Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The total number of shares of Common Stock which this Corporation is authorized to issue is Ten Billion (10,000,000,000) shares, par value \$0.0001. Each share of Common Stock is granted one vote, both cash and stock dividends are subject to Board approval and are subordinate to the Preferred Stock rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Each share of Series A Preferred Stock shall be convertible, at the option of the holder thereof, at any time or from time to time after one (1) year from the issuance of such share, into One Hundred (100) shares of Common Stock of the Company. Each outstanding share of Series A Preferred Stock shall be entitled to One Thousand (1,000) votes per share on all matters to which the shareholders of the Company are entitled or required to vote. In each calendar year, the holders of the then outstanding Series A Preferred Stock shall be entitled to receive when, as and if declared by the Board, out of any funds and assets of the Company legally available therefore, noncumulative dividends in an amount equal to any dividends or other Distribution on the Common Stock in such calendar year (other than a Common Stock Dividend). No dividends (other than a Common Stock Dividend) shall be paid, and no Distribution shall be made, with respect to the Common Stock unless dividends in such amount shall have been paid or declared and set apart for payment to the holders of the Series A Preferred Stock simultaneously. Dividends on the Series A Preferred Stock shall not be mandatory or cumulative, and no rights or interest shall accrue to the holders of the Series A Preferred Stock by reason of the fact that the Company shall fail to declare or pay dividends on the Series A Preferred Stock, except for such rights or interest that may arise as a result of the Company paying a dividend or making a Distribution on the Common Stock.

Each share of Series B Preferred Stock shall be convertible, at the option of the holder thereof, at any time or from time to time after one (1) year from the issuance of such share, into One Hundred Million (100,000,000) shares of Common Stock of the Company. Each outstanding share of Series B Preferred Stock shall be entitled to One Hundred Million (100,000,000) votes per share on all matters to which the shareholders of the Company are entitled or required to vote. In each calendar year, the holders of the then outstanding Series B Preferred Stock shall be entitled to receive, when, as and if declared by the Board, out of any funds and assets of the Company legally available therefore, noncumulative dividends in an amount equal to any dividends or other Distribution on the Common Stock in such calendar year (other than a Common Stock Dividend). No dividends (other than a Common Stock Dividend) shall be paid, and no Distribution shall be made, with respect to the Common Stock unless dividends in such amount shall have been paid or declared and set apart for payment to the holders of the Series B Preferred Stock simultaneously. Dividends on the Series B Preferred Stock shall not be mandatory or cumulative, and no rights or interest shall accrue to the holders of the Series B Preferred Stock by reason of the fact that the Company shall fail to declare or pay dividends on the Series B Preferred Stock, except for such rights or interest that may arise as a result of the Company paying a dividend or making a Distribution on the Common Stock.

3. Describe any other material rights of common or preferred stockholders.

In case, at any time after the date hereof, of any capital reorganization, or any reclassification of the stock of the Company (other than a change in par value or as a result of a stock dividend or subdivision, split-up or combination of shares), or the consolidation or merger of the Company with or into another person (other than a consolidation or merger in which the Company is the continuing entity and which does not result in any change in the Common Stock), or of the sale or other disposition of all or substantially all the properties and assets of the Company as an entirety to any other person, the shares of

Series B Preferred Stock shall, after such reorganization, reclassification, consolidation, merger, sale or other disposition, be convertible into the kind and number of shares of stock or other securities or property of the Company or of the entity resulting from such consolidation or surviving such merger or to which such properties and assets shall have been sold or otherwise disposed to which such holder would have been entitled if immediately prior to such reorganization, reclassification, consolidation, merger, sale or other disposition it had converted its shares of Series B Preferred Stock into Common Stock. The provisions of this section 5(a) shall similarly apply to successive reorganizations, reclassifications, consolidations, mergers, sales or other dispositions. The provisions of this section 15 shall not affect the conversion of the Class B Preferred Stock in the event of a forward or reverse stock split.

Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

NONE

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.**

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Before acquiring our Marion, North Carolina bottling facility on February 6, 2019, we operated our legacy business, which was the manufacture and distribution of a line of 25 high quality consumer focused inkjet kits. On February 5, 2019, our board of directors made a determination to wind down our legacy business and to transition into the beverage and bottling business. On February 6, 2019 we acquired Mammoth Ventures Inc. ("Mammoth"), as a wholly owned subsidiary. On February 6, 2019, Greene Concepts Inc. acquired 100% of the outstanding shares of Mammoth Ventures Inc. which included all assets owned by Mammoth Ventures Inc. including the Marion, North Carolina facility and all bottling equipment and other assets formerly known as the North Cove Springs Bottling and Beverage from BNL Capital LLC.

Greene Concepts, Inc. acquired the company Stay Hemp 4 Life LLC ("STAY") as a wholly owned subsidiary of Greene Concepts. Stay Hemp 4 Life, a manufacturer and distributor of all-natural hemp infused sports drinks, drink landscape with its quality hemp extract beverages.

The North Cove Springs bottling plant will be focused on a variety of beverage product lines including, but not limited to CBD infused beverages, spring and artesian water, as well as enhanced athletic drinks in addition to other product offerings.

The Company will be introducing several primary products with announcements that will provide product details as well as details of their operations in the near future.

B. List any subsidiaries, parent company, or affiliated companies.

On February 6, 2019, we acquired Mammoth Ventures Inc. ("Mammoth"), as a wholly owned subsidiary. On January 1, 2021, we created The Water Club. ("Water Club"), as a wholly owned subsidiary for the sales of online products. Greene Concepts, Inc. acquired the company Stay Hemp 4 Life LLC ("STAY") as a wholly owned subsidiary of Greene Concepts. Stay Hemp 4 Life, a manufacturer and distributor of all-natural hemp infused sports drinks

C. Describe the issuers' principal products or services.

Each 20 FL OZ Stay Hemp drink will consist of 20 MG of Greene Concepts' proprietary blended broad spectrum hemp extract containing essential vitamins and minerals designed to help support revitalization, focus and relaxation of the body. Each flavor profile delivers a unique experience to include:

Stay Energized Lemon Lime – Energy (120 MG Caffeine)
Stay Calm Pineapple Mint – Calmness (Made with Fresh Mint) cape with its quality hemp extract beverages.
These products are being bottled and shipped from a contracted Colorado facility.

BUSINESS DEVELOPMENTS DURING FISCAL YEAR 2025

Expanded Retail Distribution and Strategic Growth

Greene Concepts, Inc. continued its strong growth trajectory throughout Fiscal 2025, achieving major retail expansion and strengthening its national footprint for the Be Water™ brand. The Company extended Be Water six-pack distribution beyond the Southeast into Walmart distribution centers located in Arizona, Colorado, Florida, Illinois, Louisiana, and New Mexico.

With Walmart's bottled water category generating over \$10 billion in annual sales, Greene Concepts is well positioned to reach millions of additional consumers across the United States. The Company maintains a Walmart blanket purchase order and continues to collaborate with Anderson Merchandisers to optimize in-store placement, inventory management, and performance tracking.

Greene Concepts also expanded its gallon-sized and white-label production capabilities, supplying retailers such as Walmart, Camping World, and more than 100 regional outlets near its Marion, North Carolina bottling plant. During the year, the Company began a white-label manufacturing relationship with a well-known spring water brand to produce and distribute 24 packs, 6-packs and gallon-sized bottles throughout the Eastern United States.

E-Commerce and Technology Partnerships

Greene Concepts broadened its digital presence by joining Temu, one of America's fastest-growing e-commerce platforms with a customer reach exceeding 100 million. This partnership offers a cost-effective channel to increase brand visibility, test new product configurations and pricing models, and engage younger, digital-first consumers who may become long-term retail customers.

The Company also initiated collaboration with Keychain, an AI-powered CPG manufacturing network that connects more than 30,000 manufacturers and 20,000 brands, representing over \$1 billion in monthly project value. Through Keychain, Greene Concepts gains broader exposure for its bottling and co-packing services while enhancing transparency, efficiency, and scalability across operations.

Strategic benefits of Keychain include:

- **Expanded Market Access:** Increased exposure to major CPG brands and retailers nationwide.
- **Operational Efficiency:** Streamlined sourcing, documentation, and workflow management.
- **Enhanced Credibility:** Keychain's vetted network underscores Greene Concepts' compliance and production reliability.
- **Shareholder Value Creation:** Greater project flow drives higher facility utilization, revenue growth, and long-term scalability.

Marketing, Brand Partnerships, and Public Relations Growth

The Company advanced its marketing and community engagement strategy, amplifying Be Water's regional and national visibility. A dedicated regional brand ambassador strengthened awareness across a 100-mile radius of the Marion, NC bottling facility through direct outreach, digital engagement, and event participation.

Be Water gained national exposure through its televised New to the Street interview series and inclusion in the Grand View Research Bottled Water Market Report (2025–2030), which recognized Greene Concepts' expanding market presence.

Collaborations included partnerships with Aiguille Rock Climbing Center and the Southeastern Climbers Coalition, where Be Water was distributed at major training sessions and events, including the 2025 SummerSlam Bouldering Competition in Longwood, Florida. The Company also provided Be Water to members of the Longwood Fire Department during a three-day emergency preparedness training, reinforcing its community involvement.

Furthering its digital reach, Greene Concepts established a company profile on Nombase, a CPG industry networking platform connecting sustainable and wellness-oriented brands with trusted partners, investors, and suppliers.

In June 2025, Greene Concepts was again featured on New to the Street, spotlighting the Company's expanding Walmart footprint, Camping World rollout, and upcoming product launches.

Operational Excellence and Quality Advancements

The Company completed several key infrastructure improvements at its Marion, North Carolina bottling facility, including upgraded security systems, modernized lighting, insulation repairs, conveyor enhancements, and comprehensive HACCP training for all production staff. These enhancements reinforce the Company's commitment to quality, safety, and scalability for national and international operations.

Greene Concepts continues to meet and exceed Safe Quality Food (SQF) and North Carolina Department of Agriculture compliance standards. The Company conducts frequent internal and third-party water quality tests to ensure purity, safety, and environmental integrity.

A new large-scale refill station was also completed at the Marion plant, providing clean artesian water to commercial, government, and private clients for both domestic and export applications.

Strategic Collaborations and Co-Packing Expansion

Greene Concepts strengthened its position through several key partnerships designed to enhance brand awareness, expand production capacity, and create new business opportunities.

The Company continued its collaboration with Be Climbing, Inc. (Aiguille Rock Climbing Center) to engage the \$2.9 billion indoor climbing industry, while simultaneously advancing discussions with a Middle Eastern manufacturing company to support cost-efficient in-house bottle production.

Additionally, Greene Concepts announced its partnership with Prevail Water, a certified minority-owned beverage company, to develop initiatives addressing domestic water scarcity across the U.S. The Company also fulfilled multiple co-pack and white-label orders and completed the installation of a new gallon-line production system to support bulk and eco-friendly distribution formats.

Financial Strength and Business Growth

In Fiscal 2025, Greene Concepts announced the cancellation of all convertible notes, eliminating \$313,995.68 in toxic debt. This action represents a significant strengthening of the Company's financial position and prevented the potential dilution of approximately 6.28 billion shares that could have resulted from note conversion.

In March 2025, the Company issued a press release celebrating five years of growth and community impact through its flagship Be Water brand—highlighting its retail expansion, community partnerships, and reliable supply during national crises.

The Company also engaged a licensed geologist to conduct a feasibility study of rare earth and metallic minerals across its 4.5-acre bottling site in Marion, NC. Preliminary findings identified the presence of manganese, copper, and zinc, creating opportunities for future resource development, revenue diversification, and local workforce expansion.

Greene Concepts also launched nationwide online sales for Be Water six-packs via Walmart.com, offering free shipping for Walmart+ members and introducing millions of consumers to premium artesian spring water sourced from beneath the Blue Ridge Mountains.

A redesigned corporate website debuted in early 2025, offering improved navigation, mobile optimization, and enhanced storytelling about the Company's mission, sustainability, and brand heritage.

The Company continues to explore international clean-water initiatives across the Middle East and North Africa (MENA), supporting regional water scarcity solutions through bulk refill infrastructure and deep-aquifer sourcing.

Business Plan Objectives

Greene Concepts' Fiscal 2025 initiatives align with its long-term objectives to:

- Expand its national broker network
- Increase manufacturing capacity and efficiency
- Extend retail distribution through major national partners
- Add support personnel for brokers, distributors, and retail accounts
- Strengthen marketing and influencer campaigns

These efforts support the Company's long-term pillars of success: expansive market potential, rapid growth capability, experienced leadership, sustainable competitive advantage, scalability, and a proven commercialization model.

Operational Readiness and Industry Growth

The Be Water product portfolio includes multiple formats to serve both retail and institutional customers:

1. 24-Pack Cases – Ideal for bulk and high-demand sales.
2. 6-Pack Cases – Designed for portability and convenient retail placement.
3. Four 6-Pack Cases (24 Bottles Total) – Balancing scale and flexibility.
4. Single Bottles – For individual sales and cooler displays.
5. Gallon Bottles – Economical and family-friendly.
6. Private/Third-Party Labeling – Scalable manufacturing for custom brand partners.

To meet Walmart's operational standards, Greene Concepts completed Walmart Academy Training and integrated SPS Commerce's Electronic Data Interchange (EDI) system to automate ordering, invoicing, and logistics. These measures enhance efficiency, accuracy, and vendor compliance—enabling Be Water to reach Walmart shelves faster and more effectively.

Be Water is available in 6-pack and 24-bottle configurations via Walmart.com, with retail distribution continuing to expand nationwide.

Industry Outlook

The global bottled water market remains robust, valued at \$353.6 billion in 2025 and projected to reach \$565.2 billion by 2034 (5.35% CAGR, Precedence Research). The United States remains the world's largest consumer of bottled water, driven by rising health awareness, water scarcity concerns, and the continued premiumization of the category.

Greene Concepts' growth strategy aligns squarely with these market trends. The Company received recognition in Grand View Research's 2025 industry report, which highlighted Greene Concepts' expansion of Be Water six-pack distribution through Walmart as a key strategic initiative to increase national visibility and consumer access.

5) Issuer's Facilities

The Company leased office space in Clovis, CA for administrative functions. The Company has a long-term lease currently in place but no plans to purchase any facility.

The issuer has complete ownership of the 60,000 square foot Beverage and Bottling plant located on 4.5 acres of Land, in Marion North Carolina. The property is in good condition and sufficient for the company's current needs. Issuer is presently operating this facility in North Carolina. The Company is in the process of adding another 20,000 square feet to the Bottling Plant in North Carolina for additional processing capability.

GREENE CONCEPTS, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2025

NOTE 1 – ORGANIZATION AND OPERATIONS

Greene Concepts, Inc. is headquartered in the City of Fresno, California and has been in service for fifty-eight years. The Company manufactured and distributed a line of 25 high quality consumer focused inkjet kits. The Company has recently divested itself of these operations and have acquired a facility that will be focused on production of a variety of beverage product lines including, but not limited to CBD infused beverages, spring and artesian water, as well as enhanced athletic drinks in addition to other product offerings. The Company has prepared these financial statements on the accrual basis of accounting.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Greene Concepts, Inc. (the Company) is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for the integrity and objectivity of the financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of financial statements.

B. BASIS OF ACCOUNTING

The Company utilizes the accrual method of accounting, whereby revenue is recognized when earned and expenses when incurred. The unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. As such, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and these adjustments are of a normal recurring nature.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

D. CASH AND CASH EQUIVALENTS Cash and cash equivalents include cash on hand; cash in banks and any highly liquid investments with a maturity of three months or less at the time of purchase. The Company maintains cash and cash equivalent balances at several financial institutions, which are insured by the Federal Deposit Insurance Corporation for up to \$250,000.

E. FIXED ASSETS Fixed assets are carried at cost. Depreciation is computed using the straight-line method of depreciation over the assets estimated useful lives. Maintenance and repairs are charged to expense as incurred; major renewals and improvements are capitalized. When items of fixed assets are sold or retired, the related cost and accumulated depreciation is removed from the accounts and any gain or loss is included in the income. In February 2019 the Company acquired Mammoth Ventures Inc. which included all assets owned by Mammoth including the Marion, North Carolina facility and all bottling equipment and other assets formerly known as the North Cove Springs Bottling and Beverage from BNL Capital LLC. Depreciation for the year ended July 31, 2025, and 2024 was \$68,962, respectively.

F. COMPUTATION OF EARNINGS PER SHARE

Net income per share is computed by dividing the net income by the weighted average number of common shares outstanding during the period.

G. INCOME TAXES

In February 1992, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards 109 of “Accounting for Income Taxes.” Under Statement 109, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

	<u>As of July 31, 2025</u>	<u>As of July 31, 2024</u>
Net operating loss carryforward	(8,234,580)	(8,065,038)
Valuation allowance	<u>(8,234,580)</u>	<u>(8,065,038)</u>
Net deferred tax assets	<u>\$ —</u>	<u>\$ —</u>

A reconciliation of the statutory federal income tax rate to the Company’s effective tax rate is as follows:

	<u>For the Nine Months ended July 31, 2025</u>	<u>For the Nine Months ended July 31, 2024</u>
Expected federal statutory rate	(21)%	(21)%
State Effect on tax rate, net of federal benefit	(4.35)%	(4.35)%
Change in valuation allowance	<u>25.35%</u>	<u>25.35%</u>
Income tax provision (benefit)	2,087,466	2,044,487

The Company, after considering all available evidence, fully reserved its deferred tax assets since it is more likely than not that such benefits may be realized in future periods. The Company has not yet established that it can generate taxable income. The Company will continue to evaluate its deferred tax assets to determine whether any changes in circumstances could affect the realization of their future benefit. If it is determined in future periods that portions of the Company’s deferred tax assets satisfy the realization standards, the valuation allowance will be reduced accordingly.

G. REVENUE RECOGNITION

Revenue for license fees is recognized upon the execution and closing of the contract for the amount of the contract. Contract fees are generally due based upon various progress milestones. Revenue from contract payments are estimated and accrued as earned. Any adjustments between actual contract payments and estimates are made to current operations in the period they are determined.

H. FAIR VALUE OF FINANCIAL INSTRUMENTS

Statement of Financial Accounting Standards No. 107, “Disclosures about Fair Value of Financial Instruments”, requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts reported in the balance sheet for cash, accounts receivable, inventory, accounts payable and accrued expenses, and loans payable approximate their fair market value based on the short-term maturity of these instruments.

The Company wrote the principal and accumulated interest of the above listed Notes in the fourth Quarter of the fiscal year. The Principal of the Notes written off was \$211, 873.00 and the accumulated interest was \$97,049.86.

NOTE 3 – REGULATION A OFFERING

Effective October 24, 2025 the Company is offering 1,000,000,000 units of our securities (the “Units” or the “Offered Units”), with each Unit consisting of 3 Shares of Common Stock, par value \$0.0001 (the “Common Stock”), and 2 warrants (each a “Warrant”) to purchase one share each of Common Stock (each, a “Warrant Share”) exercisable at \$0.01 per Warrant, of which 362,833,333 Units have been sold for cash in the total amount of \$1,287,000 and of which 337,166,667 Units, the Remaining Units, are being offered at a fixed price \$0.002 per Remaining Unit. The Units are being offered by our company on a best-efforts basis with no minimum offering required, pursuant to Tier 1 of Regulation A of the United States Securities and Exchange Commission (the “SEC”).

Through the sale of the Offered Units, the Company is offering a maximum of 3,500,000,000 shares of Common Stock, including the Warrant Shares. Once a Unit is purchased by an investor, such investor may separately transfer the Common Stock and the Warrant comprising the Units, at such investor’s discretion. The Warrants are exercisable upon purchase. Once the Units offered by the Company are qualified by the SEC, the Common Stock and Warrants comprising the Units, including the Warrant Shares, will have been qualified.

The Company has sold 971,661,616 units of its securities, with each unit being comprised of three shares of common stock and two warrants to purchase a share of common stock at an exercise price of \$.01 per share, in its current Regulation A offering (SEC File No. 024-12157), for a total of \$515,000 in cash.

NOTE 4 – BUSINESS DEVELOPMENTS DURING FISCAL YEAR 2025

Expanded Retail Distribution and Strategic Growth

Greene Concepts, Inc. continued its strong growth trajectory throughout Fiscal 2025, achieving major retail expansion and strengthening its national footprint for the Be Water™ brand. The Company extended Be Water six-pack distribution beyond the Southeast into Walmart distribution centers located in Arizona, Colorado, Florida, Illinois, Louisiana, and New Mexico.

With Walmart's bottled water category generating over \$10 billion in annual sales, Greene Concepts is well positioned to reach millions of additional consumers across the United States. The Company maintains a Walmart blanket purchase order and continues to collaborate with Anderson Merchandisers to optimize in-store placement, inventory management, and performance tracking.

Greene Concepts also expanded its gallon-sized and white-label production capabilities, supplying retailers such as Walmart, Camping World, and more than 100 regional outlets near its Marion, North Carolina bottling plant. During the year, the Company began a white-label manufacturing relationship with a well-known spring water brand to produce and distribute 24 packs, 6-packs and gallon-sized bottles throughout the Eastern United States.

E-Commerce and Technology Partnerships

Greene Concepts broadened its digital presence by joining Temu, one of America's fastest-growing e-commerce platforms with a customer reach exceeding 100 million. This partnership offers a cost-effective channel to increase brand visibility, test new product configurations and pricing models, and engage younger, digital-first consumers who may become long-term retail customers.

The Company also initiated collaboration with Keychain, an AI-powered CPG manufacturing network that connects more than 30,000 manufacturers and 20,000 brands, representing over \$1 billion in monthly project value. Through Keychain, Greene Concepts gains broader exposure for its bottling and co-packing services while enhancing transparency, efficiency, and scalability across operations.

Strategic benefits of Keychain include:

- **Expanded Market Access:** Increased exposure to major CPG brands and retailers nationwide.
- **Operational Efficiency:** Streamlined sourcing, documentation, and workflow management.
- **Enhanced Credibility:** Keychain's vetted network underscores Greene Concepts' compliance and production reliability.
- **Shareholder Value Creation:** Greater project flow drives higher facility utilization, revenue growth, and long-term scalability.

Marketing, Brand Partnerships, and Public Relations Growth

The Company advanced its marketing and community engagement strategy, amplifying Be Water's regional and national visibility. A dedicated regional brand ambassador strengthened awareness across a 100-mile radius of the Marion, NC bottling facility through direct outreach, digital engagement, and event participation.

Be Water gained national exposure through its televised New to the Street interview series and inclusion in the Grand View Research Bottled Water Market Report (2025–2030), which recognized Greene Concepts' expanding market presence.

Collaborations included partnerships with Aiguille Rock Climbing Center and the Southeastern Climbers Coalition, where Be Water was distributed at major training sessions and events, including the 2025 SummerSlam Bouldering Competition in Longwood, Florida. The Company also provided Be Water to members of the Longwood Fire Department during a three-day emergency preparedness training, reinforcing its community involvement.

Furthering its digital reach, Greene Concepts established a company profile on Nombase, a CPG industry networking platform connecting sustainable and wellness-oriented brands with trusted partners, investors, and suppliers.

In June 2025, Greene Concepts was again featured on New to the Street, spotlighting the Company's expanding Walmart footprint, Camping World rollout, and upcoming product launches.

Operational Excellence and Quality Advancements

The Company completed several key infrastructure improvements at its Marion, North Carolina bottling facility, including upgraded security systems, modernized lighting, insulation repairs, conveyor enhancements, and comprehensive HACCP training for all production staff. These enhancements reinforce the Company's commitment to quality, safety, and scalability for national and international operations.

Greene Concepts continues to meet and exceed Safe Quality Food (SQF) and North Carolina Department of Agriculture compliance standards. The Company conducts frequent internal and third-party water quality tests to ensure purity, safety, and environmental integrity.

A new large-scale refill station was also completed at the Marion plant, providing clean artesian water to commercial, government, and private clients for both domestic and export applications.

Strategic Collaborations and Co-Packing Expansion

Greene Concepts strengthened its position through several key partnerships designed to enhance brand awareness, expand production capacity, and create new business opportunities.

The Company continued its collaboration with Be Climbing, Inc. (Aiguille Rock Climbing Center) to engage the \$2.9 billion indoor climbing industry, while simultaneously advancing discussions with a Middle Eastern manufacturing company to support cost-efficient in-house bottle production.

Additionally, Greene Concepts announced its partnership with Prevail Water, a certified minority-owned beverage company, to develop initiatives addressing domestic water scarcity across the U.S. The Company also fulfilled multiple co-pack and white-label orders and completed the installation of a new gallon-line production system to support bulk and eco-friendly distribution formats.

Financial Strength and Business Growth

In Fiscal 2025, Greene Concepts announced the cancellation of all convertible notes, eliminating \$313,995.68 in toxic debt. This action represents a significant strengthening of the Company's financial position and prevented the potential dilution of approximately 6.28 billion shares that could have resulted from note conversion.

In March 2025, the Company issued a press release celebrating five years of growth and community impact through its flagship Be Water brand—highlighting its retail expansion, community partnerships, and reliable supply during national crises.

The Company also engaged a licensed geologist to conduct a feasibility study of rare earth and metallic minerals across its 4.5-acre bottling site in Marion, NC. Preliminary findings identified the presence of manganese, copper, and zinc, creating opportunities for future resource development, revenue diversification, and local workforce expansion.

Greene Concepts also launched nationwide online sales for Be Water six-packs via Walmart.com, offering free shipping for Walmart+ members and introducing millions of consumers to premium artesian spring water sourced from beneath the Blue Ridge Mountains.

A redesigned corporate website debuted in early 2025, offering improved navigation, mobile optimization, and enhanced storytelling about the Company's mission, sustainability, and brand heritage.

The Company continues to explore international clean-water initiatives across the Middle East and North Africa (MENA), supporting regional water scarcity solutions through bulk refill infrastructure and deep-aquifer sourcing.

Business Plan Objectives

Greene Concepts' Fiscal 2025 initiatives align with its long-term objectives to:

- Expand its national broker network
- Increase manufacturing capacity and efficiency
- Extend retail distribution through major national partners
- Add support personnel for brokers, distributors, and retail accounts
- Strengthen marketing and influencer campaigns

These efforts support the Company's long-term pillars of success: expansive market potential, rapid growth capability, experienced leadership, sustainable competitive advantage, scalability, and a proven commercialization model.

Operational Readiness and Industry Growth

The Be Water product portfolio includes multiple formats to serve both retail and institutional customers:

7. 24-Pack Cases – Ideal for bulk and high-demand sales.
8. 6-Pack Cases – Designed for portability and convenient retail placement.
9. Four 6-Pack Cases (24 Bottles Total) – Balancing scale and flexibility.
10. Single Bottles – For individual sales and cooler displays.
11. Gallon Bottles – Economical and family-friendly.
12. Private/Third-Party Labeling – Scalable manufacturing for custom brand partners.

To meet Walmart's operational standards, Greene Concepts completed Walmart Academy Training and integrated SPS Commerce's Electronic Data Interchange (EDI) system to automate ordering, invoicing, and logistics. These measures enhance efficiency, accuracy, and vendor compliance—enabling Be Water to reach Walmart shelves faster and more effectively.

Be Water is available in 6-pack and 24-bottle configurations via Walmart.com, with retail distribution continuing to expand nationwide.

Industry Outlook

The global bottled water market remains robust, valued at \$353.6 billion in 2025 and projected to reach \$565.2 billion by 2034 (5.35% CAGR, Precedence Research). The United States remains the world's largest consumer of bottled water, driven by rising health awareness, water scarcity concerns, and the continued premiumization of the category.

Greene Concepts' growth strategy aligns squarely with these market trends. The Company received recognition in Grand View Research's 2025 industry report, which highlighted Greene Concepts' expansion of Be Water six-pack distribution through Walmart as a key strategic initiative to increase national visibility and consumer access.
