition" and recognizes revenue when all the conditions for revenue recognition are met: (i) persuasive evidence of an arrangement exists, (ii) collection of the fee is probable, (iii) the sales price is fixed and determinable and (iv) services have been rendered. Revenue is derived from subscription fees and additional fees relating to its SMS messaging platform. Revenue is recognized when the Company collects a fee.

The Company reports its revenue at gross amounts in accordance with ASC 605-45 "Principal Agent Considerations" because it is responsible for fulfillment of the service, has substantial latitude in setting price, and assumes the associated credit.

Cost of Revenue

Cost of revenues mainly includes payments to software providers, employee expenses and revenue sharing. Cost of revenues also include expenses incurred in connection with the Company's copyrights enforcement activities.

Research and development

Expenditures for research and product development costs are expensed as incurred. The Company incurred \$0 of research and development expenses during the quarter ended March 31, 2025.

Stock-based compensation

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718 which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award.

Pursuant to ASC Topic 505-50, for share-based payments to consultants and other third-parties, compensation expense is determined at the “measurement date.” The expense is recognized over the service period of the award. Until the measurement date is reached, the total amount of compensation expense remains uncertain. The Company initially records compensation expense based on the fair value of the award at the reporting date.

Derivative Liabilities

The Company follows the provisions of ASC Topic No. 815-40, “Derivatives and Hedging - Contracts in an Entity’s Own Stock”, for the embedded conversion options that were accounted for as derivative liabilities at the date of issuance and adjusted to fair value through earnings at each reporting date. In accordance with ASC 815, the Company has determined that it is not necessary to bifurcate the conversion feature of the convertible notes, along with any free-standing derivative instruments and recorded derivative liabilities on their issuance date.

Taxes

The Company accounts for income taxes pursuant to the provision of ASC 740-10, “Accounting for Income Taxes” which requires, among other things, an asset and liability approach to calculating deferred income taxes. The asset and liability approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred asset will not be realized.

The Company follows the provision of the ASC 740-10 related to Accounting for Uncertain Income Tax Position. When tax returns are filed, it is highly certain that some positions taken would be situated upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. In accordance with the guidance of ASC 740-10, the benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is most likely that not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above should be reflected as a liability for uncertain tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The Company believes its tax positions are all highly certain of being upheld upon examination. As such, the Company has not recorded a liability for uncertain tax benefits.

The Company has adopted ASC 740-10-25 Definition of Settlement, which provides guidance on how an entity should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits and provides that a tax position can be effectively settled upon the completion and examination by a taxing authority without being legally extinguished. For tax position considered effectively settled, an entity would recognize the full amount of tax benefit, even if the tax position is not considered more likely than not to be sustained based solely on the basis of its technical merits and the statute of limitations remains open. The federal and state income tax returns of the Company are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

Software development costs

The Company recognizes the costs associated with developing a website in accordance with ASC Topic 350–50 “Website Costs”. Costs incurred to develop internal-use software, including website development costs, during the preliminary project stage are expensed as incurred. Internal-use software development costs are capitalized during the application development stage, which is after: (i) the preliminary project stage is completed; and (ii) management authorizes and commits to funding the project and it is probable the project will be completed and used to perform the function intended. Capitalization ceases at the point the software project is substantially complete and ready for its intended use, and after all substantial testing is completed. Upgrades and enhancements are capitalized if it is probable that those expenditures will result in additional functionality. Amortization is provided for on a straight-line basis over the expected useful life of three years of the internal-use software development costs and related upgrades and enhancements. When existing software is replaced with new software, the unamortized costs of the old software are expensed when the new software is ready for its intended use. The company had capitalized software development costs of \$640,517 at the quarter ended March 31, 2025.

Basic and diluted earnings per share

Net loss per common share is calculated in accordance with ASC Topic 260, “Earnings Per Share”. Basic loss per share is computed by dividing net loss available to common stockholder, adjusted for preferred dividends, by the weighted average number of shares of Common Stock outstanding during the period. The computation of diluted net loss per share does not include anti-dilutive common stock equivalents in the weighted average shares outstanding.

Related parties

Parties are considered to be related to the Company if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners and stockholders of the Company, its management, members of the immediate families of principal owners and stockholders of the Company and its management and other parties with which the Company may deal with if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions. All transactions are recorded at fair value of the goods or services exchanged.

Recent accounting pronouncements

From time to time, the FASB or other standards setting bodies will issue new accounting pronouncements. Updates to the FASB ASC are communicated through issuance of an Accounting Standards Update (“ASU”).

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”). ASU 2014-09 outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This new revenue recognition model provides a five-step analysis in determining when and how revenue is recognized. The new model will require revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. ASU 2014-09 is effective for public entities for annual reporting periods beginning after December 15, 2016, and interim periods within those periods. Early adoption is not permitted. The FASB has approved a one-year deferral of the effective date with the option to early adopt using the original effective date. Entities may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. The Company is currently assessing the impact that adopting this new accounting guidance will have on its financial statements and footnote disclosures.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

NOTE 3 – NOTES PAYABLE

- On September 10, 2019, the Company issued a 10% promissory note payable of \$50,000, due on September 10, 2020, with an unrelated entity. The Company may repay the note at any time.
- On October 18, 2019, the Company issued a 10% promissory note payable of \$50,000, due on October 18, 2020, with an unrelated entity. The Company may repay the note at any time.
- On September 9, 2020, the Company issued a 10% convertible promissory note payable of \$250,000, due on September 9, 2021, with an unrelated entity. The Company may repay the note by issuing the Company's common stock based upon the conversion term equal to the lesser of 50% of the volume weighted average trading price during the 10 days prior to the date of the conversion notice, or \$.00005. This note was subsequently purchased by an unrelated entity and a replacement note was issued on September 9, 2020, Due September 9, 2021, for the same dollar amount and under the same terms. If, at any time, the Company issues any convertible securities or rights to purchase stock, warrants, securities or other property to all record holder of any class of common stock, then the note holder will be entitled to acquire upon the terms applicable to such purchase rights.

NOTE 4 – STOCKHOLDERS' DEFICIT

Preferred stock

The Company is authorized to issue 5,000,000 shares of its \$0.01 par value preferred stock, of which, 1,000,000 shares are designated as Series A Preferred Stock, 1,500 shares are designated as Series B Convertible Preferred Stock, and 1,500,000 shares are designated as Series C Preferred Stock. At March 31, 2025, 1,000,000 shares of Series A Preferred Stock were issued and outstanding. Each share of the Series A Preferred Stock entitles the holder to voting rights equal to sixty percent (60%) of all voting rights. The holders of the Series A Preferred Stock do not have any conversion rights and redemption provision.

Common stock

In the third quarter of 2024 the Company amended its Articles of Incorporation to increase its authorized shares to 10,000,000,000 shares of its \$0.01 par value common stock. As of March 31, 2025, there were 7,702,842,754 shares of common stock issued and outstanding.

Options and Warrants

As of March 31, 2025, the Company had no options and warrants issued and outstanding since the Company did not grant any options under the Company's option plan.
