Each Common Share is entitled to one vote cast at any meeting of shareholders, and is entitled to participate in dividends and liquidation pro rata, if and when declared by the Board of Directors. There are no preemptive rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

RESTATED
Certificate of Designation
Preferred Stock Class:
Special 2022 Series A Preferred Stock
Autris

DESIGNATION AND AMOUNT

The designation of this series consists of one (1) share of Special 2022 Series A Preferred Stock and is the Series A Preferred Stock (the 'Series A Preferred Stock').

DIVIDENDS

The Holder of Series A Preferred Stock will not be entitled to receive dividends of any kind, including but not limited to dividends paid on Common Stock.

CONVERSION

The Holder of the Series A Preferred Stock shall have the right to convert shares of the Series A Preferred Stock at the conversion ratio of forty-five million (45,000,000) shares of Common Stock for each single (1) share of Series A Preferred Stock. Shares of Series A Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the same number of Common Shares after the reverse split as would have been prior to the reverse split. The conversion rate of the Series A Preferred Stock would increase proportionately in the case of forward splits and may not be diluted by a reverse split following a forward split.

LIQUIDATION PREFERENCE

The Series A Preferred Stock shall not have any liquidation rights with respect to liquidation preference upon the event of any liquidation, dissolution or winding up of the Corporation.

VOTING RIGHTS

If at least one share of Series A Preferred Stock is issued and outstanding, then the total aggregate issued shares of Series A Preferred Stock at any given time, regardless of their number, shall have voting rights equal to three (3) times the sum of: The total number of shares of Common Stock which are issued and outstanding at the time of voting, plus, the total number of votes granted to any preferred stock series which are issued and outstanding at the time of voting

Each individual share of Series A Preferred Stock shall have the voting rights equal to three times the sum of all shares of Common Stock issued and outstanding at the time of voting plus the cumulative voting rights of all preferred stock series issued and outstanding at the time of voting divided by the number of shares of Series A Preferred Stock issued and outstanding at the time of voting.

Certificate of Designation

Preferred Stock Class:

Series B

Autris

DESIGNATION AND AMOUNT

The designation of this series consists of five million (5,000,000) shares of Preferred Stock and is the Series B Preferred Stock (the 'Series B Preferred Stock').

DIVIDENDS

The Holder of Series B Preferred Stock will not be entitled to receive dividends of any kind when, and if, declared by the Board of Directors at their sole discretion.

CONVERSION

- a. The Holder of the Series B Preferred Stock shall have the right, from time to time, to convert shares of the Series B Preferred Stock at the conversion ratio of five (5) shares of Common Stock for each single (1) share of Series B Preferred Stock. Shares of Series B Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the same number of Common Shares after the reverse split as would have been equal to the ratio herein prior to the reverse split. The conversion rate of the Series B Preferred Stock would increase proportionately in the case of forward splits, and may not be diluted by a reverse split following a forward split.
- b. If at any time or times after the issuance of Series B Preferred Stock to the Holder, the Company proposes for any reason to register any shares of its Common Stock for public sale under the Securities Act of 1933, as amended (whether in connection with a public offering of securities by the Company, a secondary offering of securities by stockholders of the Company, or both), the Company will promptly give written notice thereof to the Holder, such notice to include a brief description of the proposed registration and offering including the total proposed size, other anticipated selling shareholders, identity of the underwriter (if any), and anticipated range of offering prices. Within ten (10) days after receipt of such notice, the Holder may elect in writing to include a portion of his Series B Preferred Stock converted into the Company's Common Shares (including all vested options to purchase shares) for sale and registration in such proposed offering, in which case the Company will effect the registration under the Securities Act of 1933 of all such shares (and options) requested by the Holder up to the total number of the Holder's shares (including options). The Company shall not be required to include any shares of the Holder unless the Holder accepts the standard and customary terms of the underwriting as reasonably agreed upon by the Company and the managing underwriter(s) for such offering. The Company will bear all costs associated with the inclusion of the Holder's shares in any offering.
- c.

LIQUIDATION PREFERENCE

The Series B Preferred Stock shall have liquidation rights with respect to liquidation preference upon the event of any liquidation, dissolution or winding up of the Corporation, either voluntary or involuntary equal to the number of shares of Common Stock as if all Series B Preferred Shares remaining issued and outstanding were converted to Common Stock.

VOTING RIGHTS - Each share of Series B Preferred Stock shall have ten (10) votes for any election or other vote placed before the shareholders of the Company.

Waiver. Notwithstanding any provision in this Certificate of Designation to the contrary, any provision contained herein and any right of the Holder of Series B Preferred Stock granted hereunder may be waived as to all shares of Series B Preferred Stock (and the Holder thereof) upon the written consent of the Holder.

Certificate of Designation

Preferred Stock Class:

Series C

Autris

DESIGNATION AND AMOUNT

The designation of this series consists of five million (5,000,000) shares of Preferred Stock and is the Series C Preferred Stock (the 'Series C Preferred Stock').

DIVIDENDS

The Holder of Series C Preferred Stock will not be entitled to receive dividends of any kind when, and if, declared by Board of Directors at their sole discretion.

CONVERSION

- d. The Holder of the Series C Preferred Stock shall have the right, from time to time, to convert shares of the Series C Preferred Stock at the conversion ratio of thirty (30) shares of Common Stock for each single (1) share of Series C Preferred Stock. Shares of Series C Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the same number of Common Shares after the reverse split as would have been equal to the ratio herein prior to the reverse split. The conversion rate of the Series C Preferred Stock would increase proportionately in the case of forward splits, and may not be diluted by a reverse split following a forward split.

- e. If at any time or times after the issuance of Series C Preferred Stock to the Holder, the Company proposes for any reason to register any shares of its Common Stock for public sale under the Securities Act of 1933, as amended (whether in connection with a public offering of securities by the Company, a secondary offering of securities by stockholders of the Company, or both), the Company will promptly give written notice thereof to the Holder, such notice to include a brief description of the proposed registration and offering including the total proposed size, other anticipated selling shareholders, identity of the underwriter (if any), and anticipated range of offering prices. Within ten (10) days after receipt of such notice, the Holder may elect in writing to include a portion of his Series C Preferred Stock converted into the Company's Common Shares (including all vested options to purchase shares) for sale and registration in such proposed offering, in which case the Company will effect the registration under the Securities Act of 1933 of all such shares (and options) requested by the Holder up to the total number of the Holder's shares (including options). The Company shall not be required to include any shares of the Holder unless the Holder accepts the standard and customary terms of the underwriting as reasonably agreed upon by the Company and the managing underwriter(s) for such offering. The Company will bear all costs associated with the inclusion of the Holder's shares in any offering.

LIQUIDATION PREFERENCE

The Series C Preferred Stock shall have liquidation rights with respect to liquidation preference upon the event of any liquidation, dissolution or winding up of the Corporation, either voluntary or involuntary equal to the number of shares of Common Stock as if all Series C Preferred Shares remaining issued and outstanding were converted to Common Stock.

VOTING RIGHTS - Each share of Series C Preferred Stock shall have one (1) vote for any election or other vote placed before the shareholders of the Company.

Waiver.

Notwithstanding any provision in this Certificate of Designation to the contrary, any provision contained herein and any right of the Holder of Series C Preferred Stock granted hereunder may be waived as to all shares of Series C Preferred Stock (and the Holder thereof) upon the written consent of the Holder.

4) Issuer’s Business, Products and Services

The purpose of this section is to provide a clear description of the issuer’s current operations. Ensure that these descriptions are updated on the Company’s Profile on www.OTCMarkets.com.

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

⁵ The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any “blockers” or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

FREEDOM AND SUSTAINABILITY ORIENTED COMMUNITY CREATOR Autris is the holding company for EcoVillages, the developer of the Veritas Villages freedom and sustainability-oriented communities throughout Latin America, and Vida Verde, an agroforestry development company. Autris is breaking ground with Veritas Villages by creating a new concept in community living based on its own F.I.R.S.T. philosophy (Freedom, Independence, Resilience, Sustainability and Transparency). Political divisiveness and authoritarian leaning governments are gripping the western world, and an ever-expanding group of informed people are looking to break free from it. Autris provides the solution by creating Veritas Village freedom and sustainability- oriented communities throughout Latin America. Vida Verde Agroforestry provides the opportunity to not only own lucrative producing land in our teak and avocado agroforestry projects, but also to use the ownership of these parcels to apply for a second residency and ultimately citizenship in various countries in Latin America. Many people looking for a freedom and sustainability-oriented lifestyle are also wanting to have multiple residencies. The combination of a Veritas Village community home and residency through the investment in the home or through Vida Verde Agroforestry parcels gives our clients both a landing pad and residency and is a powerful solution that makes Autris a whole new asset class with high expansion potential.

Foreign Currency Translation

The condensed consolidated financial statements are presented in United States dollars, which is the functional currency of the Company. The functional currency of the Company's assets in Nicaragua is the Nicaraguan Cordoba. The functional currency of the Company's assets in Costa Rica is the Colon. Transactions in foreign currencies are initially recorded in the entity's functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange prevailing at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value is determined. All gains and losses on translation of these foreign currency transactions are included in profit or loss. Assets and liabilities are translated into United States dollars at the exchange rate in effect on the date of the statement of the financial position. Gains, expenses and equity items are translated at the exchange rates approximating those in effect on the date of the transactions. Gains and losses from these translations are recognized in accumulated other comprehensive income (loss).

These unaudited consolidated financial statements have been prepared using the accrual basis of accounting, and fair value accounting where appropriate, except for cash flow information.

2. Material Accounting Policies

Principles of consolidation

These consolidated financial statements include the financial statements of the Company and its subsidiaries.

Autris consolidates subsidiaries controlled by the Company. Control exists when the Company is exposed, or has the rights, to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries. The financial results of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All inter-company balances, transactions, revenues, and expenses are eliminated.

The following notes are an integral part of these consolidated financial statements

Going Concern

These unaudited consolidated financial statements have been prepared on a going-concern basis, which implies that the Corporation will continue realizing its assets and discharging its liabilities in the normal course of business for the foreseeable future. As reflected in the unaudited condensed consolidated financial statements, the Corporation is now entering its commercialization of its properties and recording revenue. Accordingly, the ability of the Corporation to realize the carrying value of its assets and continue operations as a going concern is dependent upon its ability to generate sustainable future profitable operations. Management anticipates that the continued generation of revenues from its planned development communities both through rental income, and sales of lots and houses will enable the Corporation to achieve sustainable profitability, however there is no assurance that any of these initiatives will be successful. Factors within and outside the Corporation's control could have a significant bearing on its ability to obtain additional financing or on the generation of revenues. These unaudited consolidated financial statements do not include any adjustments related to the carrying values and classifications of assets and liabilities that would be necessary should the Corporation be unable to continue as a going concern. Such adjustments could be material.

a) Basis of measurement

These consolidated financial statements have been prepared using the measurement basis specified by IFRS for each type of asset, liability, revenue and expenses.

b) Significant judgments, estimates, and assumptions

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

Accounting policy choices that have the most significant effect on the amounts recognized in these consolidated financial statements are as follows:

c) Digital assets and inventory

The Company's Digital Assets consist of Bitcoin, Ethereum and Solana, which are recorded at fair value using the revaluation model under IAS 38 with changes in fair value recorded in other comprehensive income. There was significant judgement applied by the Company in making this assessment as accounting for cryptocurrencies depends on the nature of the asset, the use of the asset including the expected timeline or use, and how the asset is held. This judgement included consideration of the operations, strategy and intent of management.

The following notes are an integral part of these consolidated financial statements

Contingencies

The Company accrues for estimated loss contingencies related to legal and regulatory matters when available information indicates that it is probable a liability has been incurred and the Company can reasonably estimate the amount of that loss. In many proceedings, however, it is inherently difficult to determine whether any loss is probable or even possible or to estimate the amount of any loss. In addition, even where a loss is possible or an exposure to loss exists in excess of the liability already accrued, it is often not possible to reasonably estimate the size of the possible loss or range of loss possible or additional losses.

Impairment of non-financial assets

The Company performs impairment testing annually for non-financial assets, as well as when circumstances indicate that there may be impairment for these assets. Management judgement is involved in determining if there are circumstances indicating that testing for impairment is required.

The Company assesses impairment by comparing the recoverable amount of a long-lived asset to its carrying value. The recoverable amount is defined as the higher of: (i) value in use; or (ii) fair value less cost to sell. The determination of the recoverable amount involves management judgement and estimation. These estimates and assumptions could affect the Company's future results if the current estimates of future performance and fair values change.

Estimation uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year:

Useful life of property and equipment, and intangible assets

Property and equipment, and intangible assets are depreciated over their estimated useful lives. Estimated useful lives are determined based on current facts and past experience and take into consideration the anticipated physical life of the asset, the potential for technological obsolescence, and regulations. Accordingly, these estimates are subject to measurement uncertainty.

Digital asset and inventory valuation

Digital assets are measured at fair value using the quoted price on Coinmarketcap. Coinmarketcap is a pricing aggregator, as the principal market or most advantageous market is not always known. The Company believes any price difference amongst the principal market and an aggregated price to be immaterial. Management considers this fair value to be a Level 2 input under IFRS 13 Fair Value Measurement fair value hierarchy as the price on this source represents an average of quoted prices on multiple digital currency exchanges.

The following notes are an integral part of these consolidated financial statements

Earnings per share

The calculation of earnings per common share is based on the reported net income divided by the weighted average number of shares outstanding during the period. Diluted earnings per share is calculated on the treasury stock basis. Where potentially dilutive equity instruments are anti-dilutive, basic and diluted earnings per share are the same.

Share based compensation

Estimating fair value for granted stock options, warrants, and other equity instruments, requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. The company utilizes the Black-Scholes options pricing model. This estimate also requires determining the most appropriate input to the valuation model including the expected life of the option, volatility, dividend yield, and rate of forfeitures and making assumptions about them. As such, management's assessment of the above inputs could be affected, if material changes in assumptions occurred. Accordingly, these estimates are subject to measurement uncertainty.

Business Combinations and Investment in Subsidiaries

The consolidated financial statements incorporate the results of subsidiaries using the acquisition method. In the statement of financial position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognized at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained. They are deconsolidated from the date on which control ceases.

Goodwill

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests (if any) in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognized immediately in profit or loss as a bargain purchase gain.

When the consideration transferred by the Company in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition date fair value, and included as part of the consideration transferred in a business combination.

Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill.

Measurement period adjustments are adjustments that arise from additional information obtained during the

The following notes are an integral part of these consolidated financial statements

‘measurement period’ (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date. The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognized in profit or loss.

d) Basis of consolidation

These consolidated financial statements incorporate the financial statements of the Company and its wholly owned subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The consolidated financial statements include the accounts of the Company and its direct wholly-owned subsidiaries. All significant inter-company transactions and balances have been eliminated.

Consolidated subsidiaries:

Name of Subsidiary	Place of Incorporation	Ownership
Veritas Village Holdings, Panama S.A	Panama	100%
EcoVillages Designs, S.A	Panama	100%
EcoVillages LLC	Wyoming, United States	100%
Vida Verda Holdings Panama S.A	Panama	100%
Plus Odds, Inc.	Panama	100%
Lion Shark Limited	Belize	100%
Cas Restuarante Holdings, S.A	Nicaragua	100%
Finca Paso Fino de Las Vegas S.A	Costa Rica	51%
BitCorp Capital	Wyoming, United States	100%

The following notes are an integral part of these consolidated financial statements

e) Property, Plant and Equipment

The Company's Land, Property and Equipment items are carried at cost plus revaluation surplus, (if any) less accumulated depreciation and accumulated impairment losses. Depreciation is recognized using the following annual rates:

	Estimated Useful Lives
Furniture and Fixtures	5 - 10 years
Computer Equipment	3 - 5 years
Vehicles	5 - 10 years
Machinery	10-15 years
Land	Not depreciated

Property and equipment that is withdrawn from use or has no reasonable prospect of being recovered through use or sale, are regularly identified and written off.

The assets' residual values, depreciation methods and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Subsequent expenditure relating to an item of property and equipment is capitalized when it is probable that future economic benefits from the use of the assets will be increased. All other subsequent expenditures are recognized as repairs and maintenance expenses.

f) Goodwill

Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed in a business combination. If this consideration is lower than the fair value of the net assets acquired, the difference is recognized as a gain for the period. After initial recognition, goodwill is recognized at cost less any accumulated impairment losses.

Goodwill is tested for impairment annually or more frequently when circumstances indicate that the carrying value may be impaired. Impairment is determined by assessing the recoverable amount of each operating segment to which the goodwill relates. Where the recoverable amount of the operating segment (including the carrying value of the allocated goodwill) is less than the carrying value, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

g) Revenue Recognition

The Company recognizes revenue when it has persuasive evidence of a contract, performance obligations have been identified and satisfied, payment items have been identified, and it is probable that the Company will collect.

h) Share Based Transactions

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

The Company uses a fair value-based method (Black-Scholes Option Pricing Model) for all share options granted to directors, employees and non-employees. For directors and employees, the fair value of the share options is measured at the date of grant. For grants to non-employees where the fair value of the goods or services is not determinable, the fair value of the share options is measured on the date the services are received.

The fair value of share-based payments is charged to profit or loss, with the offsetting credit to contributed surplus. For directors, employees and consultants, the share options are recognized over the vesting period based on the best available estimate of the number of share options expected to vest. If options vest immediately, the expense is recognized when the options are issued. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognized in the current period. No adjustment is made to any expense recognized in prior periods where the options have vested. For non-employees, the share options are recognized over the related service period. When share options are exercised, the amounts previously recognized in contributed surplus are transferred to share capital.

i) Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

j) Leases

The Company assesses whether a contract is or contains a lease, which is the right to control the leased asset's use, at the inception of a contract. The Company recognizes a ROU asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, at the commencement of the lease, with the following exceptions: (i) the Company has elected not to recognize ROU assets and liabilities for leases where the total lease term is less than or equal to 12 months, or (ii) for leases of low value. The payments for such

leases are recognized in the consolidated statement of loss and comprehensive loss on a straight-line basis over the lease term.

The ROU asset is initially measured based on the present value of lease payments, lease payments made at or before the commencement day, and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses. The ROU asset is depreciated over the shorter of the lease term or the useful life of the underlying asset. The ROU asset is subject to testing for impairment if there is an indicator of impairment.

The lease liability is initially measured at the present value of lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate. Lease payments include fixed payments less any lease incentives, and any variable lease payments where variability depends on an index or rate. When the lease contains an extension or purchase option that the Company considers reasonably certain to be exercised, the cost of the option is included in the lease payments.

ROU assets are presented separately from property and equipment, and the lease liability is presented as a separate line in the consolidated statement of financial position. Variable lease payments that do not depend on an index or rate are not included in the measurement of the ROU asset and lease liability. The related payments are recognized as an expense in the period in which the triggering event occurs and are included in the consolidated statement of loss and comprehensive loss.

k) Reclassification

Certain amounts in prior periods have been reclassified to better reflect the nature of the expenditures reported.

10. Deferred Revenue

Deferred Revenue consists of payments paid by customers for future homes or lots according to a contractual agreement. Deferred revenue is converted to actual revenue once the home or lot is delivered to the customer, or substantially all the terms of the contract have been met. As at March 31st, 2026 the company had \$9,240,484 in deferred revenue that is expected to become revenue in fiscal 2026.

11. Deferred Taxes

The Company accounts for income taxes under IAS 16, which requires use of the liability method. IAS 16 provides that deferred tax assets and liabilities are recorded based on the differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, referred to as temporary differences. The company has recorded a deferred tax liability of \$5,051,820 as adjusted to provide for the future taxes payable as a result of the differential in the adjusted fair market value of assets on the financial statements and their cost base.

12. Partnership Interests

The company maintains several partnerships involving profit sharing and risk sharing on home and infrastructure construction. The company accounts for this as a liability until the partnership objects are met, or the partnership is dissolved, and profits or losses disbursed. 14. Prior Period Adjustments

The company has adjusted the revaluation surplus account for June 30th, 2024 by \$1,170,000 and June 30th, 2025 by \$3,881,820 to adjust for the inclusion of a Deferred Tax Liability that will arise from the differential between the purchase price of certain assets and the revaluation of those assets to the fair market value as of those dates. The effect of these adjustments will have no impact of the profit or loss during those periods, but will decrease the revaluation surplus account by \$ 5,051,820 and increase the Deferred Tax Liability account by the same amount.

15. Management of Capital

The Company's objectives when managing capital are:

- Maintaining adequate liquidity reserves and access to capital.
- Ensuring sufficient liquidity to support its corporate and administrative functions as well as being able to execute on strategic initiatives.
- Minimizing the impact of the current market and economic conditions through active capital management.

The Company manages its capital structure in a manner that provides sufficient funding for operational and capital expenditure activities. Funds are secured, when necessary, through debt funding or equity capital raised by means of private placements. There can be no assurances that the Company will be able to obtain debt or equity capital in the case of working capital deficits.

FINANCIAL INSTRUMENT RISK AND CAPITAL MANGEMENT

The Company may be exposed to various financial risks, which could affect its ability to achieve its strategic objectives. The main objectives of the Company's risk management strategy is to ensure that risks are properly identified and that the capital base is adequate in relation to those risks.

The Company's approach to managing financial risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company may seek additional financing through debt or equity offerings, but there can be no assurance that such financing will be available on terms acceptable to the Company or at all. Any equity offering will result in dilution to the ownership interests of the Company's shareholders and may result in dilution to the value of such interests.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank accounts and receivables. The bank accounts are mainly held with a major

U.S bank and through the Panamanian Subsidiary of a Central and South American regional banking group, rated BBB+ by Moodys and Pacific Credit Rating (PCR) with a positive outlook, reducing the risk to the Company. Bank balances in the U.S are insured up to \$250,000 through the FDIC. Receivables are due primarily from customers for land and house purchases whereby the property title is held in the name of the company until full payment is made.

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it has sufficient working capital to meet liabilities when due. As at March 31st,2026, the Company had current assets of \$6,710,650 to settle current liabilities of \$797,390.

Foreign Currency Risk

The Company is exposed to foreign currency risk on fluctuations related to cash and cash equivalents, receivables, and accounts payable and accrued liabilities that are denominated in Nicaraguan Cordoba's and Costa Rican Colones.

Supplemental Disclosure with respect to cash

The company maintains bank accounts in different jurisdictions including the United States and Panama. The company banks with the largest bank in the United States and maintains account balances including term deposits which exceed the Federal Deposit Insurance Corporation guarantees. (FDIC) In addition, the company has bank accounts in Panama with a large regional bank rated BBB+ by Moodys with a stable outlook. Cash on hand and in term deposits was \$ 2,410,243 as at March 31st, 2026.
