GoBigMouth is a business specializing in digital marketing services aimed at enhancing brand presence and engaging audiences. Their offerings include content marketing, pay-per-click management, SEO, social media strategies, voice search optimization, and email marketing. With a focus on innovation and success in the digital realm, BigMouth aims to drive significant improvements in online presence, organic traffic, and customer engagement through tailored, results-driven strategies. **CONSOLIDATED FINANCIAL STATEMENTS**  
**JUNE 30, 2025 AND 2024**  
**(Unaudited)**

**Note 1 – Organization and Significant Accounting Policies**

Organization and Line of Business

Bayside Corporation (the “Company”) was incorporated in the state of Nevada on October 17, 1984 originally as Two-B Company, a clothing wholesaler. In April of 1999 the Company changed its name to American Terra Vehicles Corp. after completing a reverse merger and became active as a developer and distributor of all-terrain vehicles. In August of 2008 the Company changed its name to Bayside Petroleum Company, Inc., in anticipation of its new business plan in the oil and gas industry. In January, 2011 the Company again changed its name to Bayside Corporation. The Company was re-domiciled on November 14, 2012 as a Wyoming corporation.

The Company was previously focused on infrastructure investments around the crypto asset and blockchain ecosystems and owned six Cryptocurrency ATMs. During the second quarter of 2020 the Company sold its six Cryptocurrency ATMs. The Covid-19 pandemic resulted in the decline of traditional brick and mortar business. The Company believes that emerging technologies have created new opportunities. By focusing on digital online business for immediate cash flow opportunities and traditional real estate investment for long term growth we combine our efforts in emerging technologies and proven investments.

In June 2023 the Company formed a subsidiary, BYSD Properties Corp. for the acquisition of and investment in both commercial and residential properties.

During July 2023, the Company acquired the entire membership interests in Onecard Global, LLC (“Onecard”), a Florida limited liability company, from the spouse and son of our former Chief Executive Officer and sole director (see Note 6). An aggregate of 15,000,000 shares of common stock, valued at \$3,150,000, were issued in consideration for Onecard. Onecard had minimal assets and operations at the time of the acquisition. Following extensive development of our ecommerce marketing website, we launched a media rich advertising plan in the first quarter of 2024.

During December 2023, the Company acquired 25% of the membership interests in GoBigMouth, LLC, a Florida limited liability company. This entity had minimal assets and operations at the date of acquisition and through June 30, 2025 and no value has been assigned to this asset at the date of acquisition.

Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited. The unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

These interim condensed consolidated financial statements as of and for the three and six months ended June 30, 2025 and 2024 are unaudited; however, in the opinion of management, such statements include all adjustments (consisting of normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows of the Company for the periods presented. Operating results for the three and six months ended June 30, 2025 are not necessarily indicative of the results that may be expected for the year ending December 31, 2025 or any future periods.

Principles of Consolidation

The consolidated financial statements include the accounts of the company and its wholly-owned subsidiary Onecard Global, LLC. Intercompany balances and transactions have been eliminated in consolidation.

### Going Concern

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company currently has minimal operating activities and has an accumulated deficit and a working capital deficit at June 30, 2025. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue in existence is dependent upon the development or acquisition of operating activities and management's ability to develop and achieve profitable operations and/or obtaining additional financing to carry out any planned business. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. The outcome of these matters cannot be predicted at this time.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event we are unable to continue as a going concern, we may elect or be required to seek protection from our creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unaudited condensed consolidated financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

### Use of Estimates

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Significant estimates made in the accompanying financial statements include, but are not limited to, the assumptions used to calculate the valuation of deferred income tax asset valuation allowances.

### Fair Value of Financial Instruments

Our short-term financial instruments, including cash, notes receivable, accounts payable and notes payable, consist primarily of instruments without extended maturities, the fair value of which, based on management's estimates, reasonably approximate their book value.

### Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash equivalents. The Company has no cash equivalents.

### Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of cash. The Company places its cash with high quality financial institutions and at times balances may exceed the FDIC \$250,000 insurance limit. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses, as required.

### Basic and Diluted Loss Per Share

We utilize ASC 260, "Earnings Per Share" for calculating the basic and diluted loss per share. In accordance with ASC 260, the basic and diluted loss per share is computed by dividing net income or loss available to common stockholders by the weighted average number of common shares outstanding. Diluted net loss per share is computed similar to basic loss per share except that the denominator is adjusted for the potential dilution that could occur if stock options, warrants, and other convertible securities were exercised or converted into common stock. Potentially dilutive securities are not included in the calculation of the diluted loss per share if their effect would be anti-dilutive. The Company has 69,576,368 and 67,967,437 common stock equivalents at June 30, 2025 and 2024, respectively. For the three and six months ended June 30, 2025 these potential shares were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

### Recently Issued Accounting Pronouncements

Recent accounting pronouncements issued by the FASB and the SEC did not, or are not believed by management to have a material impact on the Company's present or future financial statements.

### **Note 2 – Note Receivable**

In December 2023, the Company received a promissory note from GoBigMouth, LLC in the amount of \$75,000. The note bears interest at 8% per year and matures on May 11, 2025. The company funded \$50,000 towards this note in 2023, with the balance paid in February of 2024. The company received repayments on the note of \$6,024 during the year ended December 31, 2024. A default judgement was entered against GoBigMouth, LLC in the amount of \$77,931 on March 5, 2025.

As consideration for entering into this note, the Company received a 25% ownership interest in GoBigMouth, LLC. This entity had minimal assets and operations at the date of acquisition and no value has been assigned to this asset.

### **Note 3 – Debt Settlement Agreement and Stock Settled Debt Premium**

On April 27, 2016 the Company entered into a debt settlement agreement (“Agreement”) with Rockwell Capital Partners, Inc. (“Rockwell”). Rockwell had acquired the outstanding liabilities of the Company. The Agreement had an initial principal amount of \$566,450, with a current outstanding balance of \$373,362 at June 30, 2025 and December 31, 2024.

The Agreement provides for settlement through the issuance of shares of the Company’s common stock. Upon a request from Rockwell stating the dollar amount of the current requested settlement, the Company shall issue shares of its common stock at a 25% discount to the market price of the Company’s common stock. The market price is defined as the lowest sale price during the 15 day period preceding the share request, inclusive of the date of the request.

Since the Agreement contains a provision to settle the debt by issuing shares of common stock at a 25% discount to the market price of the Company’s common stock, upon the determination that the embedded conversion feature does not require derivative accounting, the Company has recorded a stock-settled premium liability to record the difference between the face value of the debt and the monetary value to be received by the holder upon settling the debt in shares of common stock. The premium amount of \$124,454 has been included in the carrying value of the debt at June 30, 2025 and December 31, 2024.

### **Note 4 – Convertible Notes Payable and Stock Settled Debt Premium**

#### Convertible notes

The Company has issued a number of convertible debentures, as detailed below. All of the debentures have substantially similar terms. The holders may convert the outstanding principal and accrued interest on the debenture into shares of the Company’s par value \$0.001 common stock (“common stock”) at a conversion price per share equal to 40% of lowest closing bid price of the common stock during the twenty trading days immediately preceding the date of conversion.

#### Stock-settled debt premium

The Company’s convertible debt instruments contain a provision to settle the debt by issuing shares of common stock at 40% of lowest closing bid price of the common stock during the twenty trading days immediately preceding the date of conversion. As a result, the Company has recorded a stock-settled premium liability to record the difference between the face value of the debt and the monetary value to be received by the holder upon settling the debt in shares of common stock. During the three and six months ended June 30, 2025 the Company has recorded an increase of \$22,500 and \$67,500, respectively, to stock-settled debt premium liability. During the three and six months ended June 30, 2024 the Company has recorded an increase of \$75,000 and \$127,500, respectively, to stock-settled debt premium liability.
