GEOPULSE EXPLORATION, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE TWELVE MONTHS ENDING DECEMBER 31, 2025 AND DECEMBER 31, 2024

NOTE 1 – NATURE OF OPERATIONS

Geopulse Exploration, Inc. was formed on August 13, 2004 (“Inception”) in the State of Nevada. The financial statements of Geopulse Exploration, Inc. (which may be referred to as the "Company", "we," "us," or "our") are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in Los Angeles, CA. The Company has one wholly-owned subsidiary, Growth Circle, Inc., which does business as CannCo Brands & Development. CannCo Brands is aimed at building and leveraging new technologies to support emerging economies and markets, such as the legal cannabis market. CannCo is developing a proprietary blockchain technology which will power and support a network of infrastructure partners for legally operating cannabis businesses throughout the United States and Canada. The company also owns ATC Services.

ATC Services, headquartered in the Permian Basin of Texas, is engaged in oil and gas construction, maintenance, and fabrication services, including but not limited to drilling and facility pad construction, road construction and maintenance, frac pit construction, pit closures, fabrication, environmental remediation, and other services.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amount of expenses during the reporting periods. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 - Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2025 and December 31, 2024. The respective carrying value of certain on balance-sheet financial instruments approximated their fair values.

Cash and Cash Equivalents

For purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Revenue Recognition

The Company will recognize revenues from advertising, production and consulting services when (a) persuasive evidence that an agreement exists; (b) the service has been performed; (c) the prices are fixed and determinable and not subject to refund or adjustment; and (d) collection of the amounts due is reasonably assured.

The Company will recognize revenues from construction, maintenance, and fabrication services, including but not limited to drilling and facility pad construction, road construction and maintenance, frac pit construction, pit closures, fabrication, environmental remediation, and other services when the service is completed or progress billed based on contract.

Accounts Receivable

Trade receivables are carried at their invoice amount, less the allowance for doubtful accounts. Management determines uncollectible accounts and has determined that the allowance for doubtful accounts is \$0 and \$0 as of December 31, 2025 and December 31, 2024.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely

than not” that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax in the United States (“U.S.”) and files tax returns in the U.S. The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods in the last 3 years. The Company currently is not under examination by any tax authority.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

Reclassifications

Certain prior year amounts may have been reclassified for comparative purposes to conform to the current-year financial statement presentation. These reclassifications had no effect on previously reported results of operations. In addition, certain prior year amounts from the restated amounts have been reclassified for consistency with the current period presentation.

Going Concern

The accompanying financial statements have been prepared on the assumption that the Company will continue as a going concern. However, the Company does not have significant cash or other material assets, nor does it have an established source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern.

NOTE 3 – INTANGIBLE ASSETS

The Company has obtained intangible assets, such as goodwill obtained from the purchase of Nvestly.com and the merger with ATC Services. The intangible assets are amortized over a period of 5 years, where appropriate.

NOTE 4 – LONG TERM DEBT AND NOTES PAYABLE

Long Term Debt

The Company has incurred debt in the course of acquiring Nvestly.com. The balance of that debt is \$54,438 as of December 31, 2025 and December 31, 2024. No accrued interest is due. Additionally, the Company was loaned money from a Shareholder in the amount of \$57,866 and \$44,016 as of December 31, 2025 and December 31, 2024, respectively. The loan bears interest at a rate of 10% per annum.
