4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

(Please ensure that these descriptions are updated on the Company's Profile on www.otcmartets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Our primary business is the manufacturing and sale of hemp products and organic, plant-based, all-natural, zero-nicotine vape products.

B. List any subsidiaries, parent company, or affiliated companies.

CBD Unlimited, Inc. (70% owner)

Khode, LLC (70% owner)

Hyla US Holdco Limited (51% owner)

C. Describe the issuers' principal products or services.

Business.

Business Overview:

Endexx Corporation is a Consumer Products (CPG) company specializing in plant-based formulations and innovative delivery systems. The company's mission is centered on creating "Better Products for a Better You©" by developing and marketing products that harness the power of natural ingredients. Endexx's primary business focus is on its HYLA division, which has established itself as a leading brand in the rapidly expanding global vape market.

HYLA Brand:

HYLA is a premier brand under Endexx Corporation, specializing in producing and selling organic, plant-based, all-natural, zero-nicotine, tobacco-free vape products. Each HYLA device contains a natural guarana extract blended with proprietary botanical formulas, offering a healthier alternative to traditional nicotine-based products. Launched in October 2021, HYLA quickly gained market traction, with its initial inventory of 140,000 devices selling out within a month. The products are UL-certified and CE-approved, ensuring the highest safety and quality standards.

In response to growing demand from customers and distributors, HYLA is also exploring adding nicotine-based products to its portfolio. This strategic move is expected to broaden its market appeal and enhance its position in the competitive vape industry.

Intellectual Property:

HYLA Intellectual Property: HYLA has established itself as a key player in the vape industry with a strong portfolio of intellectual property assets. The HYLA brand name and logo are trademarked, ensuring exclusive rights to the brand identity in the rapidly growing vape market. Additionally, the proprietary botanical formulas used in HYLA devices, including the unique blend of guarana extract, are protected by trade secrets. Endexx Corporation is committed to protecting and expanding its intellectual property portfolio to maintain a competitive edge in the market.

Endexx also holds registered trademarks for "Endexx" and "PhytoBites" and has applied for trademarks for "CBD Unlimited," "Maggie's Balm," and "Blesswell." As of the date of this report, the US Patent and Trademark Office (USPTO) has not yet approved any CBD-related trademarks.

Historical Overview:

Endexx Corporation was incorporated in the State of Nevada on September 5, 1997, as Micron Solutions, Inc. The company has undergone several name changes and strategic shifts, reflecting its evolving business focus. In June 2005, the company changed its name to Endexx Corporation, adopting the trading symbol "EDXC." Over the years, Endexx has transitioned from a biotech and SaaS company to its current focus on plant-based products and wellness through its subsidiaries, HYLA and CBD Unlimited.

Operating Subsidiaries:

HYLA US Holdco Limited:

Acquired on August 31, 2022, HYLA specializes in producing and selling organic, plant-based, zero-nicotine vape products. HYLA's product line includes a wide range of premium and mass-market vape devices that are manufactured in UL-certified facilities and undergo rigorous quality control.

CBD Unlimited, Inc.:

CBD Unlimited focuses on developing, manufacturing, and distributing hemp-derived, cannabidiol-enhanced products. These products include full-spectrum oils, topicals, extracts, and pet products, all aimed at supporting health and wellness.

Government Regulation:

Endexx operates within a highly regulated environment, particularly concerning its hemp-derived products. The company complies with the Agriculture Improvement Act of 2018 (the “2018 Farm Bill”) and relevant FDA regulations. The company remains vigilant in adapting to regulatory changes that could impact its operations, particularly in the CBD and vape markets.

Planned Future Operations:

Endexx Corporation plans to expand HYLEA’s distribution and sales channels both internationally and domestically. Additionally, the company will continue to scale retail and e-commerce sales channels for CBD Unlimited while seeking new distribution partners and evaluating potential acquisitions.

Management is optimistic about the growth potential of the HYLEA division, which is expected to be a significant revenue driver in the coming years. The introduction of nicotine-based products, alongside the expansion of its existing portfolio, will likely enhance HYLEA's competitive position in the global vape market.

Recent Developments: During 2024, HYLEA made significant strides in expanding its market presence and product offerings. Key developments include:

Expansion of Distribution Channels: HYLEA has secured new distribution agreements across Europe and Asia, significantly increasing its international footprint.

Launch of New Products: HYLEA introduced several new flavors and device options, including limited edition products that have been well-received by the market.

Exploration of Nicotine-Based Products: Responding to market demand, HYLEA announced its exploration of nicotine-based vape products.

Risk Factors:

Endexx Corporation acknowledges several risks, including regulatory challenges, supply chain disruptions, and intense market competition. The company is actively working to mitigate these risks through strategic planning and operational efficiency.

Regulatory Risks: Our HYLEA division is exploring the addition of nicotine-based vape products. The sale of nicotine-containing vaping products is subject to extensive and evolving international, federal, state, and local government regulation, including but not limited to potential requirements for pre-market authorizations (such as FDA PMTAs in the U.S.), restrictions on product formulation, flavors, marketing, advertising, sales, and distribution, as well as significant excise taxes. Compliance with these regulations may be costly, time-consuming, and uncertain, and failure to comply could result in significant penalties, product seizures, or an inability to market these products, which could materially harm our business prospects.

Debt Defaults & Liquidity: We are currently in default on a significant portion of our outstanding debt obligations. These defaults could result in lenders demanding immediate repayment, exercising other remedies such as seizing collateral (if any), or imposing higher default interest rates, which would further strain our limited liquidity and could force us into bankruptcy or restructuring. Our ability to continue operations is dependent on our ability to renegotiate terms with our lenders, secure forbearance agreements, or obtain additional financing, none of which can be assured.

Future Shareholder Dilution: We will require additional financing to fund our operations and execute our business plan. If we raise additional funds through the issuance of equity or convertible debt securities, our existing stockholders will experience significant dilution. Furthermore, the conversion of our outstanding convertible notes and the exercise of outstanding warrants will also result in further dilution to our common stockholders.

If we are unable to obtain necessary financing or achieve profitable operations, we may be unable to continue our operations, and investors could lose their entire investment.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company leases space on an as needed basis. We do not believe we will have difficulty in obtaining additional executive office, industrial or commercial logistics space, at competitive prices, if necessary.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuer's securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

As of June 30, 2025:

ENDEXX CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Basis of Presentation

We were incorporated under the laws of State of Nevada on September 5, 1997, as Micron Solutions. From 2002-2005, the Company operated as Panamed Corporation, a biotech service and licensing company. Panamed Corporation merged with Visual Board Books Inc. (VBB) in February 2005 and changed the consolidated company name to Endexx Corporation (the “Company”).

Endexx Corporation is a Consumer Products company specializing in plant-based formulations and innovative delivery systems. The company’s mission is centered on creating "Better Products for a Better You[®]" by developing and marketing products that harness the power of natural ingredients. Endexx's primary business focus is on its HYLA division, which has established itself as a leading brand in the rapidly expanding global vape market. The Company has the following operating subsidiaries:

- CBD Unlimited, Inc. (70% owner)
- Khode, LLC (70% owner)
- Hyla US Holdco Limited (51% owner)

Basis of Presentation and Going Concern

The Company prepares its consolidated financial statements in conformity with generally accepted accounting principles in the United States of America (“GAAP”). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that these estimates are reasonable and have been discussed with the Board of Directors; however, actual results could differ from those estimates. The operating results of the above listed wholly owned subsidiaries were consolidated with the consolidated financial statements of the Company. All significant intercompany accounts and transactions have been eliminated in consolidation.

Our consolidated financial statements have been presented on the basis that we are a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have sustained operating losses since inception, which raises substantial doubt about the Company’s ability to continue as a going concern.

As of June 30, 2025, we have significant working capital and accumulated deficits. During the period ended June 30, 2025, we had a significant net loss and a lack of profitable operating history. The Company’s ability to continue in existence is dependent on its ability to develop additional sources of capital, and/or achieve profitable operations and positive cash flows. Management’s plans with respect to operations include the sustained and aggressive marketing of hemp cannabidiol products and raising additional capital through sales of equity or debt securities as may be necessary to pursue its business plans and sustain operations until such time as the Company can achieve profitability. Management believes that aggressive marketing combined with additional financing as necessary will result in improved operations and cash flow in fiscal 2026 and beyond. However, there can be no assurance that management will be successful in obtaining additional funding or in attaining profitable operations. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Use of Estimates

The Company's financial statement preparation requires that management make estimates and assumptions which affect the reporting of assets and liabilities and the related disclosure of contingent assets and liabilities in order to report these consolidated financial statements in conformity with GAAP. Actual results could differ from those estimates.

Cash

Cash includes all highly liquid investments that are readily convertible to known amounts of cash and have original maturities at the date of purchase of three months or less. There were no cash equivalents as of June 30, 2025, and September 30, 2024. The Company maintains its cash balances at financial institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC"). The FDIC provides coverage of up to \$250,000 per depositor, per financial institution, for the aggregate total of depositors' interest and non-interest-bearing accounts. From time to time the Company's cash balances may be in excess of FDIC limits. The Company has not experienced any losses on these accounts and management does not believe that the Company is exposed to any significant risks.

Accounts Receivable

Accounts receivable consists of invoiced and unpaid product sales. The Company records an allowance for doubtful accounts to allow for any amounts that may not be recoverable, which is based on an analysis of the Company's prior collection experience, customer creditworthiness, and current economic trends. Accounts are considered delinquent when payments have not been received within the agreed upon terms and are written off when management determines that collection is not probable. At June 30, 2025, and September 30, 2024, the Company recorded \$482,901 as an allowance for doubtful accounts based upon management's review of accounts receivable.

Inventory

Inventory is composed of finished goods, in-process, and raw goods inventory, valued at the lower of cost or net realizable value, and includes production cost, product freight in, and packaging costs. Slow moving and obsolete inventories are written down based on a comparison of on-hand quantities to historical and projected usages.

The Company has authorized a consignment inventory arrangement with one of its mass retail customers. After the consignment inventory has been sold by this customer, the customer notifies the Company of the sale and the Company records revenue in that accounting period. The Company authorizes the replenishment of consignment inventory based on orders placed by the customer. The Company is provided with weekly reports of consignment sales activity and balances.

Prepaid Expenses

The Company considers all items incurred for future services to be prepaid expenses.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Maintenance and repairs are charged to operations as incurred. Depreciation and amortization are based on the straight-line method over the estimated useful lives of the related assets. When assets are retired or otherwise disposed of, the cost and accumulated depreciation and amortization are removed from the accounts, and any resulting gain or loss is reflected in operations in the period realized.

Depreciation is computed on the straight-line method net of salvage value with useful lives as follows:

Computer equipment and software	5 years
Business equipment and fixtures	7 years
Property and buildings	39 years

ENDEXX CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Intangible Assets

Intangible assets are amortized over their estimated useful lives. Each period, the Company evaluates the estimated remaining useful life of its intangible assets and whether events or changes in circumstances warrant a revision to the remaining period of amortization. Management tests for impairment whenever events or changes in circumstances occur that could impact the recoverability of these assets.

Impairment Assessment

The Company evaluates intangible assets and other long-lived assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. This includes but is not limited to significant adverse changes in business climate, market conditions or other events that indicate an asset's carrying amount may not be recoverable. Recoverability of these assets is measured by comparing the carrying amount of each asset to the future cash flows the asset is expected to generate. If the cash flows used in the test for recoverability are less than the carrying amount of these assets, the carrying amount of such assets is reduced to fair value.

The Company evaluates and tests the recoverability of its goodwill for impairment at least annually during its fourth quarter of each fiscal year or more often if and when circumstances indicate that goodwill may not be recoverable. During the period ended June 30, 2025, management noted operations were declining and the Company's projections could no longer support the carrying value of the Company's goodwill. As a result, an impairment charge totaling \$9,807,361 was recorded in the accompanying financial statements as of June 30, 2025.

Customer Deposits

From time-to-time the Company receives payment from customers in advance of delivering products to the customer. All such deposits are short term in nature as the Company delivers the product, unfulfilled portions, or engineering services to the customer before the end of its next annual fiscal period. These deposits are credited to the customer against product deliveries or at the completion of the customer's order.

Revenue Recognition

Revenue is recognized from the sale of hemp products when our performance obligation is satisfied. Our primary performance obligation (the distribution and sales of hemp products) is satisfied upon the shipment of products to our customers, which is also when control is transferred. The transfer of control of products to our customers is typically based on written sales terms that do not allow for a right of return after 30 days from the date of purchase. Revenue is recognized net of allowances for returns and any taxes collected from customers and subsequently remitted to governmental authorities.

Financial Instruments

In accordance with the reporting requirements of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 825, *Financial Instruments*, the Company calculates the fair value of its assets and liabilities which qualify as financial instruments under this standard and includes this additional information in the notes to the financial statements when the fair value is different than the carrying value of those financial instruments. The Company does not have assets or liabilities measured at fair value on a recurring basis except its derivative liability.

Consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at the balance sheet dates, nor gains or losses reported in the statements of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held during the periods ended June 30, 2025, and September 30, 2024, except as disclosed.

ENDEXX CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Fair Value Measurement

ASC 820, *Fair Value Measurements*, provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. Specifically, ASC 820 sets forth a definition of fair value and establishes a hierarchy prioritizing the inputs to valuation techniques, giving the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable value inputs. ASC 820 defines the hierarchy as follows:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The types of assets and liabilities included in Level 1 are highly liquid and actively traded instruments with quoted prices, such as equities listed on the New York Stock Exchange.

Level 2 - Pricing inputs are other than quoted prices in active markets but are either directly or indirectly observable as of the reported date. The types of assets and liabilities in Level 2 are typically either comparable to actively traded securities or contracts or priced with models using highly observable inputs.

Level 3 - Significant inputs to pricing that are unobservable as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as complex and subjective models and forecasts used to determine the fair value.

The following tables present the Company's assets and liabilities that were measured and recognized at fair value as of:

	<u>June 30, 2025</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Derivative liability	-	-	8,655,148	8,655,148

	<u>September 30, 2024</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Derivative liability	-	-	7,778,543	7,778,543

Under the Company's contract ordering policy, the Company first considers common shares issued and outstanding as well as reserved but unissued equity awards, such as under an equity award program. All remaining equity linked instruments such as, but not limited to, options, warrants, and debt and equity with conversion features are evaluated based on the date of issuance. If the number of shares which may be issued under the Company's agreements exceed the authorized number of shares or are unable to be determined, equity linked instruments from that date forward are considered to be derivative liabilities until such time as the number of shares which may be issued under the Company's agreements no longer exceed the authorized number of shares and are able to be determined.

During prior years, the Company issued debt agreements whose conversion features meet the definition of a derivative liability which requires bifurcation.

At June 30, 2025, the Company estimated the fair value of the conversion feature derivatives embedded in the promissory note based on assumptions used in the Cox-Ross-Rubinstein binomial pricing model using the following weighted-average inputs: the price of the Company's common stock of \$0.0054; a risk-free interest rate of 4.00%; expected volatility of the Company's common stock of 151% to 230%; estimated exercise prices of \$0.0016 to \$0.0050; and terms of approximately one to six years.

At September 30, 2024, the Company estimated the fair value of the conversion feature derivatives embedded in the promissory note based on assumptions used in the Cox-Ross-Rubinstein binomial pricing model using the following weighted-average inputs: the price of the Company's common stock of \$0.0105; a risk-free interest rate of 5.00%; expected volatility of the Company's common stock of 239%; estimated exercise price of \$0.0106; and term of approximately seven years.

ENDEXX CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

A reconciliation of the changes in the Company's Level 3 derivative liability at fair value is as follows:

Balance - September 30, 2024	\$ 7,778,543
Additions	117,626
Settlements	-
Change in fair value	758,979
Balance – June 30, 2025	<u>\$ 8,655,148</u>

Convertible Instruments

The Company evaluates and accounts for conversion options embedded in convertible instruments in accordance with ASC 815, *Derivatives and Hedging Activities*.

Applicable GAAP requires companies to bifurcate conversion options from their host instruments and account for them as free-standing derivative financial instruments according to certain criteria. The criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under other GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

The Company accounts for convertible instruments (when it has been determined that the embedded conversion options should not be bifurcated from their host instruments) as follows: The Company records when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their stated date of redemption.

Beneficial Conversion Features

ASC 470-20, *Debt with Conversion and Other Options*, applies to convertible securities with beneficial conversion features that must be settled in stock and to those that give the issuer a choice in settling the obligation in either stock or cash. ASC 470-20 requires that the beneficial conversion feature should be valued at the commitment date as the difference between the conversion price and the fair market value of the common stock into which the security is convertible, multiplied by the number of shares into which the security is convertible. This amount is recorded as a debt discount and amortized over the life of the debt. ASC 470-20 further limits this amount to the proceeds allocated to the convertible instrument.

Research and development costs

Research and development costs are charged to expense as incurred and are included in operating expenses.

Advertising Costs

The costs of advertising are expensed as incurred. Advertising expenses are included in the Company's operating expenses.

Income Taxes

The Company accounts for income taxes utilizing the liability method of accounting. Under the liability method, deferred taxes are determined based on differences between financial statement and tax bases of assets and liabilities at enacted tax rates in effect in years in which differences are expected to reverse. Valuation allowances are established, when necessary, to reduce deferred tax assets to amounts that are expected to be realized.

The Company follows ASC 740-10, *Accounting for Uncertainty in Income Taxes*. This interpretation requires recognition and measurement of uncertain income tax positions using a “more-likely-than-not” approach. The Company evaluates its tax positions on an annual basis, and as of September 30, 2024, no additional accrual for income taxes is necessary. The Company’s policy is to recognize both interest and penalties related to unrecognized tax benefits expected to result in payment of cash within one year are classified as accrued liabilities, while those expected beyond one year are classified as other liabilities. The Company has not recorded any interest or penalties since its inception. The Company is required to file income tax returns in the U.S. federal tax jurisdiction and in various state tax jurisdictions and the prior three fiscal years remain open for examination by federal and/or state tax jurisdictions. The Company is currently not under examination by any other tax jurisdiction for any tax year.

(Loss) Income Per Share of Common Stock

ASC 260, *Earnings Per Share*, requires a reconciliation of the numerator and denominator of the basic and diluted earnings (loss) per share (EPS) computations.

Basic earnings (loss) per share are computed by dividing income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

The Company had total potential additional dilutive securities outstanding as follows.

6. Commitments and Contingencies

From time to time, the Company may be involved in litigation which occurs during the normal course of business.

Edward Petruzzo

In the matter of Edward Petruzzo v. Endexx Corporation (Case No. CV2024-090489, Superior Court of the State of Arizona, in and for the County of Maricopa), a default judgment was entered against the Company on August 6, 2024. This judgment pertains to a breach of contract claim asserted by the plaintiff related to alleged unpaid services and unreimbursed expenses. According to correspondence from plaintiff's counsel dated February 24, 2025, the judgment amount, including accrued interest since August 6, 2024, was approximately \$616,123 at that date, with interest continuing to accrue at a reported rate of approximately \$154.36 per day.

The Company is actively contesting this judgment and is evaluating all its legal options, including efforts to have the judgment set aside; these efforts are ongoing. For the period ended June 30, 2025, the Company has recorded a provision of \$600,000 related to this matter, which is included in 'Accrued Expenses' on the Consolidated Balance Sheets and recognized as 'Other Expenses' in the Consolidated Statements of Operations. Due to the ongoing legal proceedings and the continued accrual of interest, the ultimate liability could differ from the amount accrued. There can be no assurance as to the final resolution of this matter or its ultimate financial impact on the Company.

Serious Promotions, Inc.

During October 2020, the Company entered into a five-year endorsement contract with an American DJ, record executive and producer, and media personality. In June 2022, Serious Promotions, Inc. filed a Petition before the American Arbitration Association seeking monetary damages against Endexx And Khode, LLC, a joint venture entered into by Serious Promotions and us. Serious Promotions alleges that Endexx and Khode failed to make certain payments of fees related to the Endorsement and License Agreement entered into by Serious Promotions and its president Khaled Mohamed Khaled (p/k/a DJ Khaled). In July 2022, Endexx and Khode filed counterclaims against Serious Promotions, Khaled and Impact Brokers for breach of the Endorsement and License Agreement and related violations of legal duties. During December 2024, the claims were settled with no amounts due from any party.

Noteholder dispute

During August 2021, the Company was informed a convertible note held by Noteholder B had been transferred to a third party and converted into shares of common stock. The outstanding balance of principal and interest at the time of conversion totaled approximately \$265,000. Subsequently, Noteholder B informed the Company that the note had not been transferred to the third party and no common shares had been delivered to Noteholder B. Noteholder B contends that the balance of the note, and accrued interest from August 2021 to present, remain outstanding. Noteholder B holds two notes, each of which is past due as of June 30, 2025. No default penalty has been enforced by Noteholder B. However, due to the dispute detailed above, Noteholder B's notes may incur interest at a 17% default rate.

The Company has determined it is probable that the dispute with Noteholder B will result in a negative outcome for the Company, estimated to be \$350,000. Accordingly, \$350,000 has been recorded as accrued expenses as of June 30, 2025, and September 30, 2024.

7. Related Party Transactions

Black Mountain Botanical

Black Mountain Botanical (BMB), an entity owned by the wife of Mr. Davis, the former CEO, had accounts payable due from the Company totaling \$32,932 at June 30, 2025, and September 30, 2024.

Hyla UK Holdco Limited

During August 2022, Hyla US Holdco Limited ("Hyla US") and Hyla UK Holdco Limited ("Hyla UK") entered into a Sales Agent Agreement ("SAA") whereby Hyla UK may act as an independent sales agent for Hyla US products at no additional expense to Hyla US. The term of the agreement is for one year and automatically renews annually unless terminated 90 days prior to expiration.
