**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Presentation*

The unaudited financial statements presented herein have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the instructions to Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring adjustments, considered necessary for a fair statement of the financial statements have been included. Operating results for the three months and six months ended June 30, 2025 are not necessarily indicative of the results that may be expected for the year ending December 31, 2025.

*Consolidated Principles of consolidation*

The Consolidated financial statements include the accounts of the Company and its subsidiaries. All inter-company balances and transactions have been eliminated.

*Use of estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on the Company’s historical results as well as management’s future expectations. Actual results could differ from those estimates.

*Cash and cash equivalents*

Cash and cash equivalents consist of amounts held as cash on hand, bank and money market deposits, and marketable securities with maturities of less than 90 days.

#### Fair Value Measurements and Fair Value of Financial Instruments

The Company adopted ASC Topic 820, Fair Value Measurements. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2: Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3: Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The estimated fair value of certain financial instruments, including all current liabilities are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

#### Fair Value of Financial Instruments

ASC subtopic 825-10, Financial Instruments ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying value of cash and cash equivalents, accounts payable and accrued liabilities when reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed. The Company follows ASC subtopic 820-10, Fair Value Measurements and Disclosures ("ASC 820-10") and ASC 825-10, which permits entities to choose to measure many financial instruments and certain other items at fair value.

#### Goodwill

Goodwill represents the excess of the purchase price of an acquired business over the amount assigned to the assets acquired and liabilities assumed. Goodwill is not amortized but are subject to impairment testing on an annually basis or more frequently if events or circumstances indicate a potential impairment. These events or circumstances could include a significant change in the business climate, regulatory environment, established business plans, operating performance indicators or competition. Potential impairment indicators may also include, but are not limited to, (i) significant changes to estimates and assumptions used in the most recent annual or interim impairment testing, (ii) downward revisions to internal forecasts, and the magnitude thereof, (iii) declines in our market capitalization below our book value, and the magnitude and duration of those declines, (iv) a reorganization resulting in a change to our operating segments, and (v) other macroeconomic factors, such as increases in interest rates that may affect the weighted average cost of capital, volatility in the equity and debt markets, or fluctuations in foreign currency exchange rates that may negatively impact our reported results of operations.

#### Foreign Currency Translation

The Company maintains its financial statements in its functional currency, which is US dollar ("USD"). Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at rates of exchange prevailing at the balance sheet dates. Exchange gains or losses arising from foreign currency transactions or translation of monetary assets and liabilities denominated in foreign currencies are included in the statement of operations for the respective periods.

Exchange rates used in these financial statements, USD to CNY, are 7.1586 and 7.1884 at June 30, 2025 and December 31, 2024 respectively.

### Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss, capital loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest and penalties related to unrecognized tax benefits as a component of general and administrative expenses. Our federal tax return and any state tax returns are not currently under examination.

The Company has adopted FASB ASC 740-10, Accounting for Income Taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually from differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

### Net Income (Loss) Per Common Share

The Company computes loss per common share, in accordance with FASB ASC Topic 260, Earnings Per Share, which requires dual presentation of basic and diluted earnings per share. Basic income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding during the period. Diluted income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding, plus the issuance of common shares, if dilutive, that could result from the exercise of outstanding stock options and warrants.

### Recently issued accounting pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

## NOTE 5 GOING CONCERN

As of June 30, 2025, the Company had total cash and cash equivalent of \$116 and accumulated deficit of \$-23,614. For the six months ended June 30, 2025, the Company had incurred a net loss of \$12,481 and used net cash in operations of \$0. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Based on our current operating and investing plan, the management has concluded that substantial doubt is not alleviated regarding the Company's ability to continue as a going concern for 12 months from the date of issuance of these financial statements.

The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations, and/or obtaining additional financing from its shareholders or other sources, as may be required.

## NOTE 6 COMMITMENTS AND CONTINGENCIES

During the normal course of business, the Company may be exposed to litigation. When the Company becomes aware of potential litigation, it evaluates the merits of the case in accordance with FASB ASC 450-20-50, Contingencies. The Company evaluates its exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If the Company determines that an unfavorable outcome is probable and can be reasonably estimated, it establishes the necessary accruals. As of June 30, 2025 and December 31, 2024, the Company is not aware of any contingent liabilities that should be reflected in the financial statements.

## NOTE 7 RELATED PARTY TRANSACTIONS
