NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with the Financial Accounting Standards Board

("FASB") "FASB Accounting Standard Codification TM" (the "Codification"), which is the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States.

Going Concerns

The accompanying financial statements have been prepared, contemplating the realization of assets and the satisfaction of liabilities in the normal course of business. As of March 31, 2024, the Company had cash of \$2,218,489 and accumulated earnings of \$8,528,933. As of March 31, 2025, the Company had cash of \$2,575,867 and accumulated earnings of \$10,812,950.

The Company has sufficient cash and operations to support operational cash flow, which is expected to remain sufficient for the foreseeable future.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to income taxes and contingencies. The Company bases its estimates on historical experience, known or expected trends, and various other assumptions that are believed to be reasonable given the quality of information available as of the date of these financial statements. The results of these assumptions provide the basis for making estimates about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates.

Cash and cash equivalents

Cash and cash equivalents consist of highly liquid investments with an original maturity of three months or less.

Income taxes

The Company accounts for income taxes under FASB ASC 740, "Accounting for Income Taxes". Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. FASB ASC 740-10-05, "Accounting for Uncertainty in Income Taxes" prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities.

The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The Company assesses the validity of its conclusions regarding uncertain tax positions quarterly to determine if facts or circumstances have arisen that might cause it to change its judgment regarding the likelihood of a tax position's sustainability under audit.

Net Loss per Share

Net loss per common share is computed by dividing net loss by the weighted average common shares outstanding during the period as defined by Financial Accounting Standards, ASC Topic 260, "Earnings per Share". Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that impact the Company's operations.
