

**Alternative Reporting Standard:
Disclosure Guidelines for the OTCID Basic Market**

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these OTCID Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for companies on the OTCID™ Basic Market and Pink Limited Market. Companies that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines and in accordance with the OTCID Rules to determine eligibility for the OTCID Market or Pink Limited Market as applicable.²

Current Information

To be eligible for the OTCID Market, Alternative Reporting companies make the information listed below publicly available through OTCIQ.com:

1. Initial Disclosure Obligations

Companies must upload the following documents through OTCIQ.com:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the current fiscal year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.

Qualifying Financial Statements include:

- Notes to Financial Statements

2. Ongoing Requirements

On an ongoing basis, companies must publish reports through OTCIQ.com on the following schedule:

- Quarterly Reports are due within **45 days** of the quarter end
- Annual Reports are due within **90 days** of the fiscal year end
- Management Certifications are due within **45 days** of the Annual Report due date

Other OTCID Eligibility Requirements:

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the OTCID Basic Market.

To remain on the OTCID Market, companies must continue to meet all other eligibility requirements of the [OTCID Rules](#) in addition to the disclosure requirements listed above.

Basis of Accounting:

The financial statements of the Company are presented on the accrual basis. The Company has elected a May 31, year-end. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Use of Estimates:

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts and disclosures at the date of the financial statements and during the reporting period. Actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies – continued

Cash and Cash Equivalents:

Cash and cash equivalents are comprised of cash and highly liquid investments with original maturity dates of less than three months that may not be reported as investments. While the Company may maintain cash and cash equivalents in bank deposit accounts, which at times exceed Federal Deposit Insurance Corporation insured limits, they have not experienced any losses in such accounts.

Management believes it is not exposed to any significant credit risk on cash and cash equivalents.

Impairment of Long-lived Assets:

The carrying value of intangible assets and other long-lived assets are reviewed on a regular basis for the existence of facts or circumstances that may suggest impairment. The Company recognizes impairment when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. Impairment losses, if any, are measured as the excess of the carrying amount of the asset over its estimated fair value. No impairment has been recognized as of this report date.

Net Income (Loss) per Share:

Net income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period and contains no dilutive securities. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of the Company. Potentially dilutive shares are excluded from the calculation of diluted net income (loss) per share because the effect is anti-dilutive.

Revenue:

The Company records revenue on the accrual basis when all goods and services have been performed and delivered, the amounts are readily determinable, and collection is reasonably assured. The Company has not generated any revenue since its inception.

Advertising:

The Company will expense its advertising when incurred. There has been no advertising since inception.
