GEX MANAGEMENT, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

GEX Management, Inc. (“GEX”, the “Company”, “we”, “our”, “us”) is a professional business services company that was originally formed in 2004 as Group Excellence Management, LLC d/b/a MyEasyHQ. The Company converted from a limited liability company to a C corporation in March 2016, and changed its name to GEX Management, Inc. in April 2016. GEX currently provides staffing and management consulting services to businesses.

Basis of Presentation

Our financial statements have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”), as well as the applicable regulations and rules of the Securities and Exchange Commission (“SEC”). This requires management to make estimates and assumptions that affect the amounts reported in the financial statements and their accompanying notes. The actual results could differ from those estimates.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States and the rules of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the financial statements and notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, which we filed with the SEC on April 26, 2024 (“Annual Report”). In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the periods presented have been reflected herein. Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) have been condensed or omitted as allowed by such rules and regulations, and management believes that the disclosures are adequate to make the information presented not misleading. These unaudited consolidated financial statements include all of the adjustments which, in the opinion of management, are necessary to a fair presentation of the Company’s financial position and results of operations. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash in banks and short-term investments with original maturities of three months or less.

Accounts Receivable, Net

The Company has adopted Accounting Standards Update (“ASU”) No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments issued by the FASB in June 2016, as well as the clarifying amendments subsequently issued. The pronouncement changes the impairment model for most financial assets and will require the use of an “expected loss” model for instruments measured at amortized cost. Under this model, entities will be required to estimate the lifetime expected credit loss on such instruments and record an allowance to offset the amortized cost basis of the financial asset, resulting in a net presentation of the amount expected to be collected on the financial asset. Upon adoption of the standard, there was no immediate impact to the Company’s financial position, results of operations or cash flows. On an ongoing basis, the Company will contemplate forward-looking economic conditions in recording lifetime expected credit losses for the Company’s financial assets measured at cost, which consist of the Company’s trade receivables.

Accounts receivable consists of accrued services and consulting receivables due from customers and are unsecured. The receivables are generally due within 30 to 60 days after the date of the invoice. Accounts receivable are carried at their face amount, less an allowance for doubtful accounts. GEX’s policy is not to charge interest on receivables after the invoice becomes past due.

GEX MANAGEMENT, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Accounts receivable have been reduced by an allowance for doubtful accounts with a corresponding charge to bad debt expense for periods in which new credit losses are estimated. The Company maintains the allowance for estimated losses resulting from the inability of the Company's customers to make required payments. The allowance represents the current estimate of lifetime expected credit losses over the remaining duration of existing accounts receivable considering current market conditions and supportable forecasts when appropriate. The estimate is a result of the Company's ongoing evaluation of collectability, customer creditworthiness, historical levels of credit losses, and future expectations. Write-offs are recorded at the time when a customer receivable is deemed uncollectible or otherwise deemed impaired.

Related Parties

Parties are considered to be related to the Company if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal with if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests.

Convertible Debt and Derivative Liability

Effective January 1, 2022, the Company adopted ASU 2020-06 that simplifies the accounting for convertible instruments. ASU 2020-06 (i) reduced the number of accounting models for convertible instruments, by eliminating the models that require separation of cash conversion or beneficial conversion features from the host and (ii) revised derivative scope exception and (iii) provided targeted improvements for EPS. The adoption of ASU 2020-06 did not have a material impact on the Company's outstanding convertible debt instruments as of January 1, 2022.

When the Company issues convertible debt or convertible preferred stock, it evaluates the balance sheet classification to determine whether the instrument should be classified either as debt or equity, and whether the conversion feature should be accounted for separately from the host instrument. A conversion feature of a convertible debt instrument or certain convertible preferred stock would be separated from the convertible instrument and classified as a derivative liability if the conversion feature, were it a standalone instrument, meets the definition of an "embedded derivative" in Accounting Standards Codification ("ASC") 815, Derivatives and Hedging. Generally, characteristics that require derivative treatment include, among others, when the conversion feature is not indexed to the Company's equity, as defined in ASC 815-40, or when it must be settled either in cash or by issuing stock that is readily convertible to cash. When a conversion feature meets the definition of an embedded derivative, it would be separated from the host instrument and classified as a derivative liability carried on the consolidated balance sheet at fair value, with any changes in its fair value recognized currently in the consolidated statements of operations.

ASC 825-10-15-4 provides for the "fair value option" ("FVO") election, to the extent not otherwise prohibited by ASC 825-10-15-5, to be afforded to financial instruments, wherein bifurcation of an embedded derivative is not necessary, and the financial instrument is initially measured at its issue-date estimated fair value and then subsequently remeasured at estimated fair value on a recurring basis at each reporting period date.

The estimated fair value adjustment, as required by ASC 825-10-45-5, is recognized as a component of other comprehensive income ("OCI") with respect to the portion of the fair value adjustment attributed to a change in the instrument-specific credit risk, with the remaining amount of the fair value adjustment recognized as other income (expense) in the accompanying consolidated statement of operations. With respect to the above notes, as provided for by ASC 825-10-50-30(b), the estimated fair value adjustment is presented in a respective single line item within other income (expense) in the accompanying consolidated statements of operations, since the change in fair value of the convertible notes payable was not attributable to instrument specific credit risk. Management evaluated the Company's convertible notes and determined that all outstanding conversion features should be bifurcated and accordingly has not elected to use the FVO.

GEX MANAGEMENT, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

When the Company issues convertible notes at a discount, the Company evaluates the period over which the discount should be amortized to interest expense. Management determined that all of the Company's convertible notes are short-term and that discounts on outstanding convertible notes were immaterial to the periods presented. Accordingly, discounts were immediately recorded to interest expense.

Revenue Recognition

GEX enters into contracts with its clients for management consulting and staffing services. GEX's contract stipulates the rate and price charged to each client. GEX's contracts for these services are generally cancellable at any time by either party with 30-days' written notice. GEX fulfills its performance obligations each month, or as consultants work hours for hourly contracts, and the contracts generally have a term of one year with an automatic renewal after 12 months.

GEX Management recognizes revenue for its management consulting and staffing services in accordance with ASC Topic 606 - Revenue from Contracts with Customers ("ASC 606"). The Company recognizes revenue under ASC 606, using the following five-step model, which requires that the Company: (1) identify a contract with the customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to performance obligations and (5) recognize revenue as performance obligations are satisfied.

Revenue is recognized when control of the services is transferred to the client and the consideration for the services is expected to be collected. Control is transferred when the client is able to direct the use of and obtain substantially all of the benefits from the services provided.

The revenue recognized is based on the transaction price, which is the amount of consideration that GEX expects to be entitled to in exchange for providing the services. The transaction price is determined based on the estimated costs and rates to complete a given project, as well as the estimated profit margin on the project.

GEX Management typically enters into contracts with clients that specify the scope of services to be provided, the time period for which the services will be provided, and the fees for the services. Revenue is recognized over the period during which the services are provided, generally as consultants perform the services. In the event services delivered under contracts span multiple accounting periods, the Company recognizes revenue ratably on an hourly basis.

If there are any changes to the scope of the services or the fees for the services, GEX Management will assess whether these changes constitute a modification of the original contract. If a modification is deemed to exist, GEX will reassess the transaction price and adjust the revenue recognized accordingly.

GEX Management also considers any variable consideration, such as performance bonuses or penalties, when recognizing revenue. If the amount of variable consideration cannot be estimated reliably, it will be excluded from the transaction price until it can be reliably estimated.

Income Taxes

The Company accounts for income taxes under ASC 740, "Income Taxes." Under ASC 740, deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carry-forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

GEX MANAGEMENT, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Fair Value Measurements

ASC Topic 820, Fair Value Measurements and Disclosures (“ASC 820”) defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and requires certain disclosures about fair value measurements. In general, fair value of financial instruments is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Company’s credit worthiness, among other things, as well as unobservable parameters.

Earnings Per Share

Earnings per share are calculated in accordance with ASC 260 “Earnings per Share”. Basic income (loss) per share is computed by dividing the period income (loss) available to common shareholders by the weighted average number of common shares outstanding. Diluted earnings (loss) per share is computed by dividing the income (loss) available to common share holders by the weighted average number of common shares outstanding plus additional common shares that would have been outstanding if dilutive potential common shares had been issued. For purposes of this calculation, estimated shares that would be issued for outstanding convertible debt on an if-converted basis, common stock dividends, warrants and options to acquire common stock, would be considered common stock equivalents in periods in which they have a dilutive effect and are excluded from this calculation in periods in which these are anti-dilutive to the net loss per share.

Recently Issued Accounting Pronouncements

There are several new accounting pronouncements issued or proposed by the Financial Accounting Standards Board (“FASB”) which the Company has evaluated for adoption. The Company does not believe any of these accounting pronouncements has had or will have a material impact on its consolidated financial position or results of operations. Management has evaluated accounting standards and interpretations issued but not yet effective as of June 30, 2025 and does not expect such pronouncements to have a material impact on the Company’s financial position, operations, or cash flows.

Reclassifications

Certain comparative amounts have been reclassified to conform to the current period presentation.

(Remainder of this page intentionally left blank.)

NOTE 2. GOING CONCERN

As shown in the accompanying financial statements as of December 31, 2025, the Company had \$25,458 of cash and \$133,693 of current assets, as compared to total current liabilities of \$8,489,064, has incurred substantial recurring operating losses, and had an accumulated deficit of \$21,743,186. Furthermore, the Company's revenue and profits have historically been insufficient to generate positive cash flow, and there can be no assurances of future revenues or sufficient profits to fund operations without the need for outside capital or advances from management.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, however, the above conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

Given these factors, the Company frequently requires financing from outside parties, and management intends to pursue outside capital through debt and equity vehicles. The Company currently has no firm commitments for additional funds, and there can be no assurance such funds will be available on acceptable terms or at all. If the Company is unable to obtain additional funding, the Company's financial condition and results of operations may be materially adversely affected and the Company may not be able to continue operations.

NOTE 3. STOCKHOLDERS' (DEFICIT)

Series A1 Voting Preferred Stock, \$0.00001 Par Value

The Company is authorized to issue 800,000 shares of its Series A1 Voting Preferred Stock ("Series A1"). Series A1 stock has a par value of \$0.00001 and entitles the holders to a 51% supermajority vote in any matter that common stockholders may vote on.

As of each December 31, 2025 and December 31, 2024, 800,000 Series A1 shares were outstanding and held by the Chairman and CEO.

Common Stock, \$0.00001 Par Value

The Company is authorized to issue 100,000,000,000 shares of its \$0.00001 par value Common Stock. This class of stock is entitled to vote.

As of December 31, 2025 and December 31, 2024, 2,505,301,931 and 2,405,609,162 Common shares were issued and outstanding, respectively.

As of December 31, 2025 and December 31, 2024, 97,494,698,069 and 18,069,960,942 Common shares, respectively, were reserved for convertible debtholders, respectively.

Warrants

As of each December 31, 2025 and December 31, 2024, convertible debtholders held warrants to purchase 106,261,238 shares of common stock. There were no issuances, exercises, expirations or cancellations during the three months ended December 31, 2025 and 2024.

NOTE 4. CONVERTIBLE NOTES PAYABLE, NET

Litigation, Settlements and Judgments

From time to time, claims are made against the Company in the ordinary course of its business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties, or injunctions prohibiting the Company from selling one or more products or engaging in other activities. The occurrence of an unfavorable outcome in any specific period could have a material adverse effect on the Company's results of operations for that period or future periods.

On October 16, 2018, C6 Capital, LLC ("C6") obtained a Confession of Judgment for \$534,655 against the Company in Ontario County Supreme Court in the State of New York (Case No. 120802-2018 entitled *C6 CAPITAL LLC - v. - GEX MANAGEMENT INC et al*) related to previous merchant cash advance arrangements. On September 28, 2021, the Company commenced litigation (Case No. 130736-2021 entitled *GEX MANAGEMENT INC et al v. C6 CAPITAL FUNDING LLC*) against C6 but did not successfully vacate, settle or otherwise resolve the original judgment. As of each March 31, 2025 and December 31, 2024, the Company owed \$534,655 on this judgment.

On April 25, 2023, the Workers' Compensation Board of the State of New York obtained a judgment against the Company in the amount of \$22,000 in the Albany County Supreme Court (Case No. 903715-23 entitled *Workers' Compensation Board of the State of New York vs GEX MANAGEMENT INC*). As of each March 31, 2025 and December 31, 2024, the Company owed \$22,000 on this judgment.

As of each September 30, 2025 and December 31, 2024, the Company had \$556,655 of outstanding litigation-related liabilities.

Other Commitments and Contingencies

Other than the information set forth in this note, management was not aware of any other significant commitments or contingencies as of the date of this filing.

NOTE 7. SHORT-TERM LOANS

The Company has entered into a series of loans from one lender. These loans grant the lender a security interest in all assets of the company, including but not limited to cash or cash equivalents, accounts, deposit accounts, chattel paper, documents, equipment, general intangibles, instruments, inventory, investment property (including certificated and uncertificated securities, securities accounts, securities entitlements,

commodity contracts and commodity accounts), letter of credit rights, commercial tort claims and as-extracted collateral. In addition to this security interest, the agreement calls for the Company not to sell or enter any commitment regarding its accounts receivable or future credit card or online sales with any party other than the lender. Terms of the loans are as follows:

- Loan dated September 18, 2024 – \$11,000 principal, 33% stated and effective interest rates, 18 monthly payments ranging from \$666 to \$886.
- Loan dated February 24, 2025 – \$23,900 principal, 34% stated and effective interest rates, 18 monthly payments ranging from \$1,447 to \$1,925.

On November 26, 2024, the Company entered into a term loan from another lender for \$65,000, having stated and effective interest rates of 57% and 50%, respectively, and calling for 52 weekly payments of \$1,606. The loan grants the lender a security interest in all assets of the company, including but not limited to cash and cash equivalents, inventory, equipment, investment property, including certificated and uncertificated securities, securities accounts, security entitlements, commodity contracts and commodity accounts, instruments, including promissory notes, chattel paper, including tangible chattel paper and electronic chattel paper, documents, letter of credit rights, accounts, including health-care insurance receivables, deposit accounts, commercial tort claims, and general intangibles. In addition to this security interest, this agreement calls for the Company not to grant a security interest in, mortgage, encumber, or sell any of its assets for less than fair market value to any party other than the lender, unless agreed upon in writing with the lender.

The Company's CEO has personally guaranteed these loans.

NOTE 8. LINE OF CREDIT

On September 30, 2024, the Company opened a \$75,000 line of credit with a stated interest rate of 58.50% and 18-month repayment term on borrowings. The credit line does not call for a security interest but requires the Company not to grant a security interest in, mortgage, encumber, or sell any of its assets for less than fair market value to any party other than the lender, unless agreed upon in writing with the lender.

NOTE 8. SUBSEQUENT EVENTS

On April 15, 2026, the Financial Industry Regulatory Authority ("FINRA") announced the processing of a 1-for-10,000 reverse split of the Company's issued and outstanding common stock, which was published on FINRA's Daily List on April 15, 2026. The reverse split is expected to become effective at the open of trading on April 16, 2026. As a result of the reverse split, every 10,000 shares of the Company's issued and outstanding common stock will be combined into one (1) share of common stock. In connection with the reverse split, the Company's trading symbol is expected to temporarily change from GXXM to GXXMD for a period of 20 trading days following the effective date.

The reverse split will proportionately reduce the number of shares of common stock outstanding. All share and per share amounts for periods presented have not been retroactively adjusted to reflect the reverse split.

There were no other material subsequent events requiring disclosure.
