Notes to the Financial Statements

(Unaudited — Presented in accordance with U.S. GAAP)
For Period Ending December 31, 2025 (Unaudited)

Note 1 - Organization and Business

Buyer Group International, Inc. (the Company), a Nevada corporation, founded in 1994 (Curlaw Resource Corporation) and its OTC ID Ticker is BYRG. The core business of the Company is researching properties and executing leases for mineral exploration.

Legacy Asset Disclaimer and Disavowal

The Company affirms that it does not recognize, assert, or carry forward any assets, liabilities, rights, or business interests from extinguished corporate entities, trust affiliations, or discontinued operations any entity that pre-date its 2011 failed domestication in Wyoming (expired 2014). The cap Table in Wyoming was issued *Ultra Vires* outside of corporate authority.

Any references to historical projects, legacy equity issuances, or asset valuations are included solely for transparency and do not reflect any current or future corporate claim, ownership, or intention to assume, revive or monetize such assets. Prior debt obligations were subject to Reverse Splits 50,000:1 and 200:1 and are effectively discharged and diluted into nothing per the note provisions.

All such pre 2011 items have been fully disavowed and excluded from the Company's financial position. The Company disclaims and disavows any successor status or continuity with entities post 2011 and expressly excludes any such past-related operations from its current business plan, financial reporting, or regulatory filings.

Note 2 – Summary of Significant Accounting Policies

The Company maintains its cash in bank deposit accounts, which at times may exceed federally insured limits. The Company has not experienced any losses in such accounts and management believes that it is not exposed to any significant credit risk for cash.

Prior-Period Reclassification

Reclassification and Impairment of Development Costs

Certain amounts for the years ended December 31, 2023 and December 31, 2024 have been reclassified to conform to the current period's U.S. GAAP presentation. Development costs previously capitalized for mineral property and discontinued operations were reviewed in the current period and determined to have no continuing economic value. These amounts were written off as a one-time impairment and are not carried forward, other than through their effect on accumulated retained earnings. While some of these amounts may have been previously reported under Section 181 of the Internal Revenue Code for Jobs Act R&D purposes, they are now classified as impairments in prior years, with current period amounts reflecting GAAP presentation.

Principles of Consolidation

The accompanying consolidated financial statements present the consolidated balance sheet, consolidated statement of income and consolidated statement of cash flows of Buyer Group International, Inc. and its subsidiary. All significant inter-company transactions and balances have been eliminated. Spin-outs, equity carve-outs, and split-offs have been recorded as impairments to Goodwill and against retained earnings, while income will be recorded under investments in the income portion of the financial statements.

Investment Trusts, Vendors, Advisors

In 2011, Buyer Group International, Inc. held no prior affiliations with third-party trust-related entities and/or had ceased any advisory or management activities associated with any prior vendors or entities previously engaged without continuity.

The Company determined that any implied or contingent goodwill related to past affiliations was speculative, non-recoverable, and posed legal and compliance risks. Accordingly, no goodwill associated with these assets is recognized on the Company's books, and no future gains or impairments will be recorded in relation to them.

Management affirms that there is no balance sheet or income statement impact from these discontinued relationships. This disclosure is provided solely for historical transparency.

BYRG maintains no non-current inventory as of March 31, 2026, look for Mineral Development. Probable Reserves here in the future upon validation.

This value is not recognized under U.S. GAAP, but is disclosed here for reference. No reserves have yet been certified under S-K 1300 or NI 43-101.

Non-operational land leases are capitalized when appropriate. As of March 31, 2026, the Company carries no lease-related liability on land, with the balance recorded at \$0.00 under liabilities. Annualized leasing fees are Capitalized as part of Mineral Property (PP&E) which consists solely of the expenditures for R&D of the property's development for sale or lease.

Capitalized Historic Mine Value – New Rambler Project

The Company has assigned a capitalized value of **\$550,000** to the New Rambler Mine Project located in Albany County, Wyoming, based on its status as a historic producing asset with existing underground development, documented past copper and PGE output, and legally held claim rights.

This value reflects the aggregate of infrastructure, historic geological data, surface and mineral rights, and site access. The mine is not currently producing and has not been subject to NI 43-101 or S-K 1300 resource classification. However, its prior production history supports classification as a development-stage asset with potential future economic utility.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts and assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The company no guarantees and reporting is on a best efforts basis. For question, contact the company.

Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes* (SFAS 109), which applies the liability method. Note 3 - Subsidiaries

No subsidiary relationships currently exist.

Note 4 - Commitments and Contingencies

Qtr Ending March 31, 2026:

Claims

In December 2024, a civil action was filed in Florida district court naming a dissolved company that formerly shared the same name as the current Company. The claims are time-barred under applicable law, as the prior entity was statutorily dissolved in 2014, and they have no merit as to the current Company.

The historical legacy shares at issue arose from a private placement involving a party later determined to be a "disqualified person" under SEC Rule 506(d) due to a prior felony conviction. These shares were issued by the dissolved entity and, following review, were classified as **void ab initio** and carry no value. No proceeds, benefits, or enrichment from these shares were ever received by the current Company.

There is no merger, reorganization, or legal continuity between the current Company and the dissolved entity. The current Company has not assumed any liabilities, obligations, or affiliations from legacy operations, and no rights, duties, powers, or shareholder claims are recognized from the disputed issuance. Any discontinued legacy share amounts shown in historical financial statements are presented solely for transparency and have no financial impact on the Company.

The original SEC-disqualified "bad actor" is understood to have held unresolved obligations, which they attempted to offset through external adjustments during prior recapitalization efforts. The Company does not recognize any liability in this matter, and no such liability has been claimed. Any material developments will be disclosed in accordance with ASC 450-20 and applicable GAAP reporting standards.

This disclosure *supersedes* all prior disclosures regarding legacy equity and serves as the Company's definitive statement for current and future OTC Markets filings.

Going Concern

As indicated via financial statements, as of March 31, 2026, the Company's current liabilities exceeded its current assets. These factors create an uncertainty about the Company's ability to continue as a going concern. Management has developed a plan to reduce its liabilities through the sale of assets and raising additional capital. The ability of the Company to continue as a going concern is dependent on acquiring this additional capital. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Note 5 - Stockholders' Equity

The Company initially authorized 25,000 shares of common stock upon its incorporation in 1994, in 2006, that was expanded to 400,000,000 authorized. The 2017 Wyoming company of the same name Articles of Organization were silent on continuity, which has been disavowed herein. The two are not legally related and the Shareholder Equity is listed as a matter of courtesy to the Shareholders of BYRG Nevada, and the PPM capital raise interest is listed herein as part of the record of interest in the lease.

In 2006, Authorized Capital was raised to 400,000,000. And later Class A preferred Shares of 1 million mostly granted to David A. Bryant, or his nominee.

Issued & Outstanding Shares

The "Issued & Outstanding" balance represents the total number of common shares issued by the Company and not held in treasury as of the reporting date. This amount excludes shares identified as void, cancelled, or otherwise retired, including those related to prior legacy capital structures from failed domestication attempts. The figure also excludes any authorized but unissued shares and is presented net of overhang or defaulted subscription amounts recorded as contra-equity in "Stock Subscriptions Receivable."

The "Issued & Outstanding" balance represents the total number of common shares issued by the Company and not held in treasury as of the reporting date. This amount excludes shares identified as void, cancelled, or otherwise retired, including those related to prior legacy capital structures. The figure also excludes any authorized but unissued shares and is presented net of overhang or defaulted subscription amounts recorded as contra-equity in "Stock Subscriptions Receivable."

The officers and directors of the Company are involved in other business activities and may, in the future become involved in other business opportunities. If a specific business opportunity becomes available, such person may face a conflict in selecting between the Company and their other business interest. The Company has not formulated a policy for the resolution of such conflicts.

Note 7 - Investment Notes, Loans and Notes Payable, Contingent Liabilities

Investment Notes

In 2011 to 2018, the company made various Research Investments into Crypto Mining, Crypto Wallets, BTC coins, etc. The trading operations ceased in 2018 on crypto and in 2019 all accounts were closed and the company searched for other developments in the Futures trading arena 2019 through 2020, eventually developing its own code which has since been released to Principal Dave Bryant in exchange for reversionary Common Stock. R&D totaled 384,499 and was removed from the books in 2022.

The asset was removed from the books as of fiscal year 2021 and is reported at \$0 on the current balance sheet. Related professional fees, if any, are reflected under **Accounts Payable**. This loss carry-forward will be kept off book and may be applied in the future.

Loans & Notes Payable

Prior to the failed Domestication into Wyoming – As of December 31, 2022 the Company has one account payable to the Small Business Administration totaling \$24,500 payable over 30 years at \$100 per month and no other outstanding debt, convertible or otherwise outside of accounts payable. Prior Notes held by Debt Holders were subject to RS provisions and have been effectively discharged, downstream issuances were not adjusted, resulting in massive over-issuance into the secondary market.

Stock Subscriptions Receivable

Represents unpaid amounts on subscribed shares, including a portion from a 2020 agreement returning substantial blocks previously subscribed by David Bryant. Amounts determined uncollectible have been impaired and removed from current stockholders' equity as a contra-equity item. These balances may also reflect shares retired for services, other consideration, or from legacy cap table holdings, and are not solely related to prior material events.

The Company affirms that certain **overhang shares** issued under prior Financial Obligations have been fully discharged, and are not carried forward onto this balance sheet other than for historical records purposes. These legacy issuances were **abandoned, disavowed, or disqualified**—including under SEC Rule 506(d)—and are considered **null and void**, and were extinguished from the legacy shares noted for historical purposes only.

These shares **do not appear on the Company's authorized or outstanding share ledger** and carry **no conversion, voting, or economic rights**, and required no formal extinguishment as they were never validly reissued or adopted under the current corporate charter.

The Company affirms that all recorded goodwill related to defunct entities or operations thereof, prior capitalization, or historical share issuances—including any associated with entities dissolved prior to 2014—has been fully impaired and removed from the financial statements as invalid given no mergers or acquisitions with previous groups were ever ratified. The company herein disavows any connection to past entity capitalization structures or tables thereof.

No goodwill currently recorded on the Company's books reflects any asset, operation, or obligation from discontinued business lines, including crypto holdings, software development, or real estate leases previously controlled or held by prior principals.

Contingent Liabilities

This portion of the balance sheet is a reflection of a potential liability, contingent upon declaration by the Issuer of a dividend to the recipient based upon the placement of utilization of assets. In the past the company chose to carry contingent expense amortized but has since made changes to its policy and will no longer bear such future potential expenses as a liability. As of Q4 2024 BYRG entered a Vendor dispute with Hard Rock Consulting LLC for a total of \$27,282. This is recorded here, not under accounts payable as it is a contingent liability only, and outcome of the dispute is uncertain, noted per ASC 450.
