# **Quarterly Report**

**For Period Ended March 31, 2026**

### **Outstanding Shares**

The number of shares outstanding of our Common Stock was:

2,048,474,905 as of March 31, 2026

2,048,474,905 as of December 31, 2025

### **Shell Status**

Indicate by check mark whether the company is a shell company (as defined in Rule 405 of the Securities Act of 1933, Rule 12b-2 of the Exchange Act of 1934 and Rule 15c2-11 of the Exchange Act of 1934):

Yes:  No:

Indicate by check mark whether the company's shell status has changed since the previous reporting period:

Yes:  No:

### **Change in Control**

Indicate by check mark whether a Change in Control<sup>5</sup> of the company has occurred during this reporting period:

Yes:  No:

---

<sup>5</sup> "Change in Control" shall mean any events resulting in:

- (i) Any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becoming the "beneficial owner" (as defined in Rule 13d-3 of the Exchange Act), directly or indirectly, of securities of the Company representing fifty percent (50%) or more of the total voting power represented by the Company's then outstanding voting securities;
- (ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company's assets;
- (iii) A change in the composition of the Board occurring within a two (2)-year period, as a result of which fewer than a majority of the directors are directors immediately prior to such change; or
- (iv) The consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) at least fifty percent (50%) of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation.

**1) Name and address(es) of the issuer and its predecessors (if any)**

In answering this item, provide the current name of the issuer and names used by predecessor entities, along with the dates of the name changes.

XTRA Bitcoin Inc as of June 25, 2019

Formerly known as: Therapy Cells, Inc as of May 20, 2011

Originally known as: Diamond Information Institute as of October 24, 1988.

Current State and Date of Incorporation or Registration: Wyoming – 05/20/2011

Standing in this jurisdiction: (e.g. active, default, inactive): active

Prior Incorporation Information for the issuer and any predecessors during the past five years:

N/A

Describe any trading suspension or halt orders issued by the SEC or FINRA concerning the issuer or its predecessors since inception:

N/A

List any company name change, stock split, dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

None

Address of the issuer's principal executive office:

XTRA Bitcoin Inc 912 Bobwhite Street, Fruitland, Idaho 83619

Address of the issuer's principal place of business:

*X Check if principal executive office and principal place of business are the same address:*

Same

Has the issuer or any of its predecessors been in bankruptcy, receivership, or any similar proceeding in the past five years?

No:  Yes:  If Yes, provide additional details below:

\_\_\_\_\_

**2) Security Information**

Total number of shareholders of record:	<u>0</u>	as of date: <u>05/14/2026</u>

### **Security Description:**

*The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:*

1. For common equity, describe any dividend, voting and preemption rights.

Equal share of dividend if and when issued. One vote per share. No preemption rights

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

#### **Series A Preferred Stock**

**Dividends:** shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.

**Voting:** The total aggregate issued shares of Series A Preferred Stock at any given time, regardless of their number, shall have voting rights equal to four times the sum of: (i. The total number of shares of common stock which are issued and outstanding at the time of voting, plus (ii. The total number of shares of Series B, Series C, Series D, Series E, and Series F Preferred Stocks which are issued and outstanding at the time of voting.

**Conversion:** No conversion rights.

**Liquidation:** N/A

**Redemption or sinking fund provision:** N/A

#### **Series B Preferred Stock**

**Dividends:** shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.

**Voting:** One vote per share.

**Conversion:** (b)(3) Converts at 1.2 times issuance price divided by current market price.

**Liquidation:** Upon liquidation, dissolution, or winding up of the corporation either voluntarily or involuntarily before any distribution or payment shall be made to the holder of any stock ranking junior to the Series B Preferred Stock, the holders of the Series B Preferred Stock shall be entitled to be paid

out of the assets of the corporation an amount equal to one dollar per share (the “Preference Value”), plus all declared but unpaid dividends, for each share of Series B Preferred stock held by them.

Redemption or sinking fund provision: N/A

### **Series C Preferred Stock**

Dividends: shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.

Voting: One vote per share.

Conversion: (c)(4) Each share of Series C Preferred Stock shall be convertible to 40 shares of the corporation’s common stock or as determined by the board from time to time.

Liquidation: Series C Preferred shareholders shall be entitled to one dollar per share ( the “Preference Value” ) plus all declared but unpaid dividends, for each share of Series C Preferred Stock held by them.

Redemption or sinking fund provision: N/A

### **Series D Preferred Stock**

Dividends: 6% dividend.

Voting: Ten votes per share.

Conversion: (d)(3) Conversion rate formula is initial price (\$2.50) divided by the current trading price on the date of conversion.

Liquidation: Series D Preferred shareholders shall be entitled to two dollars and fifty cents per share ( the “Preference Value” ) plus all declared but unpaid dividends, for each share of Series D Preferred Stock held by them.

Redemption or sinking fund provision: N/A

### **Series E Preferred Stock**

Dividends: shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.

Voting: No voting rights.

Conversion: (e)(3) Each Series E Preferred Stock converts into 1,000 common shares.

Liquidation: Series E Preferred shareholders shall be entitled to one dollar per share ( the “Preference Value” ) plus all declared but unpaid dividends, for each share of Series E Preferred Stock held by them.

Redemption or sinking fund provision: N/A

### **Series F Preferred Stock**

Dividends: shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.

Voting: One vote per share.

Conversion: (f)(3) Conversion rate formula is initial price (\$0.01) divided by the current market price on the date of conversion and multiplying 1.2 times.

Liquidation: Series F Preferred shareholders shall be entitled to \$0.01 per share ( the “Preference Value” ) plus all declared but unpaid dividends, for each share of Series F Preferred Stock held by them.

Redemption or sinking fund provision: N/A

3. Describe any other material rights of common or preferred stockholders.

### **Series A Preferred Stock**

**Anti-dilution:** Series A Preferred Stock are anti-dilutive to reverse splits and forward splits, and therefore are the same number as prior to the split.

### **Series B Preferred Stock**

**Anti-dilution:** Shares of Series B Preferred Stock are anti-dilutive to reverse splits, and therefor in the case of a reverse split, are convertible to the number of shares of common stock after the reverse split as would be equal to the ratio established in Section (b)(3) above prior to the reverse split. The conversion rate of shares of Series B Preferred Stock, however, would increase proportionally in the case of forward splits, and may not be diluted by a reverse split following a forward split.

**Lock-Up Restrictions on Conversion:** Shares may not be converted into shares of common stock for a period of a) six months if corporation files public reports or b) twelve months if the corporation does not file public reports.

### **Series C Preferred Stock**

**Anti-dilution:** Shares of Series C Preferred Stock are anti-dilutive to reverse splits, and therefor in the case of a reverse split, are convertible to the number of shares of common stock after the reverse split as would be equal to the ratio established in Section (c)(4) above prior to the reverse split. The conversion rate of shares of Series C Preferred Stock, however, would increase proportionally in the case of forward splits, and may not be diluted by a reverse split following a forward split.

**Lock-Up Restrictions on Conversion:** Shares may not be converted into shares of common stock for a period of a) six months if corporation files public reports or b) twelve months if the corporation does not file public reports.

### **Series D Preferred Stock**

**Anti-dilution:** Shares of Series D Preferred Stock are anti-dilutive to reverse splits, and therefor in the case of a reverse split, are convertible to the number of shares of common stock after the reverse split as would be equal to the ratio established in Section (d)(3) above prior to the reverse split. The conversion rate of shares of Series D Preferred Stock, however, would increase proportionally in the case of forward splits, and may not be diluted by a reverse split following a forward split.

**Lock-Up Restrictions on Conversion:** Shares may not be converted into shares of common stock for a period of a) six months if corporation files public reports or b) twelve months if the corporation does not file public reports.

**Warrants:** Each share of Series D Preferred Stock issued comes attached with 2 warrants to purchase one common stock per warrant at the price of \$0.50 per common share. Warrants are exercisable after the lock-up period but expire 24 months from issue date.

### **Series E Preferred Stock**

**Anti-dilution:** Shares of Series E Preferred Stock are anti-dilutive to reverse splits, and therefor in the case of a reverse split, are convertible to the number of shares of common stock after the reverse split as would be equal to the ratio established in Section (e)(3) above prior to the reverse split. The conversion rate of shares of Series E Preferred Stock, however, would increase proportionally in the case of forward splits, and may not be diluted by a reverse split following a forward split.

**Lock-Up Restrictions on Conversion:** Series E Preferred Stock may be converted to common stock at any time and will require an attorney opinion letter to remove the restricted legend if issued restricted. Series E Preferred Shares converted into common stock shall be issued with a restricted legend indicating that it was issued in a transaction exempt from registration under the Securities Act and that

it cannot be transferred unless it is so registered, or an exemption from registration is available in the opinion of council to the corporation.

**Series F Preferred Stock**

**Anti-dilution:** Shares of Series F Preferred Stock are anti-dilutive to reverse splits, and therefor in the case of a reverse split, are convertible to the number of shares of common stock after the reverse split as would be equal to the ratio established in Section (f)(3) above prior to the reverse split. The conversion rate of shares of Series F Preferred Stock, however, would increase proportionally in the case of forward splits, and may not be diluted by a reverse split following a forward split.

**Lock-Up Restrictions on Conversion:** Series F Preferred Stock may be converted to common stock at any time and will require an attorney opinion letter to remove the restricted legend if issued restricted. Series F Preferred Shares converted into common stock shall be issued with a restricted legend indicating that it was issued in a transaction exempt from registration under the Securities Act and that it cannot be transferred unless it is so registered, or an exemption from registration is available in the opinion of council to the corporation.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None

**3) Issuance History**

*The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.*

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

**A. Changes to the Number of Outstanding Shares for the two most recently completed fiscal years and any subsequent period.**

Indicate by check mark whether there were any changes to the number of outstanding shares within the past two completed fiscal years:

No:  Yes:  (If yes, you must complete the table below)

Shares Outstanding <u>Opening Balance:</u> Date _____ Common: _____ Preferred: _____			*Right-click the rows below and select "Insert" to add rows as needed.						
Date of Transaction	Transaction type (e.g., new issuance, cancellation, shares returned to treasury)	Number of Shares Issued (or cancelled)	Class of Securities	Value of shares issued (\$/per share) at issuance	Were the shares issued at a discount to market price at the time	Individual/ Entity Shares were issued to.  ***You must disclose the control person(s)	Reason for share issuance (e.g. for cash or debt conversion) - OR- Nature of	Restricted or Unrestricted as of this filing.	Exemption or Registration Type.

					of issuance? (Yes/No)	for any entities listed.	Services Provided		
_____	_____	_____	_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____	_____	_____	_____
Shares Outstanding on Date of This Report:									
<u>Ending Balance:</u>									
Date _____	Common: _____								
Preferred: _____									

**Example:** A company with a fiscal year end of December 31<sup>st</sup> 2024, in addressing this item for its Annual Report, would include any events that resulted in changes to any class of its outstanding shares from the period beginning on January 1, 2023 through December 31, 2024 pursuant to the tabular format above.

Any additional material details, including footnotes to the table are below:

\_\_\_\_\_

## B. Convertible Debt

The following is a complete list of the Company's Convertible Debt which includes all promissory notes, convertible notes, convertible debentures, or any other debt instruments convertible into a class of the issuer's equity securities. The table includes all issued or outstanding convertible debt at any time during the last complete fiscal year and any interim period between the last fiscal year end and the date of this Certification.

Check this box to confirm the Company had no Convertible Debt issued or outstanding at any point during this period.

Date of Note Issuance	Principal Amount at Issuance (\$)	Outstanding Balance (\$)  (include accrued interest)	Maturity Date	Conversion Terms (e.g., pricing mechanism for determining conversion of instrument to shares)	# Shares Converted to Date	# of Potential Shares to be Issued Upon Conversion <sup>6</sup>	Name of Noteholder (entities must have individual with voting / investment control disclosed).	Reason for Issuance (e.g., Loan, Services, etc.)

<sup>6</sup> The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any "blockers" or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

Total Outstanding Balance:				Total Shares:				

Any additional material details, including footnotes to the table are below:

**4) Issuer’s Business, Products and Services**

The purpose of this section is to provide a clear description of the issuer’s current operations. Ensure that these descriptions are updated on the Company’s Profile on [www.OTCMarkets.com](http://www.OTCMarkets.com).

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

Bitcoin mine development and operation

B. List any subsidiaries, parent company, or affiliated companies.

No subsidiaries and no parent company  
XTRA Bitcoin Inc is affiliated with other companies owned or controlled by its CEO/Director Paul Knudson. These affiliated companies are Protocall Technologies Inc, Austin Homes LLC, and The Pines Townhomes LLC

C. Describe the issuers’ principal products or services.

Computerized validation of Bitcoin blockchain transactions, aka “mining”, via internet worldwide through mining pool.

**5) Issuer’s Facilities**

*The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.*

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

Leased facilities: Wonka #5 and Wonka #6. Each unit’s lease rate is \$345/month as storage units to reserve the space and allocation of electrical power capacity. Lease rate increases to \$4,855/month NNN when the primary power is extended to the unit by either party. As of January 1, 2020, Company obtained the right, but not the obligation, to lease Wonka #3 and Wonka #4 by assuming each unit’s lease from The Pines Townhomes LLC at rate of \$345/month as storage units to reserve the space and allocation of electrical power capacity

The Pines Townhomes LLC, a privately held company owned by XTRA’s CEO/Director Paul Knudson, is re-purposing a self-storage facility located in Ontario, OR, USA into a data center with 7MW of electrical capacity in phase one and an additional 8MW in phase 2. XTRA Bitcoin Inc. has acquired 5-year leases on building space known as Wonka #5 and Wonka #6. Each lease consists of six storage units combined into a 900 square foot unit and the right to access 1.25MW electricity primary on site. XTRA is obligated to pay all costs to install the high-voltage primary, transformers, metering and secondary distribution electrical systems from utility interconnect onsite to their equipment. XTRA also has a performance-based option to acquire access to an additional 7.5MW electricity for expansion at this site. Facility is inside a security fenced property. XTRA is in the development process of raising capital to install the electrical system and to purchase

energy-efficient ASIC miners. Development is on hold as XTRA has opportunity to acquire other facilities with a lower electricity cost. XTRA is negotiating with The Pines Townhomes LLC to recover impaired lease deposits.

XTRA Bitcoin Inc. – CBTC acquired 70% of RINK facility, phase 1 electrical capacity lease located in Manitoba, Canada from Xtra Crypto Mining, Inc., a privately held corporation owned by XTRA's CEO/Director Paul Knudson. RINK is capable of hosting 37 T17s miners. XTRA is obligated to pay 70% of NNN expenses and \$490.00 monthly rent. XTRA, also, acquired option on 70% of an additional 1.5 MW future electrical capacity upgrade. RINK acquisition was financed by Xtra Crypto Mining, Inc. The RINK lease expired on March 31, 2025. XTRA Bitcoin Inc is exploring option of a RINK lease renewal.

**6) All Officers, Directors, and 5% Beneficial Owners of the Company**

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities.

If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

*The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.*

<b>Individual Name</b> (First, Last) or <b>Entity Name</b> (Include names of control person(s) if a corporate entity)	<b>Position/Company</b> <b>Affiliation</b> (ex: CEO, ≥ 5% beneficial owner)	<b>City and State</b> (Include Country if outside U.S.)	<b>Number of</b> <b>Shares</b> <b>Owned</b> (List common, preferred, warrants and options separately)	<b>Class of</b> <b>Shares</b> <b>Owned</b>	<b>Percentage of</b> <b>Class of</b> <b>Shares</b> <b>Owned</b> (undiluted)
Paul Knudson	CEO, CFO, Director	912 Bobwhite St. Fruitland, ID 83619	31,903,252	Common	1.56 %
Paul Knudson	CEO, CFO, Director and owner of >5%	912 Bobwhite St. Fruitland, ID 83619	225,110	Series A Preferred	100 %
Paul Knudson	CEO, CFO, Director and owner of >5%	912 Bobwhite St. Fruitland, ID 83619	2,082,057	Series E Preferred	90.55 %
Mary A Veatch	Secretary and owner of >5%	917 Bobwhite St. Fruitland, ID 83619	193,236	Series E Preferred	8.40 %

Confirm that the information in this table matches your public company profile on [www.OTCMarkets.com](http://www.OTCMarkets.com). If any updates are needed to your public company profile, log in to [www.OTCIQ.com](http://www.OTCIQ.com) to update your company profile.

## 7) Legal/Disciplinary History

A. Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years:

1. Been the subject of an indictment or conviction in a criminal proceeding or plea agreement or named as a defendant in a pending criminal proceeding (excluding minor traffic violations);

None

2. Been the subject of the entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, financial- or investment-related, insurance or banking activities;

None

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities or commodities law, or a foreign regulatory body or court, which finding or judgment has not been reversed, suspended, or vacated;

None

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above; or

None

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

None

6. Been the subject of a U.S Postal Service false representation order, or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S mail.

None

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

None

## 8) Third Party Service Providers

Provide the name, address, telephone number and email address of each of the following outside providers. You may add additional space as needed.

Confirm that the information in this table matches your public company profile on [www.OTCMarkets.com](http://www.OTCMarkets.com). If any updates are needed to your public company profile, update your company profile.

**9) Disclosure & Financial Information**

A. This Disclosure Statement was prepared by (name of individual):

Name: **Paul Knudson**  
Title: **CEO**  
Relationship to Issuer: **Officer & Director**

B. The following financial statements were prepared in accordance with:

- IFRS
- U.S. GAAP

C. The following financial statements were prepared by (name of individual):

Name: **Paul Knudson**  
Title: **CFO**  
Relationship to Issuer: **Officer & Director**

Describe the qualifications of the person or persons who prepared the financial statements:<sup>7</sup> \_\_\_\_\_

Provide the following qualifying financial statements:

- Audit letter, if audited;
- Balance Sheet;
- Statement of Income;
- Statement of Cash Flows;
- Statement of Retained Earnings (Statement of Changes in Stockholders' Equity);
- Financial Notes

---

<sup>7</sup> The financial statements requested pursuant to this item must be prepared in accordance with US GAAP or IFRS and by persons with sufficient financial skills.

The accompanying notes are an integral part of these financial statements.

## **NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS**

XTRA Bitcoin, Inc. (“the Company” or “XTRA”), is a Wyoming corporation. Its original name was Diamond Information Institute Inc. when incorporated in the state of New Jersey on October 24, 1988. It filed Articles of Domestication and Articles of Amendment to change its name to Therapy Cells, Inc. (“TCEL”) on May 20, 2011, in the state of Wyoming. Its name was then changed to XTRA Bitcoin, Inc. on June 25, 2019, in the state of Wyoming following the execution of a merger agreement dated May 31, 2019, whereby controlling interest in the company was sold.

The Company was previously a SEC registrant and issuer under the name Therapy Cells, Inc, and its previous names. On March 1, 2012 TCEL was deregistered. The Company is now seeking SEC registration under its current name through Form 1-A Regulation A Offering Statement, which would permit it to raise capital under Title IV of the Jobs Act.

XTRA is in the business of mining bitcoin. Bitcoin mining is the process by which new bitcoins are entered into circulation. It is also the way the network confirms new transactions and is a critical component of the blockchain ledger’s maintenance and development. “Mining” is performed using sophisticated ASIC computers that solve an extremely complex computational math problem. The first computer to find the solution to the problem receives the next block of newly issued bitcoins and the process begins again. XTRA participates with other miners by “pooling” their computer’s hashing capacity and receiving a pro-rata share of bitcoin rewarded to the pool. In return for solving a block, it receives bitcoin which it holds on account at a cryptocurrency exchange in a digital wallet and attempts to sell on the market to generate a profit.

Its head office is located at 912 Bobwhite Street, Fruitland, Idaho 83619, USA.

The Company’s fiscal year end is December 31<sup>st</sup>.

## **NOTE 2. GOING CONCERN**

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has generated minimal revenues and has a limited history of operations in its current line of business. These conditions raise substantial doubt about its ability to continue as a going concern for a period of twelve months from the issuance date of this report. For the quarter ended March 31, 2026 and December 31, 2025, the Company incurred losses of (\$54,915) and (\$48,513), respectively. However, the Company is in the process of filing Form 1-A, Regulation A Offering Statement. Regulation A is an exemption from registration under the Securities Act that allows companies to raise money from the public in securities offerings of up to \$75 million.

No assurances can be given that the Company will achieve success, without seeking additional financing. There also can be no assurances that the Form 1-A will result in additional financing or that any additional financing required can be obtained, or obtained on reasonable terms acceptable to the Company. The financial statements do not include adjustments related to the recoverability and classifications of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

## **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### Basis of presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America or (“U.S. GAAP”) as found in the Accounting Standards Codification (“ASC”), the Accounting Standards Update (“ASU”) of the Financial Accounting Standards Board (“FASB”) and are expressed in US Dollars. Significant accounting policies applicable to the Company are summarized as follows:

### **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and cash equivalents

For purposes of reporting within the statement of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid securities purchased with a maturity of 90 days or less to be cash and cash equivalents. The Company held (\$811) cash balance on March 31, 2022 and cash balance of \$0 on December 31, 2025.

#### Related party disclosures

Under ASC 850 "Related Party Transactions" an entity or person is considered to be a "related party" if it has control, significant influence or is a key member of management personnel. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. The Company, in accordance with the standard ASC 850, presents disclosures about related party transactions and outstanding balances with related parties, see Note 10.

#### Fair value of financial instruments

In accordance with ASC 820 "Fair Value Measurement" the Company categorizes financial instruments in a 'fair value hierarchy'. The hierarchy categorizes the inputs used in valuation techniques into three levels. The hierarchy gives the highest priority to (unadjusted) quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The following are the three categories related to the fair value measurement of such assets or liabilities:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date, it holds a position in a single asset or liability, and the asset or liability is traded in an active market.
- Level 2 inputs are inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs are derived principally from or corroborated by observable market data by correlation or other means ('market-corroborated inputs').
- Level 3 inputs are unobservable for the asset or liability. An entity develops unobservable inputs using the best information available in the circumstances, which might include the entity's own data, taking into account all information about market participant assumptions that is reasonably available.

The Company has no financial instruments requiring hierarchy classification and disclosure.

#### Income taxes

Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The deferred tax assets of the Company relate primarily to operating loss carryforwards for federal income tax purposes.

### **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### Income taxes (continued)

Company has net operating loss (NOL) carrying forward amounts from 2019 \$130,659 and 2020 of \$288,104 and 2021 of \$100,958 for a total of \$519,721. Tax liability for 2022, 2023, 2024, and 2025 has not been established to date. Realization of deferred tax assets is dependent on the Company generating sufficient taxable income in future periods.

The Company periodically evaluates its tax positions to determine whether it is more likely than not that such positions would be sustained upon examination by a tax authority for all open tax years, as defined by the statute of limitations, based on their technical merits.

#### Share capital

In accordance with ASC 505 "Equity" the Company considers an equity instrument to be any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. The Company's common and preferred shares are classified as equity instruments. Incremental costs directly attributable to the issuance of new shares are recognized in equity as a reduction from the gross proceeds received from the issued shares. Share capital is reported on the balance sheet and statement of changes in shareholder's deficit.

#### Digital currencies - Bitcoin

Bitcoin is included in current assets in the balance sheets as an intangible asset. It is recorded at cost less impairment. An intangible asset with an indefinite useful life is not amortized but assessed for impairment annually, or more frequently, when events or changes in circumstances occur indicating that it is more likely than not that the indefinite-lived asset is impaired. Impairment exists when the carrying amount exceeds its fair value. In testing for impairment, the Company has the option to first perform a qualitative assessment to determine whether it is more likely than not that an impairment exists. If it is determined that it is not more likely than not that an impairment exists, a quantitative impairment test is not necessary. If the Company concludes otherwise, it is required to perform a quantitative impairment test. To the extent an impairment loss is recognized, the loss establishes the new cost basis of the asset. Subsequent reversal of impairment losses is not permitted. The reward for a bitcoin miner changes roughly every four years, or after every 210,000 blocks are mined and gets reduced by half each time, this whole process is called bitcoin halving. The last halving occurred on May 11, 2020 and reduced the reward per block to 6.25 BTC. The halving that occurred in April of 2024 caused the block reward to drop to 3.125 Bitcoin per block.

#### Fixed assets - Crypto-currency machines

Management has assessed the basis of depreciation of the Company's Crypto-currency Machines used to verify digital currency transactions and generate digital currencies and believes they should be depreciated over a 3-year period. The rate at which the Company generates digital assets and, therefore, consumes the economic benefits of its transaction verification servers are influenced by a number of factors including the following:

- the complexity of the transaction verification process which is driven by the algorithms contained within the bitcoin open-source software;
- the general availability of appropriate computer processing capacity on a global basis (commonly referred to in the industry as the blockchain's total hash rate),

### **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### Fixed assets - Crypto-currency machines

- technological obsolescence reflecting rapid development in the transaction verification server industry such that more recently developed hardware is more economically efficient to run in terms of digital assets generated as a function of operating costs, primarily power costs i.e. the speed of hardware evolution in the industry is such that later hardware models generally have faster processing capacity combined with lower operating costs and a lower cost of purchase.

#### Fixed asset - Crypto-currency machines (continued)

The Company operates in an emerging industry for which limited data is available to make estimates of the useful economic lives of specialized equipment. The equipment is highly specialized computer equipment and could become obsolete within lesser time than other equipment. Fixed assets are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Subsequent to December 31, 2021, management has determined that the expected useful life of transaction verification servers would be three years. Management's assessment takes into consideration the availability of historical data and management's expectations regarding the direction of the industry including potential changes in technology. Management will review this estimate annually and will revise such estimates as and when data comes available.

To the extent that any of the assumptions underlying management's estimate of useful life of its transaction verification servers are subject to revision in a future reporting period either as a result of changes in circumstances or through the availability of greater quantities of data then the estimated useful life could change and have a prospective impact on depreciation expense and the carrying amounts of these assets.

#### Fixed assets - other

The Company accounts for fixed assets at cost less accumulated depreciation and amortization. The Company computes depreciation using the straight-line method over the estimated useful lives of the assets, generally five to seven years. Upon the sale or retirement of property and equipment, the cost and accumulated depreciation and amortization are removed from the accounts and resulting gains or losses are recognized currently. Major improvements are capitalized and depreciated, whereas minor repairs and maintenance are expensed when incurred. Management reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value may not be realizable. If an evaluation is required, the estimated future undiscounted cash flows associated with the asset are compared to the asset's carrying value to determine if an adjustment for impairment is necessary. The effect of any impairment would be to expense the difference between the fair value of such asset and its carrying value. Management determined that no impairment was necessary during the year ended December 31, 2025.

#### Revenue recognition

The Company recognizes revenue under ASC 606, Revenue from Contracts with Customers. The core principle of the new revenue standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The following five steps are applied to achieve that core principle:

- Step 1 : Identify the contract with the customer
- Step 2: Identify the performance obligations in the contract

### NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Revenue recognition (continued)

- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when the Company satisfies a performance obligation

In order to identify the performance obligations in a contract with a customer, a company must assess the promised goods or services in the contract and identify each promised good or service that is distinct. A performance obligation meets ASC 606's definition of a "distinct" good or service ( or bundle of goods or services) if both of the following criteria are met: The customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer (i.e., the good or service is capable of being distinct), and the entity's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract (i.e., the promise to transfer the good or service is distinct within the context of the contract).

If a good or service is not distinct, the good or service is combined with other promised goods or services until a bundle of goods or services is identified that is distinct.

The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both.

When determining the transaction price, an entity must consider the effects of all of the following:

- Variable consideration
- Constraining estimates of variable consideration
- The existence of a significant financing component in the contract
- Noncash consideration
- Consideration payable to a customer

Variable consideration is included in the transaction price only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The transaction price is allocated to each performance obligation on a relatively standalone selling price basis. The transaction price allocated to each performance obligation is recognized when that performance obligation is satisfied, at a point in time or over time as appropriate.

Providing computing power in crypto asset transaction verification services is an output of the Company's ordinary activities. The provision of computing power is the only performance obligation in the Company's contracts with third party pool operators. The transaction consideration the Company receives, if any, is noncash consideration, which the Company measures at fair value on the date received, which is not materially different than the fair value at contract inception. The consideration is all variable. Because it is not probable that a significant reversal of cumulative revenue will not occur, the consideration is constrained until the Company successfully places a block (by being the first to solve an algorithm) and the Company receives confirmation of the consideration it will receive, at which time revenue is recognized. There is no significant financing component in these transactions.

### **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### Revenue recognition (continued)

Fair value of the digital asset award received is determined using the average U.S. dollar spot rate of the related digital currency at the time of receipt.

Expenses associated with running the digital currency mining business, such as rent and electricity cost are also recorded as cost of revenues. Depreciation on digital currency mining equipment is recorded as a component of cost of revenues.

#### Basic and diluted earnings per share

Under ASC 260 "Earnings Per Share", public companies shall present basic and diluted per-share amounts for income from continuing operations and for net income on the face of the income statement with equal prominence. The Company presents this information accordingly, because it is in the process of filing Form 1-A, Regulation A Offering Statement. Regulation A is an exemption from registration under the Securities Act that allows companies to raise money from the public in securities offerings of up to \$75 million.

Basic EPS shall be computed by dividing income available to common stockholders (the numerator) by the weighted-average number of common shares outstanding (the denominator) during the period. Shares issued during the period and shares reacquired during the period shall be weighted for the portion of the period that they were outstanding. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued.

The Company had no dilutive instruments on December 31, 2025 and December 31, 2024, and had 2,048,474,905, and 2,048,474,905 weighted average common shares issued and outstanding, respectively, and therefore the basic and dilutive loss per shares on the statement of operations is the same.

#### Leases

Effective January 1, 2019, the Company accounts for its leases under ASC 842, Leases. Under this guidance, arrangements meeting the definition of a lease are classified as operating or financing leases and are recorded on the balance sheet as both a right of use asset and lease liability, calculated by discounting fixed lease payments over the lease term at the rate implicit in the lease or the Company's incremental borrowing rate. Lease liabilities are increased by interest and reduced by payments each period, and the right of use asset is amortized over the lease term. For operating leases, interest on the lease liability and the amortization of the right of use asset result in straight-line rent expense over the lease term. Variable lease expenses, if there are any, are recorded when incurred.

In calculating the right of use asset and lease liability, the Company elected to combine lease and non-lease components. The Company excluded short-term leases having initial terms of 12 months or less from the new guidance as an accounting policy election and recognizes rent expense on a straight-line basis over the lease term.

### **NOTE 4. RECENTLY ISSUED ACCOUNTING STANDARDS**

In June 2016, the FASB issued Accounting Standards Update ("ASU") No. 2016-13, Financial Instruments - Credit Losses (Topic 326), which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. The standard also requires additional disclosures related to significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. Operating lease receivables are excluded from the scope of this guidance.

The amended guidance is effective for the Company for fiscal years, and interim periods within those years, beginning January 1, 2023. The Company is evaluating the impact of adopting this new accounting standard on the Company's financial statements and related disclosures.

Accounting standards promulgated by the FASB are subject to change. Changes in such standards may have an impact on the Company's future financial statements. The Company periodically reviews new accounting standards that are issued. Although some of these accounting standards may be applicable to the Company, the Company has not identified any new standards that it believes merit further discussion, and the Company expects that none would have a significant impact on its financial statements.

#### **NOTE 5. CONCENTRATIONS AND CREDIT RISK**

Financial instruments, which potentially subject XTRA to credit risk, consist principally of cash and bitcoin.

Cash deposits are maintained with a financial institution in the USA that is credit-worthy. XTRA has no bank accounts in its name, and conducts all transactions through a bank account of the CEO.

It presently earns minimal income, and most operations are funded as a related party debt by the CEO. Any cash balances held on its behalf are held with a bank insured up to \$250,000 by the Federal Deposit Insurance Corporation. XTRA at inception adopted a policy to closely monitor economic and regulatory conditions as it relates to federally uninsured balances, to promptly mitigate risks. No deposits were held on their behalf at fiscal years end nor were there accumulations of cash balances in these accounts in excess of federally insured limits on March 31, 2026 and December 31, 2025, and during the reporting period.

Bitcoin is held on account at Coinbase, a company based in the USA which operates a cryptocurrency exchange platform. It is the largest cryptocurrency custodian and exchange in the United States by trading volume. XTRA set a minimum transfer limit of 0.005 bitcoin with its mining pool at BTC.com. Each day that XTRA's earned bitcoin exceeds 0.005 bitcoin, the bitcoin is transferred to Coinbase where it is held in a digital wallet and can be converted to cash immediately or within an instant, upon request. Every digital asset on Coinbase goes through an extensive review process ensuring it meets security and compliance requirements, all Coinbase accounts have multi-factor authentication. Digital currency balances are not federally insured and are at high risk of loss by fraud, error, or theft, by hacking and fraud.

Currently, XTRA's main source of capital to initiate and sustain operations comes from its CEO and related entities controlled by the CEO, who is also a principal shareholder. 100% of liabilities are owed to related parties for compensation, payments made on their behalf, loans, operating leases or as accounts payable for consulting services previously rendered by a principal shareholder. As of March 31, 2026 and December 31, 2025, amounts owed to the CEO or to businesses controlled by him were 100% and 100%, respectively of total liabilities.

XTRA has generated minimal revenues and has had limited operations from inception to the periods ended March 31, 2026 and December 31, 2025. Nevertheless, the Company plans to file Form 1-A, Regulation A Offering Statement. Regulation A is an exemption from registration under the Securities Act that allows companies to raise money from the public in securities offerings of up to \$75 million. It plans to use this capital to begin implementation of its business plan to acquire and/or develop bitcoin mining operations.

#### **NOTE 6. DIGITAL CURRENCY - BITCOIN**

On March 6, 2020, Company entered contract to purchase 37 Antminer T17+ 55 TH/s bitcoin miners, electrical infrastructure, and installation at the RINK facility in Canada. This purchase was funded by Xtra Crypto Mining Inc, a related party by common ownership, through the issuance of a note payable. Due to Covid delays, incomplete

performance due to inaccessibility, XCrypto agreed to a Note Reimbursement of \$25,758. XCrypto’s liability has subsequently been assumed by Austin Homes LLC.

Transformer depreciation expenses amounted to (\$720) and (\$720) for the years ended December 31, 2025 and December 31, 2024. Future depreciation of (\$720) will accrue on December 31, 2026 and final depreciation of (\$720) will occur on December 31, 2027.

#### **NOTE 8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES**

During the year the Company accrued amounts owed as compensation for the chief executive officer and had an accrual for consulting services provided by a related party in prior years. Accounts payable and accrued liabilities were comprised of the following:

	<u>December 31, 2025</u>	<u>December 31, 202</u>
Compensation – Chief Executive Officer	\$1,155,208	\$1,110,208
Consulting fees – related party	30,625	30,625
<b>Total accounts payable and accrued liabilities - related party</b>	<b>\$1,185,833</b>	<b>\$1,140,833</b>

#### **NOTE 9. INCOME TAXES**

The Company’s tax expense differs from the “expected” tax expense for Federal income tax purposes (computed by applying the United States Federal tax rate of 21% to the carryover loss before taxes).

The tax effects of the temporary differences between reportable financial statement income and taxable income are recognized as deferred tax assets and liabilities. Deferred tax assets had a valuation allowance which nets it to zero.

#### **NOTE 10. COMMITMENTS AND CONTINGENCIES**

##### Operating Leases under ASC 842

On April 1, 2020, the Company entered into a 5-year operating lease agreement with a related party, to lease up to 1400 square feet of space (“Rink Lease”), in Manitoba, Canada and for up to 70% of 1.5 MW of future electrical capacity upgrade, to be used as a data center for crypto mining. The termination date of the lease was March 31, 2025. The present value of the future lease payments was determined to be \$25,472. The monthly payment is \$490. Lease expenses for the year ended December 31, 2025 (after adjustments) and year ended December 31, 2024, were \$1,470 and \$5,880 respectively. The Rink lease expense ended March 31, 2025 with adjustments to recover over-amortization of the right of use asset to zero balance. There will be no further RINK lease expenses or obligations under the completed Rink Lease.

##### Other rent and lease arrangements

On June 1, 2019, the Company entered into 2 operating lease agreements to lease data mining centers Wonka #5 and #6, in Oregon, USA, each with access to 1 MW capacity and each lease requiring an annual lease payment of \$46,608/ year. On June 26, 2019, the terms were amended to access 1.25 MW capacity and each lease requiring an annual lease payment of \$58,260. The lease term will commence upon installation of the electrical infrastructure and will continue for a period of 5 years. The electrical infrastructure installation and lease commencement date were not determined as of December 31, 2021. Therefore, no lease liability or right of use assets were determined

for these leases as of December 31, 2021. For each lease the Company pays The Pines Townhomes LLC, a related party, a monthly storage fee of \$345 to reserve the leasehold until electricity is distributed to the units.

Other rent and lease arrangements

XTRA has 4 storage rental arrangements – W3, W4, W5, and W6. Each storage rental arrangement is on a month-to-month basis with no long-term rental obligation. Each storage unit’s annual rent expense is \$4,140 (12x/\$345) in 2025 and 2024.

To guarantee the 5-year leases for Wonka #5 and #6, XTRA was obligated to prepay the first and last year’s lease in the amount of \$116,520 and a security deposit of \$8,480 for each facility. \$75,431 resulted from prepayments and security deposits paid in cash. \$87,285 of the lease prepayment for each lease was made by the transfer of minority interests in an investment held in a related party. These investments were considered to be potentially impaired though accepted as consideration for the lease prepayment and was therefore written off as a loss on asset impairment. As a result, the Company had a total of \$250,000 in lease deposits, incurred a loss of 174,569 and reports lease deposits as follows from September 30, 2022 and as of March 31, 2026:

Wonka #5 lease prepayment for the first and last month	\$ 29,236
Wonka #6 lease prepayment for the first and last month	29,236
Wonka #5 security deposit	8,480
Wonka #6 security deposit	8,480
<b>Total lease deposit</b>	<b><u>\$ 75,431</u></b>

As of January 1, 2020, the Company obtained the right, with no obligation, to lease Wonka #3 (W3) and Wonka #4 (W4) data centers by assuming each unit’s lease from The Pines Townhomes LLC, a related party. The Company rents storage in relation to the lease at rate of \$345/month, to reserve the space and allocation of electrical power capacity from Protocall Technologies Incorporated, a related party and lessor. Annual rent expense for W3, W4, W5 & W6 amounted to \$4,140 (12\*345=\$4140) for each storage facility in 2024 and 2023. Second, third and fourth quarter of 2025 rents for Wonka #3, 4, 5 & 6 were waived due to ongoing negotiations between XTRA and The Pines Townhomes LLC regarding prepaid rents, deposits and option to purchase all or part of the Wonka facilities. XTRA has \$75,431 of reimbursable prepaid rents and deposits.

As of January 1, 2022 the company rents shared office space for \$250 per month.

Legal contingencies

From time to time, the Company may be a defendant in pending or threatened legal proceedings arising in the normal course of its business. Management is not aware of any pending, threatened or asserted claims.

**NOTE 11. EQUITY – SHAREHOLDER’S DEFICIT**

Common Stock

The Company is authorized to issue 2,900,000,000 shares of common stock, par value \$0.0001. On January 20, 2020, Company issued 100,156,560 shares of restricted common stock in a merger agreement to minority shareholders at a price of \$0.00025 per share.

### Preferred Stock

The Company is authorized to issue 100,000,000 shares of preferred stock, par value \$0.0001. Authorization by class of preferred stock is indicated below.

### Series E Preferred Stock

Of the total authorized preferred stock, the Company is authorized to issue 30,000,000 shares of Series E Preferred Stock. Series E Preferred Stock have no voting rights.

On January 20, 2020, the Company issued 469,286 shares of series E preferred stock in a merger agreement to minority shareholders at par.

On January 23, 2020, the Company issued 900,000 shares of series E preferred stock in exchange for debt owed to the shareholder totaling \$890,983 and a subscription receivable in the amount of \$9,017. Resulting in the issuance value of \$900,000.

On January 23, 2020, the Company issued 100,000 shares of series E preferred stock in exchange for debt owed to the shareholder and shareholder assuming company debt for a total of \$100,000.

In accordance with a share purchase agreement dated May 14, 2019, a shareholder is obligated to sell 31,316,667 shares of common stock, 225,110 shares of restricted series A preferred stock, and 806,007 restricted series E preferred stock to the CEO, for \$300,000, granting him control of the Company. These shares are assigned to him from various shareholders. As of August 24, 2022, the CEO paid off this share purchase agreement and transfer of the stock to this shareholder is pending.

Of the total preferred stock authorized, the Company has preferred stock classes authorized as follows with zero shares issued and outstanding:

- 9,000,000 shares of undesignated Preferred stock, par value \$0.0001.
- 10,000,000 shares of Series B Preferred stock, par value \$0.0001.
- 10,000,000 shares of Series C Preferred stock, par value \$0.0001.
- 30,000,000 shares of Series D Preferred stock, par value \$0.0001.
- 10,000,000 shares of Series F Preferred stock, par value \$0.0001.

### **NOTE 12. RELATED PARTIES**

The Company receives all of its funding to sustain operations from related parties. Its principal source of funding comes from advances made by the Chief Executive Officer (“CEO”) and other affiliate companies owned or controlled by this officer.

For additional information on non-interest-bearing advances made by the CEO or companies controlled by him, see Note. 8 “Accounts Payable and Accrued Liabilities”. The consulting fee accrual included in this amount is owed to a shareholder.

### **NOTE 13. SUBSEQUENT EVENTS**

The Company has evaluated the financial statements for subsequent events through May 14, 2026, the date these financial statements were available to be issued.

XTRA, assisted by its legal counsel is seeking to file a Form 1-A, Regulation A Offering Statement with the SEC, to raise up to \$75 million in capital from security issuances to the public and is conducting an audit and taking all actions necessary to proceed with the filing.

Management is not aware of any other events that have occurred subsequent to the balance sheet date that would require adjustment to, or disclosure in the financial statements.

## 10) Issuer Certification

*Principal Executive Officer:*

I, Paul Knudson certify that:

1. I have reviewed this Disclosure Statement for XTRA Bitcoin Inc;
2. Based on my knowledge, this disclosure statement does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this disclosure statement; and
3. Based on my knowledge, the financial statements, and other financial information included or incorporated by reference in this disclosure statement, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented in this disclosure statement.
