(Unaudited)

Note 1 – Organization and Operations

Stevia Corp. (Formerly Interpro Management Corp.)

Interpro Management Corp (“Interpro”) was incorporated under the laws of the State of Nevada on May 21, 2007. Interpro focused on developing and offering web-based software that was designed to be an online project management tool used to enhance an organization’s efficiency through planning and monitoring the daily operations of a business.

On March 4, 2011, Interpro amended its Articles of Incorporation, and changed its name to Stevia Corp. (“Stevia” or the “Company”) to reflect its intended acquisition of Stevia Ventures International Ltd.

The Company discontinued its web-based software business upon the acquisition of Stevia Ventures International Ltd. on June 23, 2011.

Stevia Ventures International Ltd.

Stevia Ventures International Ltd. (“Ventures”) was incorporated on April 11, 2011, under the laws of the Territory of the British Virgin Islands (“BVI”). Ventures owns certain rights relating to stevia production, including certain assignable exclusive purchase contracts and an assignable supply agreement related to stevia .

Acquisition of Stevia Ventures International Ltd. Recognized as a Reverse Acquisition

On June 23, 2011 (the “Closing Date”), the Company closed a voluntary share exchange transaction with Ventures pursuant to a Share Exchange Agreement (the “Share Exchange Agreement”) by and among the Company, Ventures and George Blankenbaker, the stockholder of Ventures (the “Ventures Stockholder”).

Immediately prior to the consummation of the Share Exchange Agreement on June 23, 2011, the Company had 79,800,000 common shares issued and outstanding. Simultaneously with the closing of the Share Exchange Agreement, on the Closing Date, Mohanad Shurrab, a shareholder and, as of the Closing Date, the Company’s former Director, President, Treasurer and Secretary, surrendered 33,000,000 shares of the Company's common stock to the Company for cancellation.

As a result of the Share Exchange Agreement, the Company issued 12,000,000 common shares for the acquisition of 100% of the issued and outstanding shares of Ventures. Of the 12,000,000 common shares issued 6,000,000 shares were being held in escrow pending the achievement by the Company of certain post-Closing business milestones (the “Milestones”), pursuant to the terms of the Make Good Escrow Agreement, between the Company, Greenberg Traurig, LLP, as escrow agent and the Ventures’ Stockholder (the “Escrow Agreement”). Even though the shares issued only represented approximately 20.4% of the issued and outstanding common stock, immediately after the consummation of the Share Exchange Agreement, the stockholder of Ventures completely took over and controlled the board of directors and management of the Company upon acquisition.

As a result of the change in control to the then Ventures Stockholder, for financial statement reporting purposes, the merger between the Company and Ventures has been treated as a reverse acquisition with Ventures deemed the accounting acquirer and the Company deemed the accounting acquiree under the acquisition method of accounting in accordance with section 805-10-55 of the FASB Accounting Standards Codification. The reverse acquisition is deemed a capital transaction, and the net assets of Ventures (the accounting acquirer) are carried forward to the Company (the legal acquirer and the reporting entity) at their carrying value before the acquisition. The acquisition process utilizes the capital structure of the Company

and the assets and liabilities of Ventures which are recorded at their historical cost. The equity of the Company is the historical equity of Ventures retroactively restated to reflect the number of shares issued by the Company in the transaction.

Note 2 – Significant and Critical Accounting Policies and Practices

The Management of the Company is responsible for the selection and use of appropriate accounting policies and the appropriateness of accounting policies and their application. Critical accounting policies and practices are those that are both most important to the portrayal of the Company's financial condition and results and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The Company's significant and critical accounting policies and practices are disclosed below as required by generally accepted accounting principles.

Basis of Presentation – Unaudited Interim Financial Information

The unaudited interim consolidated financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information, and with the rules and regulations of the United States Securities and Exchange Commission ("SEC") to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The unaudited interim consolidated financial statements furnished reflect all adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary to make a fair statement of the results for the interim periods presented. Interim results are not necessarily indicative of the results for the full fiscal year.

Fiscal Year End

The Company elected March 31st as its fiscal year end date upon its formation.

Use of Estimates and Assumptions and Critical Accounting Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date(s) of the financial statements and the reported amounts of revenues and expenses during the reporting period(s).

These significant accounting estimates or assumptions bear the risk of change due to the fact that there are uncertainties attached to these estimates or assumptions, and certain estimates or assumptions are difficult to measure or value.

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience, and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly.

Actual results could differ from those estimates.

Principles of Consolidation

The Company applies the guidance of Topic 810 "*Consolidation*" of the FASB Accounting Standards Codification to determine whether and how to consolidate another entity. Pursuant to ASC Paragraph 810-10-15-10 all majority-owned subsidiaries—all entities in which a parent has a controlling financial interest—shall be consolidated except (1) when control does not rest with the parent, the majority owner; (2) if the parent is a broker-dealer within the scope of Topic 940 and

control is likely to be temporary; (3) consolidation by an investment company within the scope of Topic 946 of a non-investment-company investee. Pursuant to ASC Paragraph 810-10-15-8 the usual condition for a controlling financial interest is ownership of a majority voting interest, and, therefore, as a general rule ownership by one reporting entity, directly or indirectly, of more than 50 percent of the outstanding voting shares of another entity is a condition pointing toward consolidation. The power to control may also exist with a lesser percentage of ownership, for example, by contract, lease, agreement with other stockholders, or by court decree. The Company consolidates all less-than-majority-owned subsidiaries, if any, in which the parent's power to control exists.

The Company's consolidated subsidiaries and/or entities are as follows:

Name of consolidated subsidiary or entity	State or other jurisdiction of incorporation or organization	Date of incorporation or formation (date of acquisition, if applicable)	Attributable interest
Real Hemp, LLC	State of Indiana	February 24, 2014	100%

The consolidated financial statements include all accounts of the Company and the consolidated subsidiaries and/or entities as of reporting period ending date(s) and for the reporting period(s) then ended.

All inter-company balances and transactions have been eliminated.

Note 3 – Going Concern

The Company's consolidated financial statements have been prepared assuming that it will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the consolidated financial statements, the Company had an accumulated deficit of \$12,149,760 as of December 31, 2024, and net cash used in operating activities of \$22,964 for the reporting period then ended. Additionally, as of December 31, 2024, the Company had \$489 in cash on hand and negative working capital of \$857,897. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company is attempting to generate sufficient revenue; however, the Company's cash position may not be sufficient to support its daily operations. While the Company believes in the viability of its strategy to generate sufficient revenue and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon its ability to further implement its business plan and generate sufficient revenue and its ability to raise additional funds.

The consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 4 – Accounts payable and Accrued Expenses

As of December 31, 2024, and March 31, 2024, the Company had accounts payable and accrued expenses of \$525,548 and \$483,667 respectively. The change during the nine months ended December 31, 2024, is attributable to an increase in accrued interest of \$22,964 and the recording of accrued liability for unissued shares of \$18,917.

Note 5 - Convertible Notes Payable

As of December 31, 2024, and March 31, 2024, the Company had \$300,438 and \$300,438 in convertible notes outstanding.
