**Security Description:**

*The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:*

**1. For common equity, describe any dividend, voting and preemption rights.**

The holders of our common stock currently have (i) equal rateable rights to dividends from funds legally available, therefore, when, as and if declared by the Board of Directors of the Company; (ii) are entitled to share rateably in all of the assets of the Company available for distribution to holders of common stock upon liquidation, dissolution or winding up of the affairs of the Company (iii) do not have pre-emptive, subscription or conversion rights and there are no redemption or sinking fund provisions or rights applicable thereto; and (iv) are entitled to one non-cumulative vote per share on all matters on which stockholders may vote.

**2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

**Series A:**

**Dividend:** Holders are not entitled to dividends, but Series A Preferred holders shall first receive, or simultaneously receive, a dividend if declared on any other class or series of capital stock.

**Voting:** Series A Preferred stockholders and common stockholders vote together as one class on an as converted basis. Series A Preferred stockholders are entitled to vote on all matters and shall have the number of votes equal to the number of shares of common stock into which the shares of Series A Preferred Stock held by such holder are convertible upon a reverse stock split. Certain actions such as mergers, acquisition, liquidation, dissolution, and the wind up of the business, must be approved by the holders of at least 95% of the then outstanding shares of Series A Preferred.

**Conversion Right:** Shares of Series A Preferred Stock automatically convert into shares of common stock upon the earlier of a reverse stock split or August 20, 2022. In the event of a reverse stock split, each share of Series A Preferred shall be converted into the number of common stock equal to 0.01% of the total number of shares of common stock outstanding. As of December 31, 2020, there were 96,365,470 shares of common stock outstanding, the conversion factor upon a reverse stock split was 9,637 shares of common stock for every share of Series A Preferred, and the total number of shares that would be exchanged in the event of a reverse stock split would be 963,654,700 shares of common stock.

If there is no reverse stock split before August 20, 2022, each share of Series A Preferred shall be automatically converted into the number of common stock equal to the fair value of a share of Series A Preferred as determined by a third party valuation, but not less than \$2,000. As of the date of the Merger Agreement, the minimum value of common stock to be issued would be \$200,000,000 based on 100,000 shares of Series A Preferred issued and outstanding. The Company has evaluated this conversion feature and determined that the Series A Preferred is a liability, the carrying value as of the date of the Merger Agreement is \$177,999,288 and the difference between that carrying value and \$200,000,000 is to be accreted over the period from the Reverse Merger and the automatic conversion date of August 20, 2022. For the year ended December 31, 2022, the Company recorded accretion of Series A preferred liability of \$596,363 in other expense. During the year ended December 31, 2022, the Series A Preferred Stock was automatically converted into 200,000,000 pursuant to the agreement.

**Liquidation:** There are no liquidation rights.

**Series B:**

**Dividend:** The holders of Series B Preferred are not entitled to dividends, but Series B Preferred holders shall first receive, or simultaneously receive, a dividend if declared on any other class or series of capital stock.

**Voting:** The holders of Series B Preferred are not entitled to vote except for certain actions such as mergers, acquisition, liquidation, dissolution, and the wind up of the business, must be approved by the holders of at least 50% of the then outstanding shares of Series B Preferred.

**Conversion Right** Shares of Series B Preferred are convertible, at the option of the holder, at any time, into the number of shares of common stock equal to the Series B conversion price divided by 50% of the average closing price of a share of common stock for the 20 trading days immediately preceding the date of conversion. The Series B conversion price is initially set at \$1.00 per share.

**Liquidation:** Upon liquidation, dissolution or winding up of business, the holders of Series B Preferred are entitled to receive a liquidation preference in priority to holders of common stock at the original Series B Preferred issue price plus any accrued but unpaid dividends. If assets available for distribution are insufficient to satisfy the liquidation payment to holders in full, assets available for distribution will be allocated among holders based on their pro rata shareholdings.

#### **Series D:**

**Dividend:** The holders of Series D Preferred are not entitled to receive dividends nor entitled to receive a dividend if declare on any other class or series of capital stock.

**Voting:** The holders of Series D Preferred are not entitled to vote except for certain actions such as mergers, acquisition, liquidation, dissolution, and the wind up of the business, must be approved by the holders of at least 50% of the then outstanding shares of Series D Preferred.

**Conversion Right:** Shares of Series D Preferred are convertible, at the option of the holder, at any time, into the number of shares of common stock equal to the Series D conversion price divided by 80% of the average closing price of a share of common stock for the 20 trading days immediately preceding the date of conversion. The Series D conversion price is initial set at \$4.00 per share. In the event that the Company is unsuccessful in issuing additional shares of Series D Preferred, the existing holders of Series D Preferred have the right to convert each share of Series D Preferred into 4.16667 shares of Series B Preferred.

**Liquidation:** Upon liquidation, dissolution or winding up of business, the holders of Series D Preferred are entitled to receive a liquidation preference in priority to holders of common stock at the original Series D issue price of \$5.00 per share. If assets available for distribution are insufficient to satisfy the liquidation payment to holders in full, assets available for distribution will be allocated among holders based on their pro rata shareholdings.

### **3. Describe any other material rights of common or preferred stockholders.**

N/A – No other material rights for Common or Preferred.

### **4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

### 4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Stella Diagnostics, Inc., formerly known as JMD Properties, Inc. ("Stella" or the "Company"), is as a molecular diagnostics-based organization that uses targeted mass spectrometry to determine the level of disease progression in tissue of the lower esophagus. Our proprietary technology is based on

rigorous research by domain experts and practicing physicians and can notify providers if common diseases of the esophagus like GERD and Barrett’s esophagus express proteins associated with normal or carcinogenic processes. With our panel of biomarkers and targeted proteomics method, the company can better inform gastroenterologists, surgical oncologists and pathologists which patients are high risk for disease progression into precancer or cancer. The predictive panel will be offered as a Laboratory Developed Test (“LDT”) in a CAP/CLIA Certified moderate complexity laboratory. With additional R&D and the accumulation of data from our clinical efforts, we will also yield viable new drug targets to inhibit BE pathogenesis and/or treat EC. We believe that informing physicians of the biomarkers playing a role in the pathogenesis of GERD, BE and EC early in the patient’s treatment plan will help providers extend lives.

B. List any subsidiaries, parent company, or affiliated companies.

**FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024**

**1. NATURE OF THE BUSINESS**

Stella Diagnostics, Inc. and Stella Diagnostics LLC (collectively the “Company”) is a research diagnostics company dedicated to developing molecular diagnostics tools and new drug targets for esophageal diseases and is headquartered in Salt Lake City, Utah and maintains its corporate registration in Wyoming.

Stella Diagnostics LLC was formed on February 13, 2020. On January 18, 2023, the Company filed a Certificate of Amendment with the State of Delaware to change its legal name to SLDX, Inc. The Company changed its name and converted into a “C” Corporation. Under the Certificate of Incorporation of SLDX, Inc. the Company is authorized to issue 500,000,000 shares of Common Stock having a par value of \$0.0001.

On December 13, 2023, the Company incorporated World Reach Pharma, LLC (“WRP”) in the State of Delaware. On July 31, 2025, the Company elected to change the name of the Company to Galaxy Pharmaceuticals LLC (“GP”). The entity is a wholly owned subsidiary of the Company and is qualified to do business in New York. GP is an FDA registered, inspected, and innovative 503B Outsourcing Facility located in Albany, NY. GP manufactures pharmaceutical sterile injectables, nasal- sprays, non-sterile compounds, admixes biologic agents, repackaging of both sterile and non-sterile products, addresses drug shortages, produces clinical supplies, and collaborates with biotechnology organizations developing boutique formulations. In collaboration with hospital systems, medical clinics, Group Purchasing Organizations (GPOs), Integrated Delivery Networks (IDNs), and insurance companies, GP addresses unmet needs at faster rates for specific patient needs.

Applying the quality standards of 21 CFR 210 and 21 CFR 211, GP is committed to utilizing the right people, processes, and facility in delivering high-quality affordable medicines. Driven by our passionate commitment to innovation and quality, GP seeks to become the 503b industry leader of choice.

***Reverse Merger***

On August 20, 2020, JMD Properties, Inc. (“JMD”) acquired 100% of the issued and outstanding membership units of Stella Diagnostics LLC pursuant to a merger between the companies (“Transaction” or “Reverse Merger”). Upon consummation of the Transaction, JMD adopted the business plan of Stella Diagnostics LLC and discontinued the pursuit of JMD’s business plan pre-closing. In connection with the Transaction, JMD agreed to acquire all of the outstanding units of Stella Diagnostics LLC in exchange for the issuance of an aggregate 90,000 shares of JMD’s Series A Preferred Stock, representing 90% of its outstanding shares of Series A Preferred Stock. As a result of the Transaction, Stella Diagnostics LLC became a wholly owned subsidiary of JMD. While JMD was the legal acquirer in the Transaction, Stella Diagnostics LLC was deemed the accounting acquirer. Stella Diagnostics LLC changed its name to Stella DX LLC on August 20, 2020. Immediately after giving effect of the Transaction, JMD changed its name to Stella Diagnostics, Inc.

The financial statements of the Company reflect the operations of Stella Diagnostics LLC as the acquirer for accounting purposes, together with the deemed issuance of shares, equivalent to the shares held by the stockholders of the legal acquirer, JMD, prior to the Transaction, and the recapitalization of the equity of the accounting acquirer. The financial statements include the accounts of the Company since the effective date of the Reverse Merger and the accounts of Stella Diagnostics LLC since inception.

## ***Going Concern***

Since inception, the Company has devoted substantially all of its efforts to business planning, research and development, recruiting management and technical personnel, and raising capital. The Company has financed its operations primarily through the issuance of promissory notes and Simple Agreements for Future Equity.

The Company is subject to numerous risks and uncertainties common to development-stage biopharmaceutical companies, including the successful completion of research and development activities, the establishment and maintenance of intellectual property protection, the receipt of required regulatory approvals, and the achievement of commercial viability of its product candidates. Even if the Company is successful in these efforts, it may never generate significant revenue from product sales.

The Company has incurred recurring operating losses, generated negative cash flows from operations, and has an accumulated deficit. The Company also expects that it will need additional capital to fund its operations within one year after the date the financial statements are issued. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The Company expects to incur substantial additional expenditures in the foreseeable future in connection with the development of its product candidates and intends to seek additional financing, including through the issuance of preferred stock. There can be no assurance that such financing will be available on acceptable terms, or at all. Accordingly, substantial doubt exists about the Company's ability to continue as a going concern.

The accompanying financial statements have been prepared on a going concern basis and do not include any adjustments to the carrying amounts or classification of assets and liabilities that may result if the Company is unable to continue as a going concern.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### ***Basis of Presentation***

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

### ***Principles of Consolidation***

The Company's consolidated financial statements include the accounts of Stella Diagnostics, Inc., its wholly-owned subsidiary SLDX, Inc. (formerly known as Stella DX, LLC), and its wholly-owned subsidiary Galaxy Pharmaceuticals LLC (formerly known as World Reach Pharma, LLC). All intercompany balances and transactions have been eliminated in the consolidated financial statements.

### ***Segments***

Management has concluded it has a single reporting segment for purposes of reporting financial conditions and results of operations.

### ***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and expenses, and the disclosure of contingent assets and liabilities as of and during the reporting period. The Company bases its estimates and assumptions on various factors that it believes to be reasonable under the circumstances. The Company assesses estimates on an ongoing basis; however, actual results could materially differ from

those estimates. Significant items subject to such estimates and assumptions include fair value of stock-based compensation expense and derivative liabilities.

### ***Concentrations of Credit Risk***

Financial instruments that potentially subject the Company to significant concentration of credit risk consist primarily of cash and cash equivalents. Periodically, the Company may maintain deposits in financial institutions in excess of government-insured limits. Management believes that the Company is not exposed to significant credit risk as the Company's deposits are held at financial institutions that management believes to be of high credit quality, and the Company has not experienced any losses on these deposits.

### ***Cash and Cash Equivalents***

The Company considers all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

### ***Revenue Recognition***

The Company recognizes revenue in accordance with ASC 606, *Revenue from Contracts with Customers*. Revenue is recognized when control of the promised goods or services is transferred to customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services.

The Company evaluates each contract with a customer by applying the following five-step model: (i) identification of the contract with a customer, (ii) identification of the performance obligations in the contract, (iii) determination of the transaction price, (iv) allocation of the transaction price to the performance obligations in the contract, and (v) recognition of revenue when, or as, the Company satisfies a performance obligation.

The Company has evaluated its revenue arrangements and determined that it acts as the principal in its contracts because it controls the goods or services before they are transferred to the customer. Accordingly, revenue is reported on a gross basis.

Revenue is disaggregated by revenue stream, as appropriate, to depict the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

On February 14, 2025, the Company entered into a license and royalty agreement under which it obtained the exclusive right to market, sell, and distribute certain licensed products. Revenue from product sales under this arrangement is recognized at a point in time when control transfers to the customer. The license agreement was terminated effective December 31, 2025.

### ***Royalty Expenses***

The Company incurs royalty expenses equal to 30% of Net Margin, where Net Margin is defined as Gross Revenue minus Direct Costs and Employee/Technology Costs. Royalty expenses are recognized in the same period as the related revenue to match expenses with associated revenues.

### ***License Fees***

The Company paid a \$200,000 upfront fee for a right-to-use license. This license fee is capitalized as a deferred asset and amortized over the expected benefit period, which is estimated to be 36 months. The monthly amortization expense is \$5,556. The License agreement was cancelled effective December 31, 2025.

### ***Fair Value of Financial Instruments***

The Company follows the guidance prescribed by FASB Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements* (“ASC 820”), which establishes the following hierarchy that prioritizes the inputs used to measure fair value:

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). Fair value is defined as the proceeds that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

### ***Leases***

The Company applies the provisions of the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Update (“ASU”) No. 2016-02, “*Leases*” (“ASC 842”) to all leases. At the inception of an arrangement, the Company determines whether the arrangement is or contains a lease based on specific facts and circumstances, the existence of an identified asset(s), if any, and the Company’s control over the use of the identified asset(s), if applicable. Operating lease liabilities and their corresponding right-of-use assets are recorded based on the present value of future lease payments over the expected lease term. The interest rate implicit in lease contracts is typically not readily determinable. As such, the Company will utilize the incremental borrowing rate, which is the rate incurred to borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment.

The Company has elected not to separate lease and non-lease components as a single component. Operating leases are recognized on the balance sheet as ROU lease assets, lease liabilities current and lease liabilities non-current. Fixed rents are included in the calculation of the lease balances while variable costs paid for certain operating and pass-through costs are excluded. Lease expense is recognized over the expected term on a straight-line basis. See Note 10 – for details related to leases.

### ***Income Taxes***

The Company recognizes deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the Company’s financial statements and tax returns. Deferred tax assets and liabilities are determined based upon the differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities and for loss and credit carryforwards, using enacted tax rates expected to be in effect in the year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that these assets may not be realized. The Company determines whether it is more likely than not that a tax position will be sustained upon examination. If it is not more likely than not that a position will be sustained, none of the benefits attributable to the position is recognized. The tax benefit to be recognized for any tax position that meets the more-likely-than-not recognition threshold is calculated as the largest amount that is more than 50%

likely of being realized upon resolution of the contingency. The Company accounts for interest and penalties related to uncertain tax positions as part of its provision for income taxes.

### ***Convertible Preferred Stock***

The Company has classified Series A, Series D and Series E Preferred Stock as liabilities in the accompanying balance sheet, in accordance with ASC 480, as the shares represent fixed monetary amounts known at inception. Therefore, the Series A and Series D Preferred Stock are considered share-settled liabilities. The Series A and Series D Preferred Stock were initially recorded at fair value and are adjusted to fair value each reporting period with changes reflected in the Statement of Operations. The Company has recorded a portion of the initial carrying value of the Series D Preferred Stock as part of the merger transaction (see Note 3).

### ***Stock-based Compensation***

The Company accounts for stock options granted in accordance with Accounting Standards Codification (“ASC”) 718, *Compensation-Stock Compensation*, or ASC 718. The Company recognizes compensation expense for awards to employees and nonemployees based on the grant date fair value of stock-based awards on a straight-line basis over the period during which an award holder provides service in exchange for the award. For awards subject to performance conditions, the Company recognizes compensation expense using an accelerated recognition method over the remaining service period when management determines that achievement of the milestone is probable. Management evaluates when the achievement of a performance-based milestone is probable based on the expected satisfaction of the performance conditions as of the reporting date. The fair value is calculated using the Black-Scholes option pricing model. The Company recognizes stock-based award forfeitures as they occur rather than estimating a forfeiture rate in accordance with the guidance per ASU No. 2016-09.

### ***Recently Issued Accounting Pronouncements***

The company has reviewed all issued accounting pronouncements. The company does not expect the adoption of any pronouncements to have an impact on its results of operations or financial position.

## **3. LICENSE AGREEMENT**

On February 14, 2025, the Company entered into a license and royalty agreement. Under this agreement, the Company was granted an exclusive license to market, sell, and distribute licensed products. The agreement has an initial term of one year and will automatically renew for an additional two-year term unless either party provides written notice of cancellation. Upon execution of the agreement, the Company paid an initial fee of \$200,000 and agreed to pay royalties equal to 30% of the net margin derived from the licensed products. Additionally, the Company assumed responsibility for employee-related expenses and technology costs associated with the license.

In the event of a buyback or termination, if the Company issues equity as part of the transaction, it is treated as a non-cash equity transaction. The carrying amount of the license asset is removed from the books, and any difference between the fair value of the consideration transferred and the carrying amount of the license asset is recognized as a gain or loss in the period of the transaction.

This revenue recognition policy ensures compliance with ASC 606 and provides transparency in the Company’s financial reporting.

The License agreement was cancelled effective December 31, 2025.

#### 4. ACCRUED EXPENSES

Accrued expenses as of December 31, 2025 and December 31, 2024 consisted of the following:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Accrued salaries pre-merger	\$ 3,833,787	\$ 3,833,787
Accrued salaries post-merger	991,806	925,139
Accrued interest pre-merger	404,847	404,847
Accrued board fees	1,778,053	1,393,054
Accrued other	241,390	107,390
	<u>\$ 7,249,883</u>	<u>\$ 6,664,217</u>

#### 5. FAIR VALUE MEASUREMENTS

The Company's financial instruments consist of cash and cash equivalents, accounts payable, accrued expenses, promissory notes, convertible notes and the derivative liability related to the convertible notes. The carrying amount of cash and cash equivalents, accounts payable and accrued expenses is considered a reasonable estimate of fair value due to the short-term nature of those instruments.

##### ***Level 3 financial instruments***

**Convertible Notes** - The derivative liability related to the convertible notes (see Note 6) and its embedded beneficial conversion feature for the settlement of the notes upon a qualified financing or voluntary event was valued at \$4,387,779 as of the date of the Merger Agreement using a present value calculation of the conversion feature. The valuation is based on the following inputs (primarily Level 3): the estimated probability of certain qualified financing events occurring ranging from 25% to 75%, the discount awarded upon conversion ranging from 50% to 80% and a discount rate of 6%. An increase in these inputs may result in a higher fair value and an increase in the expense from a change in fair value of the derivative liability.

The following table presents a roll forward for the embedded beneficial conversion feature using significant unobservable inputs (Level 3):

<b>Fair value of embedded derivative liability as of December 31, 2024</b>	\$ 4,565,492
Change in fair value of derivative liability	-
<b>Fair value of embedded derivative liability as of December 31, 2025</b>	<u>\$ 4,565,492</u>

**Series A Liabilities** – The carrying value of Series A liabilities (see Note 7) is the fair value using a present value calculation of the redemption feature. The valuation is based on the following inputs (primarily Level 3): the redemption floor of \$2,000 per share and a discount rate of 6%. An increase in redemption value may result in a higher fair value and an increase in the expense from a change in fair value of Series A liabilities.

**Series D Liabilities** – The carrying value of Series D liabilities (see Note 7) is the fair value of the conversion feature. The valuation is based on the following inputs (primarily Level 3): the estimated probability of certain voluntary elections or financing events of 0% to 100%, respectively, and the discount awarded upon

conversion of 20%. An increase in the discount awarded upon conversion may result in a higher fair value and a charge to expense from a change in fair value of Series D liabilities.

**Series E Liabilities** – The carrying value of Series E liabilities (see Note 7) is the fair value of the fees to be paid.

## 6. DEBT

### **Convertible Notes**

In conjunction with the Reverse Merger, the Company assumed several convertible note agreements (“Convertible Notes”), which were issued at various dates between June 2014 and July 2017, totaling an aggregate of \$1,321,957 of which \$201,957 is from related parties. Interest is accruing on the Convertible Notes at original annual interest rates ranging from 5% to 10% with maturity dates through June 2025. For the Convertible Notes in which the maturity dates were prior to December 31, 2020, the interest rates have increased to the default annual rate of 18%.

The Convertible Notes contain conversion features, which include qualified financing and voluntary conversions. Some of the Convertible Notes included a provision whereby the Convertible Notes could be automatically convertible upon a qualified financing, at the election of the Company, at a conversion rate ranging from 50% to 70% of the per share price paid by investors in the financing. At certain times ranging from immediate to 1 year after issuance. The Convertible Notes were eligible for voluntary conversion into Common Stock at certain times ranging from immediate to 1 year after issuance, at a conversion rate ranging from 20% to 70% of the value per share of either the average trading prices over various periods or the future issuance of Common Stock.

The Company evaluated the settlement features included within the Convertible Notes and determined that none of the features was predominant. Also, the Company determined that the features met the definition of a derivative and required bifurcation. The derivative was recorded at fair value based on the occurrence of a triggering event taking place during the term of these Convertible Notes.

The following table shows changes to the carrying values of the Convertible Notes and associated embedded derivatives for the period December 31, 2023 to December 31, 2025:

<b>Balance at December 31, 2023</b>	<u>\$ 1,220,448</u>	<u>\$ 4,259,666</u>

### **Simple Agreements for Future Equity**

In July and August 2020, the Company received an aggregate of \$40,000 in exchange for entering into a Simple Agreement for Future Equity (“SAFE”) with two investors. Upon the completion of an equity financing of Preferred Stock, the SAFE proceeds will convert into the Preferred stock at a 20% discount. If there is no equity financing within one year of receiving the SAFE proceeds, the investors may elect to convert the SAFE proceeds into the most recent financing at a 20% discount or receive their proceeds plus interest at an annual rate of 8%. If no election is made by the investor, the SAFE term extends for an additional six months. The Company has evaluated the SAFE agreements and determined that they are liabilities.

## **7. PREFERRED STOCK LIABILITIES**

In conjunction with the formation of the Company in February 2020 and after giving effect to the Reverse Merger, 90,000 shares of Series A Preferred Stock were issued for aggregate proceeds of \$90. In conjunction with the Merger Agreement, an additional 10,000 shares of Series A Preferred Stock and 927,514 shares of Series D Preferred Stock were recorded at a carrying value of \$17,799,929 and \$4,637,570, respectively. There are no Series B Preferred shares issued or outstanding.

On September 1, 2020, the Company filed an amendment to the Certificate of Designation to reduce the authorized shares of Series B Preferred Stock from 10,000,000 shares to 3,500,000 shares.

On August 31, 2022, in accordance with the terms of the Series A Certificate of Designation, the Preferred Stock underwent a mandatory conversion into common stock of the Company, extinguishing the Series A Preferred Stock. The conversion of the Series A increased the number of common shares authorized by an additional 200,000,000 shares.

As of December 31, 2025, the Company’s Preferred Stock consists of the following:

	<b>Shares Authorized</b>	<b>Shares Issued and Outstanding</b>
Series A Preferred	-	-
Series B Preferred	3,500,000	-
Series D Preferred	5,000,000	2,079,456

The significant rights, preferences and privileges of Preferred Stock as of December 31, 2025:

**Series A Preferred Stock**

**Conversion** - Shares of Series A Preferred Stock automatically convert into shares of common stock upon the earlier of a reverse stock split or August 20, 2022. In the event of a reverse stock split, each share of Series A Preferred shall be converted into the number of common stock equal to 0.01% of the total number of shares of common stock outstanding. As of December 31, 2020, there were 96,365,470 shares of common stock outstanding, the conversion factor upon a reverse stock split was 9,637 shares of common stock for every share of Series A Preferred, and the total number of shares that would be exchanged in the event of a reverse stock split would be 963,654,700 shares of common stock.

If there is no reverse stock split before August 20, 2022, each share of Series A Preferred shall be automatically converted into the number of common stock equal to the fair value of a share of Series A Preferred as determined by a third party valuation, but not less than \$2,000. As of the date of the Merger Agreement, the minimum value of common stock to be issued would be \$200,000,000 based on 100,000 shares of Series A Preferred issued and outstanding. The Company has evaluated this conversion feature and determined that the Series A Preferred is a liability, the carrying value as of the date of the Merger Agreement is \$177,999,288 and the difference between that carrying value and \$200,000,000 is to be accreted over the period from the Reverse Merger and the automatic conversion date of August 20, 2022. For the year ended December 31, 2022, the Company recorded accretion of Series A preferred liability of \$596,363 in other expenses. During the year ended December 31, 2022, the Series A Preferred Stock was automatically converted into 200,000,000 under the agreement.

There are no other rights to convert into common stock.

**Dividend** - Holders are not entitled to dividends, but Series A Preferred holders shall first receive, or simultaneously receive, a dividend if declared on any other class or series of capital stock.

**Voting** – Series A Preferred stockholders and common stockholders vote together as one class on an as-converted basis. Series A Preferred stockholders are entitled to vote on all matters and shall have the number of votes equal to the number of shares of common stock into which the shares of Series A Preferred

Stock held by such holders are convertible upon a reverse stock split. Certain actions such as mergers, acquisition, liquidation, dissolution, and the wind-up of the business, must be approved by the holders of at least 95% of the then outstanding shares of Series A Preferred.

**Liquidation** – There are no liquidation rights.

### **Series B Preferred Stock**

**Conversion** - Shares of Series B Preferred are convertible, at the option of the holder, at any time, into the number of shares of common stock equal to the Series B conversion price divided by 50% of the average closing price of a share of common stock for the 20 trading days immediately preceding the date of conversion. The Series B conversion price is initially set at \$1.00 per share.

**Dividend** – The holders of Series B Preferred are not entitled to dividends, but Series B Preferred holders shall first receive, or simultaneously receive, a dividend if declared on any other class or series of capital stock.

**Voting** - The holders of Series B Preferred are not entitled to vote except for certain actions such as mergers, acquisition, liquidation, dissolution, and the wind-up of the business must be approved by the holders of at least 50% of the then outstanding shares of Series B Preferred.

**Liquidation** - Upon liquidation, dissolution or winding up of business, the holders of Series B Preferred are entitled to receive a liquidation preference in priority to holders of common stock at the original Series B Preferred issue price plus any accrued but unpaid dividends. If the assets available for distribution are insufficient to satisfy the liquidation payment to holders in full, assets available for distribution will be allocated among holders based on their pro rata shareholdings.

### **Series D Preferred Stock**

**Conversion** - Shares of Series D Preferred are convertible, at the option of the holder, at any time, into the number of shares of common stock equal to the Series D conversion price divided by 80% of the average closing price of a share of common stock for the 20 trading days immediately preceding the date of conversion. The Series D conversion price is initial set at \$4.00 per share. The Company has evaluated this conversion feature and determined that the Series D Preferred is a liability and the carrying value reflects the beneficial conversion of the 80% discount valued at \$772,928.

In the event that the Company is unsuccessful in issuing additional shares of Series D Preferred, the existing holders of Series D Preferred have the right to convert each share of Series D Preferred into 4.16667 shares of Series B Preferred.

In April 2025, the Company issued 629,657, shares of Series D Preferred in exchange for common stock. The Company recorded a liability of \$3,148,285 in connection with the Series D Preferred issuance.

**Dividends** - The holders of Series D Preferred are not entitled to receive dividends nor entitled to receive a dividend if declare on any other class or series of capital stock.

**Voting** - The holders of Series D Preferred are not entitled to vote except for certain actions such as mergers, acquisition, liquidation, dissolution, and the wind up of the business, must be approved by the holders of at least 50% of the then outstanding shares of Series D Preferred.

**Liquidation** - Upon liquidation, dissolution or winding up of business, the holders of Series D Preferred are entitled to receive a liquidation preference in priority to holders of common stock at the original Series D issue price of \$5.00 per share. If assets available for distribution are insufficient to satisfy the

liquidation payment to holders in full, assets available for distribution will be allocated among holders based on their pro rata shareholdings.

## 11. NET LOSS PER SHARE

Basic net loss per share attributable to common stockholders is calculated by dividing the net loss attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period, adjusted for outstanding shares that are subject to repurchase.

Diluted net loss per share is computed by giving effect to all potentially dilutive securities outstanding for the period using the treasury stock method or the if-converted method based on the nature of such securities. The Company has reported net losses for all periods presented, therefore diluted net loss per common share attributable to common stockholders is the same as basic net loss per common share attributable to common stockholders, because potentially dilutive common shares are not assumed to have been issued if their effect is anti-dilutive.

Basic and diluted net loss per share attributable to common stockholders was calculated at December 31, 2025 and 2024 as follows:

	For the Years Ended	
	December 31, 2025	December 31, 2024
Numerator:		
Net loss	\$ (4,057,707)	\$ (1,235,666)
Denominator:		
Weighted average common shares outstanding, basic and diluted	345,970,929	401,600,370
Net loss per common share, basic and diluted	\$ (0.01)	\$ -

The following table sets forth the potentially dilutive securities that have been excluded from the calculation of diluted net loss per share because to include them would be anti-dilutive (in common stock equivalent shares) at December 31, 2025 and 2024:

	As of December 31,	
	2025	2024
Series A Preferred	-	-
Series B Preferred	-	-
Series D Preferred	251,912,387	90,805,628
Total shares of common stock equivalents	251,912,387	90,805,628

## 12. SUBSEQUENT EVENTS

The Company has evaluated subsequent events from December 31, 2025 through the date these financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

On March 29, 2026, Seth Platt notified the Company of his decision to resign from the Board of Directors, effective immediately. Mr. Platt's resignation was not the result of any disagreement with the Company or any matter relating to its operations, policies or practices.
