SHONGHOYA INTL GROUP, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTER ENDED JUNE 30, 2025

1. Nature of operations

Shonghoya Intl. Group, Inc. (the “Company”) was incorporated in the state of Nevada on April 27, 2005, as Puppy Zone Enterprises, Inc. The Company changed its name to Actiga Corp. on January 7, 2008, to Avisio, Inc. on August 20, 2009, to Deal a Day Group Corp. on November 3, 2011, and to Shonghoya Intl. Group, Inc. on May 22, 2020. The Company’s fiscal year-end is December 31.

Acquisition Under Common Control

On April 23, 2021, the Company entered into a Purchase and Sale Agreement (the “Agreement”) by and between the Company and Ms. Wen-Chun Chen (the “Seller”), which provided for the purchase of 100% of the equity of Shonghoya Int’l Trading Co., a Taiwan corporation, for the amount of \$110,000, paid by Ms. Chen. Shonghoya Int’l Trading Co. (“SHTL”) was under common control before the acquisition and is consolidated in accordance with ASC 805-50, under which the assets and liabilities of SHTL have been presented at their carrying values as of the date of common control.

Shonghoya was engaged in the development and sale of negative ion products and equipment, utilizing naturally endowed elements to promote healing and relaxation through deep perspiration and negative ion bathing. The Company operated ten (10) wellness centers in Asia for marketing and sales purposes.

Discontinued Operations and Custodianship

Operations at Shonghoya Int’l Trading Co. ceased around the middle of the fiscal year 2022. Accordingly, the Company did not include the financial results of SHTL in the consolidated financial statements for the fiscal years ended December 31, 2022 and 2023. This exclusion reflects the discontinuation of SHTL’s business activities and the absence of material financial transactions or operating assets during the reporting periods.

Following the cessation of operations, Mr. Junhua Guo, an individual shareholder, filed a petition for custodianship with the Eighteenth Judicial District Court, Clark County, Nevada. The court granted the petition under Case Number A-24-902686-C, and Mr. Junhua Guo was appointed as Custodian on October 31, 2024. On the same date, the Custodian appointed Danping Sheng as President and Director, and appointed himself as Secretary, Treasurer, and Director of the Company.

Reinstatement and Strategic Transition

Subsequent to his appointment, Mr. Guo successfully reinstated the Company with the Nevada Secretary of State (NVSOS). The newly formed board of directors adopted a resolution to formally spin off Shonghoya Int’l Trading Co. as a separate entity, thereby removing it from the Company’s consolidated structure.

To support this transition, the Company plans to raise additional funds, reestablish compliance with OTCMarkets, and undergo a rebranding to position itself as a leader in financial technology. With a scalable subscription-based revenue model and a mission to empower startups worldwide, Shonghoya is set to transform the landscape of capital raising. As part of this initiative, the Company filed a Regulation Crowdfunding Form C on November 29, 2024, to raise capital from both accredited and non-accredited investors. The offering is intended to fund platform development, marketing, and operational infrastructure aligned with the Company’s fintech vision.

In June 2025, the Company received a formal acquisition proposal from SSTHG Zhejiang Intelligent Tech Co., Ltd., a Hangzhou-based technology firm specializing in AI-driven marketing and smart supply chain solutions. SSTHG, along with its subsidiary MMT Maimaiti O2O Local Life Service Platform, expressed interest in acquiring Shonghoya Intl. Group Inc. (OTC: SNHO) to expand its international footprint and integrate its platform capabilities. In connection with this strategic alignment, Mr. Xiaoyang Du, founder and Chairman of SSTHG, was appointed to the Company’s Board of Directors on June 3, 2025.

2. Summary of significant accounting policies

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant assumptions and estimates relate to the valuation of equity issued for services. Actual results could differ from these estimates.

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Update (“ASU”) 2014-09, “*Revenue from contracts with customers*,” (Topic 606). Revenue is recognized when a customer obtains control of promised goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods. The Company applies the following five-step model in order to determine this amount: (i) identification of the promised goods in the contract; (ii) determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company only applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods or services it transfers to the customer. Once a contract is determined to be within the scope of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 606 at contract inception, the Company reviews the contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company expects to recognize revenues as the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied.

Fair Value Measurements and Fair Value of Financial Instruments

The Company adopted ASC Topic 820, *Fair Value Measurements*. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2: Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3: Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The estimated fair value of certain financial instruments, including all current liabilities are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

Fair Value of Financial Instruments

ASC subtopic 825-10, *Financial Instruments* ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying value of cash and cash equivalents, accounts payable and accrued liabilities when reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed. The Company follows ASC subtopic 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10") and ASC 825-10, which permits entities to choose to measure many financial instruments and certain other items at fair value.

Cash and Cash Equivalents

For purposes of the Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss, capital loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest and penalties related to unrecognized tax benefits as a component of general and administrative expenses. Our federal tax return and any state tax returns are not currently under examination.

The Company has adopted FASB ASC 740-10, *Accounting for Income Taxes*, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually from differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Net Income (Loss) Per Common Share

The Company computes loss per common share, in accordance with FASB ASC Topic 260, *Earnings Per Share*, which requires dual presentation of basic and diluted earnings per share. Basic income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding during the period. Diluted income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding, plus the issuance of common shares, if dilutive, that could result from the exercise of outstanding stock options and warrants.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

3. Going concern

The accompanying financial statements have been prepared on a going concern basis. For the quarter ended June 30, 2025, the Company continued to have no revenue and no cash, but incurred operating expenses totaling \$10,321, resulting in a net loss for the period. As of that date, the Company had no working capital and reported total liabilities of \$9,913, primarily due to advances from related parties. The accumulated deficit increased to \$94,415. Total stockholders' equity is -\$9,913, reflecting the non-cash issuance of 25,350,569 shares of common stock to extinguish \$2,535 in related party debt, with the remaining shortfall of \$22,816 treated as a share issuance expense. These factors raise substantial doubt about the Company's ability to continue as a going concern without additional funding or revenue-generating operations.

4. Commitments and contingencies

During the normal course of business, the Company may be exposed to litigation. When the Company becomes aware of potential litigation, it evaluates the merits of the case in accordance with FASB ASC 450-20-50, *Contingencies*. The Company evaluates its exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If the Company determines that an unfavorable outcome is probable and can be reasonably estimated, it establishes the necessary accruals. As of June 30, 2025, the Company is not aware of any contingent liabilities that should be reflected in the financial statements.

5. Related party transactions

As of June 30, 2025, the Company had received a total of \$4,586 in advances from Mr. Junhua Guo, consisting of \$2,126 advanced in prior periods and an additional \$2,460 advanced during the current quarter to cover administrative expenses. Mr. Xiaoyang Du advanced \$7,861.53 during the quarter to pay the Company's transfer agent fee. On June 24, 2025, the Company issued 25,350,569 shares of common stock to Mr. Du to settle \$2,535 of the outstanding balance. The remaining \$5,326.53 owed to Mr. Du is recorded as a liability under "Due to Related Party" as of June 30, 2025.

These transactions are considered related party transactions due to Mr. Guo's role as Custodian and Director, and Mr. Du's appointment to the Board of Directors on June 3, 2025. Management continues its efforts to reorganize and develop the Company's operations and subsidiary structure in order to support future business activities.

6. Equity

Common Stock

The Company is authorized to issue 180,000,000 shares of Common Stock with a par value of \$0.001 per share.

As of June 30, 2025, the Company had 84,501,895 shares of Common Stock issued and outstanding.

Preferred Stock – Series A

The Company is authorized to issue 50,000,000 shares of Preferred Stock with a par value of \$0.001 per share. As of June 30, 2025, the Company had 0 shares of Preferred Stock issued and outstanding.

7. Legal proceedings

As of the date of this filing, the Company is not a party to any pending or threatened legal proceedings, and no lawsuits or claims have been filed against the Company.

8. Subsequent events

Management evaluated subsequent events through the date of these financials and determined that there were no events that would require additional disclosure.
