NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company’s unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The accompanying unaudited financial statements reflect all adjustments, consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair statement of the results of operations for the periods shown.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Intercept Music, Inc. All intercompany balances and transactions have been eliminated on consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Concentrations of Credit Risk

We maintain our cash in bank deposit accounts, the balances of which at times may exceed federally insured limits. We continually monitor our banking relationships and consequently have not experienced any losses in our accounts. At times, such deposits may exceed the Federal Deposit Insurance Corporation insurable limit.

Operating Segments

Operating segments are defined as components of an entity for which discrete financial information is available that is regularly reviewed by the Chief Operating Decision Maker (“CODM”), or decision maker group, in deciding how to allocate resources to an individual segment and in assessing performance. Our chief operating decision-making is composed of the Chief Executive Officer. The Company has one operating segments as of December 31, 2025 and 2024.

Cash Equivalents

We consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents as of December 31, 2025 and 2024.

Loss Per Share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented. As of December 31, 2025 and 2024, the Company's diluted loss per share is the same as the basic loss per share, as the inclusion of any potential shares would have had an anti-dilutive effect due to the Company generating a loss.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The accompanying unaudited consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As of December 31, 2025, the Company has an accumulated deficit of \$24,605,297 and had a net loss of \$342,808 for the year ended December 31, 2025. The Company's ability to raise additional capital through the future issuances of common stock and/or debt financing is unknown. The obtainment of additional financing, the successful development of the Company's plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. These conditions and the ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements of the Company do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

Management plans to continue to implement its business plan and to fund operations by raising additional capital through the issuance of debt and equity securities. The Company's existence is dependent upon management's ability to implement its business plan and/or obtain additional funding. There can be no assurance that the Company's financing efforts will result in profitable operations or the resolution of the Company's liquidity problems. Even if the Company is able to obtain additional financing, it may include undue restrictions on our operations in the case of debt or cause substantial dilution for our stockholders in the case of equity financing.

The Company is firm that it will not be liable to pay funds that it didn’t receive; and
- sent a demand letter to the board and majority shareholders of Intercept Music, Inc. certain demands including but not limited to compensation, usage of Sanwire’s technologies and assumption of debts. The Company has provided Intercept five (5) business days to reply.
