

Alternative Reporting Standard: Disclosure Guidelines for the Pink[®] Market

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. Companies on the Pink Market that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.²

Pink Current Information Tier

To qualify for the Current Information Tier:

1. **Subscribe to the OTC Disclosure & News Service:** To submit an application, visit [Gateway](#) to sign in or create a new account. Allow OTC Markets Group 2-4 weeks to process your application and provide authorized user credentials to OTCIQ.

2. **Publish Initial Disclosure:** Upload the following documents through OTCIQ:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the Current Fiscal Year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

Qualifying Financial Statements include:

- Audit Letter, if audited
- Balance Sheet
- Statement of Income

- Notes to Financial Statements

3. **Publish the annual Management Certification:** Companies must certify basic company information initially and annually within forty five (45) days of a company’s annual report due date.

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the Pink Current Information tier.

4. **Verify Profile:** Verify the Company Profile through OTCIQ. This includes the complete list of current officers, directors, and service providers; outstanding shares; a business description; contact information; and the names of all company insiders and beneficial owners of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
5. **OTC Markets Group Processing of Reports:** Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted.
6. **Ongoing Requirements:** To qualify for Current Information on an ongoing basis, companies must:

Pink Limited Information Tier

Companies that do not meet the requirements of the Pink Current Information tier set forth above may still qualify for the Pink Limited Information Tier by meeting the following minimum disclosure requirements.

1. **Annual Financial Statements:** Publish one set of Qualifying Annual Financial Statements which cover the past 2 completed fiscal years, provided the most recently completed fiscal year is within the past 16 months.
2. **Verified Profile:** The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. Oxygen Mortgage is a Colorado based home loan provider with offices in Boulder, Colorado and Chicago, Illinois. The company provides home loans and a variety of mortgage financing products to consumers. (ii) The rights to the consideration for the purchase of Oxygen Mortgage which includes the convertible promissory notes, the Class A Preferred Stock, and the Warrants became fully vested at the rate of one eighteenth (1/18) for each full month period after closing. The termination of Robert Egeland's employment pursuant to his Employment Agreement whether by termination, total disability or death shall terminate the vesting as of the date of such termination event for all of the Oxygen Mortgage sellers.

(iii) The Company shall have the right to set-off any claims which it may have against any one or more of the owners of Oxygen Mortgage against any portion of the following which have not "vested" (a) the Warrants and (b) shares of Class A Preferred Stock to be issued upon exercise of the Warrants. The Company, in its sole and absolute discretion, shall have the right to assert its set-off rights against any one or more of items "(a)" and "(b)" of this paragraph.

Preferred Stock

On July 20, 2022, an Amendment to the Certificate of Incorporation was filed which authorized the Board of Directors to create and issue 100,000 shares of "blank check" preferred stock. The Certificate of Amendment also gives the Board the absolute power to determine the terms of the preferred stock. The Certificate of Amendment also provides that the Board may issue such Preferred Stock from time to time in one or more series and authorizes the Board "to fix the designations

and the powers, preferences, rights, qualifications, limitations and restrictions relating to the shares of each such series; provided, however, that no shares of preferred stock shall be issued which would give any one stockholder "Beneficial Ownership" in excess of 51% of the Company's issued and outstanding voting securities including "Beneficial Ownership" which he, she or it has immediately prior to such issuance either (i) at the time of such issuance or (ii) at the time of conversion into Common Stock of such preferred shares".

On December 28, 2022, the Board authorized the creation of shares of Class C Preferred Stock having certain rights and privileges including, but not limited to, each share having: (i) total anti-dilution rights, (ii) voting rights equal to 1% of the issued and outstanding shares of the Company, (iii) conversion rights into 1% of the issued and outstanding shares at the time of conversions and (iv) all other rights which are set forth in the Certificate of Designation.

On December 28, 2022, the Board authorized the issuance of 51 shares of Class C Preferred Stock to Charles Cardona, the CEO and Chairman of the Company who agreed to the cancellation of 148,770,000 pre-split shares of Common Stock owned by him and his wife (of which 100,000,000 pre-split shares were previously cancelled).

A Certificate of Designation setting forth the rights and privileges of Class C Preferred Stock was filed with the Nevada Secretary of State in January 2023.

On December 29, 2022, the Company entered into an Agreement (the "Madison Agreement") with Madison Advisory Ventures, Inc. ("Madison"), a consultant to the Company. Pursuant to the Madison Agreement, Madison had the right to 9.98 shares of Class C Preferred Stock. On December 30, 2022, Madison assigned 4.99 shares of Class C Preferred Stock to each of the two principals of Madison, who received such shares in March 2024. Madison and its two principals agreed to cancel shares of Common Stock and warrants for Common Stock which they then owned.

In addition, pursuant to an Agreement dated October 5, 2023, in consideration of various reasons including, but limited to, the failure of the Company to pay Madison and Madison continuing to render consulting services, and the Company's desire to grant to Madison something substantial in addition to the 9.98 shares of Class C Preferred Stock, the Company agreed to issue warrants to Madison to purchase for nominal consideration a 15% interest in current and future corporate and non-corporate subsidiaries and indirect corporate and non-corporate subsidiaries of the Company.

Common Stock

The Company entered into a Settlement Agreement and Stipulation dated as of May 22, 2024 with EROP Enterprises, LLC ("EROP") for the settlement of \$2,282,500 which EROP acquired from creditors of the Company for which such obligations shall be settled and compromised by the Company's issuance of freely trading shares of the Company's Common Stock issued pursuant to Section 3(a)(10) of the Securities Act of 1933, as amended, until such time as EROP's total gross sales of such Common Stock equal \$3,804,166. Notes to Consolidated Unaudited Financial Statements
September 30, 2025 and March 31, 2025

Basis of presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the periods presented have been reflected herein.

The Company consolidates its subsidiaries Senior Lifestyle Media LLC, a New York Limited Liability Corporation, Axihub, Inc., a New York Corporation, Lion Development Group LLC, a South Carolina Limited Liability Company and O2 Mortgage, LLC, a Illinois LLC, in accordance with ASC 810, and specifically ASC 810-10-15-8 which states, "[t]he usual condition for a controlling financial interest is ownership of a majority voting interest, and, therefore, as a general rule ownership by one reporting entity, directly or indirectly, or over 50% of the outstanding voting shares of another entity is a condition pointing toward consolidation." All inter-company transactions have been eliminated during consolidation.

Concentration of Risk

The Company places its cash and temporary cash investments with established financial institutions. At times, such cash and investments may be in excess of the FDIC insurance limit.

Principles of Consolidation

The consolidated financial statements include the accounts of Ideal Group of Companies, Inc., and its subsidiaries Axihub, Inc., Lion Development Group, LLC, Senior Lifestyle Media LLC and O2 Mortgage LLC. All intercompany transactions are eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of six months or less to be cash equivalents.

Trade Accounts Receivable

Trade accounts receivable is recorded net of an allowance for expected losses. The allowance is estimated from historical performance and projections of trends. The reserve account at September 30, 2025 and 2024 was \$0.

Inventory

The Company's inventory is valued at the lower of cost (first in, first out) or market using the retail method.

Stock-based Compensation

The Company records stock-based compensation in accordance with ASC 718, *Compensation - Stock Based Compensation* and ASC 505, *Equity Based Payments to Non-Employees*, which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options.

ASC 718 requires companies to estimate the fair value of share-based awards on the date of grant using an option-pricing model. The Company uses the Black-Scholes option-pricing model as its method of determining fair value. This model is affected by the Company's stock price as well as assumptions regarding a number of subjective variables. These subjective variables include but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors. The value of the portion of the award that is ultimately expected to vest is recognized as an expense in the statement of operations over the requisite service period.

All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

Long-lived Assets

Long-lived assets are stated at cost. Maintenance and repairs are expensed as incurred. Depreciation is determined using the straight-line method over the estimated useful lives of the assets, which is five years.

Where an impairment of a property's value is determined to be other than temporary, impairment for the estimated potential loss is recorded to adjust the property to its net realizable value.

When items of building or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations. The Company does not have any long-lived tangible assets, which are considered impaired as of September 30, 2025, and 2024.

The Company applies the provisions of ASC 360-10, *Property, Plant and Equipment*, where applicable to all long-lived assets. ASC 360-10 addresses accounting and reporting for impairment and disposal of long-lived assets. The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with ASC 360-10. ASC 360-10 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

Intangibles with Finite Lives

The Company applies the provisions of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 360-10, *Property, Plant and Equipment*, where applicable to all long lived assets. FASB ASC 360-10 addresses accounting and reporting for impairment and disposal of long-lived assets. The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with FASB ASC 360-10. FASB ASC 360-10 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

The Company does not amortize any intangible assets with finite lives.

Goodwill and intangible assets are reviewed for potential impairment whenever events or circumstances indicate that their carrying amounts may not be recoverable. The Company impaired its goodwill on the acquisition of O2 Mortgage in the amount of \$907,313 in the year ended March 31, 2024.

Revenue Recognition

The Company applies ASC 606 — Revenue from Contracts with Customers. Under ASC 606, the Company recognizes revenue from the commercial sales of products, licensing agreements and contracts to perform pilot studies by applying the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to each performance obligation in the contract; and (5) recognize revenue when each performance obligation is satisfied.

Advertising

Advertising costs are expensed as incurred. Advertising expenses for the six months ending September 30, 2025 and 2024 were \$0.

Research and Development Expenditure

Research expenditure is recognized as an expense when it is incurred. Development expenditure is recognized as an expense except that expenditure incurred on development projects are capitalized as long-term assets to the extent that such expenditure is expected to generate future economic benefits. Development expenditure is capitalized if, and only if an entity can demonstrate all of the following:

1. its ability to measure reliably the expenditure attributable to the asset under development;
2. the product or process is technically and commercially feasible;
3. its future economic benefits are probable;
4. its ability to use or sell the developed asset;
5. the availability of adequate technical, financial and other resources to complete the asset under development;
and
6. its intention to complete the intangible asset and use or sell.

Research and Development Expenditure (continued)

Capitalized development expenditure is measured at cost less accumulated amortization and impairment losses, if any. Development expenditure initially recognized as an expense is not recognized as assets in the subsequent period. The development expenditure is amortized on a straight-line method over a period of not exceeding 15 years when the products are ready for sale or use. In the event that the expected future economic benefits are no longer probable of being recovered, the development expenditure is written down to its recoverable amount.

Research and development costs represent the costs of developing and perfecting IGC's products as well as marketing and planning for those products. These costs are charged to expense as incurred.

The Company estimated these costs to be \$0 in its operations for the six months ending September 30, 2025, and 2024.

Fair Value of Financial Instruments

The Company adopted FASB ASC 820, Fair Value Measurements and Disclosures, which provides a framework for measuring fair value under GAAP. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard also expands disclosures about instruments measured at fair value and establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes six levels of inputs that may be used to measure fair value:

Level 1 — Quoted prices for identical assets and liabilities in active markets.

Level 2 — Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 — Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made; however actual results could differ materially from those estimates.

Emerging Growth Company Critical Accounting Policy Disclosure

The Company qualifies as an "emerging growth company" under the 2012 JOBS Act. Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. As an emerging growth company, the Company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The Company may elect to take advantage of the benefits of this extended transition period in the future.

Income Taxes

The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification (“Section 740-10-25”). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of Section 740-10-25.

Segments

The Company is a diversified technology company that is either currently engaged or will be in the following distinct business sectors: (1) real estate development in residential and commercial projects initially in South Carolina, Florida, Texas and adjacent locations, (2) licensing and sales of data bases of email addresses primarily consisting of seniors and business executives, (3) online targeted marketing, advertising and sales of products and services, (4) sharing of product marketing revenue with our strategic marketing partners, and (5) the mortgage business..

For the six months ending September 30, 2025, all of the revenues reported in these financial statements were from the mortgage business.

Loss Per Share

Net loss per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period, unless their effect is anti-dilutive due to continuing losses. There were no potentially dilutive shares outstanding as of September 30, 2025, and 2024.

Recent Accounting Pronouncements

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or

NOTE 2 – Financial Condition and Going Concern

The Company’s financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has sustained operating losses in the current year and may not achieve the level of profitable operations to sustain its activities. These factors raise substantial doubt as to its ability to obtain debt and/or equity financing and achieve profitable operations.

Management intends to raise additional operating funds through equity and/or debt offerings. However, there can be no assurance management will be successful in its endeavors. Ultimately, the Company will need to achieve profitable operations in order to continue as a going concern.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings and/or bank financing necessary to support its working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to the Company. If adequate working capital is not available to the Company, it may be required to curtail its operations.

NOTE 10 – Derivative Liability

The Company has convertible notes payable outstanding on September 30, 2025, that are convertible into the Company’s common stock to be issued upon conversion of notes payable and preferred stock Series C based the current conversion formula into 2,742,205,030 shares of common stock. The Company currently does not have enough authorized shares to fully allow the conversion of all the notes payable, related accrued interest and Series C Preferred Stock.

Due to there being no explicit limit to the number of shares to be delivered upon settlement of the above conversion option embedded in the NP and Preferred Stock, the conversion feature is classified as derivative liabilities and recorded at fair value.

As of September 30, 2025, the number of common shares that could be potentially issued to settle the conversion of the notes and preferred stock is 2,742,205,030 common shares.

The liability has decreased for the conversion rate into common stock for the period ending September 30, 2025, and prior years and adjustments for the change in the derivative value based on the increase in the conversion to common shares. The increase for the six months ending September 30, 2025, was \$5,471,492 and the decrease for the six months ending September 30, 2024, was \$4,023,765.

Pursuant to ASC 815, “Derivatives and Hedging,” the Company initially did not recognize the fair value of the embedded conversion feature of the NP on date of issuance due to limitations on the conversion feature of the security that have now expired and only the fair value of the securities was charged to operations. During the period of August 25, 2016, to September 30, 2025, the Company recorded a mark-to-market adjustment based on the fair value of the derivative liability on that date which has resulted in a charge of \$17,888,596 to operations during this period of time. The fair value of the derivative liability was determined using the Black Scholes option pricing model with a quoted market price of \$.00790, a conversion price of fifty to seventy-five percent of the closing bid price, high expected volatility, none expected, plus recording the terms of the Series C Preferred Stock.

The following table sets forth by level with the fair value hierarchy of the Company’s financial assets and liabilities measured at fair value on September 30, 2025.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

None	\$ -	\$ -	\$ -	\$ -
Liabilities
