**NOTE 1 - NATURE OF OPERATIONS**

**Description of Business:**

***Historical Information:***

Breakthrough Chemistry, Inc. ("Breakthrough" or "the Company") was incorporated in the State of Nevada under the name SuperiorClean, Inc. on March 29, 2001 to franchise and support third party carpet cleaning operations.

On September 25, 2003, the Company changed its name to Megola, Inc. ("Megola") pursuant to an acquisition agreement with Megola, Inc., an Ontario company ("Megola Canada"). On November 26, 2003, the Company and Megola Canada completed the agreement by way of a reverse acquisition. Megola Canada was formed to sell physical water treatment devices to a wide range of end-users in the United States, Canada and internationally under a license granted by Megola GmbH in Germany. Megola operated up until March 2016 when it no longer had the financial resources to continue to meet its ongoing obligations in the normal course and was subsequently struck in the State of Nevada. The Company was reinstated on May 9, 2019 and on May 17, 2018, the 8<sup>th</sup> District Court for Clark County, Nevada, entered an Order granting the application for custodianship of Megola, Inc. to International Venture Society, LLC.

On September 24, 2018, Mr. William Eric Ottens paid \$50,000 to the then controlling shareholder for 1 share of Special 2018 Series A Preferred Shares. This effected a change of control, and Mr. Ottens became the sole officer and director of the Company.

On September 25, 2018, the Company entered into a formal agreement to ratify the divestiture of the shares of our former controlled subsidiary, Megola Canada, in agreement with 1863942 Ontario Corporation, an entity controlled by the officer and director of Megola Canada who is also a shareholder of the Company. Under the terms of the agreement, the Company transferred the shares of Megola Canada to 1863942 Ontario Corporation and assumed certain debts incurred in prior periods in the amount of \$205,184 which were paid by 1863942 Ontario Corporation.

On December 24, 2018, effective February 13, 2019, the Custodianship of Megola, Inc. in the State of Nevada was discharged.

On January 25, 2020, the Board of Directors of the Company and the majority shareholder of the Company approved an Amendment to the Articles of Incorporation whereby the Company designated a series of Preferred Shares, being Series D, E, F and G. Concurrently they approved the cancellation of the 2018 Special Series B and D shares of preferred stock upon their return to treasury. Further the Company received and approved the consents of Mr. Rodney Nettles and Mr. Bob Gardiner to serve as members of the Board of Directors of the Company, such action to take place upon the Company filing all required reports with OTCMarkets. The aforementioned Certificate of Amendment was filed with the State of Nevada on February 28, 2020.

On January 30, 2020, Mr. Ottens entered into an agreement with Mr. Rodney Nettles, whereunder he agreed to sell his 1 share of 2018 Special Series A Preferred Stock for cash consideration of \$50,000. Further to this agreement, certain shareholders holding the 2018 Special Series B and the 2018 Special Series D Preferred stock agreed to cancellation of their shares for cumulative cash consideration of \$15,000 from Mr. Nettles upon closing of the sale of the 2018 Special Series A Preferred Stock, all of which transactions are dependent upon the filing of all reports required with OTC Markets. The transactions contemplated by this agreement closed during the period covered by this report.

On May 21, 2020, Mr. William Eric Ottens resigned as the sole officer and director of the Company, and concurrently, Mr. Robert Gardiner was appointed President and a director and Mr. Rodney Nettles was appointed Secretary/Treasurer and a director.

While sales have commenced with respect to acquired inventory and product licenses, funds generated from these sales were not sufficient to pay debt and fund ongoing operations.

The Company's operations have been funded to date by management and shareholders, save for the acquisition costs to purchase certain assets, licensing and intellectual property rights which were partially funded from the sales of acquired product inventory and through the issuance of shares of the Company's preferred stock. The Company expects this funding to continue until such time as it can acquire a profitable operating business or undertake a financing. There can be no assurance that the Company will continue to receive this funding from management or shareholders, will be able to generate sufficient revenue from sales of products or that the funding received or generated will be sufficient to pay for its ongoing operations. Management's plans for the continuation of the Company as a going concern includes successful operation of its recently acquired assets in order to attain profitable operations, the development of a commercially viable business, and financing of the Company's operations through sale of its common stock, as well as shareholder and management advances until such time as it has established profitable operations.

**NOTE 3 - USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS**

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of these financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 4 – SUMMARY OF ACCOUNTING POLICIES**

Intangible Assets

**NOTE 4 – SUMMARY OF ACCOUNTING POLICIES (Continued)**

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value. Management of the Company determined there was no impairment with respect to the carrying value of certain intangible assets during the fiscal year ended March 31, 2025. The Company recorded impairment of \$29,538 with respect to certain intangible assets in the year ended March 31, 2024.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, prepaid expenses, accounts payable and accrued liabilities, Advances payable to related parties, related party note payable, and related party convertible debt. The carrying value of these assets and liabilities is representative of their fair market value, due to the short maturity of these instruments.

Basic and Diluted Loss Per Share

In accordance with ASC Topic 260 – "Earnings Per Share," the basic loss per common share is computed by dividing the net loss available to common stockholders by the weighted average number of common stock outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional shares of common stock that would have been outstanding if the potential common stock had been issued and if the additional shares of common stock were dilutive.

Potential common stock consists of the incremental common stock issuable upon the exercise of common stock warrants (using the if-converted method), convertible notes, classes of shares with conversion features, stock awards and stock options. The computation of loss per share for the comparative periods excludes potentially dilutive securities of underlying preferred shares if their inclusion would be antidilutive. During the three months ended June 30, 2025, and 2024 the Company recorded net losses and therefore, inclusion of potentially dilutive securities would be antidilutive and are excluded from the statement of profit and loss. The table below reflects the potentially dilutive securities at periods ended June 30, 2025, and June 30, 2024.

	June 30, 2025	June 30, 2024
Series A Preferred Stock	2,126	1,700

**NOTE 4 – SUMMARY OF ACCOUNTING POLICIES (Continued)**

Revenue Recognition

The Company applies ASC 606 — Revenue from Contracts with Customers. Under ASC 606, the Company recognizes revenue from the commercial sales of products by applying the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to each performance obligation in the contract; and (5) recognize revenue when each performance obligation is satisfied.

The Company recognizes revenue when the earnings process is complete and persuasive evidence of an arrangement exists. This generally occurs when a purchased product has been shipped to a customer from our fulfillment center at which time both title and the risks and rewards of ownership are transferred to and accepted by the customer, and the selling price has been collected.

Inventory

Inventories, which consist of finished, saleable goods, are stated at the lower of cost or market value. Cost is determined using the first-in, first-out method and is adjusted to actual cost quarterly based on a physical count. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. We also hold raw materials in inventory which are valued at cost. During the three months ended June 30, 2025 and 2024, the Company did not record any impairments to its inventory.

Warranty

While we offer a return policy which includes a 30-day money back guarantee, in the most recent two years of product sales there have been no product returns and therefore we have not recorded a liability for any warranty obligations. We assess the need for warranty and return liabilities at each report date.

Advertising Costs

The Company expenses advertising costs as incurred or the first time the advertising takes place, whichever is earlier, in accordance with ASC 720-35. There were no advertising costs incurred during the three months ended June 30, 2025, and 2024.

Research and Development Costs

The Company charges research and development costs to expense when incurred in accordance with FASB ASC 730, "Research and Development". Research and development costs during the three months ended June 30, 2025, and 2024 were \$0.

Stock Settled Debt

In certain instances, the Company will issue convertible notes which contain a provision in which the price of the conversion feature is priced at a fixed discount to the trading price of the Company's common shares as traded on the over-the-counter market. In these instances, the Company records a liability, in addition to the principal amount of the convertible note, as stock-settled debt for the fixed value transferred to the convertible note holder from the fixed discount conversion feature. As of June 30, 2025 and March 31, 2025, the Company had no stock settled debt.

A valuation allowance is recognized on deferred tax assets when it is more likely than not that some or all of these deferred tax assets will not be realized.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.
