Current State and Date of Incorporation or Registration: Delaware

Standing in this jurisdiction: (e.g. active, default, inactive): Active

Prior Incorporation Information for the issuer and any predecessors during the past five years:

The Company was originally incorporated in Nevada on November 26, 2007, as Keyser Resources, Inc.

Effective May 11, 2022, the Company completed a Plan and Agreement of Merger (the "PXS Merger Agreement") with Petro X Solutions, Inc., a Wyoming corporation ("PXS"), with PXS becoming our wholly-owned subsidiary as a result of the PXS Merger. The Company changed its name to Accredited Solutions, Inc. at that time.

Describe any trading suspension or halt orders issued by the SEC or FINRA concerning the issuer or its predecessors since inception:

None.

List any stock split, dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

On October 28, 2024, the Company entered into a Membership Interest Purchase Agreement to acquire all of the membership interests of Globetopper, LLC ("Globetopper") from Craig Span (the "Seller"). Pursuant to the purchase agreement, the Company was required to deliver at closing a \$3,000,000 secured promissory note (the "Closing Note"), which was payable on the three-month anniversary of the closing date of the Globetopper Agreement by delivery of the following: (a) \$1,000,000 in cash; (b) \$1,000,000 by delivery of 1,000 shares of the Company's Series B Preferred Stock; and (c) \$1,000,000 by the delivery of a secured promissory note (the "Follow-on Note"), to be secured by the acquired membership interests and the assets of Globetopper. The Follow-on Note was payable on the six-month anniversary of its issuance. The transaction closed on or about November 1, 2024, and on that date, the Company issued the Closing Note to the Seller and subsequently issued the preferred shares to the Seller. On or about January 24, 2025, the parties agreed to extend the cash payment deadlines under the Globetopper purchase agreement. After missing the amended payment deadlines, on June 16, 2025, the Company and the Seller entered into a Mutual Rescission Agreement (the "Rescission Agreement"), pursuant to which the parties agreed to rescind and cancel the original purchase agreement in its entirety. Under the Rescission Agreement, the purchase agreement and Closing Note (and any other transaction agreements and the Shares) were each rescinded and cancelled, and the Company and the Seller are to be returned to their positions prior to entering into the purchase agreement.

Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. **For common equity, describe any dividend, voting and preemption rights.**

There are no special dividend, voting or preemption rights associated with the Common Stock.

2. **For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

Series A Preferred Stock

Designation and Amount. 15,000 shares were designated as Series A Preferred Stock.

Voting Rights. The holders of the Series A Preferred Stock shall, as a class, have rights in all matters requiring shareholder approval to a number of votes equal to two (2) times the sum of: (a) the total number of shares of common stock which are issued and outstanding at the time of any election or vote by the shareholders; plus (b) the number of votes allocated to shares of Preferred Stock issued and outstanding of any other class that shall have voting rights.

Dividends. The Series A Preferred Stock shall be treated *pari passu* with the Company's common stock, except that the dividend on each share of Series A Preferred Stock shall be equal to the amount of the dividend declared and paid on each share of the Company's common stock multiplied by the conversion rate.

Conversion Rate. The Series A Preferred Stock shall be convertible into shares of the Company's common stock, as follows: each share of Series A Preferred Stock shall be convertible at any time into a number of shares of the Company's common stock that equals 0.001 percent (0.001%) of the number of issued and outstanding shares of the Company's common stock outstanding on the date of conversion, such that 1,000 shares of Series A Preferred Stock would convert into one percent (1%) of the number of issued and outstanding shares of the Company's common stock outstanding on the date of conversion. A holder of shares of Series A Preferred Stock shall be required to convert all of such holder's shares of Series A Preferred Stock, should any such holder exercise his, her or its rights of conversion.

Series B Preferred Stock

Designation and Amount. 5,000 shares were designated as Series B Preferred Stock. The Series B Preferred Stock shall have an initial liquidation preference, or stated value, of \$1,000 per share.

Voting Rights. Series B Preferred Stock shall have no right to vote on any matters requiring shareholder approval.

Dividends. Series B Preferred Stock will carry an annual ten percent (10%) cumulative dividend, compounded daily, payable solely upon redemption, liquidation or conversion.

Conversion Rights. The Series B Preferred Stock is convertible at any time at a conversion price equal 85% multiplied by the average of the three (3) lowest volume weighted average prices for the Company's common stock during the five (5) trading day period ending on the latest trading day prior to the conversion date.

3. **Describe any other material rights of common or preferred stockholders.**

None

4. **Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

None

3) **Issuance History**

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.**

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

ACCREDITED SOLUTIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended December 31, 2025 and 2024

NOTE 1 – NATURE OF OPERATIONS

Accredited Solutions, Inc. (the “Company” or “Accredited”), formerly known as Keyser Resources, Inc., Lone Star Gold, Inc. and Good Hemp, Inc., was incorporated in the State of Nevada on November 26, 2007.

The Company was involved in the exploration and development of mining properties until September 30, 2013, when it discontinued operations. In 2017, the Company was put into receivership and, in 2018, it emerged from receivership. On September 12, 2019, the Company’s corporate name changed to Good Hemp, Inc.

On April 1, 2021, the Company entered into an agreement to purchase Diamond Creek Group, LLC, a North Carolina limited liability company which sells the Diamond Creek brand of high alkaline water products, for a total purchase price of \$643,000. On April 2, 2021, the Company closed the acquisition and paid the initial \$500,000 portion of the purchase price, and on April 23, 2021, paid the \$143,000 purchase price balance.

Effective May 11, 2022, the Company completed a Plan and Agreement of Merger (the “PXS Merger Agreement”) with Petro X Solutions, Inc., a Wyoming corporation (“PXS”), with PXS becoming our wholly-owned subsidiary as a result of the PXS Merger. Pursuant to the PXS Merger Agreement, as amended, an aggregate of 120,000,000 shares of Company common stock were issued to the shareholders of PXS in the PXS Merger. PXS markets competitively-priced, environmentally-friendly products.

Effective June 1, 2023, the PXS Merger was rescinded, such that all securities issued by the Company in connection with the PXS Merger were cancelled and the ownership of PXS returned to its prior owners. PXS is being treated as discontinued operations in the consolidated financial statements.

On October 28, 2024, the Company entered into a Membership Interest Purchase Agreement to acquire all of the membership interests of Globetopper, LLC (“Globetopper”) from Craig Span (the “Seller”). Pursuant to the purchase agreement, the Company was required to deliver at closing a \$3,000,000 secured promissory note (the “Closing Note”), which was payable on the three-month anniversary of the closing date of the Globetopper Agreement by delivery of the following: (a) \$1,000,000 in cash; (b) \$1,000,000 by delivery of 1,000 shares of the Company’s Series B Preferred Stock; and (c) \$1,000,000 by the delivery of a secured promissory note (the “Follow-on Note”), to be secured by the acquired membership interests and the assets of Globetopper. The Follow-on Note was payable on the six-month anniversary of its issuance.

The transaction closed on or about November 1, 2024, and on that date, the Company issued the Closing Note to the Seller and subsequently issued the preferred shares to the Seller. On or about January 24, 2025, the parties agreed to extend the cash payment deadlines under the Globetopper purchase agreement. After missing the amended payment deadlines, on June 16, 2025, the Company and the Seller entered into a Mutual Rescission Agreement (the “Rescission Agreement”), pursuant to which the parties agreed to rescind and cancel the original purchase agreement in its entirety. Under the Rescission Agreement, the purchase agreement and Closing Note (and any other transaction agreements and the Shares) were each rescinded and cancelled, and the Company and the Seller are to be returned to their positions prior to entering into the purchase agreement. Globetopper has been treated as discontinued operations in the Company’s consolidated financial statements.

The Company’s operations are centered on those of Diamond Creek Group and its bottled water products.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company follows the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America and has a year-end of December 31st.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company’s system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are

recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Principles of Consolidation

The financial statements include the financial statements of the Company and its' wholly-owned subsidiaries Diamond Creek Group, LLC and GlobeTopper, LLC. GlobeTopper, LLC was discontinued during 2024. All intercompany transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the recoverability of long-lived assets and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Impairment of Long-Lived Assets

Long-lived assets and certain identifiable intangible assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. Measurement of an impairment loss for long-lived assets and certain identifiable intangible assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets and certain identifiable intangible assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell.

Goodwill and Other Intangible Assets

Goodwill and indefinite-lived intangible assets are not amortized, but are evaluated for impairment annually or when indicators of a potential impairment are present. Our impairment testing of goodwill is performed separately from our impairment testing of indefinite-lived intangibles. The annual evaluation for impairment of goodwill and indefinite-lived intangibles is based on valuation models that incorporate assumptions and internal projections of expected future cash flows and operating plans. We believe such assumptions are also comparable to those that would be used by other marketplace participants. We evaluate a number of factors to determine whether an indefinite life is appropriate, including the competitive environment, market share, brand history, product life cycles, operating plans and the macroeconomic environment of the countries in which the brands are sold. When certain events or changes in operating conditions occur, an impairment assessment is performed and indefinite-lived brands may be adjusted to a determinable life. The cost of intangible assets with determinable useful lives is amortized to reflect the pattern of economic benefits consumed, either on a straight-line or accelerated basis over the estimated periods benefited. Patents, technology and other intangibles with contractual terms are generally amortized over their respective legal or contractual lives. Customer relationships, brands and other non-contractual intangible assets with determinable lives are amortized over periods generally ranging from 5 to 30 years. When certain events or changes in operating conditions occur, an impairment assessment is performed and lives of intangible assets with determinable lives may be adjusted.

Fair Value of Financial Instruments

The FASB issued ASC 820-10, *Fair Value Measurements and Disclosures*, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Determining which category an asset or liability falls within the hierarchy requires significant judgment. We evaluate our hierarchy disclosures each quarter.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Inventory

Inventory consisting of raw materials and finished product is stated at the lower of cost (first in, first out method) or net realizable value.

Concentration and Credit Risk

The Company does not have any financial asset and therefore is not exposed to any credit risks.

Cash - The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Accounts Receivable and Allowance for Doubtful Accounts

Trade accounts receivable consists of product sales to customers. Trade accounts receivable are generally due 30 days after issuance of the invoice. Receivables past due more than 120 days are considered delinquent. Delinquent receivables are written off based on specific circumstances of the customer. At December 31, 2025 and 2024, an allowance was not deemed necessary.

Derivative Financial Instruments

For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company used a Binomial option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

Commitment and Contingencies

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

The Company follows ASC 440-10, Commitments, to report accounting for certain commitments.

Net Income (Loss) Per Common Share

The Company computes net income or loss per share in accordance with ASC 260 Earnings per Share. Under the provisions of the Earnings per Share Topic ASC, basic net income (loss) per share is computed by dividing the net income (loss) available to common stockholders for the period by the weighted average number of shares of common stock outstanding during the period. The calculation of diluted net income (loss) per share gives effect to common stock equivalents; however, potential common shares are excluded if their effect is anti-dilutive.

Income Taxes

The Company accounts for its income taxes in accordance with ASC 740 Income Taxes, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date. A valuation allowance is provided for the amount of deferred tax assets that would otherwise be recorded for income tax benefits primarily relating to operating loss carryforwards as realization cannot be determined to be more likely than not.

The statement establishes a more-likely-than-not threshold for recognizing the benefits of tax return positions in the financial statements. Also, the statement implements a process for measuring those tax positions which meet the recognition threshold of being ultimately sustained upon examination by the taxing authorities. There are no uncertain tax positions taken by the Company on its tax returns and the adoption of the statement had no material impact to the Company's financial statements. The Company files tax returns in the US and states in which it has operations and is subject to taxation. Tax years subsequent to 2021 remain open to examination by U.S. federal and state tax jurisdictions.

Revenue Recognition

The Company follows ASC 606-10, "Revenue from Contracts with Customers," whereby revenue is measured based on a consideration expected to be received, as specified in a contract with a customer and recognized when we satisfy the performance obligation specified in each contract. The Company recognizes revenue from the sale of products and services following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue when the entity satisfies a performance obligation

The Company recognizes revenue when it satisfies its obligation by transferring control of the good or service to the customer. A performance obligation is satisfied over time if one of the following criteria are met:

- a. the customer simultaneously receives and consumes the benefits as the entity performs;
- b. the entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- c. the entity's performance does not create an asset with an alternative use to the entity, and the entity has an enforceable right to payment for performance completed to date.

The Company recognizes revenue when the product is delivered to the customers' warehouse. The Company is responsible for any damaged or lost product. The Company also issues credits to customers for product that are not sold to consumers that exceeds the expiration date.

Regularly, the Company jointly runs promotions with customers to provide discounts to consumers. These discounts are shared by the Company on a pre-determined price for every "scanback" (UPC scan in the customers' systems). The Company issues credits to the customers for these "scanbacks".

Recently Issued Accounting Pronouncements

From time to time, new accounting pronouncements are issued by FASB that are adopted by the Company as of the specified effective date. If not discussed, management believes that the impact of recently issued standards, which are not yet effective, will not have a material impact on the Company's financial statements upon adoption.

NOTE 3 – GOING CONCERN

The accompanying consolidated financial statements have been prepared using generally accepted in the United States of American applicable to a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has recurring losses, an accumulated deficit and a working capital deficiency. As reflected in the financial statements, the Company had a working capital deficit of \$1,473,616 at December 31, 2025, had a net loss of \$285,082 for the year ended December 31, 2025, and cash used in operating activities of \$111,406 for the year ended December 31, 2025. Management's plans include raising capital in the debt and equity markets. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until its operations become established enough to be considered reliably profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations. These factors raise substantial doubt about the Company's ability to continue as a going concern for a period of one year from the issuance of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company is unable to continue as a going concern.

NOTE 4 – GLOBETOPPER, LLC.

On October 28, 2024, the Company entered into a Membership Interest Purchase Agreement to acquire all of the membership interests of Globetopper, LLC ("Globetopper") from Craig Span (the "Seller"). Pursuant to the purchase agreement, the Company was required to deliver at closing a \$3,000,000 secured promissory note (the "Closing Note"), which was payable on the three-month anniversary of the closing date of the Globetopper Agreement by delivery of the following: (a) \$1,000,000 in cash; (b) \$1,000,000 by delivery of 1,000 shares of the Company's Series B Preferred Stock; and (c) \$1,000,000 by the delivery of a secured promissory note (the "Follow-on Note"), to be secured by the acquired membership interests and the assets of Globetopper. The Follow-on Note was payable on the six-month anniversary of its issuance.

The transaction closed on or about November 1, 2024, and on that date, the Company issued the Closing Note to the Seller and subsequently issued the preferred shares to the Seller. On or about January 24, 2025, the parties agreed to extend the cash payment deadlines under the Globetopper purchase agreement. After missing the amended payment deadlines, on June 16, 2025, the Company and the Seller entered into a Mutual Rescission Agreement (the "Rescission Agreement"), pursuant to which the parties agreed to rescind and cancel the original purchase agreement in its entirety. Under the Rescission Agreement, the purchase agreement and Closing Note (and any other transaction agreements and the Shares) were each rescinded and cancelled, and the Company and the Seller are to be returned to their positions prior to entering into the purchase agreement. Globetopper has been treated as discontinued operations in the Company's consolidated financial statements.

Accordingly, (1) the Company's Consolidated Balance Sheets as of December 31, 2025 and 2024 reports GlobeTopper as discontinued operations, (2) the Company's Consolidated Statement of Operations and Consolidated Statement of Cash Flows for the years ended December 31, 2025 and 2024 reports GlobeTopper as discontinued operations.

NOTE 5 – INTANGIBLE ASSETS

On April 1, 2021, the Company entered into an agreement to purchase Diamond Creek Group, LLC, a North Carolina limited liability company which sells the Diamond Creek brand of high alkaline water products, for a total purchase price of \$643,000. On April 2, 2021, the Company closed the acquisition and paid the initial \$500,000 portion of the purchase price, and on April 23, 2021, paid the \$143,000 purchase price balance. During 2021, a major customer chose not to continue purchasing products from Diamond Creek. The Company evaluated goodwill and determined that it was impaired by \$161,309. The determination was based upon the loss of a major customer of Diamond Creek, with the resulting decline in revenues. The purchase price was allocated as follows:

<u>Purchase Price Allocation</u>	<u>Amount</u>
----------------------------------	---------------

Acquisition cost	\$ 643,000
Assets acquired	
Cash and cash equivalents	38,635
Accounts receivable	41,611
Property and equipment	97,228
Trademark	<u>100,000</u>
Total assets acquired	277,474

	463,524
Impairment of goodwill	<u>161,309</u>
Goodwill as of December 31, 2021	<u><u>\$ 302,215</u></u>

For the fiscal year 2023, the Company evaluated the goodwill in accordance with ASC 350-20 “Goodwill”. The Company determined that there had been a significant change in the market. Food and transportation costs had increase significantly in the last couple years. Sales had dropped significantly in fiscal year 2022 and only moderately rebounded in fiscal year 2023. The Company also performed a fair value evaluation. Based on the evaluations, the Company determined that there should be a complete impairment of goodwill during the year ended December 31, 2023. The Company recognized an impairment of goodwill of \$302,215 leaving a balance of \$0 in goodwill as of December 31, 2023.

NOTE 6 – NOTES PAYABLE

On March 26, 2021, the Company entered into a securities purchase agreement with Leonite Capital LLC (“Leonite”) pursuant to which the Company agreed to issue to the Investor an 8% Convertible Promissory Note, dated March 26, 2021, in the principal amount of \$568,182. The note was funded by the Investor on March 26, 2021, and on such date pursuant to the securities purchase agreement, the Company reimbursed the Investor for expenses for legal fees and due diligence of \$2,000. The securities purchase agreement includes customary representations, warranties and covenants by the Company and customary closing conditions. The note matures 12 months after the date of the note on March 26, 2022. The note is convertible into shares of the Company’s common stock beginning on the date which is 180 days from the date of the note, at a conversion price equal to 65% multiplied by the lowest closing bid price during the 20 trading day period ending on the last complete trading day prior to the date of conversion; provided, however, that the Investor may not convert the note to the extent that such conversion would result in the Investor’s beneficial ownership of the Company’s common stock being in excess of 4.99% of the Company’s issued and outstanding common stock. The beneficial ownership limitation may not be waived by the Investor. The note carries a prepayment penalty if the note is paid off in 30, 60, 90, 120, 150, or 180 days following the note date. The prepayment penalty is based on the then-outstanding principal at the time of payoff, plus accrued and unpaid interest, multiplied by 112%, 115%, 118%, 125%, 130%, and 135% respectively. After the expiration of 180 days following the issue date, the Company shall have no right of prepayment. The financing required the Company to issue 65,000 shares of common stock to Leonite. This note was in default so default interest of 24.0% was in place along with penalties. NOTE 8 – DERIVATIVE LIABILITIES

The Company analyzed the conversion option for derivative accounting consideration under ASC 815, Derivatives and Hedging, and hedging, and determined that the instrument should be classified as a liability since the conversion option becomes effective at issuance resulting in there being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The

Company determined our derivative liabilities to be a Level 3 fair value measurement and used the Binomial pricing model to calculate the fair value as of December 31, 2024. The Binomial model requires six basic data inputs: the exercise or strike price, time to expiration, the risk-free interest rate, the current stock price, the estimated volatility of the stock price in the future, and the dividend rate. Changes to these inputs could produce a significantly higher or lower fair value measurement. The fair value of each convertible note is estimated using the Binomial valuation model.

For the year ended December 31, 2025, the assumptions utilized in estimating fair values of the liabilities measured on a recurring basis are as follows:

	<u>For the Year Ended</u> <u>December 31, 2025</u>
Expected term	0.08 - 0.92 years
Expected average volatility	269.62 - 356.51%
Expected dividend yield	-
Risk-free interest rate	4.16 - 4.40%

The fair value measurements of the derivative liabilities at December 31, 2025, is summarized:

<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
\$ 430,967	\$ -	\$ -	\$ 430,967

The fair value measurements of the derivative liabilities at December 31, 2024, is summarized:

<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
\$ 430,967	\$ -	\$ -	\$ 430,967
