4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Utilizing management's history in general contracting, coupled with our subject matter expertise and intellectual property ("IP") knowledge of solar panels and other leading-edge technologies, the Company is focused on building a "Next Generation" green energy company. The Company offers competitively priced "Next Generation" solar panel, lighting, and battery storage products by working closely with design, engineering, integration and installation firms.

B. List any subsidiaries, parent company, or affiliated companies.

Currently, the Company has four (4) subsidiary holdings. Sun Pacific Power Corp., which was the initial company that specialized in solar & other renewable energy projects., The Company also formed National Mechanical Group Corp, a New Jersey corporation focused on holding the Company's patents. The Company also formed Street Smart Outdoor Corp, a Wyoming corporation that acted as a holding company for the Company's state specific operations in unique advertising through solar bus stops, solar trashcans and "street kiosks." In an effort to focus on the renewable energy sector the Company has stopped offering its unique advertising offerings through Street Smart Outdoor Corp and is winding up its operations. The Company formed Elba Power Corp, an Alabama Corp for the development of a Solar Assembly company, which was unable to close on its financing, which has been closed. Further there were also property purchase issues related to a contract conflict that restricted the owner from selling the property. Together, these issues have put the project on hold. The Company formed Sun Pacific Power PTY LTD in Australia to sell and distribute solar panels.

C. Describe the issuers' principal products or services.

The Company offers competitively priced "Next Generation" solar panel, lighting, and battery storage products by working closely with design, engineering, integration and installation firms.

Sun Pacific Power Corp. entered into an agreement with FoxEss, a global leader in the development of inverter and energy storage solutions as a wholesale distributor for North and South America and Australia. Sun Pacific Power Corp. also entered into an agreement with a South Asian solar manufacturer to act as an original equipment manufacturer ("OEM") for Sun Pacific Solar Panels and associated products. Sun Pacific Power Corp commenced in April 2023, a trial sales, marketing, and affiliate program to market and install residential solar panels in various markets within the United States, which currently is non-active.

Our principal source of revenues prior to 2024 was derived from Street Smart Outdoor Corp. operations in the outdoor advertising business. In 2024 the Company is focused on developing revenues in renewable energy sales.

On September 19, 2019, the United States Patent and Trademark Office published patent US 2019 288 139 A1 for the Frame-Less Encapsulated Photo-Voltaic (PV) Solar Power Panel Supporting Solar Cell Modules Encapsulated Within Optically-Transparent Epoxy-Resin Material Coating a Phenolic Resin Support Sheet issued to National Mechanical Group Corp. Originally designed for application in the solar bus shelters operated by Street Smart Outdoor Corp, as a glassless solar panel, the Company has developed a patent protected product and process for creating solar panels that can be integrated directly into the design of products as a molded, weather resistant plastic. The Company began work developing a business plan for expanding on either manufacturing or licensing of the technology in 2020 and it is currently under review, pending financing.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

N/A

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities.

If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

Names of All Officers, Directors, and Control Persons	Affiliation with Company (e.g. Officer Title /Director/Owner of 5% or more)	Residential Address (City / State Only)	Number of shares owned	Share type/class	Ownership Percentage of Class Outstanding	Names of control person(s) if a corporate entity

Confirm that the information in this table matches your public company profile on www.OTCMarkets.com. If any updates are needed to your public company profile, log in to www.OTCIQ.com to update your company profile.

- (1) Applicable percentage ownership is based on 261,751 shares of common stock outstanding as of December 31, 2024. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of common stock that are currently exercisable or exercisable within 60 days of are deemed to be beneficially owned by the person holding such securities for computing the percentage of ownership of such person but are not treated as outstanding for computing the percentage ownership of any other person. Nicholas Campanella, our Chairman and Chief Executive Officer holds 12,000,000 shares of Series A Preferred Stock as of April 15, 2025. The Series A Preferred Stock has voting rights equal to 125 votes on all matters submitted to a vote to the stockholders of the

Company, does not have conversion, dividend or distribution upon liquidation rights. As a result, Mr. Campanella has the equivalent to 1,500,000,000 votes. Therefore, although the officers, directors and beneficial holders of shares greater than 5% of the common stock have voting rights equal to 3.2% of the voting rights of the common stock, this amounts to less than 3.3% of the total voting rights available. Mr. Campanella thus has over 50% of the total voting rights.

7) Legal/Disciplinary History

A. Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years:

No

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities or commodities law, or a foreign regulatory body or court, which finding or judgment has not been reversed, suspended, or vacated;

No

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above; or

No

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

No

6. Been the subject of a U.S Postal Service false representation order, or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S mail.

No

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties

thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

SUN PACIFIC HOLDING CORP.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
THREE MONTHS ENDED MARCH 31, 2025 AND 2024**

NOTE 1 - DESCRIPTION OF THE BUSINESS

The Company was incorporated under the laws of the State of New Jersey on July 28, 2009, as Sun Pacific Power Corporation and together with its subsidiaries, are referred to as the “Company”. On August 24, 2017, the Company entered into an Acquisition Agreement with EXOlifestyle, Inc. whereby the Company became a wholly owned subsidiary of EXOlifestyle, Inc. The acquisition was accounted for as a reverse merger, resulting in the Company being considered the accounting acquirer. Accordingly, the accompanying consolidated financial statements included the accounts of EXOlifestyle, Inc. since August 24, 2017.

Utilizing management’s history in general contracting, coupled with our subject matter expertise and intellectual property (“IP”) knowledge of solar panels and other leading-edge technologies, the Company has been focused on building a “Next Generation” green energy company. The Company offered competitively priced “Next Generation” solar panel and lighting products by working closely with design, engineering, integration and installation firms in order to deliver turnkey solar and other energy efficient solutions. We provided solar bus stops, solar trashcans and “street kiosks” that utilize our unique advertising offerings that provide State and local municipalities with costs efficient solutions but have been winding up this business. The Company continues to seek out new revenue sources and opportunities utilizing Management’s expertise.

Currently, the Company has four (4) subsidiary holdings. Sun Pacific Power Corp., which was the initial company that specialized in solar & other renewable energy projects. The Company also formed National Mechanical Group Corp; a New Jersey corporation focused on holding the Company’s patents. The Company also formed Street Smart Outdoor Corp, a Wyoming corporation that acted as a holding company for the Company’s state specific operations in unique advertising through solar bus stops, solar trashcans and “street kiosks.” In an effort to focus on the renewable energy sector the Company has stopped offering its unique advertising offerings through Street Smart Outdoor Corp and is winding up its operations. The Company formed Sun Pacific Power PTY LTD in Australia to sell and distribute solar panels.

Sun Pacific Power Corp. entered into an agreement with FoxEss, a global leader in the development of inverter and energy storage solutions as a wholesale distributor for North and South America and Australia. Sun Pacific Power Corp. also entered into an agreement with a South Asian solar manufacturer to act as an original equipment manufacturer (“OEM”) for Sun Pacific Solar Panels and associated products. Sun Pacific Power Corp commenced in April 2023, a trial sales, marketing, and affiliate program to market and install residential solar panels in various markets within the United States, which currently is non-active.

Our principal source of revenues prior to 2024 was derived from Street Smart Outdoor Corp. operations in the outdoor advertising business. In 2024 the Company has focused on developing revenues in renewable energy sales. The Company in 2025 is exploring new revenue opportunities and other alternatives.

On September 19, 2019, the United States Patent and Trademark Office published patent US 2019 288 139 A1 for the Frame-Less Encapsulated Photo-Voltaic (PV) Solar Power Panel Supporting Solar Cell Modules Encapsulated Within Optically-Transparent Epoxy-Resin Material Coating a Phenolic Resin Support Sheet issued to National Mechanical Group Corp. Originally designed for application in the solar bus shelters operated by Street Smart Outdoor Corp, as a glassless solar panel, the Company has developed a patent protected product and process for creating solar panels that can be integrated directly into the design of products as a molded, weather resistant plastic. The Company began work developing a business plan for expanding on either manufacturing or licensing of the technology in 2020 and it is currently under review, pending financing.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles of the United States of America (“GAAP”) and the interim reporting rules of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s latest Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments (unless otherwise indicated), necessary for a fair presentation of the financial position and the results of

operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

Use of estimates in the preparation of financial statements

Preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates include the allowance for doubtful accounts and the valuation allowance on fixed assets.

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned, and less-than-wholly owned subsidiaries of which the Company holds a controlling interest. All significant intercompany balances and transactions have been eliminated. Amounts attributable to minority interests in the Company's less-than-wholly owned subsidiary are presented as non-controlling interest on the accompanying condensed consolidated balance sheets and statements of operations.

Cash, and Cash Equivalents

For purposes of the consolidated statements of cash flows, cash includes demand deposits and short-term liquid investments with original maturities of three months or less when purchased. As of June 30, 2025, the Federal Deposit Insurance Corporation (FDIC) provided insurance coverage of up to \$250,000, per depositor, per institution. At December 31, 2024, none of the Company's cash balances were in excess of federally insured limits.

Accounts Receivable

In the normal course of business, we decide to extend credit to certain customers without requiring collateral or other security interests. Management reviews its accounts receivable at each reporting period to provide for an allowance against accounts receivable for an amount that could become uncollectible. This review process may involve the identification of payment problems with specific customers. Periodically we estimate this allowance based on the aging of the accounts receivable, historical collection experience, and other relevant factors, such as changes in the economy and the imposition of regulatory requirements that can have an impact on the industry. These factors continuously change and can have an impact on collections and our estimation process. The Company's allowance for doubtful accounts was \$0 as of June 30, 2025 and June 30, 2024.

Contingencies

Certain conditions may exist as of the date financial statements are issued, which may result in a loss, but which will only be resolved when one or more future events occur or do not occur. We assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to pending legal proceedings that are pending against us or unasserted claims that may result in such proceedings, we evaluate the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. If the assessment of a contingency indicates that it is probable that a liability has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in our consolidated financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable would be disclosed.

Fair value of financial instruments

The carrying amounts of the Company's accounts payable, accrued expenses, and shareholder advances approximate fair value due to their short-term nature.

Income taxes

Under ASC Topic 740, “Income Taxes”, the Company is required to account for its income taxes through the establishment of a deferred tax asset or liability for the recognition of future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expense or benefit is recognized as a result of timing differences between the recognition of assets and liabilities for book and tax purposes during the year.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are recognized for deductible temporary differences and operating losses, and tax credit carry forwards. A valuation allowance is established to reduce that deferred tax asset if it is “more likely than not” that the related tax benefits will not be realized.

Leases

The Company accounts for leases in accordance with FASB Topic 842 which prescribes the accounting for several aspects of lease accounting, including requiring lessees to recognize leases with a term greater than one year as a right-of-use asset and corresponding liability, measured at the present value of the lease payments.

The Company, effective January 1, 2019 has adopted the provisions of the new standard. The Company had operating leases for warehouses and offices. Management evaluates each lease independently to determine the purpose, necessity to its future operations in addition to other appropriate facts and circumstances.

The Company adopted Topic 842 using a modified retrospective approach for all existing leases at January 1, 2019. The adoption of Topic 842 impacted its balance sheet by the recognition of the operating lease right-of-use assets and the liability for operating leases. The Company had no leases subject to ASC 842 as of December 31, 2024 and June 30, 2025, respectively.

Revenue recognition

The Company recognizes revenue when or as it satisfies a performance obligation by transferring a promised good or service to a customer in accordance with Topic 606. Revenue from the sale of advertising space on displays from the Company’s Outdoor Advertising Shelter Revenues is generally recognized ratably over the term of the contract as the advertisement is displayed.

The Company recognizes revenue in amounts that reflect the consideration it expects to receive in exchange for transferring goods or services to customers, excluding sales taxes and other similar taxes collected on behalf of governmental authorities (the “transaction price”). When this consideration includes a variable amount, the Company estimates the amount of consideration it expects to receive and only recognizes revenue to the extent that it is probable it will not be reversed in a future reporting period. Because the transfer of promised goods and services to the customer is generally within a year of scheduled payment from the customer, the Company is not typically required to consider the effects of the time value of money when determining the transaction price. Advertising revenue is reported net of agency commissions.

In order to appropriately identify the unit of accounting for revenue recognition, the Company determines which promised goods and services in a contract with a customer are distinct and are therefore separate performance obligations. If a promised good or service does not meet the criteria to be considered distinct, it is combined with other promised goods or services until a distinct bundle of goods or services exists.

For revenue arrangements that contain multiple distinct goods or services, the Company allocates the transaction price to these performance obligations in proportion to their relative standalone selling prices. The Company has concluded that the contractual prices for the promised goods and services in its standard contracts generally approximate management’s best estimate of standalone selling price as the rates reflect various factors such as the size and characteristics of the target audience, market location and size, and recent market selling prices. However, where the Company provides customers with free or discounted services as part of contract negotiations, management uses judgment to determine how much of the transaction price to allocate to these performance obligations.

The Company receives payments from customers based on billing schedules that are established in its contracts, and deferred revenue is recorded when payment is received from a customer before the Company has satisfied the performance obligation or a non-cancelable contract has been billed in advance in accordance with the Company’s normal billing terms.

100% of the Company's revenue for the three months ended June 30, 2025 and 2024, is recognized based on the Company's satisfaction of distinct performance obligations identified generally at a point in time as defined by Topic 606, as amended.

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers. This standard replaced most existing revenue recognition guidance and is codified in FASB ASC Topic 606. Effective January 1, 2018, the Company adopted ASU No. 2014-09 using the modified retrospective method. Under the new guidance, the Company recognizes revenue from contracts based on the Company's satisfaction of distinct performance obligations identified in each agreement. The adoption of the guidance under ASU No. 2014-09 did not result in a material impact on the Company's consolidated revenues, results of operations, or financial position. As part of the implementation of ASC 606 the Company must present disaggregation of revenues from contracts with customers into categories that depict how the nature, timing, and uncertainty of revenue and cash flows are affected by economic factors. Quantitative disclosures on the disaggregation of revenue for the three and six months ended June 30, 2025 and 2024, respectively are as follows:

	2025	2024
Outdoor Advertising Shelter Revenues	\$ -	\$ -

Earnings Per Share

Under ASC 260, "Earnings Per Share" ("EPS"), the Company provides for the calculation of basic and diluted earnings per share. Basic EPS includes no dilution and is computed by dividing income or loss available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of securities that could share in the earnings or losses of the entity. For the three and six months ended June 30, 2025 and 2024, warrants to acquire 1,000,000 shares have been excluded from the calculated of diluted EPS because their impact was anti-dilutive.

Recent Accounting Pronouncements

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying condensed consolidated financial statements.

NOTE 3 - GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared in conformity with GAAP in the United States of America, assuming the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. For the six months ended June 30, 2025 and 2024, the Company incurred losses from operations of \$118,002 and \$114,152, respectively. The Company had a working capital deficit of \$3,794,295 as of June 30, 2025. These circumstances raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent on its ability to raise the additional capital to meet short and long-term operating requirements. Management is continuing to pursue external financing alternatives to improve the Company's working capital position however additional financing may not be available upon acceptable terms, or at all. If the Company is unable to obtain the necessary capital, the Company may have to cease operations.

NOTE 4 - BORROWINGS

Convertible Notes Payable

On August 24, 2016, the Company issued two two-year unsecured convertible notes payable totaling \$200,000 pursuant to a private placement memorandum. The notes matured on August 24, 2018 and have an annual interest rate of 12.5%. At the election of the holder, upon the occurrence of certain events, the notes can be converted into common stock of the Company at a conversion price per share equal to 50% of the average bid price for the 30 consecutive business days prior to conversion. The conversion feature is contingent upon i) the successful filing of a registration statement to become publicly traded, and ii) the Company stock has become publicly quoted on the OTC Markets and iii) the conversion price is above \$0.10. In August 2018, the holders of the notes agreed to extend the maturity

date of the notes to December 31, 2019, in exchange for warrants to acquire 600,000 shares of common stock for an exercise price of \$0.31 per share, exercisable over three years. The Company estimated the fair value of the warrants, totaling \$16,401, using the Black Scholes Method and recorded an additional discount against the note to be amortized over the extended term of the notes. During the year ended December 31, 2021, one of the holders elected to convert principal of \$100,000 and interest of \$55,209 into 7,626,978 shares of common stock, 1:4000 pre-split. The notes are carried at \$98,425 with no remaining unamortized discount as of June 30, 2025 and December 31, 2024. This note is currently in default.

Convertible Notes Payable, Related Party

On October 23, 2015, a total of \$332,474 in advances from a related party was converted into two one-year unsecured convertible notes payable to Nicholas Campanella, Chief Executive Officer of the Company. The notes have an annual interest rate of 6% and are currently in default. At the election of the holder, the notes can be converted into common stock of the Company at a conversion price per share equal to 20% of the average bid price for the three consecutive business days prior to conversion. As of June 30, 2025 and December 31, 2024, the balances of the notes totaled \$409,566.

On August 24, 2016, a total of \$75,000 in advances from a related party was converted into a two-year unsecured convertible note payable to Nicholas Campanella, Chief Executive Officer of the Company, pursuant to a private placement memorandum. The note matured on August 24, 2018, has an annual interest rate of 12.5% and is due at maturity. At the election of the holder, upon the occurrence of certain events, the note can be converted into common stock of the Company at a conversion price per share equal to 50% of the average bid price for the 30 consecutive business days prior to conversion. The conversion feature is contingent upon i) the successful filing of a registration statement to become publicly traded, and ii) the Company stock has become publicly quoted on the OTC Markets and iii) the conversion price is above \$0.10. In connection with this note, the Company issued 75,000 shares of Series B preferred stock. As of June 30, 2025 and December 31, 2024, the balance of the notes was \$98,425.

Accrued interest on the convertible notes, related party totaled \$201,845 and \$191,870 as of June 30, 2025 and December 31, 2024, respectively.

Project Financing Obligation

In June 2018, the Company received proceeds of \$260,000 pursuant to a partnership agreement and related partnership contribution agreements with third party investors, pursuant which investors have agreed to provide financing for no less than (10) ten new bus shelters being installed annually. Each investment in the partnership grants the investor the right to preferential distributions of profits related to the Company's contract with Rhode Island. The investors receive 100% of the profits from the Rhode Island contract to install 20 bus shelters until 100% of the initial investments are returned. Thereafter, the investors receive 20% of the remaining profits from Rhode Island contract. As of December 31, 2024 and December 31, 2023, no profits have been earned on the Rhode Island contract, no repayments have occurred, and the total amount of investments received totaling \$260,000 is reflected within the accompanying consolidated balance sheets as a Project Financing Obligation. The contract with Rhode island has been cancelled with the Company, the bus shelters have been either liquidated and/or disposed of, and the Company has discharged the project financing obligation.

Line of Credit, Related Party

On October 23, 2015, the Company entered into a line of credit agreement with Nicholas Campanella, Chief Executive Office of the Company, for a total value of \$250,000. The line of credit does not bear an interest rate and is payable on demand. As of June 30, 2025 and December 31, 2024 the balance of the debt to related party was \$163,936 and is included in advances from related parties within the accompanying consolidated balance sheets.

Notes Payable

On June 21, 2019, the Company issued a six-month ten percent interest promissory note in the amount of \$200,000. The note was funded July 8, 2019. Per the terms of the note, the Company agreed to issue to the lender 2,000,000 shares of restricted common stock, with a fair value of \$2,600 as an inducement. The balance of the note is \$200,000 as of June 30, 2025. The note is currently in default.

NOTE 5 – SUBSEQUENT EVENTS

Management of the Company has performed a review of all events and transactions occurring after the consolidated balance sheet date to determine if there were any such events or transactions requiring adjustment to or disclosure in the accompanying consolidated financial statements, noting that there were no such events or transactions that occurred other than on Friday, February 16, 2024, FINRA effectuated the reverse stock split of 1:4000. The action was approved by shareholders on October 13, 2023. As a result and after adjustments for rounding shares up to one share, there are currently 261,751 shares of common stock outstanding, presently.
