Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The total number of shares of Common Stock which this Corporation is authorized to issue is Ten Billion (10,000,000,000) shares, par value \$0.0001. Each share of Common Stock is granted one vote, both cash and stock dividends are subject to Board approval and are subordinate to the Preferred Stock rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Each share of Series A Preferred Stock shall be convertible, at the option of the holder thereof, at any time or from time to time after one (1) year from the issuance of such share, into One Hundred (100) shares of Common Stock of the Company. Each outstanding share of Series A Preferred Stock shall be entitled to One Thousand (1,000) votes per share on all matters to which the shareholders of the Company are entitled or required to vote. In each calendar year, the holders of the then outstanding Series A Preferred Stock shall be entitled to receive when, as and if declared by the Board, out of any funds and assets of the Company legally available therefore, noncumulative dividends in an amount equal to any dividends or other Distribution on the Common Stock in such calendar year (other than a Common Stock Dividend). No dividends (other than a Common Stock Dividend) shall be paid, and no Distribution shall be made, with respect to the Common Stock unless dividends in such amount shall have been paid or declared and set apart for payment to the holders of the Series A Preferred Stock simultaneously. Dividends on the Series A Preferred Stock shall not be mandatory or cumulative, and no rights or interest shall accrue to the holders of the Series A Preferred Stock by reason of the fact that the Company shall fail to declare or pay dividends on the Series A Preferred Stock, except for such rights or interest that may arise as a result of the Company paying a dividend or making a Distribution on the Common Stock.

Each share of Series B Preferred Stock shall be convertible, at the option of the holder thereof, at any time or from time to time after one (1) year from the issuance of such share, into One Hundred Million (100,000,000) shares of Common Stock of the Company. Each outstanding share of Series B Preferred Stock shall be entitled to One Hundred Million (100,000,000) votes per share on all matters to which the shareholders of the Company are entitled or required to vote. In each calendar year, the holders of the then outstanding Series B Preferred Stock shall be entitled to receive, when, as and if declared by the Board, out of any funds and assets of the Company legally available therefore, noncumulative dividends in an amount equal to any dividends or other Distribution on the Common Stock in such calendar year (other than a Common Stock Dividend). No dividends (other than a Common Stock Dividend) shall be paid, and no Distribution shall be made, with respect to the Common Stock unless dividends in such amount shall have been paid or declared and set apart for payment to the holders of the Series B Preferred Stock simultaneously. Dividends on the Series B Preferred Stock shall not be mandatory or cumulative, and no rights or interest shall accrue to the holders of the Series B Preferred Stock by reason of the fact that the Company shall fail to declare or pay dividends on the Series B Preferred Stock, except for such rights or interest that may arise as a result of the Company paying a dividend or making a Distribution on the Common Stock.

3. Describe any other material rights of common or preferred stockholders.

In case, at any time after the date hereof, of any capital reorganization, or any reclassification of the stock of the Company (other than a change in par value or as a result of a stock dividend or subdivision, split-up or combination of shares), or the consolidation or merger of the Company with or into another person (other than a consolidation or merger in which the Company is the continuing entity and which does not result in any change in the Common Stock), or of the sale or other disposition of all or substantially all the properties and assets of the Company as an entirety to any other person, the shares of

Series B Preferred Stock shall, after such reorganization, reclassification, consolidation, merger, sale or other disposition, be convertible into the kind and number of shares of stock or other securities or property of the Company or of the entity resulting from such consolidation or surviving such merger or to which such properties and assets shall have been sold or otherwise disposed to which such holder would have been entitled if immediately prior to such reorganization, reclassification, consolidation, merger, sale or other disposition it had converted its shares of Series B Preferred Stock into Common Stock. The provisions of this section 5(a) shall similarly apply to successive reorganizations, reclassifications, consolidations, mergers, sales or other dispositions. The provisions of this section 15 shall not affect the conversion of the Class B Preferred Stock in the event of a forward or reverse stock split.

Describe any material modifications to rights of holders of the company’s securities that have occurred over the reporting period covered by this report.

NONE

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer’s securities **in the past two completed fiscal years and any subsequent interim period.**

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

4) Issuer’s Business, Products and Services

The purpose of this section is to provide a clear description of the issuer’s current operations.

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

Before acquiring our Marion, North Carolina bottling facility on February 6, 2019, we operated our legacy business, which was the manufacture and distribution of a line of 25 high quality consumer focused inkjet kits. On February 5, 2019, our board of directors made a determination to wind down our legacy business and to transition into the beverage and bottling business. On February 6, 2019 we acquired Mammoth Ventures Inc. ("Mammoth"), as a wholly owned subsidiary. On February 6, 2019, Greene Concepts Inc. acquired 100% of the outstanding shares of Mammoth Ventures Inc. which included all assets owned by Mammoth Ventures Inc. including the Marion, North Carolina facility and all bottling equipment and other assets formerly known as the North Cove Springs Bottling and Beverage from BNL Capital LLC.

Greene Concepts, Inc. acquired the company Stay Hemp 4 Life LLC (“STAY”) as a wholly owned subsidiary of Greene Concepts. Stay Hemp 4 Life, a manufacturer and distributor of all-natural hemp infused sports drinks, drink landscape with its quality hemp extract beverages.

The North Cove Springs bottling plant will be focused on a variety of beverage product lines including, but not limited to CBD infused beverages, spring and artesian water, as well as enhanced athletic drinks in addition to other product offerings.

The Company will be introducing several primary products with announcements that will provide product details as well as details of their operations in the near future.

B. List any subsidiaries, parent company, or affiliated companies.

On February 6, 2019, we acquired Mammoth Ventures Inc. ("Mammoth"), as a wholly owned subsidiary. On January 1, 2021, we created The Water Club. ("Water Club"), as a wholly owned subsidiary for the sales of online products. Greene Concepts, Inc. acquired the company Stay Hemp 4 Life LLC (“STAY”) as a wholly owned subsidiary of Greene Concepts. Stay Hemp 4 Life, a manufacturer and distributor of all-natural hemp infused sports drinks

C. Describe the issuers’ principal products or services.

Each 20 FL OZ Stay Hemp drink will consist of 20 MG of Greene Concepts’ proprietary blended broad spectrum hemp extract containing essential vitamins and minerals designed to help support revitalization, focus and relaxation of the body. Each flavor profile delivers a unique experience to include:

supporting continued consumer demand and expanded product availability.

During April 2026, Greene Concepts highlighted continued e-commerce growth through expanded Amazon six-pack offerings designed to improve convenience purchasing and broaden online consumer accessibility.

The Company also maintained its relationship with Keychain, an AI-enabled consumer packaged goods manufacturing platform supporting exposure to private-label, co-packing, and manufacturing opportunities. Keychain connects brands, retailers, and manufacturers to more than 30,000 manufacturers and 20,000 brands, representing over \$1 billion in monthly project value.

Brand and Market Positioning for Long-Term Growth

During the reporting period, Greene Concepts issued multiple corporate communications supporting long-term brand positioning, consumer awareness, and market differentiation.

On February 25, 2026, Greene Concepts announced federal registration of the Be Water™ trademark with the United States Patent and Trademark Office (USPTO), supporting long-term national brand expansion initiatives and intellectual property protection.

The Company also issued multiple updates during Q3 2026 focused on product quality, packaging integrity, source protection, production standards, and hydration transparency initiatives.

On March 5, 2026, Greene Concepts highlighted emerging research involving packaging and microplastics as part of broader consumer education and hydration transparency initiatives.

During March and April 2026, Greene Concepts issued additional operational updates regarding quality standards, source protection, production consistency, handling standards, and manufacturing practices supporting Be Water product integrity and long-term consumer confidence.

Greene Concepts also announced Be Water participation in Distinctive Assets' "Everyone Wins" nominee gift bags during OSCARS® Week, supporting premium brand visibility and national exposure opportunities.

Operational Excellence and Quality Advancements

Greene Concepts continues to meet and exceed Safe Quality Food (SQF) and North Carolina Department of Agriculture compliance standards.

The Company conducts regular internal and third-party testing to ensure product safety, quality, and consistency. Operational infrastructure at the Marion facility supports multiple product formats, including branded retail products, private-label manufacturing, and refill-based bulk-water capabilities.

During Q3 2026, the Company highlighted production oversight, product handling standards, source protection initiatives, and manufacturing consistency supporting long-term operational scalability and product integrity.

The Company's Marion, North Carolina bottling facility continues supporting multiple production formats including branded retail products, gallon-sized products, six-pack configurations, hospitality placements, and private-label manufacturing opportunities.

On April 22, 2026, Greene Concepts announced an initial multi-truckload gallon-sized private-label production order from EPETWATER, supporting expanded utilization of the Company's manufacturing capabilities and private-label production infrastructure.

Improved Transparency, Investor Accessibility, and Business Growth

Greene Concepts continued supporting transparency and investor accessibility during Q3 2026 through ongoing OTC Markets disclosures, corporate communications, and operational updates.

The Company maintained nationwide online availability of Be Water through Walmart.com, Amazon.com, and additional

online distribution channels supporting broader consumer accessibility.

Corporate communications during the reporting period focused on operational execution, retail expansion, quality standards, manufacturing scalability, and long-term growth initiatives.

Business Plan Objectives

Greene Concepts' activities during the period align with long-term objectives to:

- Expand national retail distribution and broker relationships
- Increase manufacturing efficiency and facility utilization
- Strengthen e-commerce and digital sales initiatives
- Expand private-label and co-packing opportunities
- Increase hospitality and specialty retail placement initiatives
- Support long-term operational scalability and production readiness

These initiatives support continued operational growth, manufacturing utilization, and long-term shareholder value objectives.

Operational Readiness and Industry Growth

The Be Water product portfolio includes multiple formats designed to support retail, hospitality, institutional, and private-label markets:

1. 24-Pack Cases
2. 6-Pack Cases
3. Four 6-Pack Cases (24 Bottles Total)
4. Single Bottles
5. Gallon Bottles
6. Hospitality Placement Programs
7. Private/Third-Party Label Manufacturing

Greene Concepts continues utilizing SPS Commerce Electronic Data Interchange (EDI) systems supporting retail ordering, invoicing, and logistics integration with national retail partners.

Be Water remains available through expanding online retail and distribution channels as the Company continues supporting national growth initiatives.

Industry Outlook

According to Grand View Research, the global bottled water market was estimated at approximately \$451.5 billion in 2025 and is projected to reach approximately \$611.0 billion by 2033, driven by increasing consumer health awareness, rising demand for convenient hydration products, premium product positioning, and continued innovation across packaging and production formats.

Additional Grand View Research data indicates the U.S. bottled water market was estimated at approximately \$47.4 billion in 2024 and is projected to reach approximately \$66.4 billion by 2030, reflecting continued long-term consumer demand for bottled water products within the United States.

These market trends support Greene Concepts' continued focus on retail expansion, operational scalability, e-commerce growth, hospitality placements, premium brand positioning, and diversified manufacturing opportunities.

Forward Operational Focus

Greene Concepts continues executing its operating strategy supporting retail expansion, manufacturing scalability, e-commerce growth, and consistent product quality standards.

Management remains focused on aligning production capacity with increasing demand while strengthening operational infrastructure, retail relationships, and manufacturing utilization.

The Company's operational priorities remain centered on disciplined execution, product consistency, retail expansion, and scalable growth initiatives intended to support long-term shareholder value.

Increased Local Improvements and Testing

The Company completed extensive building, process, and equipment upgrades at its Marion, NC bottling plant. Several updates included security camera installation, security lighting, replacement and repair of building insulation, new warehouse lighting, conveyor additions for gallon-line production to include an increase in the number of items produced per hour, and Hazard Analysis Critical Control Point (HACCP) training for all warehouse production staff. Each improvement was carefully designed to enhance quality, efficiency, accuracy, and scalability at the plant in preparation for regional, national, and international growth.

GCI also reported it took steps to continually maintain the highest compliance standards through rigorous water testing, procedural reviews, and maintenance practices. These efforts ensure the company's bottling plant consistently delivers safe, clean, and high-quality water while meeting regulatory requirements and sustainability goals. The Company's quality standards include: sourcing premium water, advanced filtration, stringent sanitation protocols, regulatory compliance, Quality Assurance (QA) testing, sustainability initiatives, and innovation and process transparency. The Company rigorously follows Safe Quality Food (SQF) protocols, conducting both third-party laboratory and in-house water testing. It also conducts 13 in-house tests at startup and hourly thereafter, with comprehensive line checks following production halts exceeding 15 minutes. Also announced was the bottling plant is certified by the North Carolina Department of Agriculture, confirming compliance with state production standards. These rigorous protocols ensure superior products, safeguard public health, and promote environmental stewardship.

Additional local improvements include the strengthening of the gallon-line production process to include filling, labeling, de-bagging, storage, and packaging along with production and bottling, water filtration, packaging, compliance and quality control, and distribution and logistics.

Increased Partnerships

The Company continues its partnership with Tocca Life Holdings Incorporated ("Tocca Life") to include Tocca Life Holding's subsidiaries, Be Climbing Inc. and Aiguille Rock Climbing Center. The partnership provides BE WATER awareness, sales, and sponsorship support to the climbing centers (indoor rock climbing is a \$2.91 billion market). The partnership also increases opportunities for health and wellness within the \$4.5 trillion U.S. healthcare industry while escalating brand awareness for BE WATER among Florida rock climbing enthusiasts.

GCI announced its partnership with Prevail Water (a certified minority owned beverage company) to help address domestic water scarcity in the U.S.

Additional Business Growth

GCI announced it is finalizing its upcoming BE WATER™ crypto token. This innovative digital asset, set to become available on the Ethereum blockchain, represents a fusion of value and utility, embodying the essence of adaptability and resilience in the ever-evolving cryptocurrency market. The BE WATER™ crypto tokens on the Ethereum blockchain will be uniquely integrated into Greene Concepts' physical product line, with redeemable codes printed directly on BE WATER™ packaging enabling consumers to redeem purchases for tokens. This novel approach not only bridges the gap between physical and digital assets but also offers customers a dynamic way to interact with the brand, enhancing their experience with digital asset ownership while integrating blockchain technology with consumer loyalty and engagement. Customers will discover codes on BE WATER™ packaging, which they can redeem for tokens which in turn can be used for the purchase of physical rewards, exclusive incentives, and more.

GCI publicized it began engaging a geologist to conduct a comprehensive feasibility study on the presence of rare earth minerals and other valuable mineral resources on its 4.5-acre property in Marion, NC, home to the company's bottling facility. Preliminary findings confirm the presence of manganese, copper, and zinc on the 4.5-acre site, opening new avenues for potential resource development, mining rights, and strategic partnerships. The Company confirmed the benefits for Greene Concepts to be revenue diversification, sustainability, industrial sector partnerships, and an opportunity for local workforce growth.

Business Plan Objectives

GCI's growth to retailers nationwide, including its ongoing Walmart distribution, remains in line with its business plan objectives:

- Expand its National Broker Network

- Increase its Manufacturing Capacity
- Expand Retail Distribution
- Add Additional Support Staff (supports the broker network, distributors, and retailers)
- Increase its Marketing and Influencer Campaigns

This supports the key elements the company noted for its long-term success to include Expansive Market Potential, Rapid Market Growth, Experienced Leadership, Sustainable Competitive Edge, Adaptability, Commercialization Strategy, Scalability, Proof of Concept, and a Realistic Business Model.

Increase Retail Growth Streamlining and Preparation

To fully support the Company's advent into Walmart, GCI engaged in internal training and production preparation to satisfy Walmart's logistical requirements long-term. In addition to GCI's warehouse staff completing Walmart Academy Training, GCI hired SPS Commerce for Electronic Data Exchange (EDI) integration, automation, and compliance. A world leader in EDI, SPS Commerce serves as a strategic full-service partner to set up, train and support GCI staff on all Walmart EDI vendor compliance procedures to include automated invoices, shipping, and order processing. These actions allow the Company to get BE WATER onto more Walmart shelves faster and ultimately into the hands of more customers.

Company Expansion and Product Line Increase

GCI continues its sales increase through the growth of its product lines at Walmart and on Walmart's Online Marketplace with the availability of both 6-pack and four 6-pack (24 total bottles) configurations for purchase on www.walmart.com. GCI also announced new six-pack delivery configurations of its BE WATER brand to Camping World beyond its historical 24-pack configuration for easier shelf placement/display and consumer transport for purchasing. This offers Camping World store managers multiple selection options between six-packs and the legacy 24-packs of BE WATER.

The Company also continues to prepare for maximized sales by presenting its gallon-size configuration to Walmart to supplement its current six-packs. Once approved, Walmart will begin selling GCI's gallon-size bottles at both Walmart's physical stores and on Walmart Marketplace.

GCI has also received multiple Co-pack white label orders resulting in multiple monthly truckloads of gallon-sized bottles with four (4) one-gallon sized bottles included in each branded box.

GCI completed the installation of the gallon-sized production line to fulfill large-scale purchase orders to ensure clean, sustainable, and eco-friendly bottled artesian spring water.

To proliferate BE WATER expansion, GCI is producing and distributing production to meet the needs of national accounts and expanded customer reach.

1. **24-Pack Cases:** Ideal for high demand and bulk availability.
2. **6-Pack Cases:** Smaller size for easy shelf placement, portability, and convenience.
3. **Four 6-Pack Cases:** Combines flexibility and scale with 24 bottles across four packs.
4. **Single Bottle:** Perfect for cooler displays and single-shelf placements.
5. **Gallon-Size:** Cost-effective, versatile, and ideal for families, parties, and larger gatherings.
6. **Private (Third-Party) Label:** Customized manufacturing solutions with scalable production, market adaptability, and product diversification.

GCI continues preparing to expand its manufacturing facility by 20,000 sq ft to make it a 75,000 sq ft beverage and bottling facility positioned to serve larger regional and national accounts along with white label manufacturing for outside entities. The building expansion allows for operational growth while affording GCI the space needed to install a high-speed line and also the ability to blow its own bottles which will bring down the cost of goods considerably thereby providing a higher profit margin for GCI. In-house bottle production was also reduced thanks to the Company's partnership with APEX Trans gulf Manufacturing.

Bottled Water Industry Connection

Bottled Water continues its expansion as a staple item in the current U.S. economy. Current growth initiatives are occurring within a thriving bottled water industry currently valued at \$353.61 billion in 2025 with a projected reach of \$565.23 billion by 2034 at a compound annual growth rate of 5.35% according to Precedence Research with the U.S. being the largest consumer of bottled water in the world. Key factors driving this growth include water scarcity in certain regions, health and safety concerns, consumer health consciousness, the easy availability of bottled water in retail outlets and premiumization.

GCI also highlighted its distinct mention in Grand View Research's latest industry report about the growing bottled water market. The report spotlighted GCI's focus on expanding its retail distribution of BE WATER 6-packs on Walmart shelves while specifically stating "this strategic move is part of the company's efforts to expand its market presence and increase product availability through one of the largest retail chains in the U.S." Grand View Research is a respected provider of market insights, reports, and trend analyses across various industries.

GREENE CONCEPTS, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
APRIL 30, 2026

NOTE 1 – ORGANIZATION AND OPERATIONS

Greene Concepts, Inc. is headquartered in the City of Fresno, California and has been in service for fifty-eight years. The Company manufactured and distributed a line of 25 high quality consumer focused inkjet kits. The Company has recently divested itself of these operations and have acquired a facility that will be focused on production of a variety of beverage product lines including, but not limited to CBD infused beverages, spring and artesian water, as well as enhanced athletic drinks in addition to other product offerings. The Company has prepared these financial statements on the accrual basis of accounting.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Greene Concepts, Inc. (the Company) is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for the integrity and objectivity of the financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of financial statements.

B. BASIS OF ACCOUNTING

The Company utilizes the accrual method of accounting, whereby revenue is recognized when earned and expenses when incurred. The unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. As such, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and these adjustments are of a normal recurring nature.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

D. CASH AND CASH EQUIVALENTS Cash and cash equivalents include cash on hand; cash in banks and any highly liquid investments with a maturity of three months or less at the time of purchase. The Company maintains cash and cash equivalent balances at several financial institutions, which are insured by the Federal Deposit Insurance Corporation for up to \$250,000.

E. FIXED ASSETS Fixed assets are carried at cost. Depreciation is computed using the straight-line method of depreciation over the assets estimated useful lives. Maintenance and repairs are charged to expense as incurred; major renewals and improvements are capitalized. When items of fixed assets are sold or retired, the related cost and accumulated depreciation is removed from the accounts and any gain or loss is included in the income. In February 2019 the Company acquired Mammoth Ventures Inc. which included all assets owned by Mammoth including the Marion, North Carolina facility and all bottling equipment and other assets formerly known as the North Cove Springs Bottling and Beverage from BNL Capital LLC. Depreciation for the nine months ended April 30, 2026, and 2025 was \$51,723, respectively.

F. COMPUTATION OF EARNINGS PER SHARE

Net income per share is computed by dividing the net income by the weighted average number of common shares outstanding during the period.

G. INCOME TAXES

In February 1992, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards 109 of “Accounting for Income Taxes.” Under Statement 109, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

	<u>As of April 30, 2026</u>	<u>As of April 30, 2025</u>
Net operating loss carryforward	(8,586,719)	(8,221,442)
Valuation allowance	(8,586,719)	(8,221,442)
Net deferred tax assets	\$ _____ =	\$ _____ =

A reconciliation of the statutory federal income tax rate to the Company’s effective tax rate is as follows:

	<u>For the Nine Months ended April 30, 2026</u>	<u>For the Nine Months ended April 30, 2025</u>
Expected federal statutory rate	(21)%	(21)%
State Effect on tax rate, net of federal benefit	(4.35)%	(4.35)%
Change in valuation allowance	25.35%	25.35%
Income tax provision (benefit)	2,176,733	2,084,136

The Company, after considering all available evidence, fully reserved its deferred tax assets since it is more likely than not that such benefits may be realized in future periods. The Company has not yet established that it can generate taxable income. The Company will continue to evaluate its deferred tax assets to determine whether any changes in circumstances could affect the realization of their future benefit. If it is determined in future periods that portions of the Company’s deferred tax assets satisfy the realization standards, the valuation allowance will be reduced accordingly.

G. REVENUE RECOGNITION

Revenue for license fees is recognized upon the execution and closing of the contract for the amount of the contract. Contract fees are generally due based upon various progress milestones. Revenue from contract payments are estimated and accrued as earned. Any adjustments between actual contract payments and estimates are made to current operations in the period they are determined.

H. FAIR VALUE OF FINANCIAL INSTRUMENTS

Statement of Financial Accounting Standards No. 107, “Disclosures about Fair Value of Financial Instruments”, requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts reported in the balance sheet for cash, accounts receivable, inventory, accounts payable and accrued expenses, and loans payable approximate their fair market value based on the short-term maturity of these instruments.

NOTE 3 – REGULATION A OFFERING

Effective October 24, 2025 the Company is offering 1,000,000,000 units of our securities (the “Units” or the “Offered Units”), with each Unit consisting of 3 Shares of Common Stock, par value \$0.0001 (the “Common Stock”), and 2 warrants (each a “Warrant”) to purchase one share each of Common Stock (each, a “Warrant Share”) exercisable at \$0.01 per Warrant, of which 362,833,333 Units have been sold for cash in the total amount of \$1,382,000 and of which 337,166,667 Units, the Remaining Units, are being offered at a fixed price \$0.000792 per Remaining Unit. The Units are being offered by our company on a best-efforts basis with no minimum offering required, pursuant to Tier 1 of Regulation A of the United States Securities and Exchange Commission (the “SEC”).

Through the sale of the Offered Units, the Company is offering a maximum of 3,500,000,000 shares of Common Stock, including the Warrant Shares. Once a Unit is purchased by an investor, such investor may separately transfer the Common Stock and the Warrant comprising the Units, at such investor’s discretion. The Warrants are exercisable upon purchase. Once the Units offered by the Company are qualified by the SEC, the Common Stock and Warrants comprising the Units, including the Warrant Shares, will have been qualified.

The Company has sold 1,253,787,880 units of its securities, with each unit comprised of three shares of common stock and two warrants to purchase a share of common stock at an exercise price of \$.01 per share, in its current Regulation A offering (SEC File No. 024-12157), for a total of \$675,8000 in cash.

NOTE 4 – BUSINESS DEVELOPMENTS DURING Q3 FISCAL 2026

Expanded Retail Distribution and Strategic Growth

Greene Concepts, Inc. continued advancing its national retail growth strategy during Q3 2026 through expanded distribution initiatives, e-commerce growth, hospitality placements, and private-label manufacturing opportunities.

During the reporting period, the Company announced expanded Be Water™ placement initiatives with Walmart stores across the Southeastern United States. The Company also reported increased purchase order activity supporting accelerated retail expansion efforts and broader store penetration.

Greene Concepts continued collaboration with Anderson Merchandisers supporting in-store execution, inventory management, and retail visibility initiatives associated with Walmart distribution programs.

Greene Concepts also continued consumer engagement and public awareness initiatives supporting brand visibility and hydration education through multiple corporate communications during the reporting period.

E-Commerce and Technology Partnerships

Greene Concepts continued expanding its e-commerce presence during Q3 2026 through Amazon and specialty online marketplace initiatives.

On February 13, 2026, the Company announced Be Water coming soon to Amazon. During February 2026, Greene Concepts further expanded its online product offerings through introduction of Be Water six-pack formats on Amazon.com.

Following initial inventory sell-through activity, the Company announced Amazon restocking initiatives during March 2026 supporting continued consumer demand and expanded product availability.

During April 2026, Greene Concepts highlighted continued e-commerce growth through expanded Amazon six-pack offerings designed to improve convenience purchasing and broaden online consumer accessibility.

The Company also maintained its relationship with Keychain, an AI-enabled consumer packaged goods manufacturing platform supporting exposure to private-label, co-packing, and manufacturing opportunities. Keychain connects brands, retailers, and manufacturers to more than 30,000 manufacturers and 20,000 brands, representing over \$1 billion in monthly project value.

Brand and Market Positioning for Long-Term Growth

During the reporting period, Greene Concepts issued multiple corporate communications supporting long-term brand positioning, consumer awareness, and market differentiation.

On February 25, 2026, Greene Concepts announced federal registration of the Be Water™ trademark with the United States Patent and Trademark Office (USPTO), supporting long-term national brand expansion initiatives and intellectual property protection.

The Company also issued multiple updates during Q3 2026 focused on product quality, packaging integrity, source protection, production standards, and hydration transparency initiatives.

On March 5, 2026, Greene Concepts highlighted emerging research involving packaging and microplastics as part of broader consumer education and hydration transparency initiatives.

During March and April 2026, Greene Concepts issued additional operational updates regarding quality standards, source protection, production consistency, handling standards, and manufacturing practices supporting Be Water product integrity and long-term consumer confidence.

Greene Concepts also announced Be Water participation in Distinctive Assets' "Everyone Wins" nominee gift bags during OSCARS® Week, supporting premium brand visibility and national exposure opportunities.

Operational Excellence and Quality Advancements

Greene Concepts continues to meet and exceed Safe Quality Food (SQF) and North Carolina Department of Agriculture compliance standards.

The Company conducts regular internal and third-party testing to ensure product safety, quality, and consistency. Operational infrastructure at the Marion facility supports multiple product formats, including branded retail products, private-label manufacturing, and refill-based bulk-water capabilities.

During Q3 2026, the Company highlighted production oversight, product handling standards, source protection initiatives, and manufacturing consistency supporting long-term operational scalability and product integrity.

The Company's Marion, North Carolina bottling facility continues supporting multiple production formats including branded retail products, gallon-sized products, six-pack configurations, hospitality placements, and private-label manufacturing opportunities.

On April 22, 2026, Greene Concepts announced an initial multi-truckload gallon-sized private-label production order from EPETWATER, supporting expanded utilization of the Company's manufacturing capabilities and private-label production infrastructure.

Improved Transparency, Investor Accessibility, and Business Growth

Greene Concepts continued supporting transparency and investor accessibility during Q3 2026 through ongoing OTC Markets disclosures, corporate communications, and operational updates.

The Company maintained nationwide online availability of Be Water through Walmart.com, Amazon.com, and additional online distribution channels supporting broader consumer accessibility.

Corporate communications during the reporting period focused on operational execution, retail expansion, quality standards, manufacturing scalability, and long-term growth initiatives.

Business Plan Objectives

Greene Concepts' activities during the period align with long-term objectives to:

- Expand national retail distribution and broker relationships
- Increase manufacturing efficiency and facility utilization
- Strengthen e-commerce and digital sales initiatives
- Expand private-label and co-packing opportunities
- Increase hospitality and specialty retail placement initiatives
- Support long-term operational scalability and production readiness

These initiatives support continued operational growth, manufacturing utilization, and long-term shareholder value objectives.

Operational Readiness and Industry Growth

The Be Water product portfolio includes multiple formats designed to support retail, hospitality, institutional, and private-label markets:

1. 24-Pack Cases
2. 6-Pack Cases
3. Four 6-Pack Cases (24 Bottles Total)
4. Single Bottles
5. Gallon Bottles
6. Hospitality Placement Programs
7. Private/Third-Party Label Manufacturing

Greene Concepts continues utilizing SPS Commerce Electronic Data Interchange (EDI) systems supporting retail ordering, invoicing, and logistics integration with national retail partners.

Be Water remains available through expanding online retail and distribution channels as the Company continues supporting national growth initiatives.

Industry Outlook

According to Grand View Research, the global bottled water market was estimated at approximately \$451.5 billion in 2025 and is projected to reach approximately \$611.0 billion by 2033, driven by increasing consumer health awareness, rising demand for convenient hydration products, premium product positioning, and continued innovation across packaging and production formats.

Additional Grand View Research data indicates the U.S. bottled water market was estimated at approximately \$47.4 billion in 2024 and is projected to reach approximately \$66.4 billion by 2030, reflecting continued long-term consumer demand for bottled water products within the United States.

These market trends support Greene Concepts' continued focus on retail expansion, operational scalability, e-commerce growth, hospitality placements, premium brand positioning, and diversified manufacturing opportunities.

Forward Operational Focus

Greene Concepts continues executing its operating strategy supporting retail expansion, manufacturing scalability, e-commerce growth, and consistent product quality standards.

Management remains focused on aligning production capacity with increasing demand while strengthening operational infrastructure, retail relationships, and manufacturing utilization.

The Company's operational priorities remain centered on disciplined execution, product consistency, retail expansion, and scalable growth initiatives intended to support long-term shareholder value.

NOTE 5 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date these financial statements were available to be issued. Based on such evaluation, there are no material events that have occurred that require further disclosure.
