# HINTO ENERGY, INC.

## NOTES TO UNAUDITED FINANCIAL STATEMENTS

### FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

#### 1. Nature of operations

On February 14, 1997 Hinto Energy, Inc. was incorporated in the State of Wyoming. There were no predecessor companies. Hinto Energy Inc. was an oil and gas exploration and development company. The Company was involved in the exploration, acquisition, and development of Oil and Gas properties, primarily in Rocky Mountain Basins. The Company is a holding company providing senior secured lending and real estate investments with a focus on commercial real estate (CRE) and structured finance solutions. On June 8, 2023, the Company entered into a share exchange with The Kinfolk Group, Inc. ("Kinfolk"). The Company acquired all the outstanding shares of Kinfolk, which the shareholders of Kinfolk exchanged for 20,040,000 newly issued restricted shares of the Company's common stock. The transaction resulted in Kinfolk becoming a wholly owned subsidiary of The Company. Kinfolk is incorporated under the laws of State of Delaware as on October 13, 2021 ("Inception"). The Company is a diversified, proprietary data-driven investment management vehicle, specializing in U.S. real estate rentals, sales and development, and mortgage-backed securities. It focuses on the single-family residential market."

#### 2. Summary of significant accounting policies

##### Basis of presentation

This summary of significant accounting policies is presented to assist in the understanding of the financial statements. These policies conform to GAAP and have been consistently applied. The Company has selected December 31 as its financial year end.

##### Consolidation

The consolidated financial statements include the accounts of Hinto Energy, Inc and its wholly owned subsidiaries The Kinfolk Group Inc ("Kinfolk") and CGT Opportunity V LLC ("CGT"). All significant intercompany accounts and transactions have been eliminated.

##### Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

##### Cash and cash equivalents

We maintain cash balances in a non-interest-bearing account that currently does not exceed federally insured limits. For the purpose of the statements of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents. As of December 31, 2025 and 2024, our cash balances were \$73,568 and \$15,193, respectively.

### Fair value measurements

ASC Topic 820, Fair Value Measurements and Disclosures ("ASC 820"), provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. Specifically, ASC 820 sets forth a definition of fair value and establishes a hierarchy prioritizing the inputs to valuation techniques, giving the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable value inputs. ASC 820 defines the hierarchy as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The types of assets and liabilities included in Level 1 are highly liquid and actively traded instruments with quoted prices, such as equities listed on the New York Stock Exchange.

Level 2 – Pricing inputs are other than quoted prices in active markets but are either directly or indirectly observable as of the reported date. The types of assets and liabilities in Level 2 are typically either comparable to actively traded securities or contracts or priced with models using highly observable inputs.

Level 3 – Significant inputs to pricing that are unobservable as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as complex and subjective models and forecasts used to determine the fair value of financial transmission rights.

Our financial instruments consist of our prepaid expenses, prepaid lease, accrued expenses- related party, loan from director and lease liabilities. The carrying amounts of our prepaid expenses, prepaid lease, accrued expenses- related party, loan from director and lease liabilities approximates their fair values because of the short-term maturities of these instruments.

### Leases

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") as assets, operating lease non-current liabilities, and operating lease current liabilities in our balance sheet. Finance leases are property and equipment, other current liabilities, and other non-current liabilities in the balance sheet.

ROU assets represent the right to use an asset for the lease term and lease liability represent the obligation to make lease payment arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over lease term. As most of the leases do not provide an implicit rate. We generally use the incremental borrowing rate on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at commencement date. The operating ROU asset also includes any lease payments made and exclude lease incentives. Lease expense for lease payment is recognized on a straight-line basis over lease term.

Effective December 1, 2022, our subsidiary, CGT, entered into related party Land Lease Agreement with Joseph Cornwell, one of our directors and principal shareholders, for 40 acres of land in Oklahoma. The lease has a term of 5 years from December 1, 2022 to November 30, 2027. The lease does not provide an implicit rate. Therefore, we have adopted an effective discount rate of 9.5% as we believe that is the rate of interest, we would need to pay to borrow funds at this time.

As of December 31, 2025, we recognized a right-of-use asset of \$27,092 and lease liability obligation of \$29,934: a current portion of \$14,866 and a non-current portion of \$15,068 in respect of this lease.

### Related party transactions

A related party is generally defined as (i) any person that holds 10% or more of our membership interests including such person's immediate families, (ii) our management, (iii) someone that directly or indirectly controls, is controlled by or is under common control with us, or (iv) anyone who can significantly influence our financial and operating decisions. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. See Note 6, 7, 8 and 9 below for details of related party transactions in the period presented.

### Income taxes

The provision for income taxes is computed using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carry-forwards. Deferred tax assets and liabilities are measured using the currently enacted tax rates that apply to taxable income in effect for the years in which those tax assets are expected to be realized or settled. We record a valuation allowance to reduce deferred tax assets to the amount that is believed more likely than not to be realized.

### Uncertain tax positions

We evaluate tax positions in a two-step process. We first determine whether it is more likely than not that a tax position will be sustained upon examination, based on the technical merits of the position. If a tax position meets the more-likely-than-not recognition threshold, it is then measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. We classify gross interest and penalties and unrecognized tax benefits that are not expected to result in payment or receipt of cash within one year as long-term liabilities in the financial statements.

### Revenue recognition

Revenues are recognized when control of the promised goods or services are transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when the entity satisfies a performance obligation

During the three or years ended December 31, 2025, we did not recognize any revenue.

### Advertising Costs

We expense advertising costs when advertisements occur. No advertising costs were incurred during the years ended December 31, 2025 and 2024.

### Stock-based compensation

The cost of equity instruments issued to employees and non-employees in return for goods and services is measured by the grant date fair value of the equity instruments issued in accordance with ASC 718, Compensation – Stock Compensation. The related expense is recognized as services are rendered or vesting periods elapse.

### Net loss per share calculation

Basic earnings (loss) per common share ("EPS") is computed by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average shares outstanding, assuming all dilutive potential common shares were issued. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

### Recently accounting pronouncements

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and do not believe any of these pronouncements will have a material impact on our financial statements.

### **3. Going concern**

The accompanying financial statements have been prepared on a going concern basis. For the year ended December 31, 2025, the Company had a net loss of \$92,763, had working capital of \$74,388, accumulated deficit of \$315,589 and stockholders' deficit of \$171,588. These matters raise substantial doubt about the Company's ability to continue as a going concern for a period of one year from the date of this filing. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due, to fund possible future acquisitions, and to generate profitable operations in the future. Management plans to provide for the Company's capital requirements by continuing to issue additional equity and debt securities. The outcome of these matters cannot be predicted at this time and there are no assurances that, if achieved, the Company will have sufficient funds to execute its business plan or generate positive operating results. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### **4. Deposits and prepaid expenses**

As of December 31, 2025 and 2024, the balance of deposits and prepaid expenses was \$97,602 and \$3,483, respectively. During the year ended December 31, 2025, the Company paid \$90,000 for an earnest money deposit on a contracted property for development.

### **5. Operating lease right of use asset and lease liability – related party**

As of December 31, 2025, we recognized a right-of-use asset of \$27,092 and lease liability obligation of \$29,934: a current portion of \$14,866 and a non-current portion of \$15,068 in respect of this lease.

By comparison, as of December 31, 2024, the balance of the right-of-use asset of \$39,144 and lease liability obligation of \$42,305: a current portion of \$12,372 and a non-current portion of \$29,933 in respect of this lease.

Effective December 1, 2022, our subsidiary, CGT, entered into related party Land Lease Agreement with Joseph Cornwell, one of our directors and principal shareholders, for 40 acres of land in Oklahoma. The lease has a term of 5 years from December 1, 2022 to November 30, 2027. We intend to grow cannabis on this property.

The monthly rent payable under the lease is as follows:

- Year 1 \$1,100 per month
- Year 2 \$1,200 per month
- Year 3 \$1,300 per month
- Year 4 \$1,400 per month
- Year 5 \$1,500 per month

Effective December 1, we made an initial payment of \$13,200 in respect of this lease representing the rental due for the first year of the lease.

Operating lease right of use (ROU) assets and operating lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date.

The lease does not provide an implicit interest rate. Therefore, we have adopted an effective discount rate of 9.5% as we believe that is the rate of interest, we would need to pay to borrow funds at this time.

**Right-of-use asset is summarized below:**

	December 31, 2025	December 31, 2024
Office lease	\$ 60,385	\$ 60,385
Less accumulated amortization	(33,293)	(21,241)
Right of use assets, net	<u>\$ 27,092</u>	<u>\$ 39,144</u>

**Operating lease liability is summarized below:**

	December 31, 2025	December 31, 2024
Office lease	\$ 29,934	\$ 42,305
Less: current portion	(14,866)	(12,372)
Long term portion	<u>\$ 15,068</u>	<u>\$ 29,933</u>

**Maturity of lease liabilities are as follows:**

Year ended December 31, 2026	\$ 16,900
Year ended December 31, 2027	16,500
Total future minimum lease payments	<u>33,400</u>
Less: Present value discount	(3,466)
Lease liability	<u>\$ 29,934</u>

## 6. Accrued expenses – related parties

As of December 31, 2025 and 2024, the balance of accrued expenses was \$5,266. These accruals relate to fees payable to our two directors in respect of their successful efforts to raise funds for us (SAFE investments) and to complete loans to qualified borrowers in the cannabis sector (notes receivable).

## 7. Simple agreement for future equity (SAFE)

As of December 31, 2025 and 2024, the balance of SAFE agreements, net of fees, was \$258,000 and \$87,000, respectively.

In May and June 2024, we entered into SAFE agreements with four investors pursuant to which we received funding of \$37,000 in exchange for agreement to issue the investors shares of preferred stock upon occurrence of a subsequent equity financing.

In May, June and September 2025, we entered into SAFE agreements with two investors pursuant to which we received funding of \$171,000 in exchange for agreement to issue the investors shares of preferred stock upon occurrence of a subsequent equity financing.

The SAFE agreements were convertible into shares of preferred stock in the event of a future equity issuance at a conversion rate equivalent to 50% of the pricing of the future triggering equity financing. The SAFE agreements had no interest rate or maturity date, and the SAFE investors had no voting right prior to conversion. Accordingly, we have accounted for these SAFE investments as long-term liabilities.

## 8. Commitments & Contingencies

### Legal Proceedings

We were not subject to any legal proceedings during the three or three months ended December 31, 2025 and, to the best of our knowledge, no legal proceedings are pending or threatened.

### Contractual Obligations

#### *Consulting Agreements*

We entered into management consulting agreements dated September 19, 2022, effective as of May 17, 2021, with our two directors to provide consulting services. The term for these two agreements is 2 years. In the event they were to complete successful financing transactions for us, they were each to receive a commission equivalent to five percent (5%) of the gross proceeds from each such financing transaction.

#### *Lease Agreement*

As further discussed in Note 6 Operating Lease Right of Us Asset and Lease Liability – Related Party above:

Effective December 1, 2022, our subsidiary, CGT, entered into related party Land Lease Agreement with Joseph Cornwell, one of our directors and principal shareholders, for 40 acres of land in Oklahoma. The lease has a term of 5 years from December 1, 2022 to November 30, 2027. We intend to grow cannabis on this property.

The monthly rent payable under the lease is as follows:

Year 1 \$1,100 per month

Year 2 \$1,200 per month

Year 3 \$1,300 per month

Year 4 \$1,400 per month

Year 5 \$1,500 per month

## 9. Equity

### *Preferred Stock*

The Company has 10,000,011 Shares of Preferred Stock authorized, and 11 issued and outstanding with a par value of \$0.001.

2021 Special Series A — 10 shares authorized, 10 issued and outstanding.

The Series A Preferred has the following designations:

- Each share of preferred stock is convertible into 10,000,000 shares of common stock.
- The holders are not entitled to receive dividends
- This preferred stock has super voting rights, and the stockholder is entitled to 60% of all votes (including, but not limited to, common stock, and preferred stock, including on an as converted basis) entitled to vote at each meeting of stockholders of the corporation (and written actions of stockholders in lieu of meetings) with respect to any and all matters presented to the stockholders of the corporation for their actions or consideration.

Series B — 1 share authorized, 1 issued and outstanding

The Series B Preferred has the following designations:

- Each share of preferred stock is convertible into 4.99% of the outstanding shares at time of conversion.

Series C — 10,000,000 share authorized, 0 issued and outstanding

The Series C Preferred has the following designations:

- Each share of preferred stock is convertible into common shares at a conversion rate of 1 preferred to 100 common shares.
- Series C Preferred Shares are entitled vote together with the holders of preferred stock (including on an as converted basis), par value \$0.001, and common stock, par value \$0.001 per share, of the Corporation (the “Common Stock”) as a single class. The Series C Preferred Shares stockholder is entitled to the number of votes on fully converted basis of all votes (including, but not limited to, common stock, and preferred stock (including on an as converted basis) entitled to vote at each meeting of stockholders of the Corporation (and written actions of stockholders in lieu of meetings) with respect to any and all matters presented to the stockholders of the Corporation for their action or consideration.

## 10. Income taxes

The Company did not provide any current or deferred US federal income tax provision or benefit for the years ended December 31, 2025 and 2024 as they incurred tax losses during both of these periods.

When it is more likely than not, that a tax asset cannot be realized through future income, the Company must record an allowance against any future potential future tax benefit. The Company has provided a full valuation allowance against the net deferred tax asset, consisting of net operating loss carry forwards, because management has determined that it is more likely than not that the Company will not earn income sufficient to realize the deferred tax assets during the carry forward periods.

The Company has not taken a tax position that, if challenged, would have a material effect on the unaudited consolidated financial statements for the years ended December 31, 2025 and 2024 as defined under ASC 740, "Accounting for Income Taxes."

The provision for income taxes differs from the amount computed by applying the statutory federal income tax rate to income before provision for income taxes.

The sources and tax effects of the differences for the periods presented are as follows:

	Years ended	
	December 31, 2025	December 31, 2024
U.S. statutory federal income tax rate	21 %	21 %
State income taxes	-	-
Change in valuation allowance	(21 %)	(21 %)
Effective income tax rate	0 %	0 %

A reconciliation of the income taxes computed at the statutory rate is as follows:

	Years ended	
	December 31, 2025	December 31, 2024
Tax credit (expense) at statutory rate (21%)	\$ 19,480	\$ 14,496
Increase in valuation allowance	(19,480)	(14,496)
Net deferred income tax asset	\$ —	\$ —

At December 31, 2025 and 2024, the significant components of the deferred tax assets are summarized below:

	December 31, 2025	December 31, 2024
Net operating loss carry-forward	\$ 66,274	\$ 46,793
Valuation allowance	(66,274)	(46,793)
Net deferred tax asset	\$ —	\$ —

As of December 31, 2025 and 2024, the Company had a federal net operating loss carryforward of approximately \$315,589 and \$222,826, respectively. The federal net operating loss carryforwards do not expire but may only be used against taxable income to 80%. No tax benefit has been reported in the unaudited financial statements. The annual offset of this carryforward loss against any future taxable profits may be limited under the provisions of Internal Revenue Code Section 381 upon any future change(s) in control of the Company.

## **11. Subsequent events**

Subsequent to December 31, 2025, the Company terminated the 40-acre lease for regulated cannabis cultivation to focus on evaluating real estate and energy opportunities.

Subsequent to December 31, 2025, the board of directors approved a name change to Catali, Inc. The Company is currently awaiting approval from FINRA.
