

**Alternative Reporting Standard:
Disclosure Guidelines for the OTCID Basic Market**

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these OTCID Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for companies on the OTCID™ Basic Market and Pink Limited Market. Companies that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines and in accordance with the OTCID Rules to determine eligibility for the OTCID Market or Pink Limited Market as applicable.²

Current Information

To be eligible for the OTCID Market, Alternative Reporting companies make the information listed below publicly available through OTCIQ.com:

1. Initial Disclosure Obligations

Companies must upload the following documents through OTCIQ.com:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the current fiscal year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

Qualifying Financial Statements include:

- Statement of Cash Flows
- Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)
- Notes to Financial Statements

2. Ongoing Requirements

On an ongoing basis, companies must publish reports through OTCIQ.com on the following schedule:

- Quarterly Reports are due within **45 days** of the quarter end
- Annual Reports are due within **90 days** of the fiscal year end
- Management Certifications are due within **45 days** of the Annual Report due date

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the OTCID Basic Market.

Other OTCID Eligibility Requirements:

To remain on the OTCID Market, companies must continue to meet all other eligibility requirements of the [OTCID Rules](#) in addition to the disclosure requirements listed above.

Pink Limited Market

Companies that do not meet the requirements of the OTCID Market set forth above may still qualify for the Pink Limited Market by meeting the following minimum disclosure requirements.

1. Initial Requirements:

- **Annual Financial Statements:** Publish a report that includes Qualifying Annual Financial Statements, as outlined in Item 9, which cover the past 2 completed fiscal years, provided the most recently completed fiscal year is within the past 16 months.
- **Company Verified Profile:** The Company must verify the Company Profile through OTCIQ.com, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. - Review and verify the information on the Company Profile through OTCIQ.com at least once every 12 months.

C. Describe the issuers' principal products or services.

After we receive an order from a client, our software monitors the global P2P file sharing networks to detect illegally distributed digital media. The technology sends automated notices of the infringing activity to ISPs and the ISP forwards these notices, which contain settlement offers, to their infringing customers. The notice to ISPs and settlement offers identify the date, time, title of copyrighted intellectual property and other specific technology identifiers to confirm the infringement by the ISPs customer. Infringers who accept our settlement offers then remit payment to us for the copyright infringement and we share the payments with the copyright owners.

We generate revenues by retaining a portion of the settlement payments we receive from copyright infringers. Our customers, the copyright holders, benefit from our service as we share a portion of the settlement with them. This helps them recapture the revenues they lost when their copyrighted material was illegally copied and distributed. Current customers include, but are not limited to, BMG Rights Management, Round Hill Music, Shapiro/Bernstein and The Orchard. We previously successfully obtained settlement payments from more than 180,000 individual cases of copyright infringement. Previously, we closed infringements and received settlement payments from subscribers on more than 233 ISPs including five of the top 10 US ISPs: Comcast, Charter, CenturyLink, Mediacom and Suddenlink. We believe ISPs that participate with us and our clients by forwarding notices of infringement achieve compliance with their obligations under Digital Millennium Copyright Act (or DMCA).

Our second but more relevant business model is for data litigation services. This service allows us to present our traditional data analytics as evidence to be pressure tested throughout a legal process that ultimately results in a courtroom trial, in support of our client's ownership rights.

Status: Late last year, the RCN defendants asserted a counterclaim against Rightscorp, Inc., alleging violations of California's Unfair Competition Law, among others. Rightscorp successfully moved to dismiss under FRCP 12(b)(6). The RCN defendants filed an amended counterclaim against Rightscorp and other parties. Title: American Films, LLC and American Films, Inc. v. Rightscorp, Inc.
Case No.: 2021-CA-000817-00001
Jurisdiction: Circuit Court of the Twentieth Judicial Circuit for Collier County, Florida
Status: On March 23, 2021, Plaintiffs American Films, LLC and American Films, Inc. ("Plaintiffs") filed a complaint against Rightscorp, Inc. (the "Company") alleging a breach of contract cause of action, seeking monetary damages. The complaint was subsequently amended to add an additional plaintiff and an individual defendant and various causes of action. After successful motions to dismiss filed by the Company, including obtaining a dismissal with prejudice against the individual defendant, Plaintiff's amended complaint alleged four causes of action against the Company. In response, the Company filed a motion to dismiss the amended complaint on various grounds. On June 7, 2024, the Court granted the Company's motion to dismiss Plaintiffs' second amended complaint with prejudice. The Court made the explicit ruling that the Company is the prevailing party, and reserved jurisdiction to consider the Company's claims to entitlement of attorneys' fees and costs. The Company subsequently filed a motion to determine entitlement to costs and fees, which was set for a hearing on November 4th, 2024. On November 8, 2024, the Court entered an Order granting, in part, the Company's motion. The Court held that the Company is entitled to recover its reasonable attorneys' fees from Plaintiff American Films, LLC for having to defend the cause of action on breach of a nondisclosure agreement. It also held that the Company is entitled to recover its reasonable litigation costs from both Plaintiffs. On March 20th, 2026, the court entered an additional order finding both Plaintiffs responsible for all costs incurred (\$771.00) and finding Plaintiff American Films, LLC., responsible for all attorneys' fees (\$161,354.30). The Plaintiffs were ordered to pay the costs and fees no later than April 20, 2026.

Rightscorp, Inc. and Subsidiary
Notes to Consolidated Financial Statements
For the year ended December 31, 2025 and 2024

Note 1 – Nature of the Business

Rightscorp, Inc., a Nevada corporation (the “Company”) was organized under the laws of the State of Nevada on April 9, 2010, and its fiscal year end is December 31. The Company is the parent company of Rightscorp, Inc., a Delaware corporation formed on January 20, 2011 (“Rightscorp Delaware”). On October 25, 2013, the Company acquired Rightscorp Delaware in a transaction treated as a reverse acquisition, and the business of Rightscorp Delaware became the business of the Company.

The Company has developed products and intellectual property rights relating to providing data and analytics regarding copyright infringement on the Internet. The Company is dedicated to the vision that digital creative works should be protected economically so that the next generation of great music, movies, video games and software can be made and their creators can prosper. The Company has a patent-pending, proprietary method for gathering and analyzing infringement data and for solving copyright infringement by collecting payments from illegal downloaders via notifications sent to their ISP’s.

Note 2 – Summary of Significant Accounting Policies

Going Concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As reflected in the accompanying consolidated financial statements, during the years ended December 31, 2025 and 2024, the Company incurred net losses of \$666,080 and \$618,272, respectively, and used cash for operations of \$245,583 and \$82,145, respectively. As of December 31, 2025, the Company had a stockholders’ deficit of \$3,694,213. These factors raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that financial statements are issued. The Company’s financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

As of December 31, 2025, the Company had cash of \$872. Management believes that the Company will need a minimum of \$250,000 to fund operations for the 12-month period from the date of this filing based on its current operating plans. Management’s plans to continue as a going concern include raising additional capital through borrowings and/or the sale of common stock. No assurance can be given that any future financing will be available or, if available, that it will be on terms to are satisfactory to the Company. Even if the Company is able to obtain additional financing, it may contain undue restrictions on our operations, in the case of debt financing, or cause substantial dilution for its stockholders, in case of an equity financing.

Principles of Consolidation

The financial statements include the accounts of Rightscorp Inc., and its wholly-owned subsidiary Rightscorp Delaware. Intercompany balances and transactions have been eliminated in the consolidation.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Significant estimates include accounting for potential liabilities, and the assumptions made in valuing share-based instruments issued for services, and derivative liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all cash, certificates of deposit and other highly liquid investments with original maturities of year or less, when purchased, to be cash and cash equivalents. As of December 31, 2025, and December 31, 2024, the Company had no cash equivalents.

Property and equipment

Property and equipment are stated at cost and are depreciated using the straight-line method over their estimated useful lives of three years. Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains and losses on disposals are included in the consolidated statements of operations.

Management assesses the carrying value of property and equipment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If there is indication of impairment, management prepares an estimate of future cash flows expected to result from the use of the asset and its eventual disposition. If these cash flows are less than the carrying amount of the asset, an impairment loss is recognized to write down the asset to its estimated fair value. For the periods ended December 31, 2025 and 2024, the Company did not recognize any impairments for its property and equipment.

Revenues

Copyright settlement revenue

The Company provides a service to copyright owners under which copyright owners retain the Company to identify and collect settlement payments from Internet users who have infringed on their copyrights. Revenue is recognized when the Company collects a fee from an infringer which acts as a settlement of the infringement liability. Generally, the Company has agreed to remit 50% of such collections to the copyright holder. The Company also provides services to copyright holders. Service fee revenue is recognized when the service has been provided.

Consulting revenue

Revenue is recognized in the period services are rendered and earned under service arrangements with clients where service fees are fixed or determinable and collectability is reasonably assured.

Income Taxes

The Company accounts for income taxes using the asset and liability method whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Stock-Based Compensation

The Company periodically grants stock options and warrants to employees and non-employees in non-capital raising transactions as compensation for services rendered. The Company accounts for stock option and stock warrant grants to employees based on the authoritative guidance provided by the Financial Accounting Standards Board where the value of the award is measured on the date of grant and recognized over the vesting period. The Company accounts for stock option and stock warrant grants to non-employees in accordance with the authoritative guidance of the Financial Accounting Standards Board where the value of the stock compensation is determined based upon the measurement date at either a) the date at which a performance commitment is reached, or b) at the date at which the necessary performance to earn the equity instruments is complete. Non-employee stock-based compensation charges generally are amortized over the vesting period on a straight-line basis. In certain circumstances where there are no future performance requirements by the non-employee, option or warrant grants are immediately vested and the total stock-based compensation charge is recorded in the period of the measurement date.

The fair value of the Company's common stock option and warrant grants is estimated using a Black-Scholes option pricing model, which uses certain assumptions related to risk-free interest rates, expected volatility, expected life of the common stock options, and future dividends. Compensation expense is recorded based upon the value derived from the Black-Scholes option pricing model, and based on actual experience. The assumptions used in the Black-Scholes option pricing model could materially affect compensation expense recorded in future periods.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The Company uses a probability weighted average Black-Scholes-Merton model to value the derivative instruments. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date.

Fair Value Measurements

Disclosures about fair value of financial instruments require disclosure of the fair value information, whether or not recognized in the balance sheet, where it is practicable to estimate that value.

In accordance with ASC Topic 820, "Fair Value Measurements and Disclosures," the Company measures certain financial instruments at fair value on a recurring basis. ASC Topic 820 defines fair value, established a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The carrying amounts of the Company's financial assets and liabilities, including cash, accounts receivable, prepaid expenses, accounts payable, accrued expenses, and other current liabilities, approximate their fair values because of the short maturity of these instruments. The fair value of notes payable and convertible notes approximates their fair values since the current interest rates and terms on these obligations are the same as prevailing market rates.

Basic and diluted loss per share

Basic loss per share is computed by dividing net loss applicable to common stockholders by the weighted average number of outstanding common shares during the period. Diluted loss per share is computed by dividing the net loss applicable to common stockholders by the weighted average number of common shares outstanding plus the number of additional common shares that would have been outstanding if all dilutive potential common shares had been issued. Potential common shares are excluded from the computation when their effect is anti-dilutive.

As of December 31, 2025 and December 31, 2024, the dilutive impact of outstanding stock options for 5,600,000 and 5,600,000 shares, respectively, have been excluded because their impact on the loss per share is anti-dilutive.

Recent Accounting Pronouncements

In March 2016, the FASB issued the ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amendments in this ASU require, among other things, that all income tax effects of awards be recognized in the income statement when the awards vest or are settled. The ASU also allows for an employer to repurchase more of an employee's shares than it can today for tax withholding purposes without triggering liability accounting and allows for a policy election to account for forfeitures as they occur. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted for any entity in any interim or annual period. The Company is currently evaluating the expected impact that the standard could have on its financial statements and related disclosure.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future consolidated financial statements.

(the “Company”) alleging a breach of contract cause of action, seeking monetary damages.
