A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

TMMI, Inc. (TMMI) is a technology company specializing in digital video compression and playback software. Founded in 1990, the company is a pioneer in digital video developing the world's first video that played from 1x CD-ROM and released "TMM Softvideo version 1.1", the world's first video software on the market using RLE (Run Length Encoding) without the need for dedicated hardware. In 1992 TMMI was the co-developer in bringing Iterated Systems Inc.'s VDK Fractal Image compression technology to video and financially underwrote the development of this technology between 1993 and 2000.

In 2012/13 TMM, Inc. created its own upgraded derivative of Iterated Systems Inc.'s licensed VDK 2.1, rebranded as TRUDEFTM VDK3 supporting modern multi core, multi-threaded AMD64 bit hardware. TMM, Inc., also developed its own TRUDEF Fractal Video Player for Windows 7/8 that plays high quality 4k VDK3 2x2 block encoded Intra Frame video at high bitrates on commodity hardware. The TRUDEF Fractal Video Player was intended for Digital Cinema and Home Theater markets.

In 2018/19, TMM, Inc. developed its Universal Windows Platform (UWP) compliant TRUDEFTM Video Player with a custom internal video pipeline designed to improve HEVC and AV1 visual quality on large resolution screens and future support for VDK3 Fractal Video. TMMI's source code base has been upgraded for compiling with Microsoft Studio 2017 supporting Windows 10-64.

TMM, Inc. has a co-development agreement with a third-party technology company, Code Baby, to create avatar technology applications for use in multiple market sectors, and it is exploring potential new applications with other new compatible technologies.

B. List any subsidiaries, parent company, or affiliated companies.

TMM, Inc. acquired a wholly owned subsidiary, Digital Focus Inc. (DFI) by means of an exchange of shares. DFI has no operations.

- B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

On March 21, 2013, the Company and its subsidiary, Digital Focus, Inc. (DFI), filed a lawsuit in the Eighth Judicial District Court for Clark County, Nevada (the “Court”) against Dimension, Inc. and related parties in order to protect and resolve its rights as to certain intellectual property. In response to the Company’s complaint, Dimension filed a cross-complaint alleging ten causes of action, among them malicious prosecution, and declaratory relief. In recent years, however, the Company has completed development of new digital compression and scaling technologies that are unrelated to the Company’s original technology that is the subject of the lawsuit. The Company’s new technologies include new proprietary algorithms that are described at least in part in provisional patent applications filed by the Company in 2015.

As a result of such new product developments, the Company no longer saw the need to continue to spend valuable resources litigating over technology that was not in development by the Company. Accordingly, upon motion made by the Company and granted by the Court, the Company’s claims against the Defendants were voluntarily dismissed on January 21, 2016. On or about April 25, 2016, the Court granted in part TMMI’s motion for summary judgment on Dimension’s counterclaims and dismissed almost all of the counterclaims, leaving only the two abuse of process and declaratory relief claims. Ultimately, Dimension dismissed the abuse of process claim without prejudice. After a trial held in November of 2016, the Court entered judgment in Dimension’s favor and declared that Dimension was the owner of the single certain PVS/SGI license in question. Following the trial, Dimension filed a motion for an award of attorney’s fees, which was denied by the court. Costs in the approximate amount of \$54,000 were awarded to Dimension. Both parties appealed to the Nevada Supreme Court, and in December of 2018, the Nevada Supreme Court upheld both the declaratory judgment in favor of Dimension and in favor of TMMI, the denial of Dimension’s motion for attorney’s fees.

In July of 2019, Dimension filed a new case in the Court against the Company and certain of its current and former officers again alleging an abuse of process claim related to the original suit described above. In September of 2019, the Company moved to dismiss this new suit based on Nevada's Anti-SLAPP statute as the matters have been settled by the court. The Company's motion to dismiss anti-SLAPP was denied on the basis of a technical issue of Rec Judicata. The Company took an interlocutory appeal of that decision to the Nevada Supreme Court. At a settlement conference held in February of 2020, the parties reached an agreement in principle to settle the litigation and any and all claims between them. That proposed settlement did not reach an agreeable conclusion. TMMI's appeal of the Rec Judicata issue in its Anti-SLAPP Motion was voluntarily withdrawn by TMMI to consolidate its resources for a final adjudication of the litigation. The court approved the withdrawal on October 19, 2020, and TMMI proceeded in the litigation preparing its counterclaim against Dimension, Inc. for damages in excess of \$5,000,000.00. TMMI's counter claim for \$5,000,000 against Dimension, Inc. has now been filed and accepted by the Nevada State court. TMMI also filed a claim against Lawrence Panik, a former TMMI shareholder, in conjunction with the Dimension counter claim for claims including using inside information to usurp the Company's corporate opportunities, against the interests of all other shareholders. Dimension/Panik lost the motion to dismiss under the Nevada Anti-SLAPP statute and subsequently filed an appeal of the decision. Settlement discussions have not been fruitful. The Company has timely filed its response to the Dimension/Panik appeal and will prosecute the appeal to conclusion. The Appeal, together with the TMMI Response, is currently pending before the Nevada Appellate Court and will be addressed by the Court in accordance with the Court's calendar. The Nevada Appellate Court remanded the case back to the State Court where further action is pending. TMMI chose to conserve resources and exit the Anti-SLAPP action, which had been remanded to State Court. Ultimately, the Court awarded \$300,000 in legal fees to Dimension. On September 29, 2025, Dimension filed a motion for a default judgement. On October 16, 2025, TMMI filed its responsive answer to the court.

4. ACCRUED EXPENSES

In May 2016, several law firms representing the Company presented invoices for accumulated legal services related to the litigation referenced in Note 5 and also for legal services in connection with securing patents for the Company's updated and new technology.

In 2017 the Company settled certain amounts due to the various law firms in the amount of \$283,056. The unsettled amounts of \$161,856 remain as a liability and are included in accrued expenses.

5. LITIGATION

On March 11, 2013, the Company and its subsidiary, Digital Focus, Inc. (DFI), filed a lawsuit in the Eighth Judicial District Court for Clark County, Nevada (the "Court") against Dimension, Inc. and related parties in order to protect and resolve its rights as to certain intellectual property. In response to the Company's complaint, Dimension filed a cross-complaint alleging ten causes of action, among them malicious prosecution, and declaratory relief. In recent years, however, the Company has completed development of new digital compression and scaling technologies that are unrelated to the Company's original technology that is the subject of the lawsuit. The Company's new technologies include new proprietary algorithms that are described at least in part in provisional patent applications filed by the Company in 2015. As a result of such new product developments, the Company no longer saw the need to continue to spend valuable resources litigating over technology that was not in development by the Company. Accordingly, upon motion made by the Company and granted by the Court, the Company's claims against the Defendants were voluntarily dismissed on January 21, 2016. On or about April 25, 2016, the Court granted in part TMMI's motion for summary judgment on Dimension's counterclaims and dismissed almost all of Dimension's counterclaims, leaving only abuse of process and declaratory relief claims. Ultimately, Dimension dismissed the abuse of process claim without prejudice. After a trial held in November of 2016, the Court entered judgment in Dimension's favor and against the Company, declaring that Dimension was the owner of the

specific PVS/SGI license in question. Following the trial, Dimension filed a motion for an award of attorney's fees, which the Court denied. Costs in the approximate amount of \$54,000 were awarded to Dimension. Both parties appealed to the Nevada Supreme Court, and in December of 2018, the Nevada Supreme Court upheld both the declaratory judgment in favor of Dimension and in favor of TMMI on the denial of Dimension's motion for attorney's fees.

In July of 2019, despite its prior dismissal of its abuse of process claim, Dimension filed a new case in the Court against the Company and certain of its current and former officers, again seeking attorney fees alleging an abuse of process claim related to the original suit described above. In September of 2019, the Company moved to dismiss this new suit based on Nevada's Anti-SLAPP statute. The Company's motion to dismiss was denied based upon a technical ruling and the Company took an interlocutory appeal of the decision to the Nevada Supreme Court. At a settlement conference held in February 2020, the parties agreed in principle to settle the litigation and any and all claims between them. Ultimately, that settlement failed.

TMMI subsequently filed a motion to voluntarily withdraw its appeal of the Anti-SLAPP decision in order to pursue its cross claim against Dimension, Inc., which the court granted October 29, 2020. The Company proceeded with the litigation and filed its counter claim against Dimension, Inc. for damages in excess of \$5,000,000. On December 7, 2021, TMMI also filed a claim against Lawrence Panik, former president of Dimension, Inc., who is a former shareholder in TMMI, for claims including using inside information to usurp the Company's corporate opportunities against the interests of all TMMI shareholders. On March 8, 2022 Lawrence Panik's motion to dismiss the suit against him was denied and he has filed an appeal.

TMMI prevailed in its challenge to the Dimension, Inc. Anti-SLAAP claim with the State Court denying Dimension, Inc. Dimension Inc. appealed the State Court Court's decision. The Nevada Appellate Court remanded the case back to the State Court. TMMI subsequently

sought to end the Anti-SLAAP claims to focus resources on the underlying claim brought by Dimension, Inc. The court ultimately awarded \$300,000 in Legal fees regarding the Anti-SLAAP issue. This award has been accrued at the balance sheet date.

6. ADDITIONAL STOCK ISSUANCE AND CANCELLATION

At the balance sheet date, there were 20,000,000 shares of common stock recovered by the Company as a result of the settlements of litigation initiated by the Company against former management members and a vendor for its non-performance under a contract. 16,250,000 shares have been returned and cancelled and additional 3,750,000 shares are still in the process of being returned to the Company to be cancelled.

In addition, the Company increased its Common Shares to complete the conversion of debt and investment instruments (See Note 9).

7. ACQUISITION OF DIGITAL FOCUS, INC

On June 8, 2012 TMM, Inc. completed the acquisition of the outstanding shares of Digital Focus, Inc. a California corporation. Digital Focus, Inc.'s sole asset is a license agreement to the PVS/SGI code from Iterated Systems, Inc. that is was the subject of the litigation referenced in Note 5.

8. LOANS PAYABLE

9. PREFERRED SERIES B STOCK

In December 2017 the Company created 1,000,000 shares of Preferred Series B Stock out of the 50 Million Shares of Preferred Stock Authorized. This class of Preferred Stock has a par value of \$0.001 and has no dividend rights except as may be declared by the Board of Directors.

The holders of the Preferred Series B stock shall be entitled to participate in the distribution of assets upon dissolution or liquidation of the company.

The Preferred Series B stock has conversion rights of 200 shares of common for 1 share of Preferred B.

In April 2025, 350,000 shares of Preferred B stock was converted to 70,000,000 shares of Common Stock. 650,000 shares of Preferred B remain outstanding.

10. GOING CONCERN CONSIDERATIONS

Financial Statements prepared in accordance with Generally Accepted Accounting Principles (GAAP) assume a company will continue as a going concern for 12 months from the issuance of its report. In 2025 the Company has short term debt in the amount of \$1,650,862 with accrued interest of \$402,717 related to that debt and legal fees awarded of \$300,000. Meanwhile the Company had cash of \$1,770 at September 30, 2025. In 2024 the Company had short term debt of \$867,862 with accrued interest of \$330,295 related to that debt, and cash of \$227. Therefore, the Company's ability to continue as a going concern is in doubt. The Company must re-negotiate an extension of the debt or repay the debt and legal fee assessment since it has all matured or will mature within 12 months.

TMM, INC
NOTES TO COMPARATIVE CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2025 and 2024

Should the Company not be successful in obtaining extensions of the maturity dates, repay the debt and legal fees payable the Company's ability to continue as a going concern is in jeopardy.

11. INVESTMENT IN LMR SERVICES, LTDA.

The Company has entered a contract with LMR Services, Ltda, for participation in a licensed operation in Brazil for charitable Passive Lotteries in March 2025.

The Company's investment is initially a convertible debt instrument. The Company has the right to convert this to an equity position when all foreign entity registration and licensing have been filed and approved.

The agreement provides for a 25% stake in the operation if converted to an equity position.

This investment has been pledged as collateral for the loans which the Company incurred in order to fund it.
