CONDENSED INTERIM FINANCIAL STATEMENTS
For the three and nine months ended April 30, 2026 and 2025
(expressed in Canadian dollars)
(unaudited)

TROILUS MINING CORP.
(formerly Troilus Gold Corp.)

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the condensed interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by CPA Canada for a review of interim financial statements by an entity's auditor.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Troilus Mining Corp. (formerly Troilus Gold Corp.) (the “Company”) was continued under the laws of Ontario, Canada. On December 4, 2025, the Company received shareholder approval for the name change from Troilus Gold Corp. to Troilus Mining Corp. to better reflect the Company’s expectations with respect to the full scope of future metals production, and to align with the Company’s transition from exploration to development and construction of a critical minerals asset to Quebec and Canada.

The Company owns a 100% interest in a past-producing gold mine located near Chibougamau, within the Frotêt-Evans Greenstone Belt in Quebec (the “Troilus Copper Gold Project”). The Company acquired additional mineral claims adjacent to the Troilus project through various transactions, including the acquisition of UrbanGold Minerals Inc. (“UrbanGold”). Collectively, these properties are referred to as the “Troilus Mining Property”. The principal business of the Company is the exploration and development of the Troilus Mining property. The Company’s head office is located in Montreal at 715 Square Victoria, Suite 705, Montreal, Quebec, H2Y 2H7. The Company’s registered office is located at 36 Lombard Street, 4th Floor, Toronto, Ontario, M5C 2X3. The Company’s shares trade on the Toronto Stock Exchange (“TSX”) under the symbol “TLG” as well as on the OTCQX under the symbol “CHXMF” and on the Frankfurt Stock Exchange under the symbol “CM5R”. All dollar amounts are Canadian dollars unless otherwise noted.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory, environmental and social requirements. The Company’s assets may also be subject to increases in taxes and royalties, renegotiation of contracts, and political uncertainty.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs and pre-development plans will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interests in the underlying properties, the achievement of profitable operations, or the ability of the Company to raise additional financing, as necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

These financial statements of the Company for the three and nine months ended April 30, 2026 were approved and authorized for issue by the Board of Directors on June 4, 2026.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION AND COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Account Standard (“IAS”) 34, “Interim Financial Reporting”. Accordingly, certain information and disclosures normally included in annual financial statements have been omitted or condensed. These financial statements should be read in conjunction with the Company’s consolidated financial statements for the year ended July 31, 2025. The policies set out in the Company’s annual consolidated financial statements for the year ended July 31, 2025 were consistently applied to all periods presented unless otherwise noted below.

The preparation of condensed interim financial statements in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. Certain disclosures included in annual financial statements have been condensed or omitted.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company has no current source of operating cash flow, and there can be no assurances that sufficient funding, including adequate financing, will be available to explore and develop its property and to cover general and administrative expenses necessary for the maintenance of a public company. The Company’s status as a going concern is contingent upon raising the necessary funds through the issuance of equity or debt. These financial statements do not include any adjustments that may result from the inability to continue as a going concern. Such adjustments could be material.

These financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

3. MATERIAL ACCOUNTING POLICIES

These condensed interim financial statements reflect the accounting policies described in Note 3 to the Company’s audited consolidated financial statements for the years ended July 31, 2025 and 2024, with the exception of any additional disclosures where now relevant or changes set out below.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

Accounting Policies

Assets Held For Sale

Non-current assets are classified as held for sale when their carrying value is expected to be recovered principally through a sale rather than through continuing use. The classification occurs only when the asset is available for immediate sale in its present condition and its sale is highly probable. The sale is considered highly probable when management is committed to a plan to sell the asset and the sale is expected to be completed within twelve months from the date of classification. Assets classified as held for sale are measured at the lower of their carrying value and the fair value less costs to sell.

New and future accounting policies

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2025 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IFRS 10 – Consolidated Financial Statements (“IFRS 10”) and IAS 28 – Investments in Associates and Joint Ventures (“IAS 28”) were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined; however, early adoption is permitted.

IFRS 9 and IFRS 7 -- In May 2024, the IASB issued amendments to IFRS 9 *Financial Instruments* and IFRS 7 *Financial Instruments – Disclosures*. The amendments clarify the derecognition of financial liabilities and introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system. The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features and the treatment of non-recourse assets and contractually linked instruments (CLIs). Further, the amendments mandate additional disclosures in IFRS 7 for financial instruments with contingent features and equity instruments classified at FVOCI. The amendments are effective for annual periods starting on or after January 1, 2026. Retrospective application is required, and early adoption is permitted. The Company is currently assessing the impact of these amendments to the Company’s financial statements.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

IFRS 18 – In April 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements* to improve reporting of financial performance. The new standard replaces IAS 1 *Presentation of Financial Statements*. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required, and early adoption is permitted. The Company is currently assessing the impact of these amendments to the Company's financial statements.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. These financial statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised, on a prospective basis. The revision may affect current or both current and future periods.

Information about critical judgments and estimates in applying accounting policies, and areas where assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following areas:

Mineral resource estimates and mineral reserves

The figures for mineral resources and mineral reserves are determined in accordance with National Instrument 43-101, "Standards of Disclosure for Mineral Projects", issued by the Canadian Securities Administrators. There are numerous uncertainties inherent in estimating mineral reserves and mineral resources, including many factors beyond the Company's control. Such estimation is a subjective process, and the accuracy of any mineral reserve or mineral resource estimate is a function of the quantity and quality of available data and of the assumptions made and judgments used in engineering and geological interpretation. Differences between management's assumptions, including economic assumptions such as metal prices and market conditions could have a material effect in the future on the Company's financial position and results of operation.

Estimation of decommissioning and reclamation costs and the timing of expenditure

Decommissioning, restoration and similar liabilities are estimated based on the Company's interpretation of current regulatory requirements and constructive obligations and are measured at fair value. Fair value is determined based on the net present value of estimated future cash expenditures for the settlement of decommissioning, restoration or similar liabilities that may occur upon decommissioning. Such estimates are subject to change based on changes in laws and regulations and negotiations with regulatory authorities. Cost estimates are updated annually to reflect known developments and are subject to review at regular intervals.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Share-based payments and warrants

Management determines costs for share-based payments and warrants using market-based valuation techniques. The fair value of the market-based and performance-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment is used in applying valuation techniques. These assumptions and judgments for share-based payments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Assumptions and judgements for determining the value of warrants include estimating the future volatility of the share price, expected dividend yield and expected risk-free rate of return. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

Leases under IFRS 16

Critical judgements are required in the application of IFRS 16, including identifying whether a contract (or part of a contract) includes a lease and determining whether it is reasonably certain that an extension or termination option will be exercised. Sources of estimation uncertainty include estimation of the lease term, determination of an appropriate discount rate and assessment of whether a ROU asset is impaired. Such judgments, estimates and assumptions are inherently uncertain, and changes in these assumptions affect the fair value estimates.

Fair value of investment in securities not quoted in an active market or private company investments

Where the fair values of financial assets recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgment is required to establish fair values.

Income taxes and recoverability of potential deferred tax assets

In assessing the probability of realizing income tax assets recognized, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified. Estimates of future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. The Company considers whether relevant tax planning opportunities are within the Company's control, are feasible, and are within management's ability to implement.

Examination by applicable tax authorities is supported based on individual facts and circumstances of the relevant tax position examined in light of all available evidence. Where applicable tax laws and regulations are either unclear or subject to ongoing varying interpretations, it is reasonably possible that changes in these estimates can occur that materially affect the amounts of income tax assets recognized. Also, future changes in tax laws could limit the Company from realizing the tax benefits from the deferred tax assets. The Company reassesses unrecognized income tax assets at each reporting period.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Income, value added, withholding and other taxes

The Company is subject to income, value added, withholding and other taxes. Significant judgment is required in determining the Company's provisions for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. The determination of the Company's income, value added, withholding and other tax liabilities requires interpretation of complex laws and regulations. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities. All tax related filings are subject to government audit and potential reassessment subsequent to the financial statement reporting period. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax related accruals and deferred income tax provisions in the period in which such determination is made.

Valuation of the refundable mining duties credit and the refundable tax credit for resources

The refundable mining duties credit and the refundable tax credit for resources for the current and prior periods are measured at the amount expected to be recovered from the taxation authorities using the tax rates and tax laws that have been enacted or substantively enacted at the statement of financial position date. Uncertainties exist with respect to the interpretation of tax regulations, including the mining duties credit and the tax credit for resources for which certain expenditures could be disallowed by the taxation authorities in the calculation of credits, and the amount and timing of their collection. The calculation of the Company's mining duties credit and tax credit for resources necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until a notice of assessments and payments has been received from the relevant taxation authority. Differences arising between the actual results following the final resolution of some of these items and the assumptions made, or future changes to such assumptions, could necessitate adjustments to the mining duties credit and tax credit for resources and the exploration and evaluation expenses in future periods.

Determination of significant influence of investment in associate

The Company initially classified Prospector Metals Corp. ("Prospector") as an associate based on management's judgment that the Company has significant influence through i) board representation as the Company had the right to nominate a board member to Prospector's board of directors; and ii) voting rights as the Company acquired 19.9% of the issued and outstanding shares of Prospector (please see Note 8).

Impairment exists when the carrying value of the investment in associate exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The determination of impairment requires significant judgment and can be triggered by significant adverse changes in the market, economic or legal environment in which the associate operates.

The Company has disposed of its investment in Prospector, and as at April 30, 2026 the Company does not hold any shares of Prospector.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

(Unaudited)

(Expressed in Canadian dollars)

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Valuation of short-term loan liability

The Company entered into a short-term debt facility (Note 13). Management exercised judgement in concluding the appropriate classification of this debt facility. Given that the loan is a financial liability with fixed or determinable payments, management has concluded that it should be measured at amortized cost. Warrants were issued in connection with this facility, and the value of the warrants was estimated based on the difference between the residual face value and the fair value of the debt. A discount rate of 20% was used to determine the fair value of the debt to establish a value for the warrants. An effective interest rate is applied to the amortized cost balance over the life of the loan to recognize accretion expense. Key sources of uncertainty include the determination of the discount rate to determine the fair value of the debt and warrants, and the effective interest rate to amortize over the period of the loan.

The debt facility has been repaid in full as at April 30, 2026.

Contingencies

Refer to Note 23.

The amounts recognized in the financial statements are derived from the Company's best estimation and judgement as described above. However, the inherent uncertainty regarding the outcome of these items means that eventual resolution could differ from the accounting estimates and therefore impact the Company's financial position and its financial performance and cash flows.

5. CASH AND CASH EQUIVALENTS AND SHORT-TERM BANK INVESTMENTS

On July 14, 2025, the Company entered into an agreement with Auramet International Inc ("Auramet"). Under the terms of this agreement, the Company deposited US\$10,000,000 (\$14,018,000) into a margin account bearing 5% annual interest. These funds were redeemed during the nine months ended April 30, 2026, and a balance of \$nil remains. During the nine months ended April 30, 2026, the Company earned US\$nil and US\$126,009 (\$nil and \$170,893) respectively in interest from this investment.

As at April 30, 2026, the Company holds various term savings accounts totaling \$85,500,000, with maturity dates between May 22, 2026 and August 24, 2026, and interest rates between 2.76% and 2.83%. Of this sum, \$25,500,000 has a maturity of longer than three months, and is classified as a short-term bank investment. During the three and nine months ended April 30, 2026, the Company earned \$486,522 in accrued interest related to these accounts.

	\$	3,252,374	\$	1,712,756

7. INVESTMENTS

Fair market value as at:	April 30, 2026		July 31, 2025	
Public companies				
Delta Resources, shares	\$	1,040,079	\$	414,457
Comet Lithium, shares		555,000		262,500
Other, shares		286,488		224,036
	\$	1,881,567	\$	900,993
Delta Resources, warrants		88,592		34,369
Other, warrants		91,164		54,398
TOTAL INVESTMENTS	\$	2,061,323	\$	989,760

During the three and nine months ended April 30, 2026, the Company acquired nil and 597,500 shares respectively of Delta Resources Limited ("Delta") for a cash payment of \$101,443. The Company's CEO and director is a former director of Delta, having resigned from the board of Delta in January 2026.

During the three and nine months ended April 30, 2026, the Company sold 150,000 shares of Rev Exploration Corp in each of the respective periods for net proceeds of \$102,430. In relation to the sale, a realized gain of \$85,605 was recorded on the statement of operations and comprehensive loss.

During the year ended July 31, 2025, the Company sold 3 of its non-core mineral property claims to Comet Lithium Corporation ("Comet") for consideration of 1,500,000 common shares of Comet. The value of the shares was estimated to be \$337,500 based on the trading price of the shares of this public entity on the date of acquisition. This was recorded as a gain on sale of mineral claims on the statement of operations and comprehensive loss. The Company retains a 2% Net Smelter Royalty on these mineral claims and the public entity has the right to repurchase the Net Smelter Royalty for \$3,000,000 on each of the projects. The Company's VP of Corporate Development is a director of Comet.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

7. INVESTMENTS (continued)

The Company's investments, which include shares and warrants, were initially measured at Fair Value through Profit and Loss ("FVPL") on the date of the acquisition and were remeasured and recorded at an aggregate value of \$2,061,323 as at April 30, 2026, which is the estimated fair market value based on the market price on that date for publicly traded securities, or based on other valuation techniques for private companies and warrants.

Unrealized gains/(losses) of (\$259,249) and \$836,944 were recognized for the three and nine months ended April 30, 2026 with respect to the Company's investments (three and nine months ended April 30, 2025: unrealized gains/(losses) of (\$313,118) and \$462,963).

8. INVESTMENT IN ASSOCIATE AND ASSETS HELD FOR SALE

In March 2024, the Company sold its non-core Mike Lake properties in Yukon to Prospector Metals Corp. ("Prospector"). Prospector is a publicly traded company incorporated in British Columbia, Canada, trading on the TSX Venture Exchange with exploration assets in the Yukon and Ontario. Consideration for these claims included 9,222,164 shares of Prospector valued at a price of \$0.20 per share, reflecting the share price on the date of issuance. Additional consideration includes a one-time milestone payment where, upon the public announcement by Prospector of a mineral resource on the Mike Lake properties, a one-time payment shall be paid to the Company in either cash or shares of Prospector (or a combination thereof) at the election of Prospector. The milestone payment shall be either \$1,000,000 if Prospector's market capitalization is less than or equal to \$20,000,000, or \$2,000,000 if Prospector's market capitalization is greater than \$20,000,000. As the requirement for this contingent payment has not taken place, the Company has not reflected the milestone payment in the Company's financial statements.

At the time of the transaction, the Company determined that it had significant influence over Prospector based on the following:

- a. At the time of the transaction, the Company acquired 19.9% of Prospector's issued and outstanding shares;
- b. The Company had the right to nominate a director. The Company's nominee was appointed to the Board of Prospector in March 2024, one of four board members.

As a result, the Company's interest in Prospector was initially accounted for using the equity method.

As at September 30, 2025, the Company committed to a plan to sell its interest in Prospector at the established market price. In accordance with IFRS 5, the investment was remeasured and reclassified as a current asset held for sale with a value of \$662,062 at September 30, 2025, with \$130,996 recorded as an equity loss for the six months ended January 31, 2026.

Balance, July 31, 2025	\$ 793,058
Proportionate share of adjusted net loss and comprehensive loss	(130,996)
Balance, September 30, 2025 (reclassification date)	\$ 662,062

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

(Unaudited)

(Expressed in Canadian dollars)

8. INVESTMENT IN ASSOCIATE AND ASSETS HELD FOR SALE (continued)

In the nine months ended April 30, 2026, the Company sold 9,222,164 shares of Prospector at a weighted-average share price of \$1.02 per share, generating cash proceeds of \$9,428,982. A realized gain of \$8,766,920 was recognized on the statements of operations in the nine months ended April 30, 2026. The Company no longer holds any Prospector shares at the date of these financial statements.

Balance, September 30, 2025 (reclassification date)	\$ 662,062
Disposition of shares	(662,062)
Balance, April 30, 2026	\$ -

9. DEPOSITS

In connection with the Company's basic and detailed engineering contract entered into with BBA Inc., the Company has deposited \$6,020,000 which will be applied at the completion of detailed engineering. As completion is not expected within 12 months, this amount has been recorded as a long-term asset.

In addition, the Company has paid \$15,413 in lease deposits for certain vehicles and will be refunded should the Company elect to decline the buyout option.

10. RECLAMATION DEPOSITS AND PROVISION

Deposits:

The Company maintains a bonding facility with an insurance company in order to secure a reclamation deposit of \$3,972,976 with the government of Quebec. The reclamation deposit served as security against current and future estimated reclamation obligations at the Troilus site from historical mining activity. To purchase this insurance, the Company deposited \$794,595 into a Guaranteed Investment Certificate secured by a Letter of Credit and pays an annual fee of 2.5% of the insured amount.

The Company has also provided a \$50,000 deposit as security against current and future estimated reclamation obligations on the landfill site on the Troilus Mining property.

Provision:

The Company recognized a provision for future estimated reclamation and water treatment costs of the former Troilus mine. As at April 30, 2026, the estimated future undiscounted liability of approximately \$2,388,000 (July 31, 2025: \$2,489,000), was adjusted for inflation at an average rate of 2.33% (July 31, 2025: 2.19%), discounted at a rate of 3.82% (July 31, 2025: 3.72%) and recorded as \$2,133,530, of which \$205,672 is a current liability and \$1,927,858 is a long-term liability (July 31, 2025: \$2,227,956, \$175,271 as a current liability and \$2,052,685 as a long-term liability). This estimate assumes that future mining operations would never resume. As the Company continues its exploration programs, works towards a future mining scenario, and carries out reclamation work, the underlying assumptions to the reclamation provision will be adjusted accordingly.

11. PROPERTY AND EQUIPMENT (continued)

An amount of \$365,258 and \$1,075,281 was expensed in depreciation for the three and nine months ended April 30, 2026, where \$328,382 and \$961,829 was recorded as exploration and evaluation expenses and \$36,876 and \$113,452 was recorded as general and administrative expenses (three and nine months ended April 30, 2025: \$323,561 and \$983,816 respectively, where \$285,157 and \$848,228 was allocated to exploration and evaluation expenses and \$38,404 and \$135,588 was allocated to general and administrative expenses).

The Company recognized \$710,622 in assets acquired through leases, including camp equipment, vehicles and office space (Note 12) during the nine months ended April 30, 2026 (nine months ended April 30, 2025: \$902,455).

During the nine months ended April 30, 2026, the Company disposed of certain vehicles and equipment totaling \$170,193, and a gain of \$59,286 related to these disposals was recognized on the statements of operations and comprehensive loss for the nine months ended April 30, 2026.

12. LEASE LIABILITIES

Balance as at July 31, 2025	\$	1,703,471
Assets acquired from leases and financing arrangements		710,622
Lease extinguishment		(81,841)
Payments made during the period		(616,239)
Balance as at April 30, 2026	\$	1,716,013
Current portion of lease liabilities	\$	558,716
Long-term portion of lease liabilities		1,157,297
	\$	1,716,013

During the nine months ended April 30, 2026, the Company's lease additions included right-of-use leases for vehicles with terms of 4 years at interest rates between 3.9% and 8.99% as well as additional office space for a term of approximately 3 years. The Company's other leases include right-of-use leases for office space, vehicles, and site equipment, with terms of up to 4 years. Interest expense recognized on these leases for the three and nine months ended April 30, 2026 was \$44,226 and \$155,049 (three and nine months ended April 30, 2025: \$59,489 and \$192,115 respectively).

During the three and nine months ended April 30, 2026, the Company incurred expenses of \$69,520 and \$349,589 for short-term rental equipment (three and nine months ended April 30, 2025: \$132,001 and \$349,684 respectively) which was recorded in exploration and evaluation expenses on the statement of operations. Monthly short-term rentals are expected to amount to approximately \$35,400.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

13. SHORT-TERM LOAN

On May 15, 2025, the Company secured a loan agreement (the "Loan") with Auramet for a principal amount of up to US\$35,000,000 (approximately \$48,450,000) to support the Company's near-term activities, including final permitting, early works preparation, and advancement towards full project financing pending the completion of project financing for the construction of the Troilus Project. The Loan had an initial term of one year and was structured to be drawn down in tranches.

An initial tranche of US\$15,000,000 (\$20,977,500) was advanced to the Company upon execution of the Loan Agreement on May 15, 2025. Transaction costs in relation to the Loan totalled \$679,655, comprised of various administrative, legal, and filing fees, as well as a 2% arrangement fee. The remaining US\$20,000,000 (approximately \$27,688,000) was available for drawdown by the Company beginning 90 days from the date of the initial advance and subject to the satisfaction by the Company of certain conditions precedent.

The Loan bore annual interest of 12% on the outstanding balance, including principal and accrued interest, and was secured by a negative pledge on the Company's assets, a security interest and a hypothec charging personal property of the Company. The maturity date of the Loan was May 15, 2026, however the Loan repayment could be accelerated in certain specified circumstances and the Company could also voluntarily prepay the Loan together with all accrued and unpaid interest at any time without penalty or bonus.

In consideration of the first tranche of the Loan, Auramet received 5,000,000 warrants of the Company, each exercisable for one common share of the Company at a price of \$0.60 per share for a period of two years.

In connection with the issuance of the Loan, during the year ended July 31, 2025, the Company paid \$679,655 in issuance costs and related expenses in accordance with the Loan agreement, which were deducted from the Loan balance. The loan was accreted using the Effective Interest Rate (EIR) method at an effective interest rate of 19.8%. During the three and nine months ended April 30, 2026, the Company recorded accretion expense of \$nil and \$507,964 (three and nine months ended April 30, 2025: \$nil), and the Company incurred US\$nil and US\$550,780 (\$nil and \$751,430) in accrued interest on the Loan. The Company's single draw on the facility was repaid in full on November 14, 2025. The Company paid US\$15,938,965 (\$22,403,810) in full satisfaction of the loan principal and accrued interest. The unaccreted expenses at the time the loan was repaid were classified as a loss of \$1,064,088 on the statement of operations and comprehensive loss for the three and nine months ended April 30, 2026.

Allocation of value of warrants on exercise (Note 15)	-	1,370,594
Share-based payments (Note 16)	318,335	273,768
Balance as at April 30, 2026	553,492,655	\$ 431,035,198

On October 21, 2025, the Company closed a flow-through private placement financing issuing 3,797,200 flow-through common shares of the Company at a price of \$1.58 per share for gross proceeds of \$5,999,576. The Company incurred \$36,294 in costs related to this financing. The Company is required to spend these proceeds, plus applicable tax credits, in qualifying exploration expenditures by December 31, 2026, and at April 30, 2026, a balance of approximately \$3,260,000 remains to be spent.

In relation to the flow through shares issued in October 2025, a flow-through share premium liability of \$759,440 was recorded based on the calculated premium per dollar raised determined as the excess issue price over the quoted market price of the Company's shares at the date of issuance. The liability is reduced proportionately as the Company incurs eligible expenses. As at April 30, 2026, the liability was recorded at \$398,436 on the statement of financial position with respect to this flow-through premium, and a flow-through share premium recovery of \$84,611 and \$361,004 was recorded on the statements of operations and comprehensive loss for the three and nine months ended April 30, 2026 (three and nine months ended April 30, 2025: \$595,986 and \$1,324,987 respectively).

On November 14, 2025, the Company closed a bought deal public offering and issued 133,722,000 common shares at a price of \$1.29 per common share for aggregate gross proceeds of \$172,501,380. The Company incurred \$9,390,581 in costs related to this financing, including commissions, legal costs, and costs related to filing a prospectus.

On April 24, 2026, the Company closed a flow-through private placement financing issuing 3,810,500 flow-through common shares of the Company at a price of \$2.10 per share for gross proceeds of \$8,002,050. The Company incurred \$29,473 in costs related to this financing. The Company is required to spend these proceeds, plus applicable tax credits, in qualifying exploration expenditures by December 31, 2027, and at April 30, 2026, no expenditures had been made.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

In relation to the flow through shares issued in April 2026, a flow-through share premium liability of \$1,638,515 was recorded based on the calculated premium per dollar raised determined as the excess issue price over the quoted market price of the Company's shares at the date of issuance. The liability is reduced proportionately as the Company incurs eligible expenses. As at April 30, 2026, the liability was recorded at \$1,638,515 on the statement of financial position with respect to this flow-through premium, and a flow-through share premium recovery of \$nil was recorded on the statements of operations and comprehensive loss for the three and nine months ended April 30, 2026.

On February 17, 2026, the Company issued 243,902 common shares to Delta in the agreement to acquire a 100% undivided interest in claims referred to as the Delta 2 claims, based on the Company's share price on the date of issuance. The Company incurred share issuance costs of \$22,510 in relation to the transaction. See Note 18.

During the nine months ended April 30, 2026, 15,061,041 of the Company's warrants were exercised at a weighted-average exercise price of \$0.50 per share, generating gross proceeds of \$7,468,770.

15. SHARE PURCHASE WARRANT RESERVE

	Number of Warrants	Weighted Average Exercise Price	Value
Balance as at July 31, 2025	39,143,106	\$0.48	\$ 3,808,994
Exercised	(15,061,041)	\$0.50	(1,370,594)

(Unaudited)

(Expressed in Canadian dollars)

16. SHARE-BASED PAYMENT RESERVE

The Company's Incentive Share Unit Plan ("ISU Plan") authorizes the grant of restricted Share Units ("RSU's") under the plan to directors, officers and employees or Deferred Share Units ("DSU's") under the plan to directors alone. A vested RSU represents the right to receive one common share of the Company. A vested DSU represents the right to receive one common share of the Company upon the date the participant director ceases to be a director of the Company. All Share Units, that is RSU's and DSU's, shall be settled through the issuance of common shares from treasury by the Company, and as such, the value of outstanding RSU's and DSU's is included in share-based payment reserve within equity.

The number of common shares reserved for issuance pursuant to the ISU Plan and all other security-based compensation arrangements shall, in aggregate, not exceed 10% of the Company's issued and outstanding capital.

	Number of RSU's	Number of DSU's
Balance as at July 31, 2025	9,833,300	-
Granted	12,849,500	2,500,000
Vested, settled in common shares	(318,335)	-
Forfeited	(115,000)	-
Balance as at April 30, 2026	22,249,465	2,500,000

During the three and nine months ended April 30, 2026, the Company granted 300,000 and 12,549,500 RSU's respectively to directors, officers and employees of the Company, and nil and 2,500,000 DSU's respectively to directors of the Company. The RSU's vest in three tranches over a period of three or four years. The weighted average fair value of the RSU's was estimated to be \$1.20 per unit based on the quoted market price of the Company's shares on the date of grant (three and nine months ended April 30, 2025: 1,800,000 and 10,710,000 RSU's granted at a weighted average fair value of \$0.35 per unit.) The weighted average fair value of the DSU's was estimated to be \$1.10 per unit based on the quoted market price of the Company's shares on the date of grant (nine months ended April 30, 2025: nil).

For the three and nine months ended April 30, 2026, the Company has recorded \$2,894,447 and \$6,978,253 as share-based payments expense representing an accrual for unvested RSU's on a graded vesting basis and for DSU's on a straight-line basis, based on the fair market value on the date of grant (three and nine months ended April 30, 2025: \$1,146,280 and \$2,193,459).

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

17. FINANCIAL INSTRUMENTS

Financial assets and financial liabilities were classified as follows:

	Assets at amortized cost	Assets at fair value through profit or loss	Liabilities at amortized cost	Total
As at April 30, 2026				
Cash and cash equivalents	\$ 54,584,925	\$ 60,080,000	\$ -	\$ 114,664,925
Short term bank investments		25,500,000		25,500,000
Amounts receivable	598,562	-	-	598,562
Investments	-	2,061,323	-	2,061,323
Reclamation deposit	50,000	794,595	-	844,595
Accounts payable and accrued liabilities	-	-	12,885,580	12,885,580
Lease liabilities	-	-	1,716,013	1,716,013

The carrying values of cash and cash equivalents, short-term bank investments, amounts receivable, short-term debt and accounts payable and accrued liabilities approximate fair value due to the short-term nature of the financial instruments. The carrying value of investments is recorded at an estimated fair value based on a valuation technique using both observable and unobservable inputs. The carrying value of the reclamation deposit approximates fair value as it is represented by a GIC. Management believes the carrying value of lease liabilities approximates fair value.

A fair value hierarchy prioritizes the methods and assumptions used to develop fair value measurements for those financial assets where fair value is recognized on the statement of financial position. These have been prioritized into three levels.

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Inputs for the asset or liability that are not based on observable market data.

The following table sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy as at April 30, 2026:

	Level 1	Level 2	Level 3	TOTAL
As at April 30, 2026				
Cash equivalents	\$ 60,080,000	\$ -	\$ -	\$ 60,080,000
Short term bank investments	25,500,000	-	-	25,500,000
Investments	1,731,567	179,756	150,000	2,061,323
Reclamation deposit	794,595	-	-	794,595

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

17. FINANCIAL INSTRUMENTS (continued)

Some of the Company's investments are not publicly traded. Other valuation factors were used to estimate the fair value at April 30, 2026, such as recent financings of the private entities. The fair value of warrants was estimated using the Black-Scholes option pricing model.

Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgment.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no significant changes in the risks, objectives, policies and procedures for managing risk during the three and nine months ended April 30, 2026 and 2025.

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents, and reclamation deposit. The Company has no significant concentration of credit risk arising from operations. Cash and cash equivalents consist of bank deposits and guaranteed investment certificates, which have been invested with reputable financial institutions, from which management believes the risk of loss to be remote. Amounts receivable primarily represent input tax credit refunds from government bodies. Management believes that the credit risk concentration with respect to these financial instruments is remote.

Liquidity risk

The Company manages liquidity risk by maintaining adequate cash and cash equivalent balances. The Company continuously monitors and reviews both actual and forecasted cash flows, and also matches the maturity profile of financial assets and liabilities.

As at April 30, 2026, the Company had current assets of \$151,810,835 (July 31, 2025: \$33,978,252) to settle current liabilities of \$14,048,404 (July 31, 2025: \$29,220,575). Approximately \$5,000,000 of the Company's financial liabilities as at April 30, 2026 have contractual maturities of less than 30 days and are subject to normal trade terms.

Liability	Total	Payments due by period			
		< 1 year	1 - 3 years	4 - 5 years	> 5 years
Accounts payable and accrued liabilities	\$ 12,885,580	\$ 12,885,580	\$ -	\$ -	\$ -
Lease liabilities	1,716,013	558,716	922,643	234,654	-
Reclamation provision	2,133,530	205,672	338,914	328,800	1,260,144

Market risk - Price risk and currency risk

Some of the Company's current assets consist of shares acquired from the sale of mineral claims (Note 7), which the Company intends to sell when appropriate. The Company is exposed to price risk as unfavourable market conditions could result in disposition of investments at less than favourable prices.

Based on the investments held at April 30, 2026, a change in the fair value of investments by 5%, all other factors held constant, could result in a corresponding change in net income of approximately \$62,000.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

18. EXPLORATION AND EVALUATION EXPENSES

The Company owns the Troilus Mining property, consisting of mineral claims and a past-producing mine property located near Chibougamau, within the Frotêt-Evans Greenstone Belt in Quebec, Canada. During the last several years, the Company acquired various claims extending its land package, including the Bullseye and Pallador claims acquired through the acquisition of UrbanGold. The Bullseye claims comprise a 50-50 joint arrangement with Alamos Gold Inc. (the "Alamos JV"), accounted for as a joint operation. As a result, the Company recognizes its proportionate share of any expenses related to this joint arrangement.

In February 2026, the Company completed an option agreement with Delta to acquire a 100% undivided interest in claims referred to as the Delta 2 claims. To acquire 100% of the claims, the Company will be required to make the following payments:

- A cash payment of \$500,000 and \$500,000 in common shares (243,902 shares) of the Company on signing of the agreement (paid February 17, 2026);
- \$750,000 in cash or common shares of the Company on or before June 1, 2026 (378,788 common shares issued subsequent to April 30, 2026);
- \$750,000 in cash or common shares of the Company on or before December 15, 2026;
- \$750,000 in cash or common shares of the Company on or before June 1, 2027;
- \$1,000,000 in cash or common shares of the Company on or before December 15, 2027;
- \$2,000,000 in cash or common shares of the Company on or before June 1, 2028;
- \$2,000,000 in cash or common shares of the Company on or before December 15, 2028.

Other than the initial \$500,000 cash payment, all payments may be paid in whole or in part with common shares of the Company at the Company's discretion. The Company will be the operator during the option term. There are existing royalties on these claims of up to 2% with buy back options. A net smelter royalty of 1% will be granted to Delta upon completion of the option term. The Company will have the right to buy back 50% of the royalty for a price of \$500,000. The Company can terminate this option with notice.

Of the claims initially acquired from First Quantum Minerals Inc. ("First Quantum"), a royalty of 1% remains on these claims, held by Royal Gold Inc. (formerly Sandstorm Gold Ltd.).

As at April 30, 2026, the Company is subject to the following underlying royalties:

The claims acquired from Emgold Mining Corporation ("Emgold") in December 2018 are subject to underlying NSR royalties of 1% to Emgold, that the Company has the right to repurchase for \$1,000,000. The claims acquired from O3 Mining Inc. ("O3") in November 2019 are subject to royalties of 2% NSR to O3, half of which can be repurchased for \$1,000,000, and 2% NSR to an individual, half of which can be repurchased for \$1,000,000.

The claims acquired from O3 in April 2020 are subject to royalties of 2% NSR to O3, of which half can be repurchased at any time for \$1,000,000 subject to the terms of the Buy Back agreement entered into between the Company and Sayona. Certain of the O3 claims acquired in April 2020 are subject to underlying royalties of 2% to Vale S.A. One-half of the royalty to Vale S.A. can be repurchased.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

18. EXPLORATION AND EVALUATION EXPENSES (continued)

The claims acquired from Globex Mining Enterprises Inc. (“Globex”) are subject to a 2% Gross Metal Sales royalty (“GMR”) to Globex, of which half can be repurchased at any time for \$1,000,000 subject to the terms of the Buy Back agreement entered into between the Company and Sayona. The claims acquired from Canadian Mining House (“CMH”) are subject to a 1% NSR, of which half can be repurchased for \$500,000 and half can be repurchased for \$1,500,000 subject to the terms of the Buy Back agreement entered into between the Company and Sayona.

As well, the Company is subject to royalties on certain of the claims acquired through the UrbanGold acquisition, including a 2% NSR to O3 on certain Bullseye claims, of which half can be purchased at any time for \$500,000; a 1% NSR to Soquem on 71 Pallador claims, of which half can be purchased at any time for \$500,000 subject to the terms of the Buy Back agreement entered into between the Company and Sayona; and a 1% NSR on 55 Pallador claims to Geotest and Wayne Holmstead.

Under the terms of the Alamos JV, in the event that either party’s participating interest is diluted to 10% or less (a “Diluted Participant”), the other party shall have the right to cause the Alamos JV to redeem the participating interest held by the Diluted Participant in exchange for a royalty interest equal to a 2% NSR royalty, half of which can be purchased on the date of issue of the NSR for \$1,000,000.

	Three months ended April 30,		Nine months ended April 30,	
	2026	2025	2026	2025
Exploration and evaluation expenses:				
Drilling, assaying and geology	\$ 2,779,528	\$ 2,659,237	\$ 4,115,985	\$ 4,515,357

	\$ 19,423,972	\$ 7,367,255	\$ 45,508,085	\$ 16,649,747

The Company has recorded expected tax credits of \$600,000 and \$1,659,333 respectively against the exploration activity on which they are based for the three and nine months ended April 30, 2026 (three and nine months ended April 30, 2025: \$2,736,500 and \$3,699,999 respectively). During the nine months ended April 30, 2026, the Company received \$792,347 in tax credit refunds related to the 2024 tax year. As at April 30, 2026, the Company is carrying a tax credit receivable balance of \$5,846,337, \$4,994,337 as a current asset related to the July 31, 2025 tax year and \$852,000 as a long-term asset representing amounts accrued for the current year and not expected to be received within 12 months.

	<u>\$ (70,759)</u>	<u>\$ (816,671)</u>	<u>\$ (185,603)</u>	<u>\$ (903,852)</u>

21. CAPITAL MANAGEMENT

The Company manages and adjusts its capital structure based on available funds in order to support the exploration and development of its mineral properties. The capital of the Company consists of share capital, share purchase warrants, RSU's and DSU's. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company's properties are in the exploration stage and, accordingly, the Company is dependent upon external financing to fund activities. In order to carry out planned drilling and engineering work, and pay for administrative costs, the Company will spend working capital and expects to raise additional funds from time to time as required.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's capital management objectives, policies and processes have remained substantially unchanged during the three and nine months ended April 30, 2026 and 2025.

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

22. RELATED PARTY DISCLOSURES

The Company entered into the following transactions in the ordinary course of business with related parties that are not subsidiaries of the Company.

Related party balances and transactions

During the three and nine months ended April 30, 2026, the Company charged \$nil and \$40,324 respectively in reimbursable expenses to Delta Resources Corp. (three and nine months ended April 30, 2025: \$nil). Mr. Justin Reid, the Company's CEO, is a former director of Delta, having resigned during the three and nine months ended April 30, 2026. In addition, at April 30, 2026, the Company held 5,778,214 shares and 1,785,714 warrants of Delta. See Note 7, Investments.

During the three and nine months ended April 30, 2026, the Company charged \$nil and \$6,744 respectively in reimbursable expenses to Comet Lithium Corp. (three and nine months ended April 30, 2025: \$nil). Mr. Kyle Frank, the Company's VP of Corporate Development, is on the Board of Directors of Comet. In addition, at April 30, 2026, the Company held 1,500,000 shares of Comet. See Note 7, Investments.

During the three and nine months ended April 30, 2026, the Company charged \$1,125 and \$65,087 respectively in fees and reimbursable expenses related to shared office space to Lithium Ionic Corp. (three and nine months ended April 30, 2025: \$31,513 and \$123,200 respectively). One of the Company's directors, Mr. Tom Olesinski, is an officer of Lithium Ionic Corp.

During the three and nine months ended April 30, 2026, the Company charged \$1,125 and \$16,125 respectively in fees related to shared office space to Emerita Resources Corp. (three and nine months ended April 30, 2025: \$14,319 and \$35,319 respectively). The Company's Vice-President Corporate Affairs and Sustainability, Ms. Catherine Stretch, is a director of Emerita Resources Corp.

At April 30, 2026, the Company owed a total of \$15,400 to directors and officers of the Company (April 30, 2025: \$nil). These amounts are non-interest bearing and have no fixed terms of repayment. All amounts were paid subsequent to April 30, 2026.

Compensation of key management personnel of the Company

The remuneration of directors and other members of key management personnel was as follows:

	Three months ended April 30,		Nine months ended April 30,	
	2026	2025	2026	2025
Management salaries and fees	\$ 1,121,926	\$ 891,781	\$ 5,266,455	\$ 2,616,357
Directors fees	89,924	87,161	268,656	260,197
Share-based payments	2,162,683	960,752	5,089,578	1,643,312
	<u>\$ 3,374,533</u>	<u>\$ 1,939,694</u>	<u>\$ 10,624,689</u>	<u>\$ 4,519,866</u>

TROILUS MINING CORP. (formerly Troilus Gold Corp.)

Notes to the Condensed Interim Financial Statements

For the three and nine months ended April 30, 2026 and 2025

(Unaudited)

(Expressed in Canadian dollars)

22. RELATED PARTY DISCLOSURES (continued)

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company. The remuneration of directors and key executives is determined by the Board of Directors of the Company having regard to the performance of individuals and market trends.

23. COMMITMENTS AND CONTINGENCIES

The Company is party to certain management and employment contracts. As at the date of this report, these contracts provide that, in the event services are terminated by the Company, other than for cause, approximately \$3,515,000 would be paid out with respect to these contracts. Additional contingent payments of approximately \$7,740,000 would be paid upon the occurrence of a change of control. Also, the Company had 22,249,465 RSU's and 2,500,000 DSU's outstanding to directors, officers and employees of the Company at April 30, 2026 which will vest over the next three years. Upon a change of control, unvested RSU's would vest immediately. As a triggering event for terminations or a change of control has not taken place, the contingent payments have not been reflected in these financial statements. Minimum commitments under these contracts due within one year are approximately \$3,515,000.

The Company is obligated to make lease payments over the next 2-4 years. See Notes 12 and 17.

Underlying royalties on the Troilus Mining property are described in Note 18.

A contingent milestone payment shall be due to the Company related to the agreement with Prospector described in Note 8.

As a result of the Company's flow-through financings in October 2025 and April 2026, the Company is committed to incur qualifying exploration expenditures. See Note 14. As at April 30, 2026, the Company has an exploration expenditure commitment of approximately \$13,586,000, \$3,260,000 which must be incurred by December 31, 2026 and \$10,325,226 which must be incurred by December 31, 2027.

In connection with the flow-through financings, the Company indemnifies the subscribers against certain tax-related amounts that may become payable by the subscribers should the Company not meet its flow-through expenditure commitments. The Company has recently received a preliminary assessment by a tax authority with respect to the eligibility of certain past expenses of Canadian exploration expenses. While the Company is vigorously defending their position, an amount of approximately \$450,000 has been recorded as a provision should the Company not be successful.

The Company's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.
