### Publicly Quoted or Traded Securities:

Trading Symbol:	VAPR
Exact title and class of securities outstanding:	Common Stock
CUSIP:	922105 10 1
Par or Stated Value:	\$0.001 par value
Total Shares Authorized (A):	500,000,000 as of November 14, 2025
Total Shares Outstanding:	371,985,558 as of November 14, 2025
Total number of shareholders of record:	71 as of November 14, 2025.

(A) The number of shares required to satisfy the requirements of our outstanding convertible instruments exceeds the number of unissued shares. We currently have 500,000,000 shares of common stock authorized, but that number is insufficient for us to meet our obligations to certain individuals, officers, corporations and related corporations under the terms of our convertible promissory notes payable and common stock to be issued for services. Due to existing restrictions limiting the holder of a convertible note to receive, upon conversion, shares of common stock which will not exceed 4.99% of our issued and outstanding common stock, there is no imminent requirement that the number of our authorized capital stock be increased. At an appropriate time, we envision seeking shareholder approval of an increase in our authorized capitalization to some greater number of authorized shares, but we cannot provide any assurance that we will be able to obtain the necessary shareholder approval. If we fail to obtain shareholder approval for the increase in authorized capitalization, we may be in default under the terms of the convertible promissory notes payable. At November 14, 2025, the total shares issued and outstanding, issuable upon conversion of convertible notes payable and unissued shares to consultants and Company executives would be approximately 518,786,000 shares of our common stock which exceeded the number of unissued shares our common stock by approximately 18,786,000 shares.

(B) During June 2023, Ecite Motor, LLC (Ecite”) a private entity and a subsidiary of the Company filed a Form C (Regulation Crowdfunding; “REG CF”) with the Securities and Exchange Commission to raise funding of up to \$1,235,000 through the sale of up to 494,000 Common Membership Units of Ecite. The REG CF ended in June 2024.

**Security Description:**

The information below provides a summary of the material rights and privileges for each class of the equity securities issued by the Company: :

1. For common equity, describe any dividend, voting and preemption rights.

The holders of our common stock are entitled to one vote per share on all matters submitted to a vote of the stockholders, including the election of directors. Except as otherwise provided by law, the holders of common stock vote as one class. Subject to any preferential rights of any outstanding series of preferred stock created by our Board of Directors from time to time, the common stockholders will be entitled to share pro rata such cash dividends as may be declared from time to time by the Board from funds available. A dividend has never been declared. There are no preemptive rights available to shareholders of our common stock.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

The Company is authorized to issue 5,000,000 shares of preferred stock, \$0.001 par value. Our Board of Directors is vested with authority to divide the shares of preferred stock into one or more classes or series with such distinctive designation or title as they may affix. Each such class or series of preferred stock shall have such voting rights, full or limited, or no voting powers, and such preferences and relative, participating, optional or other special rights and such qualifications, limitations or restrictions thereof, as shall be stated in such resolution or designation for issuance of such class or series as may be adopted by the Board of Directors prior to the issuance of any share thereof, all in accordance with applicable law.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to the rights of the holders of the company’s securities that have occurred over the reporting period covered by this report.

During June 2023, Ecite Motor, LLC (Ecite”) a private entity and a subsidiary of the Company filed a Form C (Regulation Crowdfunding; “REG CF”) with the Securities and Exchange Commission to raise funding of up to \$1,235,000 through the sale of up to 494,000 Common Membership Units of Ecite, based on a valuation of \$75,000,000 (“Offering”). As of the date of this Offering, 30,000,000 Membership Units were issued and outstanding from Ecite. One Hundred percent (100%) of issued Units prior to the Offering are issued to the Company, the initial Member of Ecite. Ecite is offering 494,000 Membership Units on a best-efforts basis. Assuming Maximum Proceeds are raised, there will be 30,494,000 Membership Interests issued in the Company with the Interests sold through this Offering equaling 1.65% ownership of the issued membership interests in the Company post-closing. The Interests sold are Membership Interests that have standard voting rights within Ecite and not the Company.

**Item 3. Issuance History.**

Disclosure under this Item 3 includes, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services.

#### **Item 4. Issuer's Business, Products and Services.**

##### ***A. Summary of the Issuer's Business Operations.***

###### ***Current Operations***

We were a distributor of specialty branded e-cigarettes. Our primary brand was VAMP™, which was developed as a consequence of our entering into an exclusive licensing agreement with Vampire Brands, LLC on February 18, 2014. Prior to developing our own brands of e-cigarettes, we were a marketing and development partner for Vapor Brands, Inc., under a Private Label Manufacturing and Distribution Agreement. Effective June 30, 2013, we terminated our Private Label Manufacturing and Distribution Agreement with Vapor Brands, Inc. and instead developed our own brands, including VAMP™.

VaporBrands International, Inc. was attempting to develop CBD oil and its curative properties said to be in the ingredients which make up the CBD. During April 2019, VaporBrands announced launching the first CBD products available appropriately named "Tranquility", "Clarity" and "Relief". These products contained only the highest-grade full spectrum CBD in a smooth Vaping cartridge. The product did not contain any nicotine, or other addictive substances or drugs. The products were intended to give the consumer an alternative to smoking while providing them with the calming effect of the specially formulated CBD blend.

VaporBrands International, Inc. suspended all of its vaping related products effective October 31, 2019 in direct response to new concerns that have been raised as to the safety and appropriateness of the vaping industry as a whole resulting from a rise in vape related illnesses. The departure from anything vaping related will remain in effect indefinitely.

As a pioneer in the industry, VaporBrands has always held the highest standards possible and none of its products that have been offered since its rebirth have ever contained any nicotine or THC.

During the end of 2019, we began developing our first new product stemming from VaporBrand's new healthy initiative is CBD derived Massage Oil and Beard Oil for manicuring and protecting skin under the beard to keep the skin free from drying and itching.

As of February 10, 2022 upon appointing Barry Henthorn, the Company's CEO, VaporBrands completely ceased any and all vapor, CBD, or any other marijuana or tobacco derivative business. As of that date VaporBrands no longer had any inventory of any previous products and shut down any and all websites that it operated or used in any previous forms of business. On March 29 OTC Markets officially approved a change in control and the primary business change. VaporBrands is exclusively in the automotive and electric vehicle business and in no way is now nor has it at any time since the acquisition and change of business been involved in or affiliated with any business even remotely based on any marijuana derivatives.

On March 4, 2022, we purchased Ecite Motors LLC for 57,000,000 shares restricted shares of the Company's common stock valued at \$313,500 or \$0.055 per share. In addition, on March 4, 2022, we purchased Auto Rescue, Repair, and Restoration Inc. dba "Acclaimed Auto Repair" for 21,000,000 restricted shares of the Company's common stock valued at \$115,500 or \$0.055 per share. On March 16<sup>th</sup> we purchased the remaining assets of N2A Motors for 20,000,000 restricted shares of the Company's common stock valued at \$178,000 or \$0.0089 per share to assist in the efforts of Ecite and Acclaimed. We intend to put all our efforts towards the Ecite and Acclaimed Auto Repair activities. We will continue to develop Ecite's offerings of electric road legal vehicles. We intend to change its name to one more fitting its new business after it has received shareholder and regulatory approval.

Unlike competitors Tesla, Polestar, Lucid, VW, Ford, Jaguar, and others, Ecite is not required to meet any of the safety or other costly certifications of a traditional auto manufacturer making the ease and timeline of offering new vehicles to market significantly more favorable. Whereas the initial timeline to be able to deliver a production vehicle to market generally exceeds 3 years and is often longer at a very high cost, Ecite expects to be delivering its first production vehicles for the 2024 model year.

This is possible because Ecite's vehicles qualify under the "Low Volume Vehicle Manufacturers Act of 2015" In 2015 Congress enacted a bill into law the directing the NHSTA to establish a program allowing low volume motor vehicle manufacturers to produce a limited number of vehicles annually within a regulatory system that addresses the unique safety and financial issues associated with limited production, and to direct the EPA to allow low volume motor vehicle manufacturers to install engines from vehicles that have been issued certificates of conformity. Although they were given one year to establish this new program it took until January 2021 until the NHSTA issued a final ruling to allow low volume vehicle manufacturing. Under the act car manufacturers are exempt from all the safety standards but they must meet current emissions standards. There are no emissions standards for EV vehicles.

In addition, the Company acquired a 2.2-million-dollar facility for its operations. The facility which Ecite now occupies and has signed the Commercial & Investment Real Estate Purchase and Sale Agreement dated October 5, 2021 for its location at 15812 116<sup>th</sup> Ave. N.E. Bothell, WA 98011. It is roughly a 4,000 sq ft commercial building that has been a successful auto repair shop under the previous owner for more than 20 years. It contains 4 bays with lifts (including a \$30,000 laser alignment lift) a detail bay, office space, customer lobby, a break room/kitchenette, and 2 bathrooms. It also contains two outside paved areas that can be used as is or built on for expansion. Currently, joint use of the office, customer waiting room, and 3 of the bays are leased from Ecite to Acclaimed Auto. Also included is an upstairs unit that is a 1200 sq ft (approximately) open office with a kitchenette and 3<sup>rd</sup> bathroom. It is isolated upstairs on its own floor with a separate entrance. The upstairs is leased from Ecite to an unrelated party for a term of 10 years, which increases 5% per year. The building is financed through a finance lease obligation. The lease was terminated, and the facility was returned to the owner on September 30, 2024. We are searching for a new facility for design, R&D, prototyping, development, and corporate requirements. Ecite's production of parts and assembly of vehicles will be primarily done by a variety of partners.

On March 15, 2022, the Company signed a twelve-month Work for Hire Consulting Agreement for Gene Langmesser, the former owner of N2A Motors, to serve as the Company's Chief Operating Officer and a director of the Company. Mr. Langmesser will devote a minimum of 40 per week to the Company. Mr. Langmesser will receive \$5,000 in cash or cash equivalents per month as long as the Company's available capital performance permits the payout at the reasonable discretion of the Company. The salary increases by \$2,500 on the 60<sup>th</sup> day of the agreement, for an aggregate of \$7,500 per month. Thereafter, the salary shall increase by \$2,500 per month after each 60-day period until a threshold is reached as mutually agreed to by the Company and COO. In addition to cash considerations, Mr. Langmesser received 5,000,000 restricted shares of the Company's common stock. The shares were valued at \$.0091 per share or \$45,500. On November 11, 2024, the COO converted \$193,300 related party payables to 19,330,000 restricted shares of the Company's common stock. As of November 14, 2025, the shares have not been issued to the COO.

On March 16, 2022, the Company signed a twelve-month Work for Hire Consulting Agreement with Barry Henthorn, the Company's CEO. Mr. Henthorn will devote a minimum of 40 per week to the Company. Mr. Henthorn will continue to serve as CEO for two other public companies: Baristas Coffee Company Inc. and Reeltime Rentals Inc. Mr. Henthorn will receive \$5,000 in cash or cash equivalents per month as long as the Company's available capital performance permits the payout at the reasonable discretion of the Company. The salary increases by \$2,500 on the 60<sup>th</sup> day of the agreement, for an aggregate of \$7,500 per month. Thereafter, the salary shall increase by \$2,500 per month after each 60-day period until a threshold is reached as mutually agreed to by the Company and CEO. As of November 14, 2025, the shares have not been issued to the CEO.

On January 4, 2023, our Board of Directors and the holder of a majority of our stockholders adopted resolutions to change the name of the corporation to Innovative EV Technologies, Inc. In addition, the Board of Directors and a majority of our shareholders approved the changing of the ticker symbol to either INEV or IEVT, or to such other ticker symbol as is made available by FINRA to the Corporation. These changes are pending FINRA approval.

On March 16, 2023, we announced that we have received approval from the Environmental Protection Agency for our request for an EPA Manufacturing code. Ecite may now officially license vehicles for use on public roads.

On May 4, 2023, we signed a Capital Raise Funding and Marketing Agreement and an Agency of Record Placement Agreement with Reeltime Rentals Inc ("Reeltime"), to provide marking/advertising services to the Company. Barry Henthorn, our CEO, is the control person of Reeltime. Reeltime is compensated with \$20,000 plus an allocation of 25% of any and all monies raised through the Company's fund-raising efforts (REGA, REGCF etc.) to be used in media placements via ReelTime. The Company will approve all media placements through signed insertion orders. If allocated monies paid to Reeltime have not been spent on approved advertising or other marketing expenses, than the funds will be returned to the Company at less than a standard 15% agency fee. As of November 14, 2025, \$32,518 has been allocated to Reeltime. As of November 14, 2025, \$12,518 is owed to Reeltime.

During June 2023, Ecite Motor, LLC (Ecite”) a private company and a wholly owned subsidiary of the Company, filed a Form C (Regulation Crowdfunding; “REG CF”) with the Securities and Exchange Commission to raise funding of up to \$1,235,000 through the sale of up to 494,000 Common Membership Units of Ecite, based on a valuation of \$75,000,000 (“Offering”). This funding will allow for the development and production of state-of-the-art iconic EV vehicles as a Low Volume Vehicle Manufacturer that are affordable, stylish, fun to drive, scalable, and commercially viable.

As of the date of this Offering, 30,000,000 Membership Units were issued and outstanding from Ecite. One Hundred percent (100%) of issued units prior to the Offering are issued to the Company, the initial Member of the Company. The Ecite is offering 494,000 Membership Units at \$2.50 per Unit (the “Securities”) on a best-efforts basis. Assuming maximum proceeds are raised, there will be 30,494,000 Membership Interests issued in the Ecite with the interests sold through this Offering equaling 1.65% ownership of issued Membership Interests in Ecite post-closing. The interests sold are membership interests that have standard voting rights within Ecite and not the Company. The REG CF ended during June 2024 and the Company raised an aggregate of \$55,085 from 22,034 units sold.

On February 13, 2024 the Company announced it will offer gas powered versions of its "GT" and "C3" mid-engine sports car models previously only to be available as all electric. Both models will be available with gasoline internal combustion engines (ICE) and current electric (EV) options. The petrol-powered version of the GT will bear the designation of "IC-GT" and the electric version the "EV-GT", whereas the C3 model "IC-C3" and "EV-C3" respectively. E-Cites GT model has been formally approved by the National Highway Traffic Safety Administration "NHTSA" in accordance with (49 CFR Part 586) to be "new vehicles" legally driven on public roads in the US and the C3s' submission is currently under review.

On March 13, 2024, the Company announced it received an official notice from the National Highway Traffic Safety Administration that it has approved E-Cite to manufacture its "C3" sports cars. E-Cite recently solidified the design and rights to a new EV Sportscar and had formally submitted it for registration with the National Highway Traffic Safety Administration "NHTSA" in accordance with (49 CFR Part 586) to be legally driven on public roads in the US. The new electric vehicle code named the "EV-C3" and the gas-powered version, the "IC-C3" resembles a modernized version of one of the most iconic and prolific sports cars in history from its late sixties through late seventies' variant.

On November 11, 2024, the Company created board resolutions to convert related party payables due to the Company’s CEO and the Company’s COO, to restricted shares of the Company’s common stock. The related party payables resulted from consulting earnings and working capital contributions to the Company. The Company’s CEO will convert \$531,821 of related party payables to 53,182,100 restricted shares of the Company’s common stock valued at \$0.01 per share. The Company’s COO will convert \$193,300 related party payables to 19,330,000 restricted shares of the Company’s common stock valued at \$0.01 per share. The aggregate related party payables converted to common stock was \$725,121 and 72,512,100 restricted shares of the Company’s common stock. As of November 14, 2025, the shares have not been issued to the two executives.

On January 16, 2025, the Company entered into a twelve-month Consulting Agreement with Micheal Carter to assist with Company financing, strategic planning and operations planning. The Mr. Carter’s goal is to provide funding of \$15,000,000 the first year, \$15,000,000 in the second year and \$20,000,000 in the third year with an aggregate of \$50,000,000 over three years. Mr. Carter will be paid a success fee of 10% of the funding proceeds. Subsequent to the payment of the success fee, the Company will pay Mr. Carter \$300 per hour during the term of the agreement. As of November 14, 2025, no financing has been secured.

On February 10, 2025, the Company entered into a twelve-month Authorization to Proceed contract MBE Group, a marketing firm, to provide marketing communication services to the Company to launch the Company's new line of vehicles. On February 27, 2025, the Company announced that Robert Kokx has joined E-Cite Motors as Chief Productions Officer (CPO). Formerly the Executive Engineering Manager at Porsche Engineering Services, and the Director of Vehicle Development at Mercedes Benz Technology, Mr. Kokx has an extensive background in automotive spanning over four decades. As a C-Level Executive and engineer specializing in plant setup, full vehicle engineering, direct staff management, and vehicle launches throughout his career he has been instrumental in the development of production and successful launching of numerous vehicles. Mr. Kokx has consulted for many emerging OEM's as well as with the Ugandan government to successfully localize vehicle manufacturing. Mr. Kokx is currently the president of AIH Group Americas, a globally renowned manufacturing and logistics consultancy firm which also offers contract manufacturing to its customers. Mr. Kokx will continue his role as an AIH executive while focusing on developing and implementing a full production plan for the launch of E-Cites new vehicles and will oversee the production process. On February 17, 2025, Mr. Kokx entered into a Consulting Agreement with the Company. Mr. Kokx will be compensated with 2,500,000 restricted shares of the Company's common stock valued at \$14,250 or \$0.0057 per share. As of November 14, 2025, the shares have not been issued to Mr. Kokx. The Company's will pay Mr. Kokx a salary consistent with other C-Level executives upon the Company receiving funding of more than \$20,000,000.

On March 25, 2025, the Company announced that it has executed an MOU with The AIH Group to oversee implementation of production. The AIH Group is a globally renowned manufacturing and logistics consultancy firm which also offers contract manufacturing to its customers. Some of the functions that AIH may provide include automotive and industry consulting, logistics and supply chain planning, engineering, contract assembly, built environment, infrastructure and plant and equipment, ERP systems, human capital and economic development for E-Cites vehicles.

On June 6, 2025, the Company announced that its' new RJ9 truck industry delivers 900-mile total range, the highest of any production pickup, electric or gas. The RJ9 Truck pairs a 40.06 kWh battery with a 1.5L onboard generator for a seamless blend of electric performance and long-distance usability.

On July 8, 2025 the Company announced it has secured the design and production rights to the iconic Kaiser-Darrin, one of America's distinctive sports cars. The Company will reintroduce this legendary nameplate as the EV-DT, a fully electric high-performance vehicle.

On July 10, 2025 the Company announced a new motor and battery across its entire upcoming sports car range. The EV-GT (a two-seat targa top sports car), the EV-C3 (a classic inspired by an American icon), and the newly announced EV-DT (a modernized all-electric homage to the 3,6244 Kaiser-Darrin roadster) all which share a proprietary modular aluminum chassis and electric driveline architecture.

On August 7, 2025, the Company announced that it has narrowed the final location candidates for its U.S. electric vehicle final assembly plant to four states: Michigan, Ohio, Florida, and Nevada. Following a detailed evaluation process, these states emerged as front-runners based on key business criteria including affordable real estate, availability of a skilled workforce, strong state and local incentives, tax advantages, and overall livability.

On September 9, 2025, the Company entered into a twenty-four month Capital Raising Services Agreement with a consultant with Avalanche Capital to raise funds for the Company. The consultant is compensated with a \$25,000 upfront fee and a 5% success fee for any funds raised by the consultant. As of November 14, 2025, no additional amount is owed under the contract and no financing has been secured.

On September 23, 2025 the Company signed a lockup agreement with its largest noteholder, Capital Consulting, Inc. (Mark Schaflein has voting and investment control), eliminating \$100,000 of potential conversions that could impact the Company's share structure over the next twelve months. Under the terms of the agreement, Capital Consulting Inc. ("CCI") has committed to a one-year lockup period prohibiting any conversions of existing or future notes. During this period, the Company intends to proactively retire its outstanding obligations, beginning with notes carrying the lowest conversion rates and working systematically upward. The Company will make four \$25,000 payments to CCI on September 23, 2025, December 23, 2025, March 23, 2026 and June 23, 2026 for an aggregate of \$100,000. On September 23, 2025 the Company made the first payment of \$25,000 retiring the principal and interest on a note dated December 23, 2023 for \$19,971 and partially retiring the principal on a note dated May 13, 2023 for \$5,029. This resulted in approximately 3,999,000 shares from potentially being converted into common stock. This strategic action underscores management's ongoing commitment to protecting shareholders, strengthening the balance sheet, and increasing long-term shareholder value.

**B. List the issuers subsidiaries, parents or affiliated companies.**

- Consolidated Statement of Cash Flows
- Financial Notes

Attached as Exhibit A to this Quarterly Report are our financial statements and notes to financial statements for the three and nine months ending September 30, 2025.

### Management's Discussion and Analysis or Plan of Operation.

A. Plan of Operation. We were a distributor of specialty CBD oil products. As discussed above in Item 4, we moved away from vaping products to other CBD oils products. With our acquisition of Ecite Motors LLC on March 4, 2022 and our March 16<sup>th</sup> 2022 acquisition of N2A Motors, we are exclusively in the automotive industry.

For the foreseeable future, our operating plan is dependent upon both the ability to conserve existing cash resources and the ability to obtain additional capital through equity financing and/or debt financing to provide the necessary funds and cash flow to meet our obligations on a timely basis and to execute our business plan. In the event that we are unable to conserve existing cash resources and/or obtain the additional and necessary capital, the Company may have to cease its operations. This would materially impact on the Company's ability to continue as a going concern for a reasonable period of time.

## Liquidity and Capital Resources

We generated \$-0- revenues and a net loss of \$636,379 for the nine months ending September 30, 2025. At September 30, 2025, we have an accumulated deficit since inception of \$9,679,299. These factors, among others, indicate that the Company might be unable to continue as a going concern for a reasonable period of time.

As of September 30, 2025, we had cash of \$1,100 and a working capital deficit of \$945,455. This compares to cash of \$-0- and a working capital deficit of \$653,817 at December 31, 2024. The increase of approximately \$292,000 is primarily due to an approximate \$196,000 increase in amounts due related parties and approximately \$68,000 increase in convertible notes payable.

Based on anticipated operating and administrative expenses, the Company will not have sufficient cash resources to finance its operations except for several months unless we are able to raise additional equity financing and/or debt financing in the immediate future. We have commenced, and will continue to pursue, efforts to raise additional equity financing and/or debt financing from a variety of sources and means. There are no assurances that we will be able to obtain any additional financing and, even if obtained, that such financing will be in a sufficient amount to be able to continue operations for a sufficient period until the Company is able to generate sufficient revenues and become profitable.

### B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

#### **Results of Operations for the three months ended September 30, 2025 compared to the three months ended September 30, 2024:**

**Overview.** VaporBrands International, Inc., is a Nevada corporation, originally formed on March 16, 1986. For the three months ending September 30, 2025 and 2024, we generated \$-0- revenues. For the three months ending September 30, 2025 and 2024, we reported net losses of \$156,216 and \$198,162, respectively. The decrease in net loss of \$41,946 is attributable to the factors discussed below.

**Operating Expenses.** Our operating expenses were \$131,152 and \$120,404 for the three months ended September 30, 2025 and 2024, respectively. The \$10,748 increase was primarily attributable to an approximate \$3,000 increase in compensation and an approximate \$39,000 increase in general and administrative expenses, offset by an approximate \$4,000 decrease in advertising expense, an approximate \$12,000 decrease in research and development expenses and an approximate \$15,000 decrease in amortization and depreciation expense.

**Other Income (Expense).** Our total other expense was (\$25,064) and (\$77,758) for the three months ended September 30, 2025 and 2024, respectively. The other expense decrease of \$52,964 was attributable to a \$75,656 decrease in interest expense from the termination of our finance lease during September 2024, offset by a \$22,962 gain of asset disposition during the three months ended September 30, 2024.

#### **Results of Operations for the nine months ended September 30, 2025 compared to the nine months ended September 30, 2024:**

**VAPORBRANDS INTERNATIONAL, INC.**  
**Notes to Financial Statements (Unaudited)**  
**As of September 30, 2025**

**Note 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS**

We were incorporated in Delaware as Quadrax Corporation on March 6, 1986. We changed our name to TTCM China, Inc. (TTCM) on December 28, 2004. We re-domesticated from Delaware to Nevada on February 28, 2012. We established a subsidiary, VaporBrands International, Inc., which was incorporated on July 9, 2012. We merged with our subsidiary, and changed our name to VaporBrands International, Inc., (“Company”) effective October 19, 2012. Although the Company has recognized some nominal amount of income since inception, the Company continues to devote substantially all of its efforts on establishing the business.

During December 2021, Eleanor Hodge, the Company CEO, passed away. On December 22, 2021, Florence Montgomery, a director, was appointed CEO and Chairman of the Board of Directors.

On February 10, 2022, Barry Henthorn was appointed the Company’s CEO and Chairman of the Board of Directors and Florence Montgomery, the Company former CEO and Chairman of the Board of Directors, was appointed the Company’s Secretary and Treasurer and will remain a director of the Company. The appointment of Mr. Henthorn was considered a change in control of the Company. During March 2022, VaporBrands ceased all CBD derived Oil and Beard Oil development.

We were a distributor of specialty CBD derived Oil and Beard Oil products. During March 2022, the Company ceased all CBD derived Oil and Beard Oil development.

On March 4, 2022, the Company purchased Ecite Motors LLC “Ecite” and Auto Rescue, Repair, and Restoration Inc. dba “Acclaimed Auto Repair” or “AAR”. On March 16<sup>th</sup> the Company purchased the remaining assets of N2A Motors to assist in the efforts of Ecite and “AAR”. The Company intend to put all its efforts towards the Ecite and Acclaimed Auto Repair activities. The Company will continue to develop Ecite’s offerings of electric road legal vehicles. The Company intend to change its name to one more fitting to its new business after it has received shareholder and regulatory approval. On March 16<sup>th</sup> 2022 Gene Langmesser, the former owner of N2A Motors, was appointed the Company’s COO and appointed to the Board of Directors.

On January 4, 2023, the Company change the name of the corporation to Innovative EV Technologies, Inc. The name change is pending fulfilling FINRA requests.

On March 16, 2023, the Company announced receiving approval from the Environmental Protection Agency for the Company’s request for an EPA Manufacturing code. The Company subsidiary, Ecite, may now officially license vehicles for use on public roads.

During June 2023, Ecite filed a Form C (Regulation Crowdfunding; “REG CF”) with the Securities and Exchange Commission to raise funding of up to \$1,235,000 through the sale of up to 494,000 Common Membership Units of Exite, based on a valuation of \$75,000,000 (“Offering”). This funding will allow for the development and production of EV vehicles. See “Note 6 – EQUITY TRANSACTIONS” for a further discussion.

On August 1, 2023, the Company ceased the Acclaimed Auto Repair business to change the facility to EV manufacturing.

On September 30, 2024, the finance lease terminated, and the manufacturing facility was returned to the owner. The Company is searching for a new manufacturing facility.

**Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying consolidated financial statements were prepared in conformity with generally accepted accounting principles in the United States (“US GAAP”).

**Reclassification**

Certain prior year amounts have been reclassified for comparative purposes to conform to the current year’s financial statement presentation. These reclassifications had no effect on previously reported results of operations. In addition, certain prior year amounts from the restated amounts have been reclassified for consistency with the current period presentation.

## Estimates and Assumptions

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Examples include, but are not limited to, estimates for asset and goodwill impairments, stock-based compensation forfeiture rates, future asset retirement obligations, and inventory reserves; assumptions underlying self-insurance reserves and income from unredeemed stored value cards; and the potential outcome of future tax consequences of events that have been recognized in the financial statements. Actual results and outcomes may differ from these estimates and assumptions.

## Segment Reporting

The Company operates within a single reportable operating segment being the manufacture of electric vehicles. The Company has identified its chief executive officer as its chief operating decision maker (“CODM”), who regularly reviews the Company’s performance and allocates resources based on information reported at the consolidated entity level.

## Cash and Equivalents

Cash and equivalents include cash in hand and cash in demand deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less. The Company had cash of \$1,100 and \$-0- as of September 30, 2025 and December 31, 2024, respectively.

## Concentration of Credit Risk

The Company maintains cash balances at financial institutions that are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. As of September 30, 2025, the Company’s cash balance did not exceed FDIC coverage.

## Prepaid Expenses

The Company considers all items incurred for future services to be prepaid expenses.

Prepaid expenses consist of the following:

	<u>September 30,</u> <u>2025</u>	<u>December 31,</u> <u>2024</u>
<b>OTC Market Fees</b>	\$ -	\$ 1,890
<b>Loan Fees</b>	6,471	-
<b>Other</b>	2,000	2,000
<b>Total</b>	\$ 8,471	\$ 3,890

## Property, Plant and Equipment and Right of Use Asset

Property, plant and equipment and the right of use asset are carried at cost less accumulated depreciation. The right of use asset was acquired under the finance lease for the Company’s manufacturing facility. See *Note 8 – Finance Lease* for a further discussion. Asset cost includes all direct costs necessary to acquire and prepare assets for use, including internal labor and overhead in some cases. Depreciation of property, plant and equipment, which includes assets under capital leases, is provided on the straight-line method over estimated useful lives, generally ranging from 3 to 12 years for equipment and 39 years for buildings. The costs of repairs and maintenance are expensed when incurred, while expenditures for refurbishments and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. When assets are retired or sold, the asset cost and related accumulated depreciation are eliminated with any remaining gain or loss recognized in net earnings. Depreciation expense amounted to \$-0- and \$15,287 for the three months ended September 30, 2025 and 2024, respectively, and \$-0- and \$45,860 for the nine months ended September 30, 2025 and 2024, respectively. At September 30, 2024, the depreciable equipment was sold and the right of use asset was returned to the owner upon the termination of the finance lease and the Company reported a gain on asset disposition of \$22,962 in the accompanying consolidated statements of operations. The Company’s balance of property, plant and equipment asset was \$-0- as of September 30, 2025 and December 31, 2024. The Company’s balance of the right of use asset was \$-0- as of September 30, 2025 and December 31, 2024, respectively.

## Goodwill

We test goodwill for impairment on an annual basis, or more frequently if circumstances, such as material deterioration in performance indicate the reporting unit carrying values may exceed their fair values. When evaluating goodwill for impairment, we may first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not greater than its carrying amount. If we do not perform a qualitative assessment or if the fair value of the reporting unit is not more likely than not greater than its carrying amount, we calculate the implied estimated fair value of the reporting unit. If the carrying amount of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value. The Company performed a Goodwill impairment test at December 31, 2024, and determined no impairment was necessary. The Company goodwill balance was \$31,508 as of September 30, 2025 and December 31, 2024.

## Other Assets

Other assets consists of automobiles in various stages of restoration and security deposits acquired with the March 2022 acquisitions of Ecite Motors LLC and Auto Rescue, Repair, and Restoration Inc. We test other assets for impairment on an annual basis, or more frequently if circumstances, such as material deterioration in performance indicate carrying values may exceed the fair values. On March 31, 2025, the Company wrote-off other assets as impaired for \$25,000, in accompanying statements of operations. The Company's other assets balance was \$1,000 and \$25,000 as of September 30, 2025 and December 31, 2024, respectively in the accompanying consolidated balance sheets.

## Long-lived Assets

Long-lived assets such as property, equipment and identifiable intangibles are reviewed for impairment whenever facts and circumstances indicate that the carrying value may not be recoverable. When required impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable from its undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risk associated with the recovery of the assets.

## Fair Value of Financial Instruments

For certain of the Company's financial instruments, including cash and equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities and short-term debt, the carrying amounts approximate their fair values due to their short maturities. ASC Topic 820, "Fair Value Measurements and Disclosures," requires disclosure of the fair value of financial instruments held by the Company. ASC Topic 825, "Financial Instruments," defines fair value, and establishes a nine-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The carrying amounts reported in the consolidated balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of their fair values because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The nine levels of valuation hierarchy are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Company analyzes all financial instruments with features of both liabilities and equity under ASC 480, "Distinguishing Liabilities from Equity," and ASC 815.

On March 31, 2025, the Company wrote-off other assets as impaired for \$25,000. As of September 30, 2025, and December 31, 2024, the Company did not identify any other assets and liabilities that are required to be adjusted to fair value in the accompanying consolidated balance sheet.

## Revenue Recognition

Revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration that an entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods. The Company applies the following five-step model in order to determine this amount: (i) identification of the promised goods in the contract; (ii) determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company only applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods and service transfers to the customer. Once a contract is determined to be within the scope of ASC 606 at contract inception, the Company reviews the contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company recognizes as revenues the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied. Generally, the Company's performance obligations are transferred to customers at a point in time, typically upon delivery.

## Stock-Based Compensation

The Company accounts for share-based compensation in accordance with the fair value recognition provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") No. 718. The Company issues restricted stock to employees and consultants for their services. Cost for these transactions are measured at the fair value of the equity instruments issued at the date of grant. These shares are considered fully vested and the fair market value is recognized as an expense in the period granted. The Company recognized consulting or employee compensation expenses and a corresponding increase to additional paid-in-capital related to stock issued for services. For agreements requiring future services, the consulting or employee expense is to be recognized ratably over the requisite service period.

Stock based compensation amounted to \$206 and \$500 for the three months ended September 30, 2025 and 2024, respectively, and \$210,191 and \$1,206 for the nine months ended September 30, 2025 and 2024, respectively.

## Income Taxes

The Company's policy is to provide for deferred income taxes based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates that will be in effect when the differences are expected to reverse. The U.S. federal corporate income tax rate is 21% and no state income tax is applicable in states the Company operates. We did not provide any current or deferred U.S. federal income tax provision or benefit for any of the periods presented because we have experienced operating losses since inception. When it is more likely than not that a tax asset cannot be realized through future income the Company must allow for this future tax benefit. We provided a full valuation allowance on the net deferred tax asset, consisting of net operating loss carryforwards, because management has determined that it is more likely than not that we will not earn sufficient income to realize the deferred tax assets during the carryforward period.

The Company is not aware of any uncertain tax position that, if challenged, would have a material effect on the financial statements for the nine months ended September 30, 2025 or during the prior three years applicable under FASB ASC 740. We did not recognize any adjustment to the liability for uncertain tax position and therefore did not record any adjustment to the beginning balance of accumulated deficit on the consolidated balance sheet.

The Company has filed all income tax returns in the U.S. federal tax jurisdiction and various state tax jurisdictions through December 31, 2019. The Company intends to file all remaining tax return through December 31, 2024. The tax years for 2016 to 2024 remain open for examination by federal and/or state tax jurisdictions. The Company is currently not under examination by any other tax jurisdictions for any tax year.

## Earnings Per Share (EPS)

Basic EPS is computed by dividing the income available to common shareholders and equivalents by the weighted average number of common shares and equivalents outstanding for the period. Diluted EPS is computed similar to basic net income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if all the potential common shares, warrants and stock options had been issued and if the additional common shares were dilutive. Diluted EPS assumes that all diluted convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method for the outstanding options and the if-converted method for the outstanding convertible preferred shares. Under the treasury stock method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. Under the if-converted method, convertible outstanding instruments are assumed to be converted into common stock at the beginning of the period (or at the time of issuance, if later). In addition, shares issuable to executives and consultants are considered potentially dilutive securities. At September 30, 2025, the Company has approximately 146,800,000 potentially dilutive securities. Common stock equivalents are not included in the computation of diluted earnings per share when the Company reports a loss because to do so would be anti-dilutive for the periods presented.

The number of shares required to satisfy the requirements of the Company outstanding convertible instruments exceeds the number of unissued shares of the Company. The Company currently has 500,000,000 shares of common stock authorized, but that number is insufficient to meet the Company's obligations to certain individuals, officers, corporations and related corporations under the terms of our convertible promissory notes payable and common stock to be issued for services. Due to existing restrictions limiting the holder of a convertible note to receive, upon conversion, shares of common stock which will not exceed 4.9% of our issued and outstanding common stock, there is no imminent requirement that the number of our authorized capital stock be increases, At an appropriate time, the Company envisions seeking shareholder approval of an increase in the Company's authorized capitalization to some greater number of authorized shares, but the Company cannot provide any assurance that the Company will be able to obtain the necessary shareholder approval. If the Company fails to obtain shareholder approval for the increase in authorized capitalization, the Company may be in default under the terms of the convertible promissory notes payable.

At September 30, 2025, the total shares issued and outstanding, issuable upon conversion of convertible notes payable and other shares earned but not issued would be approximately 518,786,000 shares of the Company's common stock which exceeded the number of unissued shares of the Company's common stock by approximately 18,786,000 shares.

On September 23, 2025 the Company signed a lockup agreement with a corporation eliminating \$100,000 of potential conversions that could impact the Company's share structure over the next twelve months. Under the terms of the agreement, the corporation committed to a one-year lockup period prohibiting any conversions of existing or future notes. During this period, the Company will retire its outstanding obligations, beginning with notes carrying the lowest conversion rates and working systematically upward. The Company will make four \$25,000 payments to the corporation on September 23, 2025, December 23, 2025, March 23, 2026 and June 23, 2026 for an aggregate of \$100,000. On September 23, 2025 the Company made the first payment of \$25,000 retiring the principal and interest on a note dated December 23, 2023 for \$19,971 and partially retiring the principal on a note dated May 13, 2023 for \$5,029. This resulted in approximately 3,999,000 shares from potentially being converted into common stock.

## Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company's management and legal counsel assess such contingent liabilities, and such assessment inherently involves judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought.

If the assessment of a contingency indicates it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material would be disclosed. Loss contingencies considered to be remote by management are generally not disclosed unless they involve guarantees, in which case the guarantee would be disclosed.

## Recently Issued Accounting Pronouncements

During the nine months ended September 30, 2025, there were several new accounting pronouncements issued by the FASB. Each of these pronouncements, as applicable, has been or will be adopted by the Company. Management does not believe the adoption of any of these accounting pronouncements has had or will have a material impact on the Company's financial statements.

In November 2023, the FASB issued ASU 2023 - 07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" ("ASU 2023 - 07"). The amendments in ASU 2023 - 07 require disclosures, on an annual and interim basis, of significant segment expenses that are regularly provided to the chief operating officer decision maker ("CODM"), as well as the aggregate amount of other segment items included in the reported measure of segment profit or loss. ASU 2023 - 07 requires that a public entity disclose the title and position of the CODM and an explanation of how the CODM uses the reported measure (s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. Public entities will be required to provide all annual disclosures currently required by FASB ASC Topic 280, "Segment Reporting," ("ASC 280") in interim periods, and entities with a single reportable segment are required to provide all the disclosures required by the amendments in ASU 2023 - 07 and existing segment disclosures in ASC 280. ASU 2023 - 07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company adopted ASU 2023 - 07 as required for the year ended December 31, 2024. The adoption required the Company to provide additional disclosures, but otherwise it does not materially impact the accompanying financial statements.

In December 2023, the FASB issued ASU No. 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures" which requires two primary enhancements of 1) disaggregated information on a reporting entity's effective tax rate reconciliation, and 2) information on cash income taxes paid. Additionally, specific disclosures related to unrecognized tax benefits and indefinite reinvestment assertions were removed. For public business entities, the new requirements will be effective for annual periods beginning after December 15, 2024. The guidance will be applied on a prospective basis with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating the effect of adopting this ASU.

In November 2024, the FASB issued ASU No. 2024-03 "Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40)" which requires disclosure each reporting period, in the notes to the financial statements, of specified information about certain costs and expenses. For public business entities, the new requirements will be effective for annual periods beginning after December 15, 2026. The guidance will be applied on a prospective basis with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating the effect of adopting this ASU.

## **Note 3 – GOING CONCERN**

Since inception, the Company has incurred minimal revenues since inception and \$9,679,299 in cumulative losses. The Company reported a net loss of \$634,580 for the nine months ended September 30, 2025. In addition, the Company has negative working capital and cash flows from operating activities. These factors indicate raising substantial doubt about the Company's ability to continue as a going concern. The Company cannot provide assurances that the Company will be able to secure sufficient funds to satisfy the cash requirements for the next 12 months. The inability to secure additional funds would have a material adverse effect on the Company. The Company hopes to obtain increased revenues from future sales of products and in the absence of these revenues, The Company hopes to raise funds to meet our working capital needs through various means. The Company cannot guarantee that we will be able to obtain sufficient capital from this private equity firm or anyone else in the future, or that such capital, if available, will be obtainable on terms satisfactory to us.

If adequate capital is not available, our officer and director may contribute capital to the Company in the form of debt financing or equity contributions. However, our officer and director is not committed to contributing such funds. These factors raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties. There is no assurance that the Company will receive the necessary capital required to fund its acquisition and exploration plans. These consolidated financial statements are presented on the basis that the Company will continue as a going concern. No adjustments have been made to these consolidated financial statements to give effect to valuation adjustments that may be necessary in the event the Company is not able to continue as a going concern. The effect of those adjustments, if any, could be substantial.

## **Note 4 – INTANGIBLE ASSETS**

The Company acquired various intangible assets during 2022. The Company calculates the fair value of the intangible assets using the net present value of the projected gross profit to be generated over the life of the assets. The Company recorded amortization of intangible assets of \$8,600 and \$9,475 for the three months ended September 30, 2025 and 2024, respectively, and \$26,383 and \$28,425 for the nine months ended September 30, 2025 and 2024, respectively.

## Note 5 – NOTES PAYABLE

### Short-Term Notes payable: convertible non-related parties

The Company has issued a number of convertible notes with various maturities dates to a corporations and individuals. The loans bear interest at 6% to 12% and have various maturity dates through May 28, 2026. After maturity, the interest rate increases to 8% to 12% for some of the promissory notes. In addition, at any time, the individuals or corporations may convert the notes into shares of the Company's common stock at various exercise prices between \$0.0075 to \$0.05 per share. Due to the short-term nature of these loans, they are recorded as current liabilities. The Company calculated the fair value of the beneficial conversion feature as the difference between the conversion price and the fair market value of the Company's common stock on the date of issuance. The Company calculates the fair value of the beneficial conversion feature as the difference between the conversion price and the fair market value of the Company's common stock on the date of issuance. The fair value of the conversion option in connection with the notes added during the three months ended September 30, 2025 was \$-0-. The debt discounts are amortized through the terms of the notes. The outstanding balances including accrued interest at September 30, 2025 and December 31, 2024 was \$585,106 and \$470,196, respectively. The outstanding principal balances net of debt discount was \$437,202 and \$369,474 at September 30, 2025 and December 31, 2024, respectively. The Company is in default with the repayment terms for the majority of these convertible notes payable.

As of September 30, 2025, the conversion price of the convertible notes were fixed and determinable on the date of issuance and as such in accordance with ASC Topic 815 "*Derivatives and Hedging*" ("ASC 815"), the embedded conversion options of the notes were not considered derivative liabilities. The beneficial conversion features of certain convertible notes are at a price below fair market value. The Company recorded interest expenses on the debt discounts of \$12,893 and \$29,472 for the three months ended September 30, 2025 and 2024, respectively, and \$39,725 and \$97,056 for the nine months ended September 30, 2025 and 2024, respectively, in the accompanying consolidated statements of operations.

### Long-Term Note payable: convertible non-related parties

The Company has issued a long-term convertible note with an individual. The loans bear interest at 10% and a maturity date of September 22, 2027. In addition, at any time, the individual may convert the notes into shares of the Company's common stock at an exercise price of \$0.05 per share. Due to the long-term nature of this loan, the loan is recorded as a long-term liability. The Company calculated the fair value of the beneficial conversion feature as the difference between the conversion price and the fair market value of the Company's common stock on the date of issuance. The fair value of the conversion option in connection with the notes added during the three months ended September 30, 2025 was \$-0-. The debt discounts are amortized through the terms of the notes. The outstanding balances including accrued interest at September 30, 2025 and December 31, 2024 was \$55,121 and \$-0-, respectively. The outstanding principal balances was \$55,000 and \$-0- at September 30, 2025 and December 31, 2024, respectively.

As of September 30, 2025, the conversion price of the convertible notes were fixed and determinable on the date of issuance and as such in accordance with ASC Topic 815 "*Derivatives and Hedging*" ("ASC 815"), the embedded conversion options of the notes were not considered derivative liabilities. The beneficial conversion features of certain convertible notes are at a price below fair market value. The Company recorded interest expense on the debt discounts of \$-0- and \$5,601 for the three months ended September 30, 2025 and 2024, respectively, and \$-0- and \$28,054 for the nine months ended September 30, 2025 and 2024, respectively, in the accompanying consolidated statements of operations.

## Common Membership Units - Regulation CF

Ecite Motor, LLC ("Ecite") is a private entity and a subsidiary of the Company,

On May 4, 2023, the Company's board of directors approved a consent to increase the number of membership units of Ecite Motors LLC at a ratio of 10,000 to 1 from 3,000 units to 30,000,000 units.

During June 2023, Ecite filed a Form C (Regulation Crowdfunding; "REG CF") with the Securities and Exchange Commission to raise funding of up to \$1,235,000 through the sale of up to 494,000 Common Membership Units of Ecite, based on a valuation of \$75,000,000 ("Offering"). This funding will allow for the development and production of EV vehicles.

As of the date of this Offering, 30,000,000 Membership Units were issued and outstanding from Ecite. One Hundred percent (100%) of issued units prior to the Offering are issued to the Company, the initial Member of Ecite. Ecite is offering 494,000 Membership Units at \$2.50 per Unit (the "Securities") on a best-efforts basis. Assuming maximum proceeds are raised, there will be 30,494,000 Membership Interests issued from Ecite with the Interests sold through this Offering equaling 1.65% ownership of issued Membership Interests in Ecite post-closing. The Interests sold are Membership Interests that have standard voting rights within Ecite and not the Company. As of June 30, 2024 the Company received total gross proceeds of \$55,085 and incurred total offering costs of \$27,747 in connection with this offering and issued 22,034 membership units. During the three months ending March 31, 2024, the Company issued 140 membership units with gross proceeds of \$350. The REG CF ended during June 2024.

The applicable Crowdfunding Securities are being offered and sold without registration under the Securities Act of 1933, as amended (the "Securities Act"), by reason of the exemption from the registration requirements of the Securities Act set forth in Section 4(a)(6) thereof and Regulation Crowdfunding ("Regulation CF") promulgated thereunder, and exemptions from registration or qualification under the securities laws of the states or other jurisdictions in which such Applicable Crowdfunding Securities may be offered or sold. The Company has no obligation to register any of the Applicable Crowdfunding Securities, now or in the future. Because the Applicable Crowdfunding Securities have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Applicable Crowdfunding Securities have transfer restrictions under applicable securities laws and cannot be resold in the United States except pursuant to (i) exemptions provided by Rule 501 of Regulation Crowdfunding (U.S. federal securities law exemption) and (ii) applicable securities or "blue sky" laws in the state of residence of the seller or in the state or other jurisdiction where sales/transfers are being effected.

As to Regulation CF, any Applicable Crowdfunding Securities sold pursuant to Regulation CF may not be transferred by any purchaser of such Applicable Crowdfunding Securities during the one-year holding period beginning when the Applicable Crowdfunding Securities were issued, unless such Applicable Crowdfunding Securities were transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D of the Securities Act, 3) as part of an offering registered with the U.S. Securities and Exchange Commission or 4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a family member of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law and includes adoptive relationships.

### **Note 7 – RELATED PARTY TRANSACTIONS**

On November 15, 2016 the Company entered into a consulting agreement with James C. Hodge to become the Chief Executive Officer, Chief Financial Officer and Director in exchange for the sum of \$400 per month and the issuance of 1,500,000 shares of the Company's unrestricted common stock. Additionally, the Company agreed to issue Mr. Hodge an additional 250,000 share of the Company's unrestricted common stock at the end of each fiscal quarter beginning March 1, 2017. The consulting agreement terminated on April 19, 2018, upon Mr. Hodge leaving the Company for health reasons. Mr. Hodge is owed 500,000 unrestricted shares under the subject agreement. On July 2, 2018, Mr. Hodge passed away. The shares were transferred to his wife, Eleanor Hodge. Ms. Hodge passed away in December 2021. As of September 30, 2025, these shares have not been issued to Ms. Hodge's estate. The value of the unissued shares is \$9,375 or \$0.0188 per share and recorded in common stock to be issued in the accompanying consolidated balance sheet at September 30, 2025 and December 31, 2024.

On March 15, 2022, the Company signed a twelve-month Work for Hire Consulting Agreement with the former owner of N2A Motors to serve as the Company's Chief Operating Officer and a director of the Company. The Company's COO will devote a minimum of 40 per week to the Company. The COO will receive \$5,000 in cash or cash equivalents per month as long as the Company's available capital performance permits the payout at the reasonable discretion of the Company. The salary increases by \$2,500 on the 60<sup>th</sup> day of the agreement, for an aggregate of \$7,500 per month. Thereafter, the salary shall increase by \$2,500 per month after each 60-day period until a threshold is reached as mutually agreed to by the Company and COO. #### **Note 8 – FINANCE LEASE**

On March 4, 2022, VAPR purchased Ecite Motors LLC and acquired its facility for operations. The facility which Ecite occupies had a signed Commercial & Investment Real Estate Purchase and Sale Agreement dated October 5, 2021 for the facility located at 15812 116<sup>th</sup> Ave. N.E. Bothell, WA 98011. It is roughly a 4,000 sq ft commercial building which was assumed by the Company. It contains 4 bays with lifts, a detail bay, office space, customer lobby, a break room/kitchenette, and 2 bathrooms. It also contains two outside paved areas that can be used as is or built on for expansion. The terms of the Commercial & Investment Real Estate Purchase and Sale Agreement contains a 36-month finance lease ending on September 4, 2024 and a \$2,222,222 buy-out provision which must be exercised before October 4, 2024. The Finance lease right of use ("ROU") assets are included in property and equipment and the finance lease obligations are presented separately in the consolidated balance sheets. When a lease does not provide an implicit interest rate, the Company used its incremental borrowing rate based on the information available at the commencement date in determining the present value of future payments. Since the finance lease grants the Company an option to purchase the underlying asset and the Company is reasonably certain to exercise, the Company added the buy-out option to the lease payments. The FASB determined that "reasonably certain" is a high threshold, such as probability exceeding 75-80%. On date of acquisition, March 4, 2022, the Company calculated the net present value of the minimum lease payments at \$1,919,664. In addition, the Company recorded property plant and equipment at \$2,198,481 in the accompanying consolidated balance sheets.
