

## Alternative Reporting Standard: Disclosure Guidelines for the Pink<sup>®</sup> Market

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Disclosure Guidelines (“Guidelines”)<sup>1</sup> that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. Companies on the Pink Market that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.<sup>2</sup>

### Pink Current Information Tier

To qualify for the Current Information Tier:

1. **Subscribe to the OTC Disclosure & News Service:** To submit an application, visit [Gateway](#) to sign in or create a new account. Allow OTC Markets Group 2-4 weeks to process your application and provide authorized user credentials to OTCIQ.
2. **Publish Initial Disclosure:** Upload the following documents through OTCIQ:
  - Annual Report for the most recently completed fiscal year.
  - All Quarterly Reports for the Current Fiscal Year.

*Annual or Quarterly Reports are composed of:*

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

*Qualifying Financial Statements include:*

- Audit Letter, if audited
- Balance Sheet
- Statement of Income
- Statement of Cash Flows
- Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- Notes to Financial Statements

---

<sup>1</sup> These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

<sup>2</sup> OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the Pink Current Information tier.

3. **Publish Attorney Letter:** If financial statements are not audited by a PCAOB registered firm, companies must retain U.S. counsel to review their disclosure and provide a letter to OTC Markets Group with respect to adequate current information by providing the following:
  - Attorney Letter Agreement: The attorney for the company must submit a signed Attorney Letter Agreement according to the [Attorney Letter Agreement Instructions](#).
  - Attorney Letter: After the attorney reviews the company's disclosure, publish the "Attorney Letter With Respect to Current Information" through OTCIQ. Attorney Letters must be in accordance with the [Attorney Letter Guidelines](#).
4. **Verify Profile:** Verify the Company Profile through OTCIQ. This includes the complete list of current officers, directors, and service providers; outstanding shares; a business description; contact information; and the names of all company insiders and beneficial owners of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
5. **OTC Markets Group Processing of Reports:** Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted. A new Attorney Letter is required upon amendment of any referenced report.
6. **Ongoing Requirements:** To qualify for Current Information on an ongoing basis, companies must:
  - Publish reports through OTCIQ on the following schedule:
    - Quarterly Report within **45 days** of the quarter end
    - Annual Report within **90 days** of the fiscal year end
    - Attorney Letter within **120 days** of the fiscal year end if financial statements are unaudited.
  - Maintain a Verified Profile. At least once every six months, review and verify the Company Profile through OTCIQ.
  - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.
  - Maintain an Active standing in the Company's State of Incorporation.

In addition to the disclosure requirements above, all companies on the Pink market are expected to promptly release to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events are considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. **Security Description:**

*The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:*

**1. For common equity, describe any dividend, voting and preemption rights.**

A share of ownership in a corporation is represented by common stock, which enables investors to benefit from the expansion and prosperity of the business. Voting Rights: Common stockholders have the right to vote on important corporate matters, such as electing directors, approving mergers and acquisitions, and making changes to the company's bylaws. Each share of common stock grants one vote, allowing shareholders to have a say in the company's governance. Dividends: Companies may choose to distribute a portion of their earnings to shareholders in the form of dividends. While dividends are not guaranteed, common stockholders may receive these payments if the company decides to issue them. Residual Claim on Assets: In the event of a company's liquidation or bankruptcy, common stockholders have a residual claim on the company's assets. This means that they are entitled to receive a portion of the remaining assets once all debts and obligations have been paid. However, common stockholders are the last in line for these payouts, following bondholders and preferred stockholders.

**2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

**preferred shares**, preferred shares HAVE NO dividend, BUT DO HAVE CONVERTIBLE FEATURES. Similar to common shareholders, those who purchase preferred shares will still be buying shares of ownership in a company.

**3. Describe any other material rights of common or preferred stockholders.**

N/A

**4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

## Notes to Financial Statements

### 1. NATURE OF BUSINESS, ORGANIZATION AND BASIS OF PRESENTATION

TGI Solar Power Group, Inc. (“TGI” or the “Company”) is a publicly held corporation formed under the laws of the State of Delaware as Liberty Leasing Co. Inc. in 1967. The Company changed its name to LIBCO Corporation on June 29, 1973, RDIS Corporation on January 11, 1993 and TenthGate International, Inc. on February 20, 2007 before adopting its current name, TGI Solar Power Group, Inc. in June 2008. The Company’s fiscal year end is July 31st.

The Company’s strategy is to acquire innovative and patented technologies, components, processes, and designs with commercial value that will give the Company a competitive market advantage and generate shareholder value. In addition, The Company plans to align itself through acquisition and joint ventures with partners whereby the Company can provide project management consulting and develop custom tools software related to the development of smart sustainable cities.

### 2. GOING CONCERN

The accompanying unaudited condensed financial statements have been prepared on the basis the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a history of operating losses, and the Company continues to rely on financing and the issuance of Preferred and Common shares to raise capital. The Company’s significant losses from operations and the Company’s dependence on equity and debt financing raise substantial doubt about the Company’s ability to continue as a going concern. The unaudited condensed financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

### 3. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

#### Use of Estimates

The preparation of unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

#### Income Taxes

Estimates of taxable income of the legal entity and jurisdiction are used in the tax rate calculation. Management uses judgment in estimating what the Company’s income tax will be for the year. Since judgment is involved, there is a risk that the tax rate may increase or decrease in any period. In determining income/(loss) for financial statement purposes, management must make certain estimates and judgments. These estimates and judgments occur in the calculation of certain tax liabilities and in the determination of the recoverability of certain deferred tax assets, which arise from temporary differences between the tax and financial statement recognition of revenue and expense. FASB issued authoritative guidance concerning accounting for income taxes also requires that the deferred tax assets be reduced by a valuation allowance if, based on the available evidence, it is more likely than not that all or some portion of the recorded deferred tax assets will not be realized in future periods. In evaluating the Company’s ability to recover the Company’s deferred tax assets, management considers all available positive and negative evidence including the Company’s past operating results.

Through October 31, 2023, the Company has recorded a valuation allowance against the Company’s deferred tax assets arising from net operating losses due to uncertainty of their realization because of the Company’s

### **Notes to Financial Statements**

earnings history, the number of years the Company's net operating losses and tax credits can be carried forward, the existence of taxable temporary differences and near-term earnings expectations. The amount of the valuation allowance could decrease if facts and circumstances change that materially increase taxable income prior to the expiration of the loss carry forwards. Any reduction in the valuation allowance would result in an income tax benefit in the period such determination is made by the Company.

Due to the Company experiencing several events that qualify as a change in control since its inception, the Company may be limited by section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years.

#### **NET (LOSS) EARNINGS PER SHARE**

Basic earnings per share are calculated based on the weighted-average number of common shares outstanding during the year. Basic earnings per share are computed by dividing income available to common stockholders by the weighted-average common shares outstanding during the period. Diluted earnings per share considers the potential dilution that could occur if securities or other contracts to issue common stock were exercised and converted to common stock.

Dilutive common share equivalents consist of shares issuable upon conversion of convertible debt, and Preferred Stock.

As of October 31, 2023, and 2022, there were 10,000,000 outstanding shares of Preferred Series A Stock which convert to 30,000,000 common shares, 2,000,000 outstanding shares of Preferred Series B Stock which convert to 200,000,000 common shares.

(“Boss”), a Company specializing in engineering, IT consulting and internet security product development entered into a stock purchase agreement where the Company purchased 25% of the outstanding common shares of Boss, \$0.001 par value in the share capital for \$100,000.
