Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The holders of our common stock are entitled to one vote per share on all matters submitted to a vote of the shareholders, including the election of directors. Generally, all matters to be voted on by shareholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by all shares of our common stock that are present in person or represented by proxy. Except as otherwise provided by law, amendments to our Articles of Incorporation generally must be approved by a majority of the votes entitled to be cast by all outstanding shares of our common stock. Our Article of Incorporation does not provide for cumulative voting in the election of directors. Holders of our common stock will be entitled to such cash dividends as may be declared from time to time by the Board from funds available. Holders of our common stock have no preemptive rights to purchase shares of our common stock. The issued and outstanding shares of our common stock are not subject to any redemption provisions and are not convertible into any other shares of our capital stock. Upon our liquidation, dissolution or winding up, the holders of our common stock will be entitled to receive pro rata all assets available for distribution to such holders. We have never declared or paid any cash dividends on our common stock.

As part of our new business plan, however, we intend to pay cash dividends to holders of our common stock.

For purposes of determining the amount of cash to be distributed as a dividend to the holders of our capital stock, our Board of Directors has defined "Available Cash," as follows:

Available Cash shall be calculated as an amount, for any determination period, equal to (1) total revenues from sales of company-mined Bitcoin, (2) less total costs of Bitcoin mined by the company, (3) less cash operating expenses of the company, (4) less cash paid by the company for debt service, both principal and interest, (5) less taxes paid by the company.

15% of Available Cash will be distributed as a dividend to holders of record of our common stock.

Our Board of Directors has not yet declared any dividend, in this regard.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

(Please ensure that these descriptions are updated on the Company's Profile on www.otcm Markets.com.)

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

In November 2024, the Company acquired Kaboomracks, Inc., a Delaware corporation ("Kaboomracks"), which fundamentally changed the outlook and direction of the Company. Prior to the Kaboomracks acquisition, our company was solely a Bitcoin mining company, that is, we would (1) mine Bitcoin, (2) sell the mined Bitcoin for cash and, (3) on a regular basis, declare and distribute dividends with respect to "Available Cash" (as established by the Board of Directors) to our holders of capital stock.

At the end of 2025, the Company's Board of Directors authorized a move away from the Company's historical Bitcoin mining operations and began to focus on becoming a more dynamic Digital Energy Company. Specifically, the Company now focuses on the development of containerized and modular AI infrastructure designed to address the growing energy, cooling, and deployment constraints facing AI data centers, as AI infrastructure faces growing constraints driven by power availability and rising electrical costs.

B. List any subsidiaries, parent company, or affiliated companies.

A.R.T. Digital Energy, LLC, a Texas limited liability company.

Stratus Digital, LLC, a Wyoming limited liability company.

A.R.T. TX04, LLC, a Texas limited liability company.

A.R.T. TX05, LLC, a Texas limited liability company.

Kaboomracks, Inc., a Delaware corporation, which owns: Kaboomracks Hosting, LLC, a Delaware limited liability company, and KRB Hosting TX, LLC, a Texas limited liability company.

C. Describe the issuer’s principal products or services.

CODE GREEN APPAREL CORP.
NOTES TO UNAUDITED FINANCIAL STATEMENTS
DECEMBER 31, 2025

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Code Green Apparel Corporation (the “Company”, “we”, “us” or “our”) was incorporated under the laws of the State of Nevada on September 2, 2014.

In November 2024, we acquired Kaboomracks, Inc., a Delaware corporation (“Kaboomracks”), which fundamentally changed the outlook and direction of our company. Prior to the Kaboomracks acquisition, our company was solely a Bitcoin mining company, that is, we would (1) mine Bitcoin, (2) sell the mined Bitcoin for cash and, (3) on a regular basis, declare and distribute dividends with respect to “Available Cash” (as established by our Board of Directors) to our holders of capital stock.

While we continue our Bitcoin mining operations, we are now a more dynamic Digital Energy Company that acquires properties and assets to power Bitcoin mining, AI inference and HPC compute. Our scalable infrastructure enables high-performance digital workloads while monetizing computational output. By securing strategic assets, we are able to deliver cost-effective solutions for Bitcoin miners, AI firms and HPC applications. We monetize computational output through trading, leasing, and optimization, maximizing efficiency and profitability.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (“GAAP” accounting). The Company has adopted December 31 fiscal year end.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. The Company had \$472,171 and \$71,160 of cash as of December 31, 2025 and 2024, respectively.

Fair Value of Financial Instruments

ASC topic 820 “Fair Value Measurements and Disclosures” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets.

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The carrying value of accounts payable and the Company’s loan from shareholder approximates its fair value due to their short-term maturity.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

Basic Income (Loss) Per Share

Basic income (loss) per share is calculated by dividing the Company's net income (loss) applicable to common shareholders by the weighted average number of common shares during the period. Diluted income (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. There are no such common stock equivalents outstanding as of December 31, 2025 and 2024. In loss years, common stock equivalents would not be included as they would be anti-dilutive.

Comprehensive Income

The Company has established standards for the reporting of comprehensive income, its components and accumulated balances. When applicable, the Company would disclose this information on its Statement of Stockholders' Equity. Comprehensive income comprises equity except those resulting from investments by owners and distributions to owners. The Company has not had any significant transactions that are required to be reported in other comprehensive income.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principle, which contemplate continuation of the Company as a going concern. However, the Company has only recently begun to produce revenues from operations. The Company currently is attempting to achieve a stabilized stream of revenues sufficient to cover operating costs over an extended period of time. This raises substantial doubt about its ability to continue as a going concern.

Management anticipates that the Company will be dependent, for the near future, on additional investment capital to fund operating expenses. The Company intends to position itself so that it may be able to raise additional funds through the capital markets. In light of management's efforts, there are no assurances that the Company will be successful in this or any of its endeavors or become financially viable and continue as a going concern.

NOTE 4 – GOOD WILL

The Company's acquisition of Kaboomracks, Inc., resulted in the recording of \$9,400,000 in goodwill.
