B. Material Contracts

1. Manufacturing:

No updates to disclosure made on December 31, 2024.

2. Suppliers:

No updates to disclosure made on December 31, 2024. However, Some of the Company's supplies are sourced from Mexico, Canada, and China. Any changes to international trade agreements with these countries could lead to higher tariffs and higher costs for the Company and its customers. If this occurred, the Company would manage its profit margins accordingly. The financial impact that these US Domestic tariffs may have on the Company cannot currently be estimated with certainty.

3. Operating Lease Agreements:

No updates to disclosure made on December 31, 2024.

4. 401(K) Profit Sharing Plan:

No updates to disclosure made on December 31, 2024.

Item 3 Interim Financial Statements.

Item 4 Management's discussion and analysis.

A. Plan of Operation

The Company is confident that it has enough working capital to fund its operations beyond December 31, 2025.

As disclosed in Footnote 1, of its Q1'25 financial statements (see page 16), the Company expended \$133,427 and \$106,616 respectively, of research and development costs to develop new products for the quarters ending March, 31, 2025, and 2024. In the upcoming quarters this year, it anticipates spending similar amounts towards these endeavors.

The Company's Board of Directors approved a plan in June 2024, to spend up to \$7M to buyback shares of its common stock. It announced in March 2025, its decision to increase this plan to \$12M. As of March 31, 2025, the Company

(UNAUDITED)

has expended a total of \$4M to repurchase 547k shares of common stock in the open market.

The Company is currently in the process of finalizing plans in 2025 to invest up to \$1.5M in additional plant equipment.

Currently, the Company does not anticipate any significant changes in the number of its employees.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

1. Financial Condition

At March 31, 2025, the Company had working capital of \$25,510,009 compared to \$26,171,734 at December 31, 2024, a decrease of \$628,970, or 2%. This decrease was largely due to returning more cash to shareholders via higher dividends and stock repurchases under the Company's stock buyback program.

2. Changes in Financial Condition

The Company's cash position on March 31, 2025 was \$23,838,756, compared with \$28,164,307 on December 31, 2024. The \$4,325,549 decrease between these two periods was a result of several factors: (1) \$323,088 in cash provided by operating activities consistent with the Company's record breaking sales and profits offset by the timing impact in collection of receivables, the exercise of phantom stock options, and the buildup of inventory in order to meet expected demand; (2) offset by \$309,376, used for investing activities associated with the Company's investment in updating its IT infrastructure; and (3) \$4,339,263 used in financing activities due to higher dividends and stock repurchases under the Company's stock buyback program.

3. Results of Operations:

Net sales for the quarter ended March 31, 2025 were \$16,978,865 compared to \$15,720,317 for the same period last year, an increase of 8%. Income before taxes for the quarter ended March 31, 2025 was \$5,290,611 compared to \$3,115,981, an increase of 70%. Net income for the quarter ended March 31, 2025 was \$3,936,215 (or \$0.1243 per share), compared to \$2,318,160 (or \$0.0723 per share) posted for the same period in 2024, an increase of 70% (or a 72% on a per share basis).

The Company continues to improve its year over year performance due principally to its margin improvement efforts. Specifically, it has

The accompanying notes are an integral part of the condensed consolidated financial statements

ARMANINO FOODS OF DISTINCTION, INC.
QUARTERLY REPORT
(UNAUDITED)
MARCH 31, 2025

maintained discipline in executing its sales strategies including the acquisition of new customers and the expansion of sales of its core products into new markets. The Company also benefited from year over year improvements in its operational efficiencies, and better procurement of raw materials. Operating margins this quarter were aided by a significant reduction in phantom stock compensation expense due to the effects from the payout of phantom shares to former executives, as well as a reduction in the Company's stock valuation. The after-tax benefit was a material contributor to the improvement in SG&A as a percentage of sales.

The Company remains cautious in the near term as it believes there is some indication of a slowdown, particularly in the restaurant industry. Furthermore, the Company is closely monitoring global trends regarding US and international tariffs to assess their impact so that it can plan and act accordingly. To help mitigate these potential risks, the Company will seek further operational efficiencies in pursuit of improving its low-cost structure, and continue to pursue competitive pricing on its supplies and raw materials.

Management remains confident in the Company's financial position. Net working capital continues to be strong. The Company remains committed to making appropriate investments to grow sales profitably with a focus on new products, new markets, operational efficiencies, and potential acquisitions.

C. Off-Balance Sheet Arrangements:

The Company has a \$3,500,000 revolving line of credit with a financial institution which expires on November 5, 2025. The Company maintains this line of credit as a contingency which can be available to fund future strategic initiatives including potential acquisitions. As of March 31, 2025, no amounts have been drawn against this line of credit. Management is confident that it currently has enough cash on hand to fund its operations beyond the next 12 months.

Item 5 Legal proceedings.

Current, past, pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations and any current, past or pending trading suspensions by a securities regulator: None.

None.

Item 7 Other Information.

A. Appointment of new President and CEO

On May 8, 2025, the Company announced the appointment of a new President and CEO, Deanna Jurgens, whose appointment became effective May 12, 2025.

1. Full name: Deanna Jurgens
2. Officer Title: President and Chief Executive Officer
3. Business address: 5976 W Las Positas, Suite 200, Pleasanton, CA 94588
4. Employment History:
 - Bonduelle Americas (2022 to 2025): As Chief Sales Officer at Bonduelle Americas, Ms. Jurgens led Bonduelle's \$650 million fresh business. In the last two years, through a strategy of customer acquisition, innovation, expansion, and cost management, she successfully guided Bonduelle Americas branded business to its largest share gains in five years thereby driving greater profitability.
 - Beyond Meat (2021 to 2022): During her tenure as President of North America and Global Chief Growth Officer for Beyond Meat, Ms. Jurgens grew the international business by developing global partnerships with McDonalds and YUM Brands. She worked to expand Beyond Meat's brand in the US through a PepsiCo joint venture in plant-based jerky, achieving a dominant market share in one year.
5. Board memberships and other affiliations:

Ms. Jurgens was a founding member on the board of the Planet Partnership, a Joint-Venture between PepsiCo and Beyond Meat. She served on the board of the Boys Scouts of America in the role as SVP of Development. She was the Board President elect for Mercy Hospital in Rogers, Arkansas. She also served on the board of University of Arkansas for their Center for Retailing Excellence.
6. Compensation by the issuer:

Salary and Bonuses:
Ms. Jurgens receives an annual base salary of \$475,000, and is eligible to receive an annual cash bonus ranging from 25% to 100% of her base salary dependent on the attainment of annual budgeted sales and other Company and individual performance targets. She is also entitled to a bonus of not less than \$285,000 for 2025.

Stock Options:

As part of a long-term incentive plan, Ms. Jurgens has the option to purchase 300,000 shares of Company common stock at an exercise price of \$7.91/share, which was the closing price of the Company's common stock on the OTC Markets on the date of grant. These shares are vested annually and exercisable over a 4 year period. Ms. Jurgens was also granted an option to purchase 100,000 shares of common stock at an exercise price of \$10/share and an additional 100,000 shares at an exercise price of \$11/share. These options vest biannually over a 4 year period.

7. Number and class of the issuer's securities beneficially owned by each such person: Approximately 13,000 shares as of May 15, 2025.
8. Brief description of the material terms of any employment agreement between the issuer and the officer:
In addition to the terms described above, Ms. Jurgens is also eligible for severance pay in the event certain conditions are satisfied.

Item 8 Exhibits.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

In June 2024, the Company's board of directors authorized \$7,000,000 for the repurchase and retirement of shares of the Company's common stock (2024 Stock Buyback Program). Under the 2024 Stock Buyback Program, the company repurchased a total of 162,045 (or \$1,072,033) shares of common stock in the open market through December 31, 2024. These shares were transferred into treasury, thereby resulting in 31,903,600 shares outstanding as of December 31, 2024.

Subsequent to December 31, 2024, the Company repurchased an additional 385,177 (or \$2,948,928) shares of common stock in the open market through March 31, 2025. Of these purchases, 376,777 shares were settled by March 31, 2025 and transferred into treasury, thereby resulting in 31,581,423 shares outstanding as of March 31, 2025. Further, Company's board of directors subsequently authorized an additional \$5,000,000 in buybacks in March 2025 (2025 Stock Buyback Program), bringing the total amount authorized for the stock repurchase program to \$12,000,000.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Basis of Presentation - The consolidated financial statements include the accounts of Armanino Foods of Distinction, Inc. (the “Company”), which engages in the production and marketing of upscale and innovative food products, including primarily frozen pesto and other sauces, frozen pasta products, cooked and frozen meat and poultry products and its wholly-owned dormant subsidiary AFDI, Inc. which was incorporated in May 1995.

Consolidation - The condensed consolidated financial statements of the Company and the accompanying notes included in this Quarterly Report are unaudited. In the opinion of management, all adjustments necessary for the fair presentation of the condensed consolidated financial statements have been included. Such adjustments are of a normal, recurring nature. The condensed consolidated financial statements, and the accompanying notes, are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and do not contain certain information included in the Company's Annual Report for the year ended December 31, 2024. Therefore, the interim condensed consolidated financial statements should be read in conjunction with that Annual Report.

Accounting Estimates - The preparation of financial statements in accordance with US GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reportable amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents - The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. The Company had \$23,202,427 and \$27,547,255 in excess of federally insured amounts in its bank accounts on March 31, 2025, and December 31, 2024, respectively. As of March 31, 2025, approximately \$23,380,329 of total cash and cash equivalents is held with a single financial institution.

Accounts Receivable - Accounts receivable consist of trade receivables arising in the normal course of business. On March 31, 2025, and December 31, 2024, the Company has established an allowance for doubtful accounts of \$10,000, and \$10,000, respectively, which reflects the Company’s best estimate of probable losses inherent in the accounts receivable balance. The Company determines the allowance based on known troubled accounts, historical experience, and other currently available evidence. Amounts written off for the years presented are insignificant for disclosure.

Inventory - Inventory is carried at the lower of cost or market, as determined on the first-in, first-out method. Inventory costs are determined based on the average cost basis. The

Company determines the allowance for inventory obsolescence based on reviewing excess quantities and older product.

Property and Equipment - Property and equipment are stated at cost. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized, upon being placed in service. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation is computed for financial statement purposes on a straight-line basis over the estimated useful lives of the assets which range from two to twenty-five years (See Note 3).

Impairment of Long-Lived Assets - In accordance with ASC 360, "*Property Plant and Equipment*", the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed of significantly before the end of its estimated useful life. Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value. Impairment losses of \$nil and \$nil were recognized during the periods ended March 31, 2025 and 2024, respectively.

Intangible Assets – Intangible assets consist of Goodwill and indefinite life intangible assets which include proprietary formulas and trademarks. Goodwill represents the excess of purchase price paid over the fair market value of identifiable net assets of companies acquired. The Company accounts for goodwill and indefinite life intangible assets in accordance with FASB ASC Topic 350, "Goodwill and Other Intangible Assets" and accordingly tests these assets on December 31 of each year for impairment. No amortization expense was recognized for the periods ended March 31, 2025 and 2024, respectively. Further, there was no impairment charges for these periods.

Leases – The Company accounts for leases in accordance with FASB ASC Topic 842 Leases wherein the Company (except for short-term leases) recognizes at the commencement date, an operating lease liability equal to the discounted present value of the lease payments excluding non-lease components, and an operating lease right-of-use asset based on the Company incremental borrowing rate. Lease payments are applied against the operating lease liability and lease expense. The operating lease right of use asset is amortized to expense on a straight-line basis over the term of the lease.

Revenue Recognition and Sales Incentives - The Company's accounts for revenue recognition in accordance with FASB ASC 606. Accordingly, the Company applies a principles-based five step model to recognize revenue upon the transfer of control of promised goods to customers and in an amount that reflects the consideration for which it expects to be entitled to in exchange for those goods. The principles-based five step model includes: 1) identifying the contract(s) with a customer; 2) identifying the performance obligations in the contract; 3) determining the transaction price; 4) allocating the transaction price to the performance obligations in the contract; and 5) recognizing revenue when (or as) the Company satisfies a performance obligation.

Performance Obligations. The Company's revenues primarily result from contracts with customers and distributors and generally have a single performance obligation – the shipment or delivery of products. The Company recognizes revenue when the performance obligation has been satisfied. The company has concluded that this occurs when the rights and risk of ownership have passed to the customer, when there is persuasive evidence of an arrangement, product has been shipped or delivered to the customer, the price and terms are finalized, and collection of resulting receivables is probable. Products are primarily shipped FOB shipping point at which time title passes to the customer. In some instances, the Company uses common carriers for the delivery of products. In these arrangements, sales are recognized upon delivery to the customer.

Transaction Price. The Company's revenue arrangements with its customers often include early payment discounts and such sales incentives as trade allowances, promotions, and co-operative advertising. We record revenues net of variable consideration, including estimated trade promotions.

These sales incentives are recorded at the later of when revenue is recognized or when the incentives are offered.

Contract Assets and Liabilities. The Company has no contract assets to record. Contract liabilities result from unclaimed promotions offered to customers which the Company estimates will be claimed. The resulting promotion expense is recorded as a reduction to revenues. These promotion expenses and related contract liabilities are estimated based principally on historical utilization, redemption rates, and/or current period experience factors. We review and adjust these estimates at least quarterly based on actual experience and other information.

Financing Components. Receivables from customers generally do not bear interest. Payment terms and collection patterns are short-term, and the Company does not have any significant financing components. The Company's allowance for doubtful accounts represents their estimate of probable non-payments and credit losses in its existing receivables, as determined based on a review of past due balances and other specific account data. Account balances are

Shipping and Handling Fees and Costs – The Company records all amounts billed to customers related to shipping and handling fees as revenue. The Company classifies expenses for shipping and handling costs as cost of goods sold.

Cost of Sales – The Company includes product costs (i.e., material, direct labor, and overhead costs), shipping and handling expense, production-related depreciation expense and product packaging expense in cost of sales.

Advertising Cost - Cost incurred in connection with advertising of the Company’s products are expensed as incurred. Such costs amounted to \$209,960 and \$62,732 for the periods ended March 31, 2025, and 2024, respectively.

Research and Development Cost - The Company expenses research and development costs for the development of new products as incurred. Included in general and administrative expense for the periods ended March 31, 2025, and 2024 are \$133,427 and \$106,616 respectively, of research and development costs.

Income Taxes - The Company accounts for income taxes in accordance with FASB ASC Topic 740 Accounting for Income Taxes. This statement requires an asset and liability approach for accounting for income taxes.

Earnings Per Share – The Company calculates earnings per share in accordance with FASB ASC 260 Earnings Per Share. Basic earnings per common share (EPS) are based on the weighted average number of common shares outstanding during each period. Diluted earnings per common share are based on shares outstanding (computed as under basic EPS) and potentially dilutive common shares. Potential common shares included in the diluted earnings per share calculation include in-the-money stock options that have been granted but have not been exercised.

MARCH 31, 2025

Fair Value of Financial Instruments - The Company accounts for fair value measurements for financial assets and financial liabilities in accordance with FASB ASC Topic 820. The authoritative guidance, which, among other things, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. Fair value is defined as the exit price, representing the amount that would either be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1. Observable inputs such as quoted prices in active markets for identical assets or liabilities.
- Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Cash and cash equivalents are valued using Level 1 fair value inputs. Unless otherwise disclosed, the fair value of the Company's financial instruments including cash, accounts receivable, prepaid expenses, accounts payable and accrued liabilities approximate their recorded values due to their short-term maturities.

Stock Options - The Company accounts for the stock option issued in accordance with FASB ASC Topic 718, Compensation – Stock Compensation. Accordingly, the fair value estimated on the date of grant using the Black-Scholes option-pricing model is recognized over the vesting period of the underlying options.

Treasury stock - The Board of Directors may authorize share repurchases of the Company's common stock (Share Repurchase Authorizations). Share repurchased under these authorizations may be made through open market transactions, negotiated purchase or otherwise, at times and in such amounts as the Company, and a committee of the Board, deem appropriate. Shares repurchased under Share Repurchase Authorizations are held in treasury for general corporate purposes, including issuances under various employee share-based award plans. Treasury shares are accounted for under the cost method and reported as a reduction of Stockholders' Equity. Share Repurchase Authorizations may be suspended, limited, or terminated at any time without notice. During the period ended March 31, 2025, the Company repurchased 385,177 shares of common stock for a total of \$3,181,163 (or at a weighted average of \$7.67/share). As of March 31, 2025, the balance of treasury stock held by the Company was 547,222 shares, leaving a remaining available amount of treasury shares to

repurchase of approximately \$10.9 million.

Certain Risks and Concentrations – The Company’s revenues are primarily generated from a few customers. One individual customer represented approximately more than 50% of the Company’s revenues for the periods ended March 31, 2025, and 2024, respectively. Two customers made up greater than 10% each of the Company’s accounts receivables on March 31 2025; and, two customers made up greater than 10% each of its accounts receivables at the end of each year on December 31, 2024, and 2022. See Note 9.

The Company is subject to concentrations of credit risk primarily from cash and cash equivalents and from accounts receivable. It manages its credit risk exposure through timely assessment of its counterparty creditworthiness, credit limits, and use of collateral management.

The Company’s main product ingredient, basil, is obtained from two main US based suppliers. The Company has entered into long-term supply agreements with these suppliers, and believes that they have significant volumes of inventory available to supply the Company’s demand.

Recently Enacted Accounting Standards – Recent accounting pronouncements issued by the FASB did not or are not believed by management to have a material impact on the Company’s present or future financial statements.

NOTE 4 –INTANGIBLE ASSETS

Goodwill - Goodwill represents the excess of the cost of purchasing Alborough, Inc. over the fair market value of the assets on May 20, 1996 less applicable amortization prior to the adoption of FASB ASC Topic 350. On March 31, 2025, and December 31, 2024, Goodwill amounted to \$375,438.

Trademarks - Trademarks represent the current costs seeking trademarks. On March 31, 2025, and December 31, 2024, trademarks amounted to \$75,576.

On December 31 of each year, the Company tests its goodwill and trademarks for impairment in accordance with FASB ASC Topic 350. The Company uses the quoted market price of its stock and projected earnings to test goodwill and trademarks for impairment and determined that the Company’s goodwill and trademarks were not impaired.

NOTE 5 - LEASES

NOTE 6 - AGREEMENTS AND COMMITMENTS

Manufacturing - Certain of the Company's products are manufactured and packaged on a "co-pack" or "toll-pack" basis by third parties at agreed upon prices. The agreements with the co-packers have terms of one year and allow for periodic price adjustments. These agreements generally allow for either party to give a two-month cancellation notice.

Debt Financing (line of credit) – In October 2024, the Company secured a \$3,500,000 line of credit through a financial institution which expires on November 5, 2025. When the line of credit expires any outstanding balance on the loan must be paid in full. During the loan period, the Company may borrow, repay, and borrow again from time to time under this line of credit up to the credit limit. Interest accrues on any unpaid balance at a floating rate equal to the Daily Simple SOFR plus 2%. This line is collateralized with the Company's inventory, and equipment. No amounts have been drawn against this line of credit as of March 31, 2025.

401(K) Profit Sharing Plan - The Company has a 401(K) profit sharing plan and trust (the

“Plan”) that was effective November 1, 2020 with a Plan year of January 1 through December 31. Under the Plan, any employees who were employed by the Company during 90 consecutive days of employment and reached age 21 were eligible to participate in the Plan. The Company matches 100% of contributions up to 3% of participants’ gross compensation, and then matches 50% of up to the next 2% of compensation. Also under the Plan, Participants are also eligible to receive a discretionary contribution of up to 2% of their base compensation depending on the Company’s financial performance. During the periods ended March 31, 2025 and 2024, the Company’s matching contributions recorded in General, administrative and selling expenses amounted to \$117,290 and \$81,813, respectively.

Phantom Stock Bonus Program - In March 2019, the Company's Board of Directors approved the adoption of a phantom stock bonus program (the "2019 Phantom Stock Plan" or the “Plan”). The Plan provides a means to promote company profitability by awarding cash bonuses upon each participants’ exercise that simulate the financial benefits of common stock ownership. The Plan allows for the issuance of up to 1,000,000 shares of phantom stock expiring 10 years from the date of grant with vesting terms and exercise prices to be determined by the Board of Directors from time to time upon the issuance of phantom stock to employees, directors and consultants of the Company.

Under the plan the Company will pay to the holder of the phantom stock the difference between the current share price and exercise price (intrinsic value) on the date of exercise. Due to the fact that these bonus awards will be settled by payment of cash rather than issuance of equity, the phantom stock has been accounted for as a stock appreciation right and is recorded as a liability.

At the end of each reporting period, the Company will remeasure the current fair value of the award and adjust the liability and cumulative compensation expense to the appropriate portion of the total fair value in relation to the portion of the vesting period that has been completed. After the awards are fully vested, the Company will remeasure the outstanding awards’ fair value at the end of each reporting period, recognizing the entire change in fair value immediately in the income statement.

Phantom Stock Liability

The Company has estimated the fair value of phantom stock liability as of March 31, 2025, and December 31, 2024, using the Black-Scholes option pricing model with the following assumptions:

 MARCH 31, 2025

In September 2022, the Company's Board of Directors approved the amended and restated phantom stock bonus program (the "2022 Phantom Stock Plan" or the "2022 Plan"). The 2022 Plan grants an additional right to holders of phantom stock, whereby entitling each holder of phantom stock to an amount of cash dividends equal to the holder's vested shares of phantom stock upon the declaration of dividends to common shareholders. On March 24, 2025, the Board declared a \$0.04 dividend per share of common stock. As such, all holders of phantom stock were entitled to a \$0.04 cash dividend at \$0.04 multiplied by the holder's percentage of vested shares of phantom stock. At March 31, 2025, a total of \$1,959,305 was accrued for the cash phantom stock dividend and recorded to accounts payable and contract liabilities and accrued payroll on the balance sheet.

NOTE 7 - EARNINGS PER SHARE

The following data shows the amounts used in computing earnings per share and the effect on income and the weighted average number of shares of potential dilutive common stock for the periods ended March 31, 2025 and 2024:

	FOR THE PERIOD ENDED MARCH 31,	
	2025	2024
Net Income	\$ 3,936,215	\$ 2,318,163
Weighted average common shares outstanding - basic	31,693,976	32,065,645
Effect of dilutive securities: none	-	-
Weighted average common shares outstanding - diluted	31,693,976	32,065,645

For the periods ended March 31, 2025 and 2024, the Company had no options that were not included in the computation of diluted earnings per share. Because phantom stock awards do not result in the potential issuance of common stock, they are not potential common shares and are not included as dilutive securities.

NOTE 8 - STOCKHOLDERS' EQUITY

Preferred Stock - The Company is authorized to issue 10,000,000 shares of no par value preferred stock with such rights and preferences and in such series as determined by the Board of Directors at the time of issuance. No shares are issued or outstanding as of March 31, 2025, and December 31, 2024.

Dividends - During the periods ended March 31, 2025, ended 2024, the Company paid total dividends of \$1,158,104 and \$1,058,167 to common shareholders, respectively, none of which were considered a liquidating dividend.

Repurchase of Common Shares

QUARTERLY REPORT
(UNAUDITED)
MARCH 31, 2025

On June 20, 2024, the Board authorized an increase in the Company's stock buyback program to purchase up to \$7 million of additional shares of common stock (the "Share Repurchase Authorizations") in the open market, through block trades, and/or private transactions as permitted by applicable legal requirements. The stock buyback program does not obligate the Company to acquire any particular amount of common stock, and it may be modified, extended or terminated by the Board of Directors at any time.

In March 2025, the Company's Board of Directors approved a \$5 million increase to its stock buyback program, bringing the total authorized amount for repurchases to \$12 million.

Treasury Stock – Shares repurchased under Share Repurchase Authorizations are held in treasury for general corporate purposes, including issuances under various employee share-based award plans. Treasury shares are accounted for under the cost method and reported as a reduction of Stockholders' Equity. Share Repurchase Authorizations may be suspended, limited or terminated at any time without notice. During the period ended March 31, 2025, the Company repurchased 385,177 shares of common stock for a total of \$3,181,163 (or at a weighted average of \$7.67/share). As of March 31, 2025, the balance of treasury stock held by the Company was 547,222 shares, leaving a remaining available amount of treasury shares to repurchase of approximately \$10.9 million.

NOTE 9 - SIGNIFICANT CUSTOMERS / CONCENTRATION

The Company's products are marketed by a network of food brokers and sold to retail, foodservice, club-type stores, and industrial accounts. The Company's products are sold by the Company and through distributors.

The Company had one distributor customer in the US who accounted for 59% and 61% of outstanding receivables on March 31, 2025, and December 31, 2024, respectively.

During the periods ended March 31, 2025, and 2024, 49% and 55%, respectively, of the Company's total gross sales were handled by a non-exclusive national distributor in the US. This distributor is a master consolidator who buys various products in large quantities, stores them, and then ships consolidated products, primarily to other distributors from one of their twelve distribution centers located throughout the US.

During the periods ended March 31, 2025, and 2024, sales to the Company's distributor in Asia amounted to 8% and 8%, respectively, of the Company's total gross sales. The Company's distributor in Asia accounted for 11% of outstanding receivables as of March 31, 2025, and December 31, 2024, respectively.

The Company's food brokers who facilitate sales to the Company's customers are paid commissions ranging from 1% to 4% of sales depending on products sold and selling price. The following table lists the total gross sales from continuing operations through each of the

NOTE 10 – SUBSEQUENT EVENTS

The Company's management has reviewed all material events through the date of this report and there were no subsequent events requiring adjustment to the financial statements or disclosures as stated herein, except as disclosed in the following paragraphs.

On April 2, 2025, the United States government announced sweeping tariffs on imported goods. Some of the Company's supplies are sourced from Mexico, Canada, and China. Changes in the trade agreements with these countries could lead to tariffs and higher costs to the Company which is prepared to manage its profit margins accordingly. Further, changes in trade agreements that the United States has with any countries in which the Company's products are sold could lead to foreign tariffs imposed on those products. This could possibly result in increased competition and/or lower demand for the Company's products sold in those regions of the world. The financial impact that these US Domestic, and foreign tariffs may have on the Company cannot currently be estimated with certainty.

On April 25, the Company paid out \$1,259,873 in regular quarterly cash dividends which the Company's Board of Directors declared on March 20, 2025, payable to shareholders of record on April 4, 2025.

Between April 1, 2005 and May 12, 2025, the Company re-purchased a total of 49,189 shares of common stock for a total of \$380,900 (or at a weighted average of \$7.74/share).
