**1. NATURE OF OPERATIONS AND LIQUIDITY RISK**

Transoceanic Investments Inc. (Previously "Mason Resources Inc.") ("Transoceanic" or the "Company") was incorporated on March 15, 2011 under the *Business Corporations Act* (Ontario) and was continued under the *Canada Business Corporations Act* effective March 3, 2016. The Company's head office is located at 26-1501 Av. McGill College, Montréal, Québec, H3A 3M8, Canada.

Transoceanic is a Canadian corporation focused on investment opportunities in minerals and materials, notably battery-related materials and their by-products and includes the development of value-added products, notably for green technologies like transport electrification.

These unaudited condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the most recent reporting period. As at March 31, 2026, the Company had a working capital (not including investments) of \$7,685,651 (June 30, 2025 - \$1,179,130), an accumulated deficit of \$82,634,459 (June 30, 2025 - \$94,308,868) and a net income from continuing operations of \$11,674,409 (March 31, 2025 - \$5,433,250) for the nine months ended March 31, 2026. Working capital included a cash balance of \$7,467,114 (June 30, 2025 - \$3,600,401).

Management believes that the Company has sufficient funds to meet its obligations, operating expenses and some development expenditures for the next 12 months. Should it become required to obtain additional financing, the Company can raise funds in various ways, including through strategic partnerships, joint venture agreements, debt project financing or other options offered by financial markets. While management has been successful in securing financing in the past, there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available for the Company or that they will be available on terms which are acceptable to the Company.

These financial statements were reviewed, approved and authorized for issue by the Board of Directors on May 28, 2026.

**2. MATERIAL ACCOUNTING POLICIES**

**a) Basis of presentation**

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of May 28, 2026, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended June 30, 2025, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending June 30, 2025 could result in restatement of these unaudited condensed interim financial statements.

**11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

The Company's risk exposures and the impact on the Company's financial instruments are summarized below.

Credit

The Company's cash is held in accounts with Canadian chartered banks. Management believes that the credit risk with respect to these financial instruments is minimal.

Liquidity

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's accounts payable and accrued liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital and maintain liquidity (Note 1).

Fair value

The Company has determined that the carrying value of its short-term financial assets and financial liabilities, measured at amortized costs including cash and accounts payable and accrued liabilities approximates their carrying value due to their short-term maturities.

*Fair value hierarchy*

The Company's investment portfolio is measured using the most reliable measure of fair value and range from level 1 to level 3 inputs. During the nine months ended March 31, 2026, there were no transfers between levels. The Company's measurement of the fair value of financial instruments as at March 31, 2026 and June 30, 2025 in accordance with the fair value hierarchy is as follows:

<b>Investments</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
March 31, 2026	32,386,998	1,250,963	1,000,000	34,637,961

<b>Note receivables</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
March 31, 2026	-	-	1,166,519	1,166,519
June 30, 2025	-	-	1,042,533	1,042,533
<b>Bonus payable</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
March 31, 2026	-	-	-	-
June 30, 2025	-	2,576,000	-	2,576,000

*Level 2 Hierarchy*

The Company determines the fair value of the bonus payable based on the underlying NMG common shares.

The Company determines the fair value of its investment warrants based on the Black-Scholes valuation model, which uses a number of observable market-determined variables, and therefore is classified within Level 2 of the fair value hierarchy.

The fair values were determined using the following weighted average assumptions:

	March 31, 2026
Risk-free interest rate	2.79%
Expected dividend yield	0%
Expected share price volatility	157.9%
Expected life of warrants in the years	1.38 years

*Level 3 Hierarchy*

The following table presents the changes in fair value measurements of financial instruments classified as Level 3 as at March 31, 2026 and 2025. These financial instruments are measured at fair value utilizing non-observable market inputs. The net realized and unrealized gain are recognized in the statements of income (loss).

	<b>For the years ended</b>	
	<b>March 31,</b>	
	<b>2026</b>	<b>2025</b>
Balance, beginning of year	\$ 2,042,533	\$ -

Acquisition of note receivable	-	889,050
Change in fair value of note receivable	158,133	111,373
Foreign exchange	(34,147)	42,110
Balance, end of year	<b>\$ 2,166,519</b>	<b>\$ 2,042,533</b>

**Investments**

Within Level 3, the Company includes a private company investments that is not quoted on an exchange. The key assumptions used in the valuation of these instruments include (but are not limited to) the value at which a recent financing was done by the investee, company-specific information, trends in general market conditions and the share performance of comparable publicly-traded companies.

The following table presents the fair value, categorized by key valuation techniques and the unobservable inputs used within Level 3 as March 31, 2026:

<b>Description</b>	<b>Fair value</b>	<b>Valuation technique</b>	<b>Significant unobservable input(s)</b>	<b>Range of significant unobservable inputs</b>
Sand Minerals Inc.	\$ 1,000,000	Recent financing	Marketability of shares	0% discount

The valuation was based on Sand Minerals Inc's most recent financing of \$0.10. Management has determined that there are no reasonably possible alternative assumptions that would change the fair value significantly as at March 31, 2026. As at March 31, 2026, a +/- 10% change in the fair value of Sand Minerals Inc. will result in a corresponding +/- \$100,000 change in income (loss) (March 31, 2025 - \$100,000). Had the Company applied a marketability discount of 5%, it would have resulted in a corresponding change in fair value of approximately \$50,000 (March 31, 2025 - \$50,000) in income (loss).

***Note receivable***

As at March 31, 2026, the fair value of the note receivable was estimated using probability-weighted scenarios with respect to discounted cash flow models for repayment at maturity and through profit sharing. Based on the various scenarios considered, the fair value of the note receivable as at March 31, 2026 was calculated to be \$1,042,533.

<b>Description</b>	<b>Fair value</b>	<b>Valuation technique</b>	<b>Significant unobservable input(s)</b>	<b>Range of significant unobservable inputs</b>
Note receivable	\$ 1,042,533	Probability-weighted scenarios discounted cash flows	Discount rate	15% discount

The Company's note receivable are denominated in Great British Pounds and are subject to fair value fluctuations. As at March 31, 2026, if the fair value of the Company's note receivable had increased/decreased by 10% with all other variables held constant, profit and loss for the nine months ended March 31, 2026, would have been approximately \$116,652 (March 31, 2025 - \$98,910) lower/higher. Similarly, as at March 31, 2026, the Company's reported shareholders' equity would have been approximately \$116,652 (June 30, 2025 - \$104,253) higher/lower as a result of a 10% increase/decrease in note receivable.

<b>Significant inputs into the note receivable model are as follows:</b>	<b>March 31, 2026</b>
Interest rate	20%
Discount rate	10%
Probability of repayment through profit share and redemption	50%

Currency (foreign exchange)

The Company is exposed to currency risk by incurring certain expenditures in currencies other than the Canadian dollar. The Company has determined that there is currency risk related to its note receivables which is denominated in GBP. Based on the note receivable as of March 31, 2026, an increase (decrease) of 10% in exchange rate would have resulted \$116,652 (June 30, 2025 - \$104,253) lower/higher net income (loss).

As of March 31, 2026, the Company maintained minor cash balances in foreign currency.

Interest rate

The Company's cash balance is subject to interest rate cash flow risk, as it carries a variable rate of interest. The Company's interest rate risk management policy is to purchase highly liquid investments with a term to maturity of one year or less on the date of purchase.

Based on the cash as of March 31, 2026, an increase (decrease) of 1% in interest rates would not result in a significant change in the annual net income of the Company.

The Company's accounts payable and accrued liabilities are non-interest bearing.

Sensitivity analysis

The Company's marketable securities are denominated in Canadian dollars and are subject to fair value fluctuations. As at March 31, 2026, if the fair value of the Company's marketable securities had increased/decreased by 10% with all other variables held constant, profit and loss for the year ended March 31, 2026, would have been approximately \$3,463,796 lower/higher.

**12. RESTATEMENT DUE TO ERROR**

The Company identified an error related to the grant of a bonus. On February 14, 2024, the Company granted a bonus of 1,150,000 NMG shares to certain directors, officers, and consultants of the Company. The bonus had certain conditions which management had previously incorrectly determined did not meet the conditions to be recognized. Management has determined that the conditions were met as at February 15, 2024. On this date the NMG shares to be issued as a bonus had an estimated fair value of \$3,910,000 based on the quoted market value of the NGM shares. Management evaluated the error, and concluded that they resulted in a material misstatement of the previously issued financial statements for the years ended June 30, 2025 and 2024, and unaudited condensed interim financial statements for the three and nine months ended March 31, 2025. Accordingly, the Company has restated both the current and comparative financial information presented herein in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.
