

Alternative Reporting Standard: Disclosure Guidelines for the Pink[®] Market

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. Companies on the Pink Market that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.²

Pink Current Information Tier

To qualify for the Current Information Tier:

1. **Subscribe to the OTC Disclosure & News Service:** To submit an application, visit [Gateway](#) to sign in or create a new account. Allow OTC Markets Group 2-4 weeks to process your application and provide authorized user credentials to OTCIQ.

2. **Publish Initial Disclosure:** Upload the following documents through OTCIQ:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the Current Fiscal Year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

Qualifying Financial Statements include:

- Audit Letter, if audited
- Balance Sheet
- Statement of Income
- Statement of Cash Flows
- Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)
- Notes to Financial Statements

3. **Publish the annual Management Certification:** Companies must certify basic company information initially and annually within forty five (45) days of a company’s annual report due date.

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the Pink Current Information tier.

4. **Verify Profile:** Verify the Company Profile through OTCIQ. This includes the complete list of current officers, directors, and service providers; outstanding shares; a business description; contact information; and the names of all company insiders and beneficial owners of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
5. **OTC Markets Group Processing of Reports:** Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted.
6. **Ongoing Requirements:** To qualify for Current Information on an ongoing basis, companies must:
 - Publish reports through OTCIQ on the following schedule:
 - Quarterly Report within **45 days** of the quarter end
 - Annual Report within **90 days** of the fiscal year end
 - Complete an annual Management Certification within **45 days** of the annual report due date.
 - Maintain a Verified Profile. At least once every six months, review and verify the Company Profile through OTCIQ.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.
 - Maintain an Active standing in the Company's State of Incorporation.

Pink Limited Information Tier

Companies that do not meet the requirements of the Pink Current Information tier set forth above may still qualify for the Pink Limited Information Tier by meeting the following minimum disclosure requirements.

1. **Annual Financial Statements:** Publish one set of Qualifying Annual Financial Statements which cover the past 2 completed fiscal years, provided the most recently completed fiscal year is within the past 16 months.
2. **Verified Profile:** The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. "Company Insiders" shall include the beneficial owner of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
3. **Ongoing Requirements:** To qualify for Limited Information on an ongoing basis, companies must:
 - Publish reports on the following schedule:
 - Annual Financial Statements as outlined in Item 9 within 120 days of the fiscal year end. Should a change in FYE occur, no more than 16 months may elapse from the fiscal year end of the prior Annual Financial Statement.
 - Review and Verify the Company's profile information through OTCIQ at least once every 12 months.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.

Current Reporting of Material Corporate Events

In addition to the disclosure requirements above, all companies on the Pink market are expected to promptly release to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events are considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents, or if the material events occurs after the publication of such

disclosure documents, the issuer shall publicly disclose such events by disseminating a news release **within four (4) business days** following their occurrence and posting such news release through an Integrated Newswire or the OTC Disclosure & News Service.³

Material corporate events may include:

- Changes to the company's shell status. Please refer to our [FAQ on Shell Companies](#)
- Changes in control of issuer
- Departure of directors or principal officers; election of directors; appointment of principal officers
- Entry into or termination of a material definitive agreement or material agreement not made in the ordinary course of business
- Completion of an acquisition or disposition of assets, including but not limited to merger transactions
- Creation of a direct financial obligation or an obligation under an off-balance sheet arrangement of an issuer
- Triggering events that accelerate or increase a direct or contingent financial obligation including any default or acceleration of an obligation or an obligation under an off-balance sheet arrangement
- Costs associated with exit or disposal activities including material write-offs and restructuring; Material impairments
- Unregistered sales of equity securities
- Material modification to rights of security holders
- Changes in issuer's certifying accountant
- Non-reliance on previously issued financial statements or a related audit report or completed interim review
- Change in a company's fiscal year; Amendments to articles of incorporation or bylaws that were not previously disclosed in a proxy statement or other such disclosure statement.
- Amendments to the issuer's code of ethics, or waiver of a provision of the code of ethics
- Any changes to litigation the issuer may be involved in, or any new litigation surrounding the issuer
- Officer, director, or insider transactions in the issuer's securities
- Disclosure of investor relations, marketing, brand awareness, and stock promotion activities which might reasonably be expected to materially affect the market for its securities or otherwise deemed material by the issuer
- A company's bankruptcy or receivership
- Termination or reduction of a business relationship with a customer that constitutes a specified amount of the company's revenues
- Any material limitation, restriction, or prohibition, including the beginning and end of lock-out periods, regarding the company's employee benefits, retirement and stock ownership plan
- Earnings releases
- Other materially different information regarding key financial or operation trends from that set forth in periodic reports
- Other events the issuer determines to be material

³ "Integrated Newswire" shall mean a newswire service that is integrated with the OTC Disclosure & News Service and is included on OTC Markets Group's list of Integrated Newswires, as published on <https://www.otcm Markets.com/corporate-services/ir-tools-services>

REEN LEAF INNOVATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Quarter Ending March 31, 2025

1. Organization and Basis of Presentation

Basis Of Presentation

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Use Of Estimates

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

Reclassification Of Prior Period Presentation

Certain prior period amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Cash And Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents.

Accounts Receivable And Allowance For Doubtful Accounts

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible. The Company believes that all accounts receivable are collectable as of December 31, 2024.

Inventories

Inventories are measured using the first-in, first-out method.

Cash Flows Reporting

The Company follows ASC 230, Statement of Cash Flows, for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230, Statement of

Cash Flows, to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period.

Related Parties

The Company follows ASC 850, Related Party Disclosures, for the identification of related parties and disclosure of related party transactions. Related party transactions are summarized in Note 8.

Leases

The Company adopted Accounting Standards Update 2016-02, Leases (Topic 842) ("ASU 2016-02"), which requires a lessee to record a right-of-use asset and a corresponding lease liability at the inception of the lease initially measured at the present value of the lease payments. ASU 2016-02 requires recognition in the statement of operations of a single lease cost that is calculated as a total cost of the lease allocated over the lease term, generally on a straight-line basis. The Company did not have any leases within the scope of ASU 2016-02 at December 31, 2024.

Concentrations Of Credit Risk And Significant Customers

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, marketable securities, accounts receivable and restricted cash. The Company limits its exposure to credit loss by placing its cash and cash equivalents with high credit-quality financial institutions in bank deposits, money market funds, U.S. government securities and other investment grade debt securities that have strong credit ratings. The Company has established guidelines relative to diversification of its cash and marketable securities and their maturities that are intended to secure safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates and changes in the Company's operations and financial position. Although the Company may deposit its cash and cash equivalents with multiple financial institutions, its deposits, at times, may exceed federally insured limits.

Financial Instruments

The Company's consolidated balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, Fair Value Measurements and Disclosures defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2024 and December 31, 2023. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

Derivative Liabilities

Derivative liabilities include the fair value of instruments such as common stock warrants, preferred stock warrants and convertible features of notes, that are initially recorded at fair value and are required to be re-measured to fair value at each reporting period

under provisions of ASC 480, *Distinguishing Liabilities from Equity*, or ASC 815, *Derivatives and Hedging*. The change in fair value of the instruments is recognized as a component of other income (expense) in the Company's statements of operations until the instruments settle, expire or are no longer classified as derivative liabilities. The Company estimates the fair value of these instruments using the Black-Scholes pricing model. The significant assumptions used in estimating the fair value include the exercise price, volatility of the stock underlying the instrument, risk-free interest rate, estimated fair value of the stock underlying the instrument and the estimated life of the instrument.

As of December 31, 2024 and December 31, 2023, the Company had Level 3 financial instruments consisting of derivative liabilities relating to the conversion feature of convertible debt. The balance of the derivative liability at December 31, 2024 and December 31, 2023 was \$639,252 and \$62,342 respectively.

Revenue Recognition

The Company follows ASC 606, Revenue From Contracts With Customers. ASC 606, has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied.

Revenue is recognized when all of the following criteria are met:

- *Identification of the contract, or contracts, with a customer*
A contract with a customer exists when (i) we enter into an enforceable contract with a customer that defines each party's rights regarding the goods or services to be transferred and identifies the payment terms related to these goods or services, (ii) the contract has commercial substance and the parties are committed to perform, and (iii) we determine that collection of substantially all consideration to which it will be entitled in exchange for goods or services that will be transferred is probable based on the customer's intent and ability to pay the promised consideration.
- *Identification of the performance obligations in the contract*
Performance obligations promised in a contract are identified based on the goods or services that will be transferred to the customer that are both capable of being distinct, whereby the customer can benefit from the goods or service either on its own or together with other resources that are readily available from third parties or from us, and are distinct in the context of the contract, whereby the transfer of the goods or services is separately identifiable from other promises in the contract. To the extent a contract includes multiple promised goods or services, we apply judgment to determine whether promised goods or services are capable of being distinct and distinct in the context of the contract. If these criteria are not met the promised goods or services are accounted for as a combined performance obligation.
- *Determination of the transaction price*
The transaction price is determined based on the consideration to which we will be entitled in exchange for transferring goods or services to the customer. Constraints are applied when estimating variable considerations based on historical experience where applicable.
- *Allocation of the transaction price to the performance obligations in the contract*
All current contracts are of a single performance obligation thus the entire transaction price is allocated to the single performance obligation. We determine standalone selling price taking into account available information such as historical selling prices of the performance obligation, geographic location, overall strategic objective, market conditions and internally approved pricing guidelines related to the performance obligation.
- *Recognition of revenue when, or as, we satisfy performance obligation*
We satisfy performance obligations either over time or at a point in time as discussed in further detail below. Revenue is recognized at or over the time the related performance obligation is satisfied by transferring a promised good or service to a customer.

Revenue for the 12 months ended December 31, 2024 and 2023 were \$2,366,955 and \$199,701 respectively. The performance obligation has been met as per ASC 606.

Income Taxes

The Company accounts for income taxes in accordance with ASC 740, Accounting for Income Taxes, as clarified by ASC 740-10, Accounting for Uncertainty in Income Taxes. Under this method, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities and net operating loss and tax credit carryforwards given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, the Company considers tax regulations of the jurisdictions in which the Company operates, estimates of future taxable income, and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies vary, adjustments to the carrying value of deferred tax assets and liabilities may be required. Valuation allowances are recorded related to deferred tax assets based on the “more likely than not” criteria of ASC 740.

ASC 740-10 requires that the Company recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the “more-likely-than-not” threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

The Company recognizes expenses for tax penalties and interest assessed by the Internal Revenue Service and other taxing authorities upon receiving valid notice of assessments. The Company has received no such notices as of December 31, 2024.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences will become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. The Company has recorded a full valuation allowance against its net deferred tax assets because it is not currently able to conclude that it is more likely than not that these assets will be realized. The amount of deferred tax assets considered to be realizable could be increased in the near term if estimates of future taxable income during the carryforward period are increased.

As of December 31, 2024, the Company had unused net operating loss carry forwards of \$1,403,596 available to reduce federal taxable income. The Company’s ability to offset future taxable income, if any, with tax net operating loss carryforwards may be limited due to the non-filing of tax returns. Under the CARES act, net operating losses arising after 2017 are able to be carried forward indefinitely. Furthermore, changes in ownership may result in limitations under Internal Revenue Code Section 382.

No deferred tax assets or liabilities were recognized as of December 31, 2024 or December 31, 2023.

Net Income (Loss) Per Common Share

Net income (loss) per share is calculated in accordance with ASC 260, Earnings Per Share. The weighted-average number of common shares outstanding during each period is used to compute basic earning or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at December 31, 2024 and 2023. As of June 30, 2024 and 2023, the Company had no dilutive potential common shares.

Share-Based Expense

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the consolidated financial

statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

Share-based expense was \$1,100,000 and \$0 for the six months ending December 31, 2024, and 2023, respectively.

Commitments And Contingencies

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated. There were no known commitments or contingencies as of December 31, 2024 and December 31, 2023.

Recent Accounting Pronouncements

The Company has reviewed the FASB issued Accounting Standards Update (“ASU”) accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation’s reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

3. Accrued Compensation

The Company’s accrued compensation consisted of the following:

		December 31, 2024		December 31, 2023
Roberto Mederos	\$	1,330,936	\$	1,264,656
Total Accrued Compensation	\$	1,330,936	\$	1,264,656

4. Convertible Notes Payable

At December 31, 2024 and December 31, 2023, the Company had issued \$127,452 and \$27,500 in convertible notes payable, respectively. All notes have an interest rate of 10% per annum and maturity dates between November 2, 2024 and November 21, 2025. Default terms are not defined within the notes.

The holder shall have the right from time to time, and at any time during the period beginning on the date which is one hundred eighty (180) days following the date of this note, to convert all or any part of the outstanding and unpaid principal and accrued interest amount into Common Stock. The conversion is set at a price equal to lower of 75% of the average of the trading price on the date prior to the funding of the note and 60% of the lowest trading price during the 15 trading days period ending on the last complete trading day prior to the conversion date. The convertible notes are currently not in repayment as of the date of this report and are accruing interest per the terms of each individual note. Total accrued interest on all convertible notes is disclosed in the table below. Although certain notes have maturity dates prior to the date of this report, the notes are not in default. There is not a default clause associated with any note that has a maturity date prior to this report.

The Company accounts for this embedded conversion feature as a derivative under ASC 815-10-15-83 and valued separately from the note at fair value. The embedded conversion feature of the note is revalued at each subsequent reporting date at fair value and any

changes in fair value will result in a gain or loss in those periods. On December 31, 2024, the derivative liability associated with all convertible note payable was \$639,252.

Convertible Notes payable consisted of the following:	December 31, 2024	December 31, 2023
Convertible notes payable:	\$ 552,253	\$ 561,501
Debt discount	4,833	20,669

Accrued interest	212,791	190,118
Current portion of convertible note payable and interest	\$ 760,211	\$ 730,950

5. Derivative liability

The fair value of the Company's derivative liabilities is estimated at the issuance date and is revalued at each subsequent reporting date. The Company estimates the fair value of these instruments using the Black-Scholes pricing model. The significant assumptions used in estimating the fair value include the exercise price, volatility of the stock underlying the instrument, risk-free interest rate, estimated fair value of the stock underlying the instrument and the estimated life of the instrument.

A summary of the activity of the derivative liability for the notes above is as follows:

	December 31, 2024	December 31, 2023
Balance at Beginning of period	\$ 638,899	\$ 625,524
Increase in derivative due to new issuances	14,914	29,389
Derivative income due to mark to market adjustment	(14,561)	(16,014)
Balance at end of period	\$ 639,252	\$ 638,899

A summary of quantitative information about significant unobservable inputs (Level 3 inputs) used in measuring the Company's derivative liability that are categorized within Level 3 of the fair value hierarchy as of September 30, 2024 and December 31, 2023 is as follows:

Inputs	December 31, 2024	December 31, 2023	Initial Valuation
Stock price on the valuation date	\$ 0.0053	\$ 0.0001	\$ 0.0005 – 0.0001
Conversion price	\$ 0.0045	\$ 0.0001	\$ 0.0001 – 0.0001
Risk-free interest rate	0.39% - 4.98%	0.39% - 4.98%	0.39% - 4.98%
Years to maturity	0.75 - 0.00	0.92 - 0.00	1
