Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. **For common equity, describe any dividend, voting and preemption rights.**

One vote per one share of common stock.

2. **For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

Series A Convertible Preferred Stock

The Series A Preferred Stock is convertible into common stock at a fixed conversion ratio of 10,000 shares of common stock for each share of Series A Preferred Stock, subject to adjustment as provided in the Certificate of Designation. Holders vote together with the holders of common stock on an as-converted basis and are entitled to certain separate class consent rights with respect to specified corporate actions. The Series A Preferred Stock carries a 10% cumulative annual dividend, payable quarterly in accordance with its terms. In the event of liquidation, holders are entitled to receive the greater of (i) the stated value of \$100 per share plus any accrued and unpaid dividends or (ii) the amount payable on an as-converted basis. The Series A Preferred Stock may be subject to mandatory conversion upon the occurrence of specified financial or transactional conditions. No sinking fund provisions apply.

Series B Convertible Preferred Stock

The Series B Preferred Stock is convertible into common stock at a price equal to the lesser of (i) the valuation cap price or (ii) 80% of the price per share in a qualified offering, in each case subject to the terms set forth in the Certificate of Designation. The Series B Preferred Stock carries a 10% cumulative annual dividend, compounding annually. Holders do not vote with the holders of common stock except with respect to limited protective provisions requiring class consent. In the event of liquidation, holders are entitled to receive the stated value of \$1,000 per share plus any accrued and unpaid dividends prior to distributions to junior securities. Conversions are subject to a 9.99% beneficial ownership limitation. No sinking fund provisions apply.

3. **Describe any other material rights of common or preferred stockholders.**

See Item 2 above for Series A and B Preferred shares

4. **Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

None

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period**.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

4) Issuer’s Business, Products and Services

The purpose of this section is to provide a clear description of the issuer’s current operations. Ensure that these descriptions are updated on the Company’s Profile on www.OTCMarkets.com.

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

The Company operates as a technology-focused platform engaged in the acquisition, development, and integration of digital assets and intellectual property. Its current strategy centers on identifying and acquiring scalable technology platforms and related intellectual property that can be developed, commercialized, or licensed across multiple industries. The Company’s operations are focused on building an integrated ecosystem of digital solutions, including software platforms, media technologies, and data-driven applications, with an emphasis on long-term value creation through strategic acquisitions and partnerships.

B. List any subsidiaries, parent company, or affiliated companies.

The Company has acquired or maintains ownership interests in, or affiliations with, the following entities:

- Mixie IP Holdings, LLC (wholly owned)
- Mixie Labs, LLC (wholly owned)
- HoloTwin, LLC (minority interest)
- Mixie Realty, LLC (minority interest)

⁵ The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any “blockers” or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

These entities are part of the Company's broader technology and intellectual property ecosystem and support its platform development and strategic initiatives.

C. Describe the issuers' principal products or services.

The Company's principal activities relate to the development, integration, and commercialization of digital platforms and intellectual property. These include technologies and applications focused on intelligent video processing, AI-assisted media workflows, digital twin systems, real estate management tools, immersive and interactive environments, and data-driven platforms for training, simulation, and event management. The Company's model is to acquire or develop these technologies and deploy them across multiple use cases through licensing, partnerships, and direct commercialization strategies.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

The Company does not maintain dedicated leased office space and operates on a remote basis. Management and administrative functions are conducted by its officers and consultants from distributed locations. The Company does not currently own or lease any material physical properties and does not rely on physical facilities for its operations.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

NOTE 1 DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Pure Harvest Corporate Group, Inc. (the “Company”), formerly Pure Harvest Cannabis Group, Inc., and formerly The Pocket Shot Company, Inc, was formed as a Colorado corporation in April 2004.

On December 31, 2018, the Company acquired all the outstanding common stock of Pure Harvest Cannabis Producers, Inc., (“PHCP”) in exchange for 17,906,016 (post-split) shares of the Company’s common stock. The transaction was accounted for as a reverse acquisition.

On May 6, 2023, the Company divested Pure Harvest Cannabis Producers, Inc’s operations including all related equipment and licenses and exited the cannabis and hemp-CBD industries and shut down all current operations.

The Company is focused on the acquisition, development, and integration of digital assets, software-related intellectual property, and technology platforms.

The Company changed its name to Pure Harvest Cannabis Group, Inc. in February 2019.

The Company changed its name to Pure Harvest Corporate Group, Inc. on June 8, 2020.

The Company changed its name to Mixie Technologies, Inc. in November 2025. The market-facing corporate action for the name and ticker symbol change remains pending approval with FINRA. Accordingly, the Company continues to operate under the name Pure Harvest Corporate Group, Inc. for public reporting and trading purposes as of the date of this filing.

During the fourth quarter of 2025, the Company began its transition toward technology-focused operations through the acquisition of Mixie IP Holdings, LLC and Mixie Labs, LLC, which became wholly owned subsidiaries of the Company. The Company continued this focus in the first quarter of 2026 through the acquisitions of Mixie Realty, LLC and HoloTwin, LLC. These transactions are described further in Note 8.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These financial statements are presented in United States dollars and have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”).

In the opinion of management, the accompanying unaudited consolidated financial statements contain all accruals and adjustments (each of which is of a normal, recurring nature) necessary for a fair presentation of the Company’s financial position as of March 31, 2026, and the results of its operations for the period then ended.

Going Concern Basis of Accounting

The Company’s financial statements are prepared using accounting principles generally accepted in the United States (“U.S. GAAP”) applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. As reflected in the financial statements, the Company has an accumulated deficit balance of \$24,664,678 as of March 31, 2026, and has suffered significant net losses and negative cash flows from operations and has limited working capital. The net income in the current period is due to non-cash gains on the change in fair value of a derivative liability, and thus, does not constitute operating income. The Company expects to incur ongoing expenses for the foreseeable future related to the development and commercialization of potential future technologies. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it establishes a revenue stream and becomes profitable. Management’s plans to continue as a going concern include raising additional capital through sales of equity securities and borrowing. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans. If the Company is not able to obtain the necessary additional

Pure Harvest Corporate Group, Inc.

Notes to the Financial Statements

For the Period Ended March 31, 2026

(Unaudited)

financing on a timely basis, the Company will be required to delay, reduce the scope of, or eliminate one or more of the Company's research and development activities or commercialization efforts or perhaps even cease the operation of its business. These factors raise substantial doubt about the Company's ability to continue as a going concern for one year from the date the financials were issued.

The accompanying condensed financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The financial statements do not include any adjustments that might result from this uncertainty.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. The Company had no cash equivalents as of March 31, 2026 and December 31, 2025.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk primarily consist of cash. The Company maintains its cash in bank deposits accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk in cash.

Prepaid Expenses

Prepaid expenses consist primarily of short-term prepaid expenditures or deposits that will be amortized within one year.

Equity Method Investments

Affiliated companies, which are limited partnerships or similar entities, in which the Company holds more than a 3% to 5% ownership interest and does not control, are accounted for as equity method investments. Equity method investment adjustments include the Company's proportionate share of investee income or loss, adjustments to recognize certain differences between the carrying value and equity in net assets of the investee at the date of investment, impairments and other adjustments required by the equity method. Gains or losses are realized when such investments are sold. The Company classifies distributions received from equity method investments using the cumulative earnings approach in the Statements of Cash Flows. Under the cumulative earnings approach, distributions received up to the amount of cumulative equity in earnings recognized are treated as returns on investment and are classified within operating cash flows and those in excess of that amount are treated as returns of investment and are classified within investing cash flows.

Investments in equity method investees are evaluated for impairment as events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If the carrying amounts of the assets exceed their respective fair values, additional impairment tests are performed to measure the amounts of the impairment losses, if any. When an impairment test demonstrates that the fair value of an investment is less than its carrying value, management will determine whether the impairment is either temporary or other-than-temporary. Examples of factors which may be indicative of an other-than-temporary impairment include (a) the length of time and extent to which fair value has been less than carrying value, (b) the financial condition and near-term prospects of the investee, and (c) the intent and ability to retain the investment in the investee for a period of time sufficient to allow for any anticipated recovery in fair value. If the decline in fair value is determined by management to be other-than-temporary, the carrying value of the investment is written down to its estimated fair value as of the balance sheet date of the reporting period in which the assessment is made.

Income Taxes

Pure Harvest Corporate Group, Inc.

Notes to the Financial Statements

For the Period Ended March 31, 2026

(Unaudited)

In accordance with FASB ASC Topic 740, Income Taxes (“ASC 740”), the Company recognizes deferred tax assets and liabilities for the expected future tax consequences or events that have been included in our financial statements and/or tax returns. Deferred tax assets and liabilities are based upon the differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities and for loss and credit carryforwards using enacted tax rates expected to be in effect in the years in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company provides reserves for potential payments of tax to various tax authorities related to uncertain tax positions when management determines that it is more likely than not that a loss will be incurred related to these matters and the amount of the loss is reasonably determinable. No tax liabilities were recorded as of March 31, 2026 and December 31, 2025.

Segment Information

Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker (“CODM”), or decision-making group, in making decisions on how to allocate resources and assess performance. The Company has one operating segment.

Advertising Costs

Advertising and promotion costs are expensed as incurred. The Company had no material advertising expenses during the three months ending March 31, 2026 and March 31, 2025, respectively.

Research and Development

The Company expenses internal and external research and development costs, including costs of funded research and development arrangements, in the period incurred. The Company incurred \$0 in external research and development costs during the three months ended March 31, 2026 and March 31, 2025, respectively.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with the guidance of FASB ASC Topic 718, Compensation-Stock Compensation (“ASC 718”), which requires all share-based payments be recognized in the consolidated financial statements based on their fair values. In accordance with ASC 718, the Company has elected to use the Black-Scholes option pricing model to determine the fair value of options granted and recognizes the compensation cost of share-based awards on a straight-line basis over the vesting period of the award.

Net income (loss) per Common Share

Net income (loss) per common share is computed by dividing net income (loss) by the weighted average common shares outstanding during the period as defined by Financial Accounting Standards, ASC Topic 260, “Earnings per Share”. Basic earnings per common share (“EPS”) calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share calculations are determined by dividing the net income or loss by the weighted average number of common shares and dilutive common share equivalents outstanding during the period. For the three months ended March 31, 2026 and March 31, 2025, dilutive instruments consisted of convertible notes payable, options and warrants to purchase shares of the Company’s common stock totaling approximately 125.7 million and 125.4 million shares of common stock, respectively, the effects of which to the net income (loss) are anti-dilutive or would not impact, because net income per share was either negative or \$0.00.

Notes to the Financial Statements

For the Period Ended March 31, 2026

(Unaudited)

Related Party Transactions

Parties are considered to be related to the Company if the parties that, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions. All transactions shall be recorded at fair value of the goods or services exchanged. Property purchased from a related party is recorded at the cost to the related party and any payment to or on behalf of the related party in excess of the cost is reflected as a distribution to the related party.

Derivative Liabilities

The Company assessed the classification of its derivative financial instruments as of March 31, 2026 and December 31, 2025, respectively, which consist of convertible instruments and rights to shares of the Company's common stock and determined that such derivatives meet the criteria for liability classification under ASC 815.

ASC 815 generally provides three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free-standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument subject to the requirements of ASC 815. ASC 815 also provides an exception to this rule when the host instrument is deemed to be conventional, as described.

Convertible Instruments

The Company evaluates and accounts for conversion options embedded in its convertible instruments in accordance with professional standards.

ASC 480 "Distinguishing Liabilities From Equity" provides that instruments convertible predominantly at a fixed rate resulting in a fixed monetary amount due upon conversion with a variable quantity of shares ("stock settled debt") be recorded as a liability at the fixed monetary amount.

ASC 815 "Derivatives and Hedging" generally provides three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free-standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. Professional standards also provide an exception to this rule when the host instrument is deemed to be conventional as defined under professional standards as "The Meaning of "Conventional Convertible Debt Instrument".

The Company accounts for convertible instruments (when it has determined that the embedded conversion options should not be bifurcated from their host instruments) in accordance with professional standards when "Accounting for Convertible Securities with Beneficial Conversion Features," as those professional standards pertain to "Certain Convertible Instruments." Accordingly, the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying common stock at the commitment date of the note

Pure Harvest Corporate Group, Inc.

Notes to the Financial Statements

(Unaudited)

transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their earliest date of redemption. The Company also records when necessary deemed dividends for the intrinsic value of conversion options embedded in preferred shares based upon the differences between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note.

ASC 815-40 provides that, among other things, generally, if an event is not within the entity's control or could require net cash settlement, then the contract shall be classified as an asset or a liability.

Recently Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") and are adopted by us as of the specified effective date. We believe that the impact of recently adopted and recently issued accounting pronouncements will not have a material impact on our balance sheets, results of operations and cash flows.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740) – Improvements to Income Tax Disclosures (ASU 2023-09). ASU 2023-09 requires that an entity, on an annual basis, disclose additional income tax information, primarily related to the reconciliation rate and income taxes paid. The amendment in the ASU is intended to enhance the transparency and decision usefulness of income tax disclosures. The ASU's amendments are effective for annual periods beginning after December 15, 2024. The Company has adopted the improvements to income tax disclosure requirements with no significant impact on its disclosures.

Pure Harvest Corporate Group, Inc.

Notes to the Financial Statements

For the Period Ended March 31, 2026

(Unaudited)

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. This ASU enhances reportable segment disclosure requirements, primarily by requiring additional information about significant segment expenses. The standard is effective for annual reporting periods beginning after December 15, 2023, and interim periods beginning after December 15, 2024. The Company has adopted this and has updated its segment disclosures accordingly.

Recently Issued Accounting Pronouncements

ASU 2024-03: Income Statement (Topic 220): *Disaggregation of Income Statement Expenses*: The amendments in this ASU require public companies to disclose, in interim and year-end reporting periods, additional information about certain expenses in the financial statements. These disclosures are effective beginning with 2027 annual reports, and interim reports beginning with the first quarter of 2028. Early adoption is permitted on either a prospective or retrospective basis. The Company is currently assessing the potential impact of adoption of these provisions on the consolidated financial statements.

NOTE 3 – FAIR VALUE OF FINANCIAL INSTRUMENTS

ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. ASC 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input that is significant to the fair value measurement.

The fair value of financial instruments measured on a recurring basis is as follows as of March 31, 2026 and December 31, 2025:

| Description | As of March 31, 2026 | | | |
|--------------------------------|----------------------|---------|---------|------------|
| | Total | Level 1 | Level 2 | Level 3 |
| Liabilities: | | | | |

| Liabilities: | | | | |
| Derivative liabilities | \$ 132,934 | — | — | \$ 132,934 |
| Total | \$ 132,934 | \$ — | \$ — | \$ 132,934 |

None of the Company's other non-financial assets or liabilities are recorded at fair value on a non-recurring basis as of March 31, 2026 and December 31, 2025. There were no transfers between levels during the periods presented.

For the Company's derivative liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3), the following table provides a reconciliation of the beginning and ending balance for each category therein, and gains or losses recognized during the three months ended March 31, 2026:

| | |

NOTE 4 - LEASE AGREEMENTS

The Company currently operates on a remote basis and does not maintain a long-term lease obligation.

NOTE 5 - NOTES PAYABLE

During 2025, the Company entered into a series of debt settlement and exchange transactions pursuant to which outstanding notes and related obligations were settled, cancelled, restructured, exchanged, or otherwise extinguished, including through the issuance of Series A Preferred Stock and Series B Preferred Stock. As a result, the Company had no notes payable or convertible debt outstanding on its

balance sheet as of March 31, 2026. The Company had a gain on debt settlements of \$0 and \$3,196 during the three months ended March 31, 2026 and 2025, respectively.

NOTE 6 - STOCKHOLDER'S EQUITY

During the year ended December 31, 2025, the Company issued shares of common stock and preferred stock in connection with debt settlements, negotiated creditor resolutions, strategic transactions, and certain compensation arrangements. These issuances were recorded based on the fair value of the consideration exchanged or the market price of the Company's common stock on the date of issuance, as applicable.

On November 12, 2025, the Company issued 10,000 shares of Series A Preferred Stock and 20,000 shares of Series B Preferred Stock to IntelliNovus Holdings, LLC as consideration in connection with the acquisition of Mixie IP Holdings, LLC and Mixie Labs, LLC.

On October 20, 2025, the Company entered into a second exchange agreement with AJB Capital Investments, LLC pursuant to which the Company issued 8,018 shares of Series B Preferred Stock in exchange for (i) a \$12,000 promissory note and (ii) 10,000 shares of Series A Preferred Stock surrendered in connection with the transaction.

On August 5, 2025, the Company entered into an exchange agreement with AJB Capital, LLC in connection with the issuance of 4,783 Preferred B shares in settlement of \$4,765,140 of debt.

On August 1, 2025, the Company issued 250 shares of Series B Preferred Stock to Matthew Gregarek in connection with a debt settlement.

On June 30, 2025, the Company issued 12,871,456 common shares in connection with a final settlement of prior debt with Tim Topp. The shares were recorded at the market price on the date of issue of \$0.001 per share.

On June 30, 2025, the Company issued 4,348,864 common shares in connection with a final settlement of prior debt with Eric Boivin. The shares were recorded at the market price on the date of issue of \$0.001 per share.

On June 30, 2025, the Company, by mutual written agreement with David Burcham wrote off approximately \$830,000 of notes and \$263,625 of accrued interest. No shares were issued in connection with this transaction.
