Total Outstanding Balance:		47,016,458.85			21,247,341.80 0			

Any additional material details, including footnotes to the table are below:

Music Licensing, Inc. has implemented a court-approved Section 3(a)(10) settlement and related convertible note arrangement with Jake P. Noch and the Jake P. Noch Family Office, LLC that is expressly and exclusively based on the dollar amount realized through the sale of Company shares on the open market, rather than any predetermined number of shares or fixed conversion ratio. Under this structure, compensation and reimbursements are satisfied solely by the proceeds actually received from market sales of issued shares, and the Company measures and settles obligations strictly by reference to cumulative U.S. dollar amounts realized. No interest accrues under this arrangement, and the operative metric is the cash value realized from sales, not the volume of shares issued or sold.

Dollar-denominated obligation

The agreement provides an annual compensation and reimbursement entitlement of \$12,000,000 USD to Jake P. Noch and his affiliated entity, determined and fulfilled exclusively by the actual dollar proceeds realized from open-market sales of issued shares, net of applicable costs and approved reimbursements. The entitlement is not tied to a fixed number of shares and adjusts to market conditions because the only performance measure is the cash consideration received from sales, not share count or price levels at issuance. The arrangement remains outstanding until the total relevant dollar amount for the applicable period is fully realized through sales, at which point issuance ceases and any residual shares are reconciled as described below.

Issuance mechanics aligned to cash realized

Shares are issued incrementally to facilitate open-market sales, and each issuance is intended to support realization of the exact dollar amounts owed, including the \$12,000,000 annual compensation and any approved expense reimbursements, rather than to deliver a fixed tranche of stock. If market prices decline, additional shares may be issued so that the aggregate sales proceeds still match the required dollar obligation; conversely, if prices rise, fewer shares may be necessary to achieve the same dollar target. The Company tracks only the dollar value realized from sales to determine satisfaction of obligations, and does not track or target a specific number of shares sold for settlement purposes.

Expense reimbursement within dollar target

The instrument permits reimbursement to Jake P. Noch and the Jake P. Noch Family Office, LLC for reasonable and documented business expenses advanced on behalf of the Company, all of which are settled through the same dollar-realization mechanism from open-market sales. Covered items include commissions, custody and administrative fees, margin-support obligations consistent with the governing agreements, and other bona fide Company expenses, with the realized sale proceeds used to satisfy these reimbursements as part of the overall dollar-denominated obligation.

Return and cancellation of excess shares

Once the required dollar amount for compensation and reimbursements has been fully realized from open-market sales, any excess shares previously issued but not needed to achieve the cash target must be returned to the transfer agent for cancellation, ensuring that over-issuance is eliminated and that share issuance never exceeds the amount necessary to realize the required cash proceeds. This reconciliation mechanism preserves alignment between shares issued and dollars realized, and reinforces the design principle that value—not volume—governs settlement under the arrangement.

Legal status of issued shares

Pursuant to the Florida court's fairness hearing and orders under Section 3(a)(10), shares issued to satisfy the dollar-denominated obligations are unrestricted and freely tradable, without reliance on Rule 144 and without affiliate resale limitations, because judicial approval substitutes for registration for these bona fide claim settlements. The legal opinion in the record confirms that recipients are not deemed underwriters under the Securities Act for these court-approved settlements, further supporting the unrestricted, market-sale realization of dollar amounts owed.

Current balance context

Consistent with the cash-realization framework, the outstanding balance reflects only the net USD amounts remaining to be realized from future open-market sales to satisfy compensation and reimbursable expenses accrued under the arrangement. As previously noted

in the supporting materials, the approximate outstanding balance as of March 31, 2026, is \$47,016,458.85 USD, which will be reduced solely by actual cash proceeds realized from subsequent sales of issued shares on the open market in accordance with the agreement and court orders

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of Presentation

The financial statements of the Company have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP) and are presented in U.S. dollars.

2.2. Use of Estimates

The preparation of financial statements in conformity with the U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management evaluates the estimates and assumptions based on historical experience and believes those estimates and assumptions are reasonable based on the information available to them.

2.3. Cash

The Company deposits its cash with financial institutions that the management believes are of high credit quality. The Company's cash consists primarily of cash deposited in U.S. dollar-denominated investment accounts.

2.4. Fair Value of Financial Instruments

Pursuant to the accounting guidance for fair value measurements and its subsequent updates, fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The accounting guidance establishes a three-tier fair value hierarchy that requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. A financial instrument's classification within the fair value hierarchy is based upon

the lowest level of any input that is significant to the fair value measurement. Three levels of inputs may be used to measure fair value:

Level 1—Quoted prices in active markets for identical assets or liabilities;

Level 2—Inputs other than the quoted prices in active markets, that are observable either directly or indirectly;

Level 3—Unobservable inputs based on the Company's own assumption.

2.5 Intangible Assets

Intangible assets are comprised of copyrights and domain names. The Company is the owner for the exclusive rights to use these copyrights and domain names. As such, these assets do have an indefinite life. The Company reviews the currently held copy rights and domain names on an annual basis for impairment to determine if an adjustment is required. As the current intangible assets are working, no impairment adjustment was considered necessary as of June 30, 2025.

On November 24, 2023, Music Licensing Inc. entered into a purchase agreement with AT&C Investments LLC, acquiring 100% of the rights, title, and interest in the songwriter/publisher's share of all publishing royalties—excluding the songwriter's share of public performance royalties—for specific musical compositions listed in Attachment A of the agreement. This acquisition includes rights previously held under an agreement between AT&C Investments LLC and Jasper Sheff Corp dated October 29, 2023. The total consideration for this acquisition was U.S. \$160,000. This acquisition aligns with the Company's strategic initiative to expand its portfolio of royalty-generating assets, and the financial impact is reflected in the financial statements for the period ending March 31, 2024.

On February 21, 2024, the Company completed the purchase of a portion of the royalty interest in Listerine "Mouthwash" Antiseptic for a total consideration of \$79,500. This transaction is part of the Company's strategy to invest in revenue-generating assets, and it has been recorded in the financial statements accordingly. Effective October 4, 2024, in consideration of \$140,200, Music Licensing Inc. assigned 100% of its rights, title, and interest (equivalent to Jasper Sheff Corp's entire interest), along with a security interest, in the songwriter/publisher's share of all publishing royalties—excluding the songwriter's share of public performance royalties—for a term of 30 years.

The company's intangible assets at the period end are categorized as follows:

- Copyrights: \$19,010
- Domain Names: \$26,125
- Royalty Stakes \$302,694.00

2.6 Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, control has been transferred, the fee is fixed or determinable, and collectability is reasonably assured. In instances where final acceptance of the product is specified by the customer, revenue is deferred until all acceptance criteria have been met. The Company's primary source of revenue is the monthly licensing subscription fee.

The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its arrangements:

- Identify the contract with a customer.
- Identify the performance obligations in the contract.
- Determine the transaction price.
- Allocate the transaction price to performance obligations in the contract, and
- Recognize revenue as the performance obligation is satisfied.

2.7 Income Taxes

In December 2019, the FASB issued ASU No. 2019-12, Income Taxes (Topic 740), which amends the existing guidance relating to the accounting for income taxes.

ASU 2019-12 is intended to simplify the accounting for income taxes by removing certain exceptions to the general principles of accounting for income taxes and to improve the consistent application of GAAP for other areas of accounting for income taxes by clarifying and amending existing guidance. There are no Deferred tax assets and liabilities to be recognized for the current period.

ACCOUNTS RECEIVABLES AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

3.1 Accounts receivables are stated at Net Realizable Value (NRV). On a periodic basis, management evaluates its accounts receivable and determines whether to provide an allowance or if any accounts should be written off based on a past history of write offs, collections, and current credit conditions. A receivable is

considered past due if the company has not received payments based on agreed-upon terms. The company generally does not require any security or collateral to support its receivables.

3.2 Summary of Revenues as of March 31, 2026

- Revenues for the Period Ended March 31, 2026: (\$115,617,386.72)
- Revenues for the Period Ended December 31, 2025: \$39,599,248
- Revenues for the Period Ended June 30, 2025: \$19,967,461
- Revenues for Quarter Ended March 31, 2025: \$8,320,987

3.3 Breakdown of Income Streams

License Subscription Fee: This represents the core revenue generated from our standard licensing agreements with clients. It includes the regular fees charged for the use of our copyrighted musical compositions.

Late Fee Income: This category captures additional revenues earned from late payment fees imposed on clients. The separate reporting of late fee income allows for a clearer assessment of revenue that is contingent on client payment behaviours.

Usage Non-Reporting Fee: This category includes fees levied on clients who do not comply with the usage reporting requirements stipulated in their licensing agreements. It is an important revenue component that aligns with our policy enforcement and contractual compliance.

Royalties: Revenue from shares in the licensed ownership of products, technology, or creative works.

The introduction of these distinct categories is intended to provide a more nuanced and transparent view of our revenue streams, aligning with our commitment to clarity and detailed financial reporting. This change will be reflected in our financial statements from this period onwards, ensuring that stakeholders have a comprehensive understanding of the different components of our income.

3.4 In accordance with our accounting policies and the applicable financial reporting standards, the Allowance for Doubtful Accounts represents a current period estimation, reflecting our assessment of the credit risk associated with our outstanding accounts receivable. This estimate is based on a thorough evaluation of existing conditions, including an analysis of historical collection rates, and current economic trends.

0-60 Days Past Due: Apply 5% for allowance

61-120 Days Past Due: Apply 15% for allowance

121-180 Days Past Due: Apply 35% for allowance

181-360 Days Past Due: Apply 75% for allowance

361-And Over Days Past Due: Apply 100% for allowance

We have deducted the Allowance for Doubtful Accounts from the total Accounts Receivable balance to arrive at the Net Accounts Receivables. This deduction is made to accurately represent the Net Realizable Value (NRV) of these assets on our balance sheet. The NRV is the estimated amount that we expect to collect from our receivables, considering the likelihood of some amounts being uncollectible.

It is important to note that this allowance is an estimation and may be adjusted in future periods as new information becomes available or as the actual collection experience deviates from our current expectations.

During the second quarter of 2024, the Company undertook a review of its accounts receivable and identified a significant customer account with a balance of approximately \$1.2 billion. This customer, located in a foreign country, has shown prolonged non-payment, and the Company has determined that the likelihood of collection is unrealistic due to the customer's financial instability and geopolitical factors affecting the region.

As a result, the Board of Directors has authorized the removal of this account from the accounts receivable balance. The removal has been reflected in the current financial statements as a charge to bad debt expense, consistent with the Company's accounting policies regarding the allowance for doubtful accounts. The decision to write off this account aligns with the Company's commitment to maintaining accurate and realistic financial reporting.

This adjustment has been made to better reflect the Company's current financial position and to provide investors with a clearer view of the Company's receivables portfolio.

3.5 As part of our efforts to manage outstanding accounts receivable, Music Licensing Inc. has engaged Gebeloff Law to initiate legal proceedings against certain customers who have failed to fulfil their payment obligations. This action is intended to improve the collectability of these receivables and reduce the amount of bad debt. The outcome of these legal proceedings is currently uncertain, and they may result in additional legal expenses. The company will closely monitor these proceedings and update the financial impact as more information becomes available."

SUBSEQUENT EVENTS

4.1 As per GAAP Accounting Standards Codification (ASC) 855, The Company evaluates events and transactions occurring after the balance sheet date but before the financial statements are issued for potential recognition or disclosure in the financial statements. The objective of the subsequent events section is to provide information to users of the financial statements about any significant events that have occurred subsequent to the balance sheet date that could affect the understanding of the financial statements.

4.2 As of this filing there is nothing to report.

STOCKHOLDER'S EQUITY AND CONVERTIBLE PROMISSORY NOTE

5.1 Discounted Share Issuance

During the reporting period ended March 31, 2026, the Company issued shares of common stock at a discount to par value. This resulted in a total discount on share issuance of \$104,953,915, which has been separately presented as a reduction to stockholders' equity in accordance with accounting standards. This discount significantly impacted the Company's net income for the reporting period, contributing to a net loss of \$115,617,387 for the first quarter of 2026.

The shares were issued in connection with a 3(a)(10) financing arrangement.

5.2 Reverse Stock Split

On January 21, 2025, Music Licensing Inc. effectuated a 1-for-2,500 reverse stock split of its common stock. As a result of the reverse stock split, each 2,500 shares of issued and outstanding common stock were automatically combined into one share of common stock. No fractional shares were issued in connection with the reverse stock split. Instead, shareholders who would have otherwise held a fractional share of common stock received a cash payment for the value of the fractional share. The reverse stock split did not affect the total authorized number of shares of common stock or the par value per share. The reverse stock split was implemented to improve the marketability and liquidity of the Company's common stock.

As a result of the reverse split, the total number of issued and outstanding shares of the Company's common stock was reduced from 30,005,989 shares pre-split to 12,002 shares post-split. The reverse stock split did not affect the par value of the common stock or the authorized shares. A new CUSIP number, 67075W405, was issued for the Company's common stock following the reverse split.

5.3 On December 31, 2025, Music Licensing Inc. effectuated a 1-for-1,000,000 reverse stock split of its common stock. As a result of the reverse stock split, each 1,000,000 shares of issued and outstanding common stock were automatically combined into one share of common stock. No fractional shares were issued in connection with the reverse stock split. Instead, shareholders who would have otherwise held a fractional share of common stock received a cash payment for the value of the fractional share. The reverse stock split did not affect the total authorized number of shares of common stock or the par value per share. The reverse stock split was implemented to improve the marketability and liquidity of the Company's common stock.

As a result of the reverse split, the total number of issued and outstanding shares of the Company's common stock was reduced from 5,010,012,023 shares pre-split to 5,010 shares post-split. The reverse stock split did not affect the par value of the common stock or the authorized shares.

5.4 The company is authorized to issue 14,500,000,000 common stock shares at 0.000000000001 par value and 1 Preferred J stock.

5.5 On November 20, 2023, the Board of Directors of Music Licensing Inc. adopted a resolution to create a new class of shares known as "Preferred J Class" shares. These shares were established to enhance strategic decision-making and safeguard the long-term interests of the company. The key characteristics of the Preferred J Class shares are as follows:

1 Voting Rights: Each Preferred J Class share is entitled to vote on all matters that common stock is entitled to vote on.

2 Control: The Preferred J Class shares are intended to be exclusively held by Jake P. Noch or his affiliated entities.

3 Voting Power: The Preferred J Class shares represent 80% of the total voting power across all classes of shares of the company.

4 Other Rights and Preferences: The rights, preferences, privileges, and restrictions granted to or imposed on the Preferred J Class shares are as set forth in the Articles of Amendment to the Articles of Incorporation of the Company, which have been filed with the state of Nevada.

The company issued one Preferred J Class share during the reporting period. No payment was made for this share, and it was issued solely for the purpose of establishing control as outlined above. The Preferred J Class share has no financial rights, such as rights to dividends or liquidation preferences, and is limited only to voting rights. As such, there has been no impact on the company's financial position due to the issuance of this share, other than the changes in voting control.

5.6 Employment Agreement with Jake P. Noch

On June 25, 2023, Music Licensing Inc. entered into an Employment Agreement with Jake P. Noch, appointing him as Chief Executive Officer, Chairman of the Board of Directors, President, Secretary, and Interim Chief Financial Officer. The Agreement outlines various terms of employment, including duties, compensation, and termination provisions.

Compensation to Mr. Noch is structured in the form of a convertible note, allowing him to receive shares worth twelve million dollars (\$12,000,000.00) upon conversion. The note remains valid until Mr. Noch realizes the full amount, and additional shares may be added to the convertible note as necessary. The timing of payments under this agreement is at the discretion of Mr. Noch and can be received in various increments (monthly, quarterly, or annually). Upon conversion of the note, the beneficiary of the shares may be either Mr. Noch or the Jake P. Noch Family Office LLC.

This employment agreement is perpetual unless terminated according to its terms or voluntarily by either party. It also includes provisions for bonuses, vacation, business expenses, and a car allowance for Mr. Noch. In the event of termination, severance pay and share payments are specified in the Agreement.

The agreement is integral to our executive management structure and is critical in maintaining the leadership necessary for our strategic and operational directives. This Agreement has been approved by the Board of Directors and is in full compliance with our corporate governance policies.

5.7 Details of 3(a)(10) Agreement for Executive Compensation and Severance Package

During the prior period, Music Licensing Inc. entered into a 3(a)(10) agreement, as per the Securities Act of 1933, to facilitate the compensation of our executive, Jake P. Noch. This agreement is notable for its role in addressing both the executive salary and additional financial commitments as follows:

Executive Salary: The agreement provisions for an annual salary of \$12 million for Jake P. Noch, with the full amount recognized on January 1st of each fiscal year. This salary arrangement is primarily financed through the issuance of shares under the 3(a)(10) exemption, thereby minimizing cash outflows for the company.

Additional Executive Expenses: In addition to the salary, the agreement encompasses any additional expenses incurred by Jake P. Noch in the performance of his executive duties. These expenses are covered in a similar manner to the salary, primarily through the issuance of shares, allowing the company to manage cash resources effectively.

Severance Package: A key component of this agreement is an \$18 million cash severance package for Jake P. Noch. This severance is structured to be payable under specific conditions outlined in the executive agreement, ensuring the company's preparedness for potential future financial obligations.

The implementation of this agreement aligns with the company's strategic financial management objectives. It provides a structure that allows for effective cash flow management while ensuring competitive executive compensation. This approach is reflective of our commitment to fiscal responsibility and strategic resource allocation.

The above-mentioned agreement and its terms are in compliance with the relevant securities regulations and have been duly approved by the appropriate legal channels. The financial implications of this agreement have been considered in our financial planning and reporting.
