4) Issuer’s Business, Products and Services

The purpose of this section is to provide a clear description of the issuer’s current operations. Ensure that these descriptions are updated on the Company’s Profile on www.OTCMarkets.com.

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

The Company's Delaware wholly-owned subsidiary ADG Subsidiary Corp. (“ADG”) currently consults with Africa-based clients. The Company's primary businesses include agriculture/sustainability, power, media, strategic minerals, and finance sectors on the African continent. The Company, through its wholly-owned subsidiary, is committed to all aspects of environmental, social and governance issues in its business.

In its agriculture/sustainability sector, the Company previously entered into a strategic partnership with African Agriculture Holdings Inc. (NASDAQ:AAGR), whereby AFDG would provide management, strategic, financial advisory and operational support to AAGR, a dynamic African- focused agricultural opportunity, in exchange for which AAGR agreed to pay AFDG an advisory fee including a grant of shares or other potential incentive awards. In April 2024, the partes agreed to terminate this agreement. Since terminating this agreement with AFDG, AAGR has seemingly struggled to sustain

the business or raise any additional capital. As a result of the uncertainty of continued operations of AAGR, AFDG has written down the value of the share grants received, receivables and loans due from AAGR to reflect this.

In the power sector, the Company has an agreement with Monitor Power Systems, a New York and Oslo based project finance company for business development services on the African continent. This agreement, pertaining to power and infrastructure, will provide ADG a multi-year royalty stream if, as and when construction of each project is completed. We have marked down this investment given the demise of the Company's CEO and the resultant uncertainty regarding its ability to execute on its contracted pipeline.

In the media sector, AFDG has made an investment in the African focused social media group Ogéllé (www.Ogéllé.com). AFDG has exercised and funded its option to increase its investment in Ogéllé from 5% to 10%. Alan Kessler, AFDG's CEO, also holds a role on the Board of Directors of Reddot Television Network, Ltd., the Nigerian company which owns Ogéllé. We have marked down this investment given the challenges that Ogelle faced in building out its business and its challenges of raising additional equity to fund growth following COVID-19

The Company was initially organized to operate as an online tax preparation service in the North American market. On December 7, 2011, the Company, its then principal shareholder, Earn-A-Car (PTY), Ltd., a South African corporation ("EAC") and DPL completed a reorganization pursuant to which DPL acquired 78,750,000 shares of our common stock from the former principal, EAC became a wholly owned subsidiary of the Company, and the business of the Company then became the business of EAC, i.e., the daily rental of vehicles in the South African market. The Company remained in the vehicle rental business until November, 2020.

B. List any subsidiaries, parent company, or affiliated companies.

The Company's 100% subsidiary is ADG Subsidiary Corp., a Delaware corporation (ADG), the information about which is incorporated by reference to Items 1 and 5A, herein.

C. Describe the issuers' principal products or services.

The Company's principal products and services are described in Items 1 and 5A, which are incorporated herein by reference.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

The Company owns no property. The Company's subsidiary ADG utilizes approximately 700 square feet at 110 East 40th street, 5th Floor, New York, NY 10016 pursuant to an arrangement on a month-to-month basis. This is a sharing model. Office space and conference facilities in Africa and Europe are paid per diem, as needed. There are no leases in Africa.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED AUGUST 31, 2025 AND AUGUST 31, 2024
(Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business –

AFRICAN DISCOVERY GROUP, INC. (the “Company”), formerly Earn-A-Car, Inc. until November, 2020, and formerly Victoria Internet Services, Inc. until March, 2012, was incorporated in the State of Nevada on October 9, 2009. On June 10, 2021, the Company converted to a Delaware corporation.

On November 13, 2020, the Company acquired 100% of African Discovery Group, Inc., a Delaware corporation (“ADG”), in exchange for the issuance of 562,500,000 restricted common shares of the Company. Alan Kessler is now the CEO and majority shareholder of the Company. The Company's previous South African car rental business was spun off to Depassez Investments, Ltd. (“DPL”), the Company's now former principal shareholder which sold its 78,750,000 shares to Mr. Kessler, and the business of the Company going forward is the business of ADG.

The Company's Delaware wholly-owned subsidiary ADG Subsidiary Corp. (“ADG”) currently consults with Africa-based clients. The Company's primary businesses include agriculture/sustainability, power, media, strategic minerals, and finance sectors on the African continent.

The Company was initially organized to operate as an online tax preparation service in the North American market. On December 7, 2011, the Company, its then principal shareholder, Earn-A-Car (PTY), Ltd., a South African corporation (“EAC”) and DPL completed a reorganization pursuant to which DPL acquired 78,750,000 shares of our common stock from the former principal, EAC became a wholly owned subsidiary of the Company, and the business of the Company then became the business of EAC, i.e., the daily rental of vehicles in the South African market. The Company remained in the vehicle rental business until November 2020.

Basis of Presentation– The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and are presented in U.S. Dollars. In the opinion of management, all adjustments necessary in order for the financial statements to be not misleading have been reflected herein. The Company has selected a February 28 year end. Given that ADG and EAC are not under common control, the historical financials of ADG are not retrospectively stated. ADG was combined utilizing the acquisition method of consolidation on November 13, 2020.

Estimates – The preparation of the Company’s consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the consolidated financial statements. Actual results could differ materially from those estimates.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand and on deposit, including highly liquid investments with initial maturities of three months or less. At August 31, 2025 and February 28, 2024, the Company had \$5 and \$(7) in cash and cash equivalents, respectively.

Receivables and Payables– Trade receivables and payables are measured at initial recognition at fair value and are subsequently measured using the effective interest rate method of valuation. Appropriate allowances for estimated uncollectible receivable balances are recognized in profit or loss when there is evidence of impairment.

Long-Lived Assets – The Company reviews the value of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable based upon estimated future cash flows and records an impairment charge, equaling the excess of the carrying value over the estimated fair value, if the carrying value exceeds estimated future cash flows.

Revenue Recognition African Discovery Group, Inc. follows the guidance of Accounting Standards Codification (ASC) 606, Revenue from Contracts with Customers. ASC 606 creates a five-step model that requires entities to exercise judgment when considering the terms of contracts, which includes (1) identifying the contracts or agreements with a customer, (2) identifying our performance obligations in the contract or agreement, (3) determining the transaction price, (4) allocating the transaction price to the separate performance obligations, and (5) recognizing revenue as each performance obligation is satisfied. The Company only applies the five-step model to contracts when it is probable that the Company will collect the consideration it is entitled to in exchange for the services it transfers to its clients.

Income Taxes – The Company has provided for income taxes on its separate taxable income.

Fair value of financial instruments - The Company follows the provisions of ASC 820, “Fair Value Measurements and Disclosures.” ASC 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other the quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity’s own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts reported in the balance sheets for cash and cash equivalents, marketable securities, accounts payable, and related party payables approximate their fair market value based on the short-term maturity of these instruments.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Management believes it is not practical to estimate the fair value of due to related party because the transactions cannot be assumed to have been consummated at arm's length, the terms are not deemed to be market terms, there are no quoted values available for these instruments, and an independent valuation would not be practical due to the lack of data regarding similar instruments, if any, and the associated potential costs.

Earnings / Loss Per Share – Basic earnings or loss per share (“EPS”) is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted net earnings or loss per share attributable to common stockholders is computed by dividing the diluted net loss attributable to common stockholders by the weighted average number of common shares outstanding for the period, including potential dilutive common shares assuming the dilutive effect of common stock equivalent, if any. The Company has 38,000,000 options outstanding at August 31, 2025. The options entitle the holder to purchase one share of common stock at an exercise price of between \$0.004 and \$0.007 per share. The options are in-the-money options but have not been considered in the net loss per share calculation as they are anti-dilutive.

Related parties - Parties are considered to be related to the Company if the parties that, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests.

Share-based compensation - The Company measures compensation expense for all stock-based awards in accordance with ASC Topic 718, *Compensation — Stock Compensation*. Share-based compensation is measured at fair value on grant date and recognized as compensation expense ratably over the course of the requisite service period. The fair value of options is typically determined based on the fair value of the related options on the date of grant. The Company has elected to record forfeitures of employee awards as they occur.

New Accounting Standards – The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

2. DEBT AND OTHER OBLIGATIONS

The company currently has no debt or other obligations.

3. EQUITY

On November 14, 2011, the Company filed a Certificate of Amendment to its Articles of Incorporation, to effect a 50- for-1 forward common stock split and an increase in authorized common shares to 250,000,000.

On January 19, 2012, the Company cancelled 121,500,000 shares of common stock that were held by the former owner of Victoria Internet Services, Inc. On November 11, 2020, the Company's former principal shareholder sold 78,750,000 shares to Alan Kessler, owner and CEO of ADG.

On November 13, 2020, the Company acquired 100% of African Discovery Group, Inc (ADG, the Delaware subsidiary), in exchange for the issuance of 562,500,000 restricted common stock of the Company.

On November 13, 2020, Articles of Amendment were filed with the state of Nevada, updating the Company's name and capitalization. The amendment increased authorized common shares to 1,000,000,000 at par value \$0.0001. The authorized preferred shares were removed.

On February 8, 2021 the Company issued 9,064,953 restricted common shares to private investors, in exchange for the receipt of \$634,546 in a private fundraising transaction, at an offering price of \$0.07 per share. The restricted shares which were issued constituted approximately 1.3% of the Company's issued and outstanding shares. The proceeds of the offering were used to advance the Company's existing projects, for general corporate purposes, and in conjunction with the November, 2020 reverse merger related costs.

In March 2021, the Company raised an additional capital of \$82,000 by issuing 820,000 shares at \$0.10 per share.

In August 2021, the Company raised \$15,000 from an individual by issuing 150,000 shares at \$0.10 per share.

As of May 31, 2024, and February 28, 2023 there were 705,284,953 common shares outstanding, respectively.

In November and December of 2023, the Company issued 38,000,000 options under the 2023 Incentive Plan. The options entitle the holder to purchase one share of common stock at an exercise price of between \$0.004 and \$0.007 per share.

4. COMMITMENTS AND CONTINGENCIES

The Company has no commitments or contingencies.

5. RELATED PARTY TRANSACTIONS

The CEO of African Discovery Group, Inc and related parties have financed the Company \$258,909 to fund its operations as of August 31, 2025. These payables are not subject to any loan or note agreement.

6. INVESTMENTS

The Company previously invested in a 10% interest in Ogelle for \$462,127. Ogelle is an online video sharing resource and entertainment platform for African content only. Ogelle integrates User Generated Content (UGC) and exclusive original production Subscription Video on Demand (SVOD) delivered as free and subscription-based services. The Company has written down this investment over time due to the Company's view that the operations of Ogelle have not recovered from the effects of COVID, the challenges for Ogelle to raise further capital to grow the business to a scale sufficient to attract advertising revenue to achieve break even and profitability especially against the backdrop of a very challenging emerging market fundraising environment.

The Company had invested \$21,837 in an option in MPS Infrastructure. In addition, AFDG held approximately 2.8% of MPS Infrastructure. Following the untimely passing of the MPS Chairman and further disruption within the MPS management team, MPS has expressed concern regarding their ability to raise capital to fund their growth initiatives and ongoing working capital. Their expressions of concern regarding their going concern has prompted AFDG to write down the Company's investment in MPS.

As of November 30, 2023, the Company invested \$46,700 into Convertible Promissory Notes ("Notes") issued by African Agriculture, Inc. On December 6, 2023, African Agriculture completed its business combination with New York-based 10X Capital Venture Acquisition Corp II (NASDAQ: VCXA), at which point the combined company began public trading on the Nasdaq stock exchange under the ticker "AAGR" and changed the name to African Agriculture Holdings Inc. By operation of the terms of the Notes, they automatically converted into equity of the Combined Company. The Company now holds 6,755 common shares of AAGR. These shares are subject to various trading restrictions and lock ups. In addition, as of May 31, 2025, the Company invested \$41,425 into Promissory Notes ("Short Term Notes") issued by African Agriculture, Inc. The Short Term Notes bear a simple interest rate of sixteen percent (16%) per annum based on a 365-day year. The Short Term Notes are beyond their maturity and remain outstanding as of August 31, 2025. AAGR appears to have failed to raise further capital and following various deficiency notices appears to have been delisted from NASDAQ. The Company wrote down the value of the Short Term Notes and the converted shares reflecting the inability to obtain any additional information regarding the ability of AAGR to continue as a going concern or its ability of AAGR to meet its obligations to pay its commitments.

Further, the Company previously had an advisory agreement in place with AAGR in accordance with which AFDG would provide management, strategic, financial advisory and operational support to AAGR in exchange for which AAGR agreed to pay AFDG an ongoing monthly advisory fee including a grant of shares or other potential incentive awards. In November 2022, the predecessor board of AAGR awarded to AFDG 2,700,000 Restricted Stock Units ("RSUs") to be vested in the first half of 2024. The shares acquired in accordance with the RSUs once vested were restricted securities and subject to a lock up in accordance with the business combination agreement with VCXA. Following the business combination, the RSUs awarded in November 2022, were adjusted to reflect the merger consideration ratio and now amount to 2,356,496 RSUs. On April 8, 2024, Mr. Kessler and AAGR mutually agreed to end the agreement between the parties. Pursuant to that certain Resignation and General Release Agreement, dated April 8, 2024, by and between AAGR, Mr. Kessler, and AFDG, AFDG and Mr. Kessler agreed to permanently waive all claims to any unpaid wages, bonuses, commissions or other compensation arising prior to the execution of such agreement in consideration for the right to receive a one-time payment of \$330,000 upon the earlier to occur of various milestones (i) the date AAGR achieves a capital raise of at least \$5,000,000 in a single transaction or series of related transactions following, or (ii) December 31, 2024; provided, that, the board of AAGR may elect, in its sole discretion, (x) to pay such amount in installments, so long as it is paid in full no later than such deadline, and/or (y) to pay all or any portion of such amount in the form of shares of common stock of AAGR having a fair market value equal to the value of the portion of the \$330,000 payment so elected to be paid in common stock, as determined by the board of AAGR based on the closing share price of AAGR's common stock on the applicable payment date. Further the RSU awards granted to ADG were fully accelerated and vested as of the Effective Date of that Agreement. As noted above, AAGR appears to have been unsuccessful to date in raising capital needed to significantly advance its business since the date that this Agreement was signed with AAGR. As a result, during the year ended February 28, 2025 the Company raised a provision against the recoverability of the contracted obligations due from AAGR that were previously reflected in revenue and receivables.

7. SECURITIES

The Company holds investment classified as marketable securities in form of trading securities. The trading securities are recorded at fair value.

As of August 31, 2025, the Company's investment in Imara Asset Management's African Opportunities Fund that is subject to a monthly net asset value (NAV) calculation was valued at \$982.

8. EMPLOYEE AND NON-EMPLOYEE SHARE BASED COMPENSATION

In November 2023, the Company’s Board of Directors approved the adoption of the African Discovery Group, Inc. 2023 Incentive Plan (the “Plan”). The Plan permits the Company to grant up to 40,000,000 shares of the Company’s common stock.

The Plan provides for the granting of incentive and nonqualified stock options, share appreciation rights (SARs), restricted stock, and restricted stock units to employees, non-employee directors, and consultants of the Company. Instruments granted under the Plan generally become exercisable ratably over the stated vesting terms in each award agreement following the date of grant and expire ten years from the date of grant. All stock awards are exercisable only to the extent vested. The exercise price of incentive stock awards must be at least equal to 100% of the fair value of the Company’s common stock at the date of grant, as determined by the Board of Directors. In November and December of 2023, the Company issued 38,000,000 options under the 2023 Incentive Plan. The options entitle the holder to purchase one share of common stock at an exercise price of between \$0.004 and \$0.007 per share. As of August 31, 2025 these option awards have all vested.

The Board of Directors determined the grant date fair value of the stock awards, which had an exercise price equivalent to the market value at the grant date, to be \$0.008 and \$0.0017 per option on the respective grant dates, which was based on the application of the Black-Scholes methodology. As of August 31, 2025, there was no remaining unamortized share-based compensation cost. The unamortized share based compensation at year end was amortized during this quarter and recorded in compensation cost and non-employee expense with the offset to additional paid-in capital.

The table below shows share-based compensation expense recognized in the statement of operations for the period ended August 31, 2025 and August 31, 2024:

	Q1 AND Q2 2025	Q1 AND Q2 2024
Share based compensation expense:		
Professional fees – Q1	-	15,293
Professional fees – Q2	-	-
Total	\$ -	\$ 15,293

9. SUBSEQUENT EVENTS

Subsequent to August 31, 2025, up to the date hereof, the Company evaluated and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements other than as described below.

On September 25, 2025, the Company announced that it has signed a term sheet to acquire the Butembo Copper exploration license in the Democratic Republic of Congo (DRC) by acquiring 100% of the shares of SOCIETE GRABIN MINING SAS (the “Transaction”). The Butembo Copper project is a greenfield exploration project located in the North Kivu province of the Democratic Republic of Congo. 40km south of the provincial capital of Beni. The project is located 33km west of the Ugandan border with verified road and rail access to the port of Mombasa. The artisanal and first phase exploration pits around the flood plain of the Talehya River, which runs through the concession, have been tested over an initial 500m of strike length – and the results have been positive with one of these analyses reporting 18% Cu as well as 16.3% in another exploration pit. The Butembo deposit holds a strategically advantageous location, benefiting from proximity to regional infrastructure, which includes electrical power being available within reach of the project boundary. The site is located close to the Ugandan border, offering access to the East African transport corridor. This includes road and rail connections through Uganda to the port of Mombasa, Kenya—providing a viable export route for future development.

The combination of surface high-grade mineralization, artisanal activity, infrastructure access, and strategic location positions the Butembo Copper Project as a high-potential target for early-stage exploration and resource delineation. The stock-based transaction will create a copper exploration company, with a focus on creating value around Africa and DRC specifically focused on under explored basins of copper. DRC’s copper production is among the largest in the world, with the DRC concentrating 65% of newly announced copper reserves identified worldwide in 2023, according to S&P Global Market Intelligence.

As part of the closing of the transaction, AFDG is expected to issue shares to the shareholders of SOCIETE GRABIN MINING SAS. The Transaction is expected to result in the existing AFDG shareholders retaining a minority ownership of the Company. AFDG is aiming to close the Transaction in Q4 2025, subject to due diligence and a financing contingency. The management team at SOCIETE GRABIN MINING SAS will largely become the management team of the resultant combined Company with the current AFDG CEO, Alan Kessler, staying on in the role of a director of the Company. The new management that will drive value creation are driven by Andrew Groves, whose previous strategic exits in resources on the African continent include: Founder and CEO of CAMEC PLC, a cobalt and copper producer in the DRC that sold to ENRC for a billion dollar exit, Founder and CEO of AfricanPlatinum PLC, that sold to Impala Platinum for \$900mm, and the founder of Central African Gold that sold to New Dawn for \$300mm. Aldo Cesano, who intends to join the Board of Directors of the company, brings over 40 years of experience in mining and logistics development across the DRC, Zimbabwe and Southern Africa.
