Blue Line Protection Group, Inc.
Notes to Consolidated Financial Statements

Note 1 – History and organization of the company

The Company was originally organized on September 11, 2006 (Date of Inception) under the laws of the State of Nevada, as The Engraving Masters, Inc. The Company was authorized to issue up to 100,000,000 shares of its common stock and 100,000,000 shares of preferred stock, each with a par value of \$0.001 per share.

On March 14, 2014, the Company acquired Blue Line Protection Group, Inc., a Colorado corporation formed in February 2014 (“Blue Line Colorado”), as a wholly-owned subsidiary of the Company. The Company provides armed protection and transportation, banking, compliance, and training services to the lawful cannabis industry, including shipment protection, money escorts, asset vaulting and transportation and storage of currency.

On May 2, 2014, the Company changed its name from The Engraving Masters, Inc. to Blue Line Protection Group, Inc. (“BLPG”)

On May 6, 2014, the Company effected a forward stock split and a pro-rata increase in its authorized common stock on a basis of 14-to-1, whereby each shareholder received 14 newly issued shares of common stock for each 1 share held. Additionally, the authorized capital of the Company concurrently increased to 1,400,000,000 shares of common stock.

On July 6, 2021, the Company effected a reverse stock split and a pro-rata decrease in its authorized common stock on a basis of 1-for-100, the authorized capital of the Company concurrently decreased to 14,000,000 shares of common stock.

Note 2 – Accounting policies and procedures

Principles of consolidation

For the years ended December 31, 2025 and 2024 the consolidated unaudited financial statements include the accounts of Blue Line Protection Group, Inc., Blue Line Advisory Services, Inc. (a Nevada corporation; “BLAS”), Blue Line Capital, Inc. (a Colorado corporation; “Blue Line Capital”), Blue Line Protection Group (California), Inc. (a California corporation; “Blue Line California”), Blue Line Colorado, Blue Line Protection Group Illinois, Inc. (an Illinois corporation; “Blue Line Illinois”), BLPG, Inc. (a Nevada corporation; “Blue Line Nevada”), Blue Line Protection Group (Washington), Inc. (a Washington corporation; “Blue Line Washington”). All significant intercompany balances and transactions have been eliminated. BLPG and its subsidiaries are collectively referred herein to as the “Company.”

Basis of presentation

The consolidated financial statements present the balance sheets, statements of operations, stockholders’ equity (deficit) and cash flows of the Company. The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America.

The Company has adopted December 31 as its fiscal year end.

Derivatives

The Company evaluates convertible notes payable, stock options, stock warrants and other contracts to determine if those contracts or embedded components of those contracts qualify as derivatives to be separately accounted for under the relevant sections of ASC Topic 815-40, *Derivative Instruments and Hedging: Contracts in Entity's Own Equity*.

The result of this accounting treatment could be that the fair value of a financial instrument is classified as a derivative instrument and is marked-to-market at each balance sheet date and recorded as a liability. In the event that the fair value is recorded as a liability, the change in fair value is recorded in the statement of operations as other income or other expense. Upon conversion or exercise of a derivative instrument, the instrument is marked to fair value at the conversion date and then that fair value is reclassified to equity. Financial instruments that are initially classified as equity that become subject to reclassification under ASC Topic 815-40 are reclassified to a liability account at the fair value of the instrument on the reclassification date.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

Segment reporting

The Company operates as a single operating segment as a provider of armed protection and transportation, banking, compliance, and training services to the lawful cannabis industry, including shipment protection, money escorts, asset vaulting and transportation and storage of currency. In accordance with ASC 280 – “*Segment Reporting*”, the Company’s chief operating decision maker has been identified as the Chief Executive Officer, who reviews operating results to make decisions about allocating resources and assessing performance for the entire Company. Existing guidance, which is based on a management approach to segment reporting, establishes requirements to report selected segment information quarterly and to report annually entity-wide disclosures about products and services, major customers, and the countries in which the entity holds material assets and reports revenue. All material operating units qualify for aggregation under “*Segment Reporting*” due to their similarities in economic characteristics such as nature of services; and procurement processes. Since the Company operates in one segment, all financial information required by “*Segment Reporting*” can be found in the accompanying financial statements and notes to consolidated financial statements.

Cash and cash equivalents

The Company maintains a cash balance in a non-interest-bearing account. For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. As of December 31, 2024, the Company has cash in excess of FDIC insured limits of \$59,245. There were no cash equivalents as of December 31, 2025 or December 31, 2024.

Accounts receivable

Accounts receivables are stated at the amount the Company expects to collect from outstanding balances and do not bear interest. The Company provides for probable uncollectible amounts through an allowance for doubtful accounts, if an allowance is deemed necessary. The allowance for doubtful accounts is the Company’s best estimate of the amount of probable credit losses in the Company’s existing accounts receivable; however, changes in circumstances relating to accounts receivable may result in a requirement for additional allowances in the future. Management evaluates its accounts receivable and determines the requirement for an allowance for doubtful accounts based on its assessment of the current and collectible status of individual accounts with past due balances over 90 days. Account balances are charged against the allowance after all collection efforts have been exhausted and the potential for recovery is considered remote.

Allowance for uncollectible accounts

The Company estimates losses on receivables based on known troubled accounts, if any, and historical experience of losses incurred. There was no allowance for doubtful customer receivables at December 31, 2025 and December 31, 2024.

Property and equipment

Property and equipment is recorded at cost and capitalized from the initial date of service. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment is retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective periods. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The Company uses other depreciation methods (generally accelerated) for tax purposes where appropriate. The estimated useful lives for significant property and equipment categories are as follows:

Automotive Vehicles	5 years
Furniture and Equipment	5 years
Buildings and Improvements	the lesser of the life of the lease or the estimated useful life of the lease

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition and other economic factors. Based on this assessment there was no impairment as December 31, 2025 and December 31, 2024. Depreciation expense for the years ended December 31, 2025 and 2024 was \$74,460 and \$80,362) respectively.

Impairment of long-lived assets

The Company accounts for its long-lived assets in accordance with ASC Topic 360-10-05, "Accounting for the Impairment or Disposal of Long-Lived Assets." ASC Topic 360-10-05 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost or carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and its fair value or disposable value. As of December 31, 2025 and December 31, 2024, the Company determined that none of its long-lived assets were impaired.

Concentration of business and credit risk

The Company has no significant off-balance sheet risks such as foreign exchange contracts, option contracts or other hedging arrangements. The Company's financial instruments that are exposed to concentration of credit risks consist primarily of cash. The Company maintains its cash in bank accounts, which may at times, exceed federally insured limits.

The Company had one major customer which generated 9.12% of total revenue in the year ended December 31, 2025 and two customers comprised 26.84%, respectively of the account receivable balance at December 31, 2025.

The Company had one major customer which generated 9.52% of total revenue in the year ended December 31, 2024 and three customers comprised 32% of the account receivable balance at December 31, 2024.

Related party transactions

FASB ASC 850, “Related Party Disclosures” requires companies to include in their financial statements disclosures of material related party transactions. The Company discloses all material related party transactions. Related parties are defined to include any principal owner, director or executive officer of the Company and any immediate family members of a principal owner, director or executive officer. (See Note 6)

Fair value of financial instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable and related party payables approximate the respective fair values due to the short maturities of these items. The Company does not hold any investments that are available-for-sale.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The following table presents the derivative financial instruments, the Company’s only financial liabilities, measured and recorded at fair value on the Company’s consolidated balance sheet on a recurring basis, and their level within the fair value hierarchy as of December 31, 2025 and December 31, 2024:

There was no embedded conversion liability as of December 31, 2025.

December 31, 2024

	<u>Amount</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Embedded conversion derivative liability	\$ 431,656	\$ -	\$ -	\$ 431,656
Total	\$ 431,656	\$ -	\$ -	\$ 431,656

The embedded conversion feature in the convertible debt instruments that the Company issued that became convertible qualified them as derivative instruments since the number of shares issuable under the notes are indeterminate based on guidance in FASB ASC 815, Derivatives and Hedging. These convertible notes tainted all other equity linked instruments including outstanding warrants and fixed rate convertible debt on the date that the instrument became convertible. The valuation of the derivative liability was determined through the use of the Monte Carlo option-pricing model (See Note 7).

Revenue Recognition

The Company recognizes revenue when delivery of the promised goods or services is transferred to its customers in an amount that reflects the consideration that the Company expects to be entitled to in exchange for those goods or services. We determine revenue recognition through the following five steps:

- Identify the contract with the customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognize revenue when, or as, the performance obligations are satisfied.

We generate substantially all our revenue from providing services to customers. The Company records revenue when the 5 steps above have been completed.

Effective January 1, 2018, the Company adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. The updated guidance states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also provides for additional disclosures with respect to revenues and cash flows arising from contracts with customers. The Company adopted the standard using the modified retrospective approach effective January 1, 2018. The adoption of these standards did not have an impact on the Company's Statements of Operations for the year ended December 31, 2018.

Revenue is characterized by several lines of services and typically the pricing is fixed.

	Year ended December 31,	
Revenue Breakdown by Streams	2025	2024
Service: Transportation	\$ 2,023,943	\$ 2,029,520
Service: Currency Processing	\$ 2,177,476	\$ 2,299,746
Service: Compliance	\$ 19,532	\$ 35,856
Total	\$ 4,220,951	\$ 4,365,122

Advertising costs

The Company expenses all costs of advertising as incurred. Advertising expense for the years ended December 31, 2025 and December 31, 2024 amounted to \$852 and \$2,765, respectively.

General and administrative expenses

The significant components of general and administrative expenses consist mainly of rent and compensation.

Share-Based Compensation

Share-based compensation expense is recorded as a result of stock options granted in return for services rendered. Previously, the share-based payment arrangements with employees were accounted for under ASC 718. On June 20, 2018, the FASB issued ASU 2018-07, which simplifies the accounting for share-based payments granted to nonemployees for goods and services. Under the ASU, most of the guidance on such payments to nonemployees would be aligned with the requirements for share-based payments granted to employees. The Company has adopted the new standard and has made some adjustment with regard to the share-based compensation costs. Under the ASU 2018-07, the measurement of equity-classified nonemployee share-based payments is generally fixed on the grant date and the options are no longer revalued on each reporting date. The expenses related to the share-based compensation are recognized on each reporting date. The amount is calculated as the difference between total expenses incurred and the total expenses already recognized.

Cost of Revenue

The Company's cost of revenue primarily consists of labor, fuel costs and items purchased by the Company specifically for the benefit of the Company's clients.

Basic and Diluted Earnings per share

Net loss per share is provided in accordance with FASB ASC 260-10, "Earnings per Share". Basic loss per share is computed by dividing losses available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

The following is a reconciliation of the numerator and denominator used in the basic and diluted earnings per share ("EPS") calculations for the years ended December 31, 2025 and 2024

	<u>Year Ended</u> <u>December 31, 2025</u>	<u>Year Ended</u> <u>December 31, 2024</u>
Numerator:

Net income per common share from:		
Basic	\$ 0.02	\$ 0.03
Diluted	\$ 0.02	\$ 0.01

Dividends

The Company has not yet adopted any policy regarding payment of dividends. No dividends have been paid or declared since inception.

Income Taxes

The Company follows FASB Codification Topic 740-10-25 (ASC 740-10-25) for recording the provision for income taxes. Deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change.

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

Recent Pronouncements

The Company evaluated all other recent accounting pronouncements issued and determined that the adoption of these pronouncements would not have a material effect on the financial position, results of operations or cash flows of the Company.

Note 3 – Going concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has an accumulated deficit and had a working capital deficit as of December 31, 2025. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is significantly dependent upon its ability, and will continue to attempt, to secure additional equity and/or debt financing. There are no assurances that the Company will be successful in obtaining additional capital.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. These financial statements do not include any adjustments that might arise from this uncertainty.

Note 4 – Commitments and contingencies

Contingencies

On November 6, 2015, Daniel Sullivan sent a wage claim demand to the Company. Mr. Sullivan purports to have had an Independent Contractor Agreement with the Company which provides he is entitled to certain compensation and to be reimbursed for Company expenses. The demand claims unpaid compensation in the amount of \$8,055 and unreimbursed expenses in the amount of \$154,409.

Mile High Real Estate LLC, an entity owned by Mr. Sullivan, sent correspondence to the Company stating the Mr. Sullivan and/or Mile High Real Estate LLC loaned the Company either directly or indirectly to contractors, material suppliers or utilities for operating and building remodeling in the amount of \$98,150.

On December 28, 2015, Patrick Deparini, the Company's former Chief Financial Officer, resigned his position from the Company. Deparini claimed that through the date of resignation, he was owed a total of \$154,000 in accrued compensation, \$575 in accrued authorized expenses, and the remaining balance of his base salary in the amount of \$179,000. The Company accrued \$125,000 of salary payable to Deparini. The Statute of Limitations in Nevada for unpaid wages is six years (NRS §11.190(1)(b)). The six year period to bring an action to recover the unpaid wages has expired. The Statute of Limitations in Nevada for unreimbursed expenses is four years (NRS §11.190(2)(a)).

On January 13, 2025 the District Court for the City and County of Denver issued an order stating that the Company is legally released from all liabilities owed to Daniel Sullivan, Mile High Real Estate, LLC, and Patrick Deparini since the collection of any amounts no longer owed to these persons is barred by the Colorado and Nevada statute of limitations. All amounts owned to Daniel Sullivan, Mile High Real Estate LLC, and Patrick Deparini have been recorded as a contribution of capital during the year ended December 31, 2024.

On April 14, 2016, the Company entered into an agreement with a third party to provide the Company with investor relations services. Upon signing the agreement, the Company paid the investor relations consultant \$75,000 and agreed to issue the consultant 1,500,000 shares of its restricted common stock. The agreement required the Company to pay the consultant an additional \$75,000 prior to June 14, 2016. The Company cancelled the agreement and is of the opinion that the shares are not owed to the consultant

Finance leases

On March 1, 2019, the Company recorded finance lease obligation for a leased a vehicle for \$64,354. The Company made a down payment of \$30,000 which included delivery fees, taxes and its first month payment and agreed to make 36 monthly payments of \$1,129.76, including sales tax. The Company recognized this arrangement as a finance lease based on the determination that the lease exceeded 75% of the economic life of the underlying asset.

On June 2, 2021, the Company recorded finance lease obligation for a leased a vehicle for \$56,733. The Company made a down payment of \$3,510 which included delivery fees, taxes and its first month payment and agreed to make 24 monthly payments of \$2,765.19, including sales tax. The Company recognized this arrangement as a finance lease based on the determination that the lease exceeded 75% of the economic life of the underlying asset.

On June 17, 2022, the Company recorded finance lease obligation for a leased vehicle for \$69,255. The Company made a down payment of \$2,882 which included delivery fees, taxes and its first month payment and agreed to make 36 monthly payments of \$2,338, including sales tax. The Company recognized this arrangement as a finance lease based on the determination that the lease exceeded 75% of the economic life of the underlying asset.

Future minimum lease payments as of December 31, 2025

Operating Leases

On October 27, 2016 the Company sold its building located at 5765 Logan Street Denver, Colorado to an unrelated third party for \$1,400,000. The Company repaid the mortgage on the building in the amount of \$677,681. After the sale, the Company leased the building from the purchaser of the property. The lease is for an initial term of ten years, with the Company having the option to extend the term of the lease for two additional five-year periods. The lease requires rental payments of \$10,000 per month which will increase 2% annually. The Company paid a \$30,000 deposit at the inception of the lease.

On May 29, 2018 the Company leased a building located at 4328 E. Magnolia Street, Phoenix, Arizona. The lease is for an initial term of one year, with the Company having the option to extend the term of the lease for additional four year periods. The lease requires rental payments of \$3,880 per month which will increase 2% annually. The Company paid a \$4,369 deposit at the inception of the lease. The lease was renewed and extended for an additional five year period, with a starting rent of \$6,379.20 per month which will increase 4% annually.

The Company adopted ASC 842 and recorded right of use asset and operating lease liability of \$1,082,241. The Company used 12% as incremental borrowing rate as is the average interest rate of the Company’s outstanding third party note. The lease agreement gives the Company the option to renew it for two additional 5 year terms but the Company did not consider it likely to exercise that option. Therefore, the Company did not include such amounts in its computations of the present value of remaining lease payment on the adoption date.

Note 8 – Stockholders’ deficit

The Company was originally authorized to issue 100,000,000 shares of common stock and 100,000,000 shares of preferred stock. On May 6, 2014, the Company effected a forward stock split and a pro-rata increase in its authorized common stock on a basis of 14-to-1, whereby each shareholder received 14 newly issued shares of common stock for each 1 share held. Additionally, the number of authorized shares increased to 1,400,000,000 shares of common stock.

On July 6, 2021, the Company effected a reverse stock split and a pro-rata decrease in its authorized common stock on a basis of 1-for-100, the authorized capital of the Company concurrently decreased to 14,000,000 shares of common stock. The Company issued a total of 1,570 shares of common stock due to rounding on the reverse stock split.

Preferred stock

On May 3, 2016, the Company entered into, an agreement with Hypur Ventures, L.P., a Delaware limited partnership (the “Hypur Ventures”) which is a related party pursuant to which the Company sold to Hypur Ventures, in a private placement, 10,000,000 shares of the Company’s preferred stock and 5,000,000 common stock warrants with a five year term and an exercise price of \$0.10, at a purchase price of \$0.05 per share for gross proceeds of \$500,000. The shares of preferred stock are convertible into shares of the Company’s common stock. The preferred stock has such other rights, preferences and privileges as are set forth in a certificate of designation filed with the Nevada Secretary of State. The Company evaluated the convertible preferred stock under FASB ASC 470-20-30 and determined it contained a beneficial conversion feature. The intrinsic value of the beneficial conversion feature was determined to be \$114,229. The beneficial conversion feature was fully amortized and recorded as a deemed dividend.

Between July and August of 2016 Hypur Ventures purchased an additional 10,000,000 shares of the Company’s preferred stock and 5,000,000 common stock warrants with a five year term and an exercise price of \$0.10, at a purchase price of \$0.05 per share for net proceeds of \$445,000, net of legal fees of \$55,000. The shares of preferred stock are convertible into shares of the Company’s common stock. The preferred stock has such other rights, preferences and privileges as are set forth in a certificate of designation filed with the Nevada Secretary of State. The Company evaluated the convertible preferred stock under FASB ASC 470-20-30 and determined it does not contain a beneficial conversion feature. The intrinsic value of the beneficial conversion feature was determined to be \$0.

The preferred stock is convertible at any time at the election of Hypur Ventures. The preferred stock will automatically convert to common stock if the closing price of the Company's common stock equals or exceeds \$0.50 per share over any consecutive twenty day trading period. The preferred stock terms include a one-time purchase price preference. No preferential dividends apply to the preferred stock. The preferred stock attributes include weighted average anti-dilution protection, rights to appoint one director, pre-emptive rights to purchase future offerings of securities by the Company, demand and piggy-back registration rights.

The Company has reserved thirty million shares of common stock that may be issued upon the conversion and/or exercise of the preferred stock and the warrants.

Note 9 – Options and warrants

Options

All stock options have an exercise price equal to the fair market value of the common stock on the date of grant. The fair value of each option award is estimated using a Black-Scholes-Merton option valuation model. The Company has not paid any cash dividends on its common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes-Merton option valuation model. Volatility is an estimate based on the calculated historical volatility of similar entities in industry, in size and in financial leverage, whose share prices are publicly available. The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company has no historical experience with which to establish a basis for determining an expected life of these awards. Therefore, the Company only gave consideration to the contractual terms and did not consider the vesting schedules, exercise patterns and pre-vesting and post-vesting forfeitures significant to the expected life of the option award. The Company bases the risk-free interest rate used in the Black-Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury issues with an equivalent remaining term equal to the expected life of the award.

On May 3, 2023, the Company issued Andrew Berman, a Director of the Company, an option to purchase 350,000 shares of the Company's common stock. The option is exercisable at a price of \$0.21 per share and expires on September 30, 2027. Options to purchase 50% of the shares can be exercised immediately. Options to purchase 25% of the shares can be exercised after June 30, 2023. Options to purchase 25% of the shares can be exercised after March 30, 2024. The Company also issued Mr. Berman an option to purchase an additional 400,000 shares of the Company's common stock. The option is exercisable at a price of \$.21 per share. The option to purchase these 400,000 shares will not be exercisable unless and until the Company (i) sells all or substantially all of its assets or (ii) the Company merges with another entity and the Company is not the surviving entity in the merger. Notwithstanding the above, the option will not be issued if condition (i) or (ii) are not met by September 29, 2027. However, if the option is issued, the option will expire on September 30, 2027.

The following is a summary of the Company's stock option activity for the year ended December 31, 2025:

Significant Segment Expenses

The Company considers the following as significant expenses in evaluating its segment performance:

- General and Administrative: includes personnel costs, professional fees, and other overhead expenses.
- Cost of Revenues: represents labor costs and overhead costs associated with the services provided to the customers.

Since the Company has only one reportable segment, no additional segment disclosures are required beyond entity-wide disclosures presented below.

Entity-Wide Disclosures

- Geographic Revenue Information: For the years ended December 31, 2025 and 2024 100% of the Company’s net sales were generated in North America, specifically in the State of Colorado, Arizona, New Mexico and Nevada.
- The Company had one major customer which generated 9.12% of total revenue in the year ended December 31, 2025 and two customers comprised 26.84% of the account receivable balance at December 31, 2025.
- The Company had one major customer which generated 9.52% of total revenue in the year ended December 31, 2024 and three customers comprised 32% of the account receivable balance at December 31, 2024.

Note 11 – Income taxes

On December 22, 2017, President Trump signed into law the Tax Cuts and Jobs Act (the “TCJA”) that significantly reforms the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”). The TCJA, among other things, contains significant changes to corporate taxation, including reduction of the corporate tax rate from a top marginal rate of 35% to a flat rate of 21%, effective as of January 1, 2018; limitation of the tax deduction for interest expense; limitation of the deduction for net operating losses to 80% of current year taxable income and elimination of net operating loss carry backs, in each case, for losses arising in taxable years beginning after December 31, 2017 (though any such tax losses may be carried forward indefinitely); modifying or repealing many business deductions and credits, including reducing the business tax credit for certain clinical testing expenses incurred in the testing of certain drugs for rare diseases or conditions generally referred to as “orphan drugs”; and repeal of the federal Alternative Minimum Tax (“AMT”).

The staff of the Securities and Exchange Commission issued Staff Accounting Bulletin No. 118 to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the TCJA. In connection with the initial analysis of the impact of the TCJA, the Company remeasured its deferred tax assets and liabilities based on the rates at which they are expected to reverse in the future, which is generally 21%. The remeasurement of the Company’s deferred tax assets and liabilities was offset by a change in the valuation allowance.

For the year ended December 31, 2025 the company had an operating profit for the years ended December 31, 2025 and 2024 , no provision for income taxes has been recorded as the Company has a net operating loss carry forward. . In addition, no benefit for income taxes has been recorded due to the uncertainty of the realization of any tax assets. At December 31, 2025 and 2024, the Company had approximately \$7,676,923 and \$7,827,333 of federal and state net operating losses. The net operating loss carry forwards, if not utilized, will begin to expire in 2029. The provision for income taxes consisted of the following components for the years ended December 31:

Components of net deferred tax assets, including a valuation allowance, are as follows at December 31:

	December 31	
	2025	2024
Deferred tax assets:		
Net operating loss carry forwards	\$ (1,612,154)	\$ (1,643,740)
Valuation allowance	\$ (1,612,154)	(1,643,740)
