# Uranium American Resources, Inc.

## Footnotes to Financial Statements

For the Twelve months ended December 2025 and 2024  
(Unaudited)

### Note 1. The Company

Uranium American Resources, Inc., a Delaware corporation, is a result of the Acquisition of Point Loma Partners, Inc. "PLP" by Gamesboro Com, Inc. "GB" (formerly Alliance Trophy Club, Inc.) as of May 1, 2002. The Company changed its name to Tonogold Resources Inc.in 2004. The Company changed its name to Uranium America Resources, Inc with the State of Delaware on December 9<sup>th</sup>, 2024, and is liaising with FINRA to have the new name reflected on OTC (with a new ticker).

### Note. 2. Significant Accounting Policies

#### Basis of Presentation

The accompanying financial statements of Uranium American Resources, Inc. (or the "Company") for the twelve months ended December 31st, 2025 and 2024 are unaudited and, in the opinion of management, contain all adjustments that are of a normal and recurring nature necessary to present fairly the financial position and results of operations for such periods. These financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC").

#### Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of twelve months or less as cash equivalents.

#### Financial Instruments

The carrying value of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and due to related parties, as reported in the accompanying balance sheets, approximates fair value due to the short-term nature of these financial instruments.

#### Property and Equipment

Property and equipment are stated at cost and depreciated on the straight-line method over the estimated life of the asset, which is 5 to 10 years.

#### Mining Property costs

The Company incurs costs on activities that relate to the securing and maintaining of mining leases. All costs related to mining properties are expensed.

### **Long-Lived Assets**

In accordance with ASC 350, the Company regularly reviews the carrying value of intangible and other long-lived assets for the existence of facts or circumstances, both internally and externally, that may suggest impairment. If impairment testing indicates a lack of recoverability, an impairment loss is recognized by the Company if the carrying amount of a long-lived asset exceeds its fair value.

### **Income Taxes**

The Company accounts for income taxes under FASB Codification Topic 740-10-25 (“ASC 740-10-25”) Income Taxes. Under ASC 740-10-25, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740-10-25, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company pays certain state minimum taxes that it does not classify as income taxes.

### **Revenue Recognition**

The Company recognizes revenue from the sale of leases at the time the lease is sold and income from consulting agreements as earned. Royalty income is recognized as received. For lease of mining properties acquired prior to the above policy the Company still expenses costs associated with continuing those leases.

### **Advertising Costs**

The Company’s policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 during the twelve months ended December 31st, 2025, and 2024.

### **Stock-Based Compensation**

In December 2004, the FASB issued FASB Accounting Standards Codification No. 718, *Compensation – Stock Compensation*. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share-based compensation arrangements include stock options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant. The Company applies this statement prospectively.

*Equity instruments* (“instruments”) issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 718. FASB Accounting Standards

Codification No. 505, *Equity Based Payments to Non-Employees* defines the measurement date and recognition period for such instruments. In general, the measurement date is when either a (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

### **Basic and Diluted Net Loss per Common Share**

Net Loss per Common Share is computed pursuant to FASB Accounting Standards Codification No. 260, *Earnings per Share*. Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per share is computed in the same way as for Basic net loss.

### **Reclassifications**

Certain amounts previously presented for prior year have been reclassified. The reclassifications had no effect on net loss, total assets, or stockholders' deficit.

### **Recent Accounting Pronouncements**

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

### **Note 3. Going Concern**

The financial statements have been prepared assuming that the Company will continue as a going concern. The Company incurred a net loss of \$0.9 million during the twelve months ended December 31st, 2025. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and to successfully implement its business plan and achieve profitability

Management believes that the actions presently being taken, and the success of future operations will be sufficient to enable the Company to continue as a going concern.

However, there can be no assurance that the raising of equity will be successful or that the Company will be able to achieve profitability. Failure to achieve the needed equity funding or establish profitable operations would have a material adverse effect on the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

#### Note 4. Income taxes

The components of the deferred tax asset are summarized in the table below:

	Dec 31st 2025	Dec 31st 2024
Net Operating Losses carry Forward	\$ (22,194,165)	\$ (21,889,673)
Valuation allowance	\$ (22,194,165)	\$ (21,889,673)
Deferred tax Asset	\$ -	\$ -

At December 31st, 2025 and December 31st, 2024, the Company had approximately \$58.5 million and \$57.0 million respectively, of unused available Federal and California net operating loss carry-forward that may be applied against future taxable income. These net operating losses carry-forwards expire through 2035 and 2025 for Federal and State purposes, respectively. There is no assurance that the Company will realize the benefit of the net operating loss carry-forwards.

SFAS No. 109 requires a valuation allowance to be recorded when it is more likely than not that some or all of the deferred tax assets will not be realized.

Reconciliation of the differences between the statutory tax rate and the effective income tax rate is as follows at December 31st, 2025 and December 31st, 2024:

Statutory Rate	21%
Net operating loss carry forward	80%
State taxes, net of Federal Tax	6%
Effective tax rate	0%

#### Note 5. Project investments

During the year ended December 31, 2013, the Company sold Arizona project and Coors project for \$20,000 and a 3% royalty capped at \$50,000. The total invested on the date of sale was \$33,638 in Arizona project and \$23,940 in Coors project, a total of \$57,578. Any royalties received will be recognized as income if/when received.

During the December 2018 quarter, the Company decided to withdraw from the Durango option in Mexico in order to focus resources on Comstock, Nevada. As a result, all costs previously capitalized were written off during the quarter, representing a one-off charge to earnings of \$357,297.

#### Note 6. Mineral Properties

Until December 2022, the Company held rights to mineral properties in Virginia City, Nevada (Comstock) – see (a below). Currently the Company is securing control of a Uranium project in West-Central USA (see b below).

a) *Nevada - Comstock Mining (joint venture)*

- i. On October 5<sup>th</sup> 2017, the Company announced that it had secured an Option Agreement with Comstock Mining Inc (“CMI”). which amongst other things, provided Uranium American an

exclusive right to earn a 51% controlling interest in 1,162 acres of mining claims in the highly prospective Comstock Lode region in Virginia City, Nevada, which includes the Lucerne Deposit, located in the Storey County. This agreement was superseded in January 2019 when a new agreement was entered into by the parties.

- i. During the December 2022 quarter, the Company declined to exercise the option to re-acquire Comstock Mining LLC. The exclusive option agreement expired, and 100% ownership of Comstock Mining LLC remains with CMI. Details were reported to the market in an announcement dated January 5<sup>th</sup>, 2023.
- ii. As a consequence, the carrying costs relating to these Comstock assets (\$31.3 million) were written off during the December 2022 quarter leaving a carrying value in the balance sheet of \$643,179 relating to the Occidental and other properties secured by Uranium American outside of the Comstock Mining arrangement.
- iii. During the December 2022 quarter, the Company failed to make required payments of approximately \$1.3 million to CMI under the New Agreement. As a result, CMI terminated the agreement providing access to and use of the Process Facility and exploration, development and mining rights to The Expanded Land Position.
- iv. The Company reached an agreement during the June 2025 quarter to dispose of the remaining claims and residual assets at Comstock for \$175,000, which was received in full during the September 2025 quarter.

#### b) Uranium

- i. On April 10<sup>th</sup>, 2024, the Company announced that it has entered a term sheet to acquire 100% of the issued shares of JAG Minerals Pty Ltd which has a 100% interest in JAG Minerals USA Inc. ("JAG US"). 2. The Company has further reduced the conversion price from \$0.13 per share to \$0.08 per share
3. Any warrants issued pursuant to the Note that have not been previously exercised shall have their expiry date extended by 12-months from the date the Note is converted, and the strike price reduced from \$0.25 to \$0.16 per share

### 4. **Conversion of CLN3 and CLN4**

1. The Company made formal offers to holders of CLN3 and CLN4 to convert the outstanding balance at December 31<sup>st</sup> 2023 into Uranium American Common Shares at a conversion price of \$0.10 per share in order to convert a significant liability into equity. At December 31<sup>st</sup>, 2024, \$16.7 million (167 million shares) of the \$21 million outstanding balance of CLN3 and CLN4 (principal plus accrued interest) have accepted the offer. 144 million shares were issued during the December 2024 quarter in this regard, with the remaining \$2.3 million (23 million shares) of CLN's awaiting personal detail from holders to enable our share transfer agent to issue the shares. This amount is held in the balance sheet under the heading "Share subscription account". The Company is confident that further acceptances will be secured in the coming months.

2. During 2025 a further \$0.2 million (principal plus interest) was converted leaving a balance outstanding at December 2025 of \$4.1 million. The Company expects further conversions in the future.

5. **CLN5.**

1. During the March 2024 quarter, the Company launched a new Converting Note to raise up to \$500,000 with the following key terms:
  - i. Term – 12-months
  - ii. Interest at 12% pa calculated quarterly is accrued and added to the principal
  - iii. Principal and accrued interest will become payable at the end of the Term. The Company has the election to repay the Notes in cash or if such election isn't made, they will automatically convert into Common Shares of Uranium American at the lower of \$0.02 (two cents) per share or 25% discount to the price which the Company issues shares in an equity financing prior to the expiry of the Term.
  - iv. Warrants – There are no warrants issued under this Note series
  - v. A total amount of \$402,000 had been received through to September 30th, 2025.
2. During the September 2025 quarter, \$302,000 (plus accrued interest of \$41,000) was automatically converted into 17 million common shares (at 2cps) leaving a balance of \$0.1 million (principal plus interest) which is expected to be converted into common shares during the June 2026 quarter.

## Note 11. Employment agreement

- a) In June 2013 the Company entered into an employment agreement with Mark Ashley as the Chief Executive Officer. The contract was conditional on raising capital of between \$360,000 and \$675,000, which was satisfied within the time frame established. Remuneration was set at \$192,000 per year (reviewable annually) plus the issue of warrants. Mr. Ashley's role as CEO was terminated on April 22<sup>nd</sup>, 2021.
- b) Mr. Travis Miller was appointed to the board as an executive director on September 26<sup>th</sup>, 2014, upon executing a Closing Agreement with Mil-Ler (see Note 13). Mr. Miller's contract of employment included terms which included that he would be based in Hermosillo, Mexico and shall receive an annual remuneration of \$180,000 (reviewable annually) plus the issue of warrants. Mr. Miller resigned his executive role as COO on April 22<sup>nd</sup>, 2021.
- c) On April 13<sup>th</sup>, 2022, the Company announced the appointment of two new directors; William Hunter (as Chairman and Interim CEO) and Ryan Welker (as an independent director). As full compensation for the Services to be provided the Company shall (i) pay to each of these new Directors a retainer in the amount of \$20,000 per calendar quarter (or pro-rate thereof) which shall be paid in shares of common stock of the Company (ii) grant to the Director share options to purchase shares of common stock of the Company. The Option will vest as to 50% of the shares covered thereby on the date of grant and will vest as to the remaining 50% of the shares covered thereby on the first anniversary of the date of grant, subject to the Director's continued service as Chairman of the Board of Directors and Chief Executive Officer.

The Option will have an exercise price equal to the higher of (i) the market value per share of the Company's common stock on the date of grant, and (ii) one hundred ten percent (110%) of the price per share at which the Company's common stock is sold in the Equity Raise. The company has agreed to grant 2.5 million options to Mr. Hunter and 2.0 million Options to Mr. Welker.

- d) As Interim CEO, William Hunter will also receive
  - i. an annual remuneration of \$300,000 of which \$200,000 is payable in cash and \$100,000 in common shares of Uranium American, and
  - ii. 1.5 million share options
- e) On May 20<sup>th</sup>, 2022, the Company further announced the appointment of two new directors; Gil Playford (resigned January 2023) and Cody Whipperman (as independent directors). As full compensation for the Services to be provided the Company shall (i) pay to each of these new Directors a retainer in the amount of \$20,000 per calendar quarter (or pro-rate thereof) which shall be paid in shares of common stock of the Company (ii) grant to each Director, 2.0 million share options to purchase shares of common stock of the Company. The Options will vest as to 50% of the shares covered thereby on the date of grant and will vest as to the remaining 50% of the shares covered thereby on the first anniversary of the date of grant, subject to the Director's continued service as Directors. The Options will have an exercise price equal to the higher of (i) the market value per share of the Company's common stock on the date of grant, and (ii) one hundred ten percent (110%) of the price per share at which the Company's common stock is sold in the Equity Raise. It was also announced that in conjunction with these appointments, Travis Miller and Gustavo Mazon have stepped down as Directors. As at the date of this report, the Options to the 4 new Directors have yet to be granted.
- f) None of the officers or directors have received fees or salaries since June 2021.

#### **Note 12. Investment in Soilytics, Inc.**

Soilytics Inc (formally Persistence Data Mining, Inc having changed its name on July 12<sup>th</sup>, 2024) was formed as a Nevada corporation in February 2012 with Uranium American acquiring 750,000 shares (2.7%) of the company. Soilytics is an AgTech development company.

#### **Note 13. Agreement with Mil-Ler Resources**

- a) On October 18, 2013, Uranium American Resources, Inc. entered into an exclusive option agreement with Mil-Ler a private Mexican mining and Exploration Company to acquire up to 34% equity interest in Mil-Ler two tranches of \$5 million each for a total investment of up to \$10 million. On February 18, 2014, the option was extended until June 28, 2014, and Uranium American obtained the right to purchase shares from existing shareholders that would bring its ownership in Mil-Ler to 51% for a payment of \$6 million plus a minimum of 59 million shares in Uranium American (subject to raising scale in the event that Uranium American's share price is above 10cps at that time). On May 8, 2014, Uranium American

obtained the right to acquire 100% upon issuance 54,100,000 Uranium American shares.

- b) Mil-Ler purportedly owned mineral rights over approximately 340 square kilometers, 40 kilometers north of Hermosillo (the capital of Sonora), Mexico. Exploration drilling over a small area of the total claims during 2011 confirmed the presence of iron ore mineralization. Mil-Ler commenced a small-scale operation in January 2013 and mines ore (both hematite and magnetite) which was beneficiated via a simple two stage crushing and dry magnetic separation process producing approximately 15,000 tonnes of iron ore product which is transported by road to main port at Guaymas (180 kilometers from site) where the product is shipped and sold to China under an off-take agreement. Operations ceased at the end of 2014 when the iron ore price fell.
- c) The parties executed a Closing Agreement on September 26, 2014. The 54.1 million shares required to be issued pursuant to this transaction, were issued in October 2017.
- d) As a result of the fall in the price of iron ore and the subsequent cessation of operations, the Company decided to write down its investment in Mil-Ler to \$1 at December 31<sup>st</sup>, 2015.
- e) On April 26<sup>th</sup>, 2021, Uranium American made an announcement which amongst other matters advised that it had recently become aware that it does not hold title to the Mexican assets it believed it had acquired in the Mil-Ler Resources and Energy SA transaction in 2014. The Board of Directors immediately began an investigation into why and how this occurred and will seek to cure the issue in the manner most favorable to the Company.
- f) During the December 2021 quarter the Board resolved to make a proposal to settle the Mil-Ler matter with Travis Miller (a director of the Company and the main shareholder of Mil-ler at the time of its acquisition) and the other previous owners of Mil-ler (the “Mil-ler Parties”) with them being required to pay \$550,000 to the Company in order to retain the 54.1 million Uranium American shares issued in consideration of the acquisition. The Mil-ler Parties provided the Company with the \$550,000 settlement amount during the March 2022 quarter. Details were reported to the market in our announcement dated April 4<sup>th</sup>, 2022

#### **Note 14. Options and warrants outstanding**

The only warrants issued an outstanding are those discussed in Note 10 above

#### **Note 15. Subsequent Events**

The Company has evaluated subsequent events from December 31<sup>st</sup>, 2025, through to the date the financial statements were available to be issued and it has been determined that other than those matters covered in the Notes to these Financial Statements, there have been no subsequent events of materiality for which disclosure is required.
