4) Issuer's Business, Products and Services

A. Summary of the issuer's business operations

B.

The Mineral Company Ltd. (f/k/a INDO Global Exchange(s) Ltd.) has acquired a 50,000 SQM (or 538,196 sq. ft.), located in Jumilla, Spain for a total of EUR300,000.00 plus approximately an 11% tax assessment. Remarkably, the property is worth UR980M as shown by the independent appraisal performed by "Arquitasa" (Sociedad de Tasación), which has been homologated by "Banco de España." (See exhibits in 8K). The transaction was financed by the Seller, in a 7-year term loan at 2% per annum, guaranteed by

one of Igex Preferred Shareholder. The Source of repayment will from revenues generated. The lot is set to become the premier and biggest center in Southern Europe for storage, shipping, and development of minerals; particularly focusing on lithium and graphene, its applications and derivatives. Engineers and architects are already retained to work on all necessary plans and permits with the goal to break ground in less than 6 months aiming at having the first phase of the project completed and operational by year-end 2022. The lot(s) are located in an approved "urban" zone, thus not requiring rezoning applications. The construction of the center is permitted under the current zoning as shown in the attached exhibits. The company sold the Jumilla land for \$516,724.00 (Parts of the profits were used to pay for investment development and St. Andrews \$195,487.00). The difference shall be reflected as a future income. IGEX acquired 25% of St. Andrews, which is valued at \$6,000,000.00 (The purchase was partially paid, and the remaining balance there's a debt). On February 26, 2025, Indo Global Exchange(s) PTE, Ltd. (the "Company" or "IGEX") entered into a strategic agreement to eliminate \$5,000,000 in outstanding debt, significantly strengthening the Company's financial position and reinforcing its long-term growth strategy. This debt elimination is directly related to the March 18, 2024, acquisition of a 25% corporate membership interest in Saint Andrews Holding Company S.L., which was initially financed through a \$6,000,000 loan booked on the Company's balance sheet. The original agreement granted IGEX the opportunity to participate in Saint Andrews' extensive portfolio of sustainable marine aquaculture operations, valued at approximately \$8.16 million at the time of acquisition. The debt reduction was funded through personal investments from IGEX's Chief Executive Officer, Antonio Sainz, and The European Institute for Entrepreneurship (EIE), demonstrating a strong commitment to the Company's future success. Importantly, this transaction was carried out without dilution to existing shareholders and does not involve a reverse stock split, preserving investor value and confidence.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and are stated in US dollars. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date(s) of the financial statements and the reported amounts of revenues and expenses during the reporting period(s). Principles of Consolidation
The accompanying consolidated financial statements represent the consolidated financial

position and results of operations of the Company and its subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Income Taxes The Company records income taxes in accordance with the provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740, "Income Taxes." The standard requires, among other provisions, an asset and liability approach to recognize deferred tax liabilities and assets for the expected future tax consequences of temporary differences between the financial statement carrying amounts and tax basis of assets and liabilities. Valuation allowances are provided if based upon the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

Basic and Diluted Loss Per Share

Net loss per share is calculated in accordance with FASB ASC 260, Earnings Per Share, for the period presented. ASC 260 requires presentation of basic earnings per share and diluted earnings per share. Basic income (loss) per share ("Basic EPS") is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share ("Diluted EPS") is similarly calculated. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. For the period end July 31, 2025, and July 31, 2024, respectively, there were no potentially dilutive shares outstanding.

NOTE 3 - GOING CONCERN

These financial statements are presented on the basis that the Company is a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business over a reasonable length of time. For the period end July 31, 2025, the Company had incurred accumulated losses since inception of \$6,857,030. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the company be unable to continue as a going concern. Its continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing or refinancing as may be required, and ultimately to establish profitable operations. Management's plans for the continuation of the Company as a going concern include financing the company's operations through issuance of its common stock. If the Company is unable to complete its financing requirements or achieve revenue as projected, it will then modify its expenditures and plan of operations to coincide with the actual financing completed and actual operating revenues. There are no assurances, however, with respect to the future success of these plans.

NOTE 4 – ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses amounted to \$17,654 for the period end July 31, 2025. There were \$1,904 accrued expenses for the same period in 2024.

NOTE 6 – LOANS PAYABLE TO UNRELATED PARTIES

Loans payable to unrelated parties represent money due to the previous landowner of the Jumilla site. As of July 31, 2025, there were \$330,000 of outstanding loans payable to unrelated parties.

The company sold the Jumilla land for \$1,604,524 (Parts of the profits were used to pay for investment development and St. Andrews \$195,487.00). The difference of \$516,724 shall be reflected in deferred Gain on the Sale of the Asset.

IGEX acquired 25% of St. Andrews, which is valued at \$6,000,000, which was reflected as a debt. On February 26, 2025, the Company entered into a strategic agreement to eliminate \$5,000,000 in outstanding debt, significantly strengthening the Company's financial position and reinforcing its long-term growth strategy. The debt reduction was funded through personal investments from IGEX's Chief Executive Officer, Antonio Sainz Millan, and The European Institute for Entrepreneurship (EIE).
