John A. Cacchioli, Esq. was appointed by Andrew Birnbaum (former Chairman/CEO), effective March 1, 2024, as the Sole director, Chairman/CEO of the Company.

We have financed our operations primarily through cash generated from the sale of our stock and loans to us. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. During the nine months ended April 30, 2025 and April 30, 2024, the Company suffered net losses of \$211,060 and \$180,050, respectively. As of April 30, 2025, the Company had a negative working capital of \$456,156 and a stockholders’ deficiency of \$394,956. Historically, the Company has sustained its operations primarily through equity and debt financing. These conditions raise substantial doubt about the Company's ability to continue as a going concern. In view of these matters, the Company will need to improve its working capital position. The Company plans to overcome the circumstances that impact our ability to remain a going concern through a combination of achieving profitability, raising additional debt and equity financing, and renegotiating existing obligations. There can be no assurance, however, that we will be able to complete any additional debt or equity financing on

favorable terms or at all, or that any such financings, if completed, will be adequate to meet our capital requirements. Any additional equity or debt financings could result in substantial dilution to our stockholders. If adequate funds are not available, we will be required to delay, reduce, or eliminate some or all of our planned activities. Our inability to fund our capital requirements would have a material adverse effect on the Company. Management believes that the actions presently being taken to revise the Company's operating and financial requirements may provide the opportunity for the Company to continue as a going concern.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported periods. Actual results could differ from those estimates.

(B) Cash and Cash Equivalents

For purposes of the cash flow statements, the Company considers all highly liquid investments with original maturities of six months or less at the time of purchase to be cash equivalents.

(C) Revenue Recognition

At the time of the transaction, the Company assesses whether the fee is fixed and determinable based on the payment terms associated with the transaction and whether collectability is reasonably assured. If a significant portion of a fee is due after our normal payment terms, the Company accounts for the fee as not being fixed and determinable. In these cases, the Company recognizes revenue as the fees become due. Where the Company provides or delivers a product or service at a specific point in time and there are no remaining obligations, the Company recognizes revenue upon the delivery of the product or completion of the service.

(D) Income Taxes

The Company accounts for income taxes under SFAS No. 109 "*Accounting for Income Taxes*". Under SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS No. 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company has made no current provision (benefit) for Federal income taxes because of losses since its inception. A valuation allowance has been used to offset the recognition of any deferred tax assets arising from net operating loss carry forwards due to the uncertainty of future realization. The use of any tax loss carryforward benefits may also be limited as a result of changes in Company ownership.

(E) Loss Per Share

Basic and diluted net loss per share for all periods presented is computed based upon the weighted average number of common shares outstanding and issuable shares as defined by SFAS No. 128, "*Earnings Per Share*".

FOR THE NINE MONTHS ENDED APRIL 30, 2025

(F) Fair Value of Financial Instruments

SFAS No. 107, “Disclosures about Fair Value of Financial Instruments”, requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts of the Company’s financial instruments, including cash and cash equivalents, accounts receivable, advances to suppliers, accounts payable and accrued expenses, line of credit, notes payable and short-term secured financing approximate fair value due to the relatively short period to maturity for these instruments.

(G) Rounding

All amounts have been rounded to the nearest \$1.00 except for share amounts.

(H) Reclassifications

Certain prior year accounts have been reclassified to conform to the current year’s presentation.
