

**Alternative Reporting Standard:  
Disclosure Guidelines for the OTCID Basic Market**

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these OTCID Disclosure Guidelines (“Guidelines”)<sup>1</sup> that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for companies on the OTCID™ Basic Market and Pink Limited Market. Companies that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines and in accordance with the OTCID Rules to determine eligibility for the OTCID Market or Pink Limited Market as applicable.<sup>2</sup>

However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

<sup>2</sup> OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the OTCID Basic Market.

## 1.0 NOTE 1-OVERVIEW

### 1.1 Liquidity

The accompanying unaudited consolidated financial statements have been prepared assuming that the Company will continue as a going concern. This contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The company change management as of July 7, 2016, after the death of the old CEO Tom Makmann. The new CEO Kate Bahnsen sold the furniture and collected the account receivable making a sum of \$174,617 to pay the liabilities \$227,002 reducing the liability to only \$52,835. That liability was settled to \$0 in 2018.

In March 31, 2022 the CEO cancel all the debt owed to management for salaries not paid and payment to transfer agent for a total of \$199,051 plus the loss of 221 of the company for a total of \$23,153. The company has only a debt to the transfer agent for a total of \$28,880 that was paid of the first quarter of 2022. Current debit is \$9,112 is due to QEDN for managing Energy Today.

Any of the following factors could result in insufficient capital to fund the Company's operations for a period significantly shorter than twelve months:

- if the Company's capital requirements or cash flow vary materially from its current projections.
- if the Company is unable to timely raise capital for the requirements of its joint venture agreements and to cover its operating expenses; or
- if other unforeseen circumstances occur.

The Company's inability to fund its operations may require the Company to substantially curtail its business activities. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's plans for correcting these deficiencies include ongoing efforts to raise new capital and negotiating suitable repayment terms for outstanding obligations. The unaudited consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the inability of the Company to continue as a going concern.

#### 1.2.2 Critical Accounting Policies and Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates and assumptions. Certain amounts from prior periods have been reclassified to conform with current period presentation.

#### 1.2.3 Cash and Cash Equivalents

The Company considers all cash and investments with original maturities of three months or less to be cash equivalents.

#### 1.2.4 Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditures for minor replacements, maintenance and repairs which do not increase the useful lives of the property and equipment are charged to operations as incurred. Major additions and improvements are capitalized. Depreciation and amortization are computed using the straight-line method over estimated useful lives of 5 years.

#### 1.2.5 Intangible Assets

In accordance with ASC subtopic 350-10, Intangibles, Goodwill and Others, the goodwill impairment analysis compares the fair value of each reporting unit to its carrying value, including goodwill. The Company evaluates the remaining useful life of an intangible asset that is being amortized each reporting period to determine whether events and circumstances warrant a revision to the remaining period of amortization, and as such all Goodwill was written off in this accounting period.

Credit losses, if any, have been provided for in the financial statements and are based on management's expectations. The Company does not believe that it is subject to any unusual risks or significant risks in the normal course of its business.

#### 1.2.9 Revenue Recognition

We recognize revenue in accordance with Staff Accounting Bulletin (“SAB”) No. 104, Revenue Recognition, Corrected Copy. Under SAB No. 104, revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the seller’s price to the buyer is fixed or determinable, and collectability is reasonably assured. Revenue is recognized net of sales tax. We apply the specific provisions of SFAS No. 48, Revenue Recognition when Right of Return Exists. Under SFAS No. 48, product revenue is recorded at the transfer of title to the products to a customer, net of estimated allowances and returns and sales incentives. Transfer of title occurs and risk of ownership passes to a customer at the time of acceptance by the customer, depending on the terms of our agreement with a particular customer. For transactions not satisfying the conditions for revenue recognition under SFAS No. 48, product revenue is deferred until the conditions are met, net of an estimate for cost of sales.

#### 1.2.10 Income Taxes

The Company accounts for income taxes under ASC topic 740, Income Taxes, ASC topic 740 defines an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company’s financial statements or tax returns. ASC topic 740 further requires that a tax position must be more likely than not to be sustained before being recognized in the financial statements, as well as the accrual of interest and penalties as applicable on unrecognized tax positions. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax payable for the period, if any, and the change during the period in deferred tax assets and liabilities.

### 1.2.11 Litigation and Other Contingencies

The Company discloses material contingencies deemed to be reasonably possible and accrues loss contingencies when, in consultation with legal advisors, the Company concludes that a loss is probable and reasonably estimable. The ability to predict the ultimate outcome of such matters involves judgments, estimates and inherent uncertainties. The actual outcome of such matters could differ materially from management's estimates.

### 1.2.11 Computation of Net Loss (Loss) Per Common Share.

The Company calculates income/loss per share in accordance with FASB ASC topic 260, Earnings Per Share. Basic income/loss per share is computed by dividing the net income/loss available to common shareholders by the weighted-average number of common shares outstanding. Diluted income/loss per share is computed similar to basic loss per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

## 2 NOTE 2 – FAIR VALUE MEASUREMENTS

The Company's financial assets that are measured on a recurring basis at fair value.

### 2.1 Level 1.

The Company utilizes the market approach to determine the fair value of its assets and liabilities under Level 1 of the fair value hierarchy. The market approach pertains to transactions in active markets involving identical or comparable assets or liabilities.

### 2.2 Level 2.

The fair values determined through Level 2 of the fair value hierarchy are derived principally from or corroborated by observable market data. Inputs include quoted prices for similar assets, liabilities (risk adjusted), and market-corroborated inputs, such as market comparable, interest rates, yield curves, and other items that allow value to be determined.

### 2.3 Level 3.

The fair values determined through Level 3 of the fair value hierarchy are derived principally from unobservable inputs to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset (or similar assets) at the measurement date. As of December 31, 2020, no fair value measurements for assets or liabilities under Level 3 were recognized in the Company's consolidated financial statements. There were no changes in the Company's valuation techniques during the twelve months ending December 31, 2020. The Company is not exposed to changes in interest rates which could result in cash flow risks.
