Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Each share of Common Stock shall have the right to vote on a one-for-one basis. Shareholders of Common Stock are entitled to dividends as determined by the Board of Directors. The Common Stock has no pre-emptive rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Preferred Class A Stock

Designation: There are 20,000,000 shares of preferred stock authorized, par value \$.01 per share.

Conversion: Each share of Series A Preferred Stock shall automatically convert into one (1) share of the Company's Class A Common Stock immediately after the Company conducts a reverse share split of its Class A Common Stock on a one (1) for four hundred (400) basis. The Preferred Class A stock is NOT subject to the aforementioned reverse split. These shares are subject to be issued in the first quarter of the year ending September 30, 2026.

Voting Rights: Except as otherwise provided by law, each share of the Preferred Class A shall be entitled, on all matters on which any of the shareholders are required or permitted to vote, to four hundred (400) votes per share, and, except as provided expressly herein or as required by law, the holders of the Preferred Class A stock vote together with the Class A Common Stock shareholders and not as a separate class. So

long as any shares of the Preferred Class A stock remains outstanding, the Company shall not, without first obtaining the approval (by vote or written consent) of the holders of at least a majority of the total number of shares of Preferred Class A stock then outstanding voting separately as a class, alter or change, in any material respect, the rights, preferences or privileges or the restrictions of the shares of the Preferred Series A Stock whether by amendment of the Company's Certificate of Designation of Preferences or otherwise. At any meeting at which the holders of the Preferred Class A stock are entitled to vote as a class pursuant to this provision, the holders of a majority of all outstanding shares of Series A Preferred Stock, present in person (including, any person present via telephone) or represented by proxy, shall be necessary to constitute a quorum.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. PEER TO PEER NETWORK, INC.
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS
SEPTEMBER 30, 2025 and 2024

NOTE 1 – ORGANIZATION AND BUSINESS

Peer to Peer Network (OTC: PTOP) hereinafter, ("the Company") was incorporated in the State of Nevada on May 9, 2007, under the name "Web Wizard, Inc.". On February 17, 2012 the Company acquired the business of PFN Holdings, Inc. and changed its name to "Psychic Friends Network, Inc." and undertook the development of a web-based psychic consultation services. On August 27, 2014, the Company changed its name to "Peer to Peer Network". On September 11, 2015, the Company sold its psychic consultation assets related to the Psychic Friends Network and acquired the assets of a cloud based mobile business card technology (Mobicard) from Code2 Action, Inc., the business the Company currently operates. On January 12, 2016, the Company changed its name to "Mobicard Inc." but failed to effectuate the name change with FINRA and subsequently on May 25, 2021, the Company changed its name back to "Peer to Peer Network"

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has generated only nominal revenues to date and at September 30, 2025, has an accumulated deficit of \$25,377,366, a net operating loss of \$186,674 for the year ended September 30, 2025, and at September 30, 2025, the Company had a working capital deficit of \$597,374. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The Company's continuation as a going concern for one year after the audit report is dependent upon, among other things, its ability to generate greater revenues and its ability to obtain capital from third parties. No assurance can be given that the Company will be successful in these efforts.

Over the next twelve months management plans raise additional capital and to invest its working capital resources in sales and marketing in order to increase the distribution and demand for its products. If the Company fails to generate sufficient revenue and obtain additional capital to continue at its expected level of operations, the Company may be forced to scale back or discontinue its sales and marketing efforts. However, there is no guarantee the Company will generate sufficient revenues or raise capital to continue operations. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that (1) recorded transactions are valid; (2) valid transactions are recorded; and (3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company accounts for cash and cash equivalents under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 305, "*Cash and Cash Equivalents*," and considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Advertising and Promotion Costs

Advertising and promotion costs are expensed as incurred. During the years ended September 30, 2025 and 2024, this cost was \$2,214 and \$39,892, respectively.

Revenue Recognition

The Company records transactions in accordance with ASU 2014-09, “*Revenue from Contracts with Customers*” and all subsequent amendments to the ASU (collectively, “ASC 606”). In accordance with ASC 606, revenues are recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

Our operations currently are not generating any revenue.

Costs of Revenues

Our policy is to recognize costs of revenue in the same manner in conjunction with revenue recognition. Cost of revenues include the costs directly attributable to revenue. Since we do not currently have any revenue, we do not incur any corresponding cost of goods sold.

Income Taxes and Valuation Allowance

The Company accounts for income taxes under ASC 740, “*Income Taxes*”. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. All of the Company’s deferred tax assets were offset by a full valuation allowance at September 30, 2025.

Financial Instruments

ASC 820, “*Fair Value Measurements and Disclosures*,” defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity’s own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 30, 2025. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

The Company does not have any assets or liabilities measured at fair value on a recurring basis.

Related Parties

The Company follows ASC 850-10, “*Related Party Disclosures*,” for the identification of related parties and disclosure of related party transactions. The Company has received cash from its CEO on a periodic basis to support operations and provide working capital to the Company.

Pursuant to ASC 850-10-20, related parties include: a) affiliates of the Company; b) principal owners of the Company; c) management of the Company; d) other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and e) other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

Material related party transactions are required to be disclosed in the financial statements, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of the financial statements is not required in those statements. The disclosures shall include: a) the nature of the relationship(s) involved; b) a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which statements of operation are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c) the dollar amounts of transactions for each of the periods for which statements of operations are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d) amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Earnings (loss) per share

Basic income (loss) per share is computed by dividing net income (loss) attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted income (loss) per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and upon the conversion of notes. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered anti-dilutive and thus are excluded from the calculation.

Intangible Assets

Intangible assets, consisting of internally developed software, is accounted for in accordance with ASC 350 – “*Intangibles - Goodwill and Other*.” Intangible assets that have finite lives are amortized using the straight-line method over their estimated useful lives.

Long-lived Assets

Long-lived assets such as fixed assets and identifiable intangibles are reviewed for impairment whenever facts and circumstances indicate that the carrying value may not be recoverable. When required impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable from its undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risk associated with the recovery of the assets. We did not recognize any impairment losses for any periods presented.

Segment Reporting

Operating segments are components of an enterprise about which separate financial information is available and is evaluated regularly by management, namely the Chief Operating Decision Maker (“CODM”) of an organization, in order to determine operating and resource allocation decisions. By this definition, the Company has identified its Chief Executive Officer as the CODM. The CODM has identified that the Company operates as a single segment entity.

Stock-Based Compensation

FASB ASC 718 “*Compensation – Stock Compensation*,” prescribes accounting and reporting standards for all stock-based payments award to employees, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights, may be classified as either equity or liabilities. The Company determines if a present obligation to settle the share-based payment transaction in cash or other assets exists. A present obligation to settle in cash or other assets exists if: (a) the option to settle by issuing equity instruments lacks commercial substance or (b) the present obligation is implied because of an entity’s past practices or stated policies. If a present obligation exists, the transaction should be recognized as a liability; otherwise, the transaction should be recognized as equity.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of FASB ASC 505-50 “*Equity – Based Payments to Non-Employees*.” Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date. For the years ended September 30, 2025 and 2024, the Company had share-based compensation of \$0 and \$181,500, respectively.

Recently Issued Accounting Pronouncements

We have reviewed the FASB issued ASU accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation’s reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration. We recently adopted and retroactively applied ASU 2023-07, “*Segment Reporting*.”
