Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

In the opinion of management, all adjustments necessary to present fairly the financial position as of December 31, 2024, and the results of operations and cash flows presented herein have been included in the annual financial statements. All such adjustments are of a normal and recurring nature. Annual results are not necessarily indicative of results of operations for the following year.

Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiary. Inter-company transactions, such as sales, cost of sales, due to/due from balances, investment in subsidiary, and subsidiary's capitalization have been eliminated.

Cash and Cash Equivalents

For the purposes of Statements of Cash Flows, the Company considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents.

Revenue Recognition

The Company recognizes revenue when there is persuasive evidence of an arrangement, delivery has occurred, the fee is determinable, collectability is reasonably assured and there are no significant remaining performance obligations.

Accounts Receivable

Trade receivables are recognized and carried at the original invoice amount less allowance for any uncollectible amounts. An allowance for doubtful accounts is made when collection of the full amount is no longer probable. Pursuant to the Company's accounting policies, the allowance for doubtful accounts is determined by applying a rate determined on a case by case on outstanding trade receivables. In addition, the Company uses a specific review process to determine if any additional allowances for doubtful accounts are required. Bad debts are charged against the allowance when outstanding trade receivables have been determined to be uncollectible.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Inventory

Inventory, consisting of raw materials, work in progress, and finished products, is stated at the lower of cost or market value. Finished products are comprised of direct materials, direct labor, and an appropriate proportion of overhead.

Furniture and Equipment

Furniture and equipment are carried at cost less accumulated depreciation. Depreciation is provided over their estimated useful lives, using the straight-line method. The estimated useful lives of the property, plant and equipment are as follows:

Machinery and Equipment 10 years
Furniture and Fixtures 7 years
Computer Equipment 5 years

Intangible Assets

Intangible assets are stated at cost, less accumulated amortization. Amortization is provided over the respective useful lives, using the straight-line method. Estimated useful lives of intangibles are as follows:

Design Packaging 5 years

Impairment of Goodwill

Goodwill is reviewed for impairment in accordance with ASC Topic 350-20. The goodwill of an entity shall be tested for impairment if an event occurs or circumstances change that indicate that the fair value of the entity may be below its carrying amount (a triggering event). A goodwill triggering event evaluation shall be performed only as of the end of each reporting period. If an entity determines that there are no triggering events, then further testing is unnecessary. During the years ended March 31, 2025 and March 31, 2024, the Company determined that goodwill had been impaired and recorded charges of \$4,726,880 and \$3,151,000, respectively, on its Consolidated Statements of Operations.

These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations. Note 3 – GOING CONCERN

The accompanying unaudited financial statements have been prepared assuming that the Company will continue as a going concern. For the year ended March 31, 2025, the Company had revenues of \$7,750,834 and a net loss of \$4,974,927. The Company's ability to continue as a going concern is dependent upon the continued financial support from its management, its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and its ability to grow operations and to achieve a level of profitability. The Company intends on financing its future development activities and its working capital needs largely from the sale of public equity securities and debt financing. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The unaudited financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.
