Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Dividends are variable and paid out at the discretion of management. Each common share is entitled to one vote. There are no preemption rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

With regards to Convertible Preferred Stock, it has the following rights and preferences:

1. Convertible Preferred Stock holders have the right to vote on an as-converted basis.
2. Convertible Preferred Stock may be converted into common shares at a ratio of 1:1,000,000 (1 Convertible Preferred Share converts into 1,000,000 common shares). This conversion ratio is not subject to adjustment.
3. Convertible Preferred Stock is not subject to dilution.
4. Convertible Preferred Stock is not subject to adverse effects resulting from any reverse stock splits.
5. Holders who are non-directors may only convert their Convertible Preferred Shares into common shares if such conversion does not result in their beneficial ownership exceeding 9.9% of the Corporation's currently issued and outstanding common shares.

3. Describe any other material rights of common or preferred stockholders.

See 2.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

All previously designated classes or series of preferred stock, including the Series A Preferred Stock, are hereby canceled and rescinded in their entirety and shall no longer be authorized or issued by the Corporation.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. VGTEL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR
QUARTER ENDING SEPTEMBER 30, 2025

NOTE 1 NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

VGTEL, Inc., formerly Tribeka Tek, Inc. (the “Company”), was incorporated under the laws of the State of New York on February 5, 2002. Effective in January 2006, the Company amended its Articles of Incorporation to change its name to VGTEL, Inc. The Company has pursued becoming a participant in multi-platform entertainment with an emphasis on capitalizing on the increasing demand for ultra-high definition (UHD) or 4K content.

Effective July 14, 2015, the Company amended its amended its Article of Incorporation to increase the amount of its authorized shares from 210,000,000 to 2,010,000,000 consisting of (i) 2,000,000,000 shares of common stock, par value \$0.0001 per share and; (ii) 10,000,000 shares of preferred shares of Stock, par value \$0.001 per share.

Going concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company intends to fund operations through equity financing arrangements, which may be insufficient to fund its capital expenditures, working capital and other cash requirements for the quarter ending December 31, 2018.

In response to these problems, management intends to raise additional funds through public or private placement offerings.

These factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Risks and Uncertainties

The Company intends to operate in an industry that is subject to rapid technological change. The Company’s operations, therefore, may be subject to significant risk and uncertainties including financial, operational, technological, regulatory and other risks associated with a development stage company, including the potential risk of business failure.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. A significant estimate as of December 31, 2018 included a 100% valuation allowance for deferred tax assets arising from net operating losses incurred since inception and also calculations of derivative liability.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ materially from estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. The Company had no cash equivalents at September 30, 2025. The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary

financial institution. The balance at times may exceed federally insured limits. There were no balances that exceeded the federally insured limit at September 30, 2025.

Loss per Share

In accordance with Financial Accounting Standards Board "FASB" Accounting Standards Codification "ASC" Topic 260, "Earnings per Share," basic earnings (loss) per share ("EPS") is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period, excluding the effects of any potentially dilutive securities. Diluted EPS gives effect to all dilutive potential of shares of common stock outstanding during the period including stock options or warrants, using the treasury stock method (by using the average stock price for the period to determine the number of shares assumed to be purchased from the exercise of stock options or warrants), and convertible debt or convertible preferred stock, using the if-converted method. Diluted EPS excludes all dilutive potential of shares of common stock if their effect is anti-dilutive. The Company also has no common stock equivalents.

Non-Employee Stock Based Compensation

The Company recognizes compensation expense for all equity-based payments in accordance with ASC 718 "Share-based payments". Under fair value recognition provisions, the Company recognizes equity-based compensation net of an estimated forfeiture rate and recognizes compensation cost only for those shares expected to vest over the requisite service period of the award.

Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for share-based payments granted to non-employees in accordance with ASC 505, "Equity Based Payments to Non-Employees". The Company determines the fair value of the stock-based payment as either the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. If the fair value of the equity instruments issued is used, it is measured using the stock price and other measurement assumptions as of the earlier of either (1) the date at which a commitment for performance by the counterparty to earn the equity instruments is reached, or (2) the date at which the counterparty's performance is complete.

Income Taxes

The Company accounts for income taxes in accordance with FASB Codification Topic 740-10-25 ("ASC 740"). Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is recorded and deducted from deferred tax assets when the deferred tax assets are not expected to be realized based on currently available evidence. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Management has analyzed its various federal and state filing positions and believes that its income tax filing positions and deductions are well documented and supported. Additionally, management believes that no accruals for tax liabilities are necessary. Therefore, no reserves for uncertain income tax positions have been recorded.

Revenue Recognition

The Company recognizes revenue in accordance with FASB ASC 605 on revenue recognition for consulting and ISP services. Revenue from consulting and ISP services will be recognized only when persuasive evidence of a sale or arrangement with a customer exists, price is fixed and determinable, services have been performed, and collectability of the resulting receivable is reasonably assured. Cash received in advance of meeting the revenue recognition criteria described above is recorded as deferred

revenue.

Accounts payable and accrued liabilities

Accounts payable and accrued liabilities are carried at amortized cost and represent liabilities for goods and services provided to the Company prior to the end of the financial year that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services.

Fair Value of Financial Instruments

All financial instruments, including derivatives, are to be recognized on the balance sheet initially at fair value. Subsequent measurement of all financial assets and liabilities except those held-for-trading and available for sale are measured at amortized cost determined using the effective interest rate method. Held-for-trading financial assets are measured at fair value with changes in fair value recognized in earnings. Available-for-sale financial assets are measured at fair value with changes in fair value recognized in comprehensive income and reclassified to earnings when derecognized or impaired.

The carrying amounts of the Company's other short-term financial instruments, including accounts payable and accrued liabilities, approximate fair value due to the relatively short period to maturity for these instruments. The Company does not utilize financial derivatives or other contracts to manage commodity price risks. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price).

The fair value of the Company's financial assets and liabilities reflects the Company's estimate of amounts that it would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from sources independent from the Company) and to minimize the use of unobservable inputs (the Company's assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – Significant inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – Significant unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

Recent Accounting Pronouncements

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change.

NOTE 2. GOING CONCERN

The accompanying consolidated financial statements of the Company have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company is and has suffered recurring losses and has no established source of revenue. Its ability to continue as a going concern is dependent upon achieving profitable operations and generating positive cash flows.

There can be no assurances that the Company will be able to achieve profitable operations or obtain

additional funding. These factors create substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of the uncertainty. Management intends to raise financing through private or public equity financing or other means and interests that it deems necessary to provide the Company with the ability to continue in existence.

NOTE 3. INCOME TAXES

The Company accounts for income taxes in accordance with accounting standards for Accounting for Income Taxes which require the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax loss and tax credit carry-forwards. Additionally, the standards require the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets.

The Company has adopted the provisions of ASC 740. As a result of its implementation, the Company performed a comprehensive review of its uncertain tax positions in accordance with recognition and measurement standards established by ASC 740. In this regard, an uncertain tax position represents the Company's expected treatment of a tax position taken in a prepared and filed tax return, or expected to be taken in a tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. The Company does not expect any reasonably possible material changes to the estimated amount of liability associated with uncertain tax positions through September 30, 2025. The Company's continuing policy is to recognize accrued interest and penalties related to income tax matters in income tax expense.

NOTE 4. CAPITAL STOCK

The Company is authorized to issue 2,000,000,000 shares of common stock, par value \$0.0001 per share and 10,001,000 shares of preferred stock, par value \$0.001.

NOTE 5. NOTES PAYABLE

The following is a summary of notes payable at September 30, 2025:

The Company assumed the note(s) payable from Green Stream Holdings Inc. for the acquisition of Chuck's Vintage Inc (a.k.a M Love Vintage Holdings Inc.) and Green Rain Solar Inc. These note(s) were assumed by The Now Corporation pursuant to a Stock Purchase Agreement dated October 22nd, 2024.

After a comprehensive review of our books and records, we have decided to formally recognize the debts in section 3B. Upon further evaluation, we have determined these debts to be valid and in accordance with the terms and conditions established at their inception. We are committed to honoring the terms and conditions of these debts from the date of their inception, in accordance with applicable Wyoming statutes. Furthermore, legal counsel can rely on the validity and enforceability of these debts as established from the date of their inception, consistent with governing laws and contractual obligations.
