2.Summary of Significant Accounting Policies:

Accounting Treatment Following the Acquisition of TriCascade,Inc.

Following the acquisition of Tri Cascade, Inc., which occurred as of April 1, 2017 through the cashless exchange of stock, for accounting purposes the consolidated results of Tri Cascade, Inc. are being treated as the continuing reporting entity and the prior comparative financial results have been restated accordingly. Accordingly, these consolidated financial reports and been prepared as if Tri Cascade, Inc. is the successor entity regarding the Company's reporting obligations. Therefore, the consolidated financial statements filed subsequent to this transaction include the historical financial condition, results of operations and cash flows of Tri Cascade, Inc. for all periods presented through and including September 30, 2025. Accordingly, these consolidated financial statements of the Company include the accounts of Saddle Ranch Media, its subsidiary Tri Cascade, Inc., from March 22, 2019 its additional subsidiary, Smarthings & Co. and, from October 1, 2023, its 55% ownership of Allied Rich LLC.

Use of estimates in the preparation of financial statements

Preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and cash equivalents

For purposes of the consolidated statements of cash flows, cash includes demand deposits. At September 30, 2025 and December 31, 2024 none of the Company's cash balances were in excess of federally insured limits.

Prepaid expense

Prepaid expense at September 30, 2025 and at December 31, 2024 represents the Company's prepaid OTC Markets subscription fee.

Impairment

The Company's management periodically reviews for the impairment of its assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be realizable. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount. With the advent of 5G, management decided to amortize prior product development costs and related goodwill thereon as a conservative approach to the carrying value of the Company's assets. While the majority of the Company's prior product development acts as the design and platform on which enhanced 5G products can and will be further developed, it was nevertheless believed prudent to amortize these "non-5G" prior costs at this time.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is recorded on a straight-line basis over a period of the shorter of the related applicable lease term or the estimated useful lives of the assets ranging from 3 to 5 years. Net of depreciation, the remaining balance of fixed assets at September 30, 2025 and December 31, 2024 was \$Nil and \$9,762, respectively.

Non-current Assets

Goodwill \$ 3,343,731 – this represents the excess of the cost to acquire Tri Cascade, Inc. over the book value of the net assets acquired at that time and the excess of the cost to acquire the 55% interest in Allied Rich, LLC . over the book value of its net assets

Fair value of financial instruments

The carrying amounts of the Company's accounts payable, accrued expenses, and notes payable approximate fair value due to their short-term nature.

Income taxes

Under ASC Topic 740, "Income Taxes", the Company is required to account for its income taxes through the establishment of a deferred tax asset or liability for the recognition of future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expense or benefit is recognized as a result of timing differences between the recognition of assets and liabilities for book and tax purposes during the year. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are recognized for deductible temporary differences and operating losses, and tax credit carry forwards. A valuation allowance is established to reduce that deferred tax asset if it is "more likely than not" that the related tax benefits will not be realized. At this time, no provision for the payment of income taxes is required on the results of the Company's operations through September 30, 2025. Accumulated net losses, on a consolidated basis, through September 30, 2025 totaled approximately \$12.9 million.

Net Loss per Share

Net loss per share is calculated using the weighted average number of shares of common stock outstanding during the year. The Company has adopted the provisions of SFAS No. 128, Earnings per Share.

3. Going Concern

Because the Company is presently (and has been) a developing telecom technology business, it has not been able to commence to create any meaningful revenue until 2023. The Company has historically incurred losses since inception. There can be no assurance that the Company can reach, or will reach, profitability. Unless continued significant additional cash flows are raised by the Company (primarily from short-term bridge loans from Wen-Shone Shiau and from the sale of its common stock through Regulation A offerings), the Company could be in jeopardy of continuing operations. The Company continues to strive to generate significant revenue and improve cash flow, and has additionally received the assurance of continued short-term funding from Wen-Shone Shiau. No reserve has been made at this point in the event that the Company is not able to sustain operations or if short-term bridge financing is no longer provided.

4. Employee Stock Options

In recognition of the services provided by the key employees of the Company and of its subsidiary, Tri Cascade, Inc. and to provide an incentive to maximize the Company's long term future revenue and shareholders' value, the Company's Board of Directors approved the issuance of stock options to such key employees on a total of 500,000,000 common shares, exercisable at \$0.0005 per share, of which 200,000,000 common shares are exercisable after March 15, 2025 and 300,000,000 common shares are exercisable after May 26, 2025.

In addition, on March 27, 2024 the Company approved a stock option to Wen-Shone Shiau of 150,000,000 common shares exercisable at \$0.0002 per share at any time after April 1, 2025 until its expiration on March 31, 2027.

5 Subsequent Events

Subsequent to September 30, 2025, and through the date of this filing, the Company received \$100,000 as an additional short-term bridge loan from Wen-Shone Shiau to support the Company's ongoing working capital needs.

On August 5, 2024 the Company filed a proposed Regulation A offering with the SEC to raise up to \$450,000 in equity capital from the issuance of 3,000,000,000 common shares at a strike price of \$0.00015 per share. Proceeds from the offering will be used to support working capital, the cost for new product certifications and the cost to settle the judgement, noted above. At the date of this filing the SEC has provided its comments on this filing, and an amended filing is therefore required before the SEC can qualify this proposed offering.
