GLOBAL PHARMATECH INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
For The Period Ended March 31, 2026

NOTE 1: THE COMPANY AND THE SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements:

Organizational Information: GLOBAL PHARMATECH INC. (the Company) was incorporated in 2001 in the State of Delaware.

Industry Information: Global Pharmatech, Inc. through its subsidiary, Botaniex, Inc, which is a market-oriented supplier & manufacturer of natural ingredients (botanical extracts/herbal extracts and herbal formulations) for the Industries of Dietary Supplements, Functional Foods, Functional Beverages, Cosmetics and Pharmaceuticals. By co-operating with the strategic partners like universities, Botaniex's R&D team is dedicated to development of the new natural ingredients and the herbal formulations focusing on men's health and women's health. In addition, both the advanced equipment and sophisticated technology are employed to produce the high quality and customized botanical extracts and herbal formula. We also provide customers with value added services such as Private Labels, Contract Manufacturing, and etc. Global Pharmatech's operations are currently based in Changsha, China.

Global Pharmatech, Inc.(GBLP) incorporated a wholly owned subsidiary - Vitalia Health Inc. based in Toronto, Canada on April 29, 2023. The subsidiary will focus on manufacturing and marketing of dietary supplements focus on anti-aging, anti-diebitics, immune enhancement, energy booster, and weight management as well as distribution of botanical extracts/herbal extracts in Canada.

Basis of Presentation: The accounting records of the Company are maintained on the accrual basis and the accompanying financial statements are presented on the accrual basis.

Depreciation and Amortization: The cost of property and equipment is depreciated over the estimated useful lives of the related assets using the accelerated recovery periods of the Internal Revenue Service. Purchased software is amortized on the straight-line basis over five years; organization expense and trademarks are amortized on the straight-line method over sixty months.

Accounts Receivable: The accounts receivable arises in the normal course of business of providing services to Customers. Accounts are written-off as they are deemed uncollectible based upon a periodic review of the accounts. At this time the company has no receivables.

Concentration of Credit Risk: Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of bank deposits and trade accounts receivable. The Company has concentrated its credit risk for cash by maintaining deposits in financial institutions within the geographic region of Lincoln, Nebraska, which may at times exceed amounts covered by insurance provided by the U.S. Federal Deposit Insurance Corporation (FDIC). There is no excess deposit liabilities at this time. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk to cash. Concentrations of credit risk with respect to accounts receivable arise because the Company grants unsecured credit in the form of trade accounts receivable to its customers.

Management Estimations: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the period. Actual results could differ from those estimates. GLOBAL PHARMATECH INC.

Cash and Equivalents: For purposes of reporting cash flows, the Company considers all cash accounts which are not subject to withdrawal restrictions or penalties, and certificates of deposit with original maturities of 90 days or less to be cash or cash equivalents.

Revenue Recognition: Revenues on subscription contracts are recognized monthly over the life of the contract. Amounts that have been invoiced are recorded in accounts receivable and revenue or deferred revenue, depending upon whether the revenue recognition criteria have been met.

Inventory: The Company maintains its inventory on a perpetual basis utilizing the first-in first-out (FIFO) method. There is no inventory at this time.

NOTE 2: GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has minimal working capital and net losses from inception. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required, and ultimately to attain profitability. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3: INCOME TAX

The Company provides for income taxes under Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes. SFAS 109 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and

liabilities and the tax rates in effect when these differences are expected to reverse. SFAS 109 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Consequently, because of uncertainty about the Company's ability to realize any future tax benefits from its unused net operating losses, no deferred tax asset relating to those losses has been recorded.

Changsha Botaniex, Inc. the subsidiary of GBLP, has been operating in China, has no tax income tax payable.
