Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

One for one voting rights on all common stock, entitled to dividends as determined by the board of directors. No Pre-emptive rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

The Series A preferred share converts into the number of shares common stock, equal to 4 times the sum of all shares of Capital Stock outstanding on an as-converted basis (excluding shares of Class A preferred stock) divided by the number of shares of Class A preferred stock issued and outstanding, and votes on a converted basis. Dividend preference per share: When and as declared by the board of directors in its sole discretion; provided that dividends may be declared and paid prior to any declaration and payment of dividends on any other class or series of equity securities. Liquidation Preference per share: As if converted to common stock, in pari passu with the common stock. Votes per share: the number of shares common stock, equal to 4 times the sum of all shares of Capital Stock outstanding on an as-converted basis (excluding shares of Class A preferred stock) divided by the number of shares of Class A preferred stock issued and outstanding, and votes on a converted basis. There are no redemption rights or sinking fund provisions.

The Series B Preferred has the following designations: Each share of Series B Preferred Stock shall have two votes, in pari passu with common stock, for any election or other vote placed before the shareholders of the Corporation. The Series B Preferred Stock converts into common stock at .01 divided by the par value of the common stock, subject to adjustment as may be determined by the Board of Directors from time to time. Dividend Preference per share: When and declared by the board of directors in its sole discretion; provided that dividends may be declared and paid prior to any declaration and payment of dividends on any other class or series of equity securities not including Class A Convertible Preferred Stock. Liquidation preference per share: \$1.00 plus all declared and unpaid dividends upon winding up of the affairs of the corporation, prior to distribution to any other class or series of equity security not including Class A convertible Preferred Stock and thereafter based on the number of shares of common stock into which the preferred stock is convertible in pari passu with the holders of the other equity securities. There are no redemption rights or sinking fund provisions.

The Series C Preferred has the following designations: Series C shares are non-voting shares. Each share of Series C Preferred Stock converts into 20 shares of common stock. Series C shares are not eligible for dividends. The Series C Preferred Stock is entitled, in the event of any voluntary liquidation, dissolution, or winding up of the Corporation, to receive payment or distribution of a preferential amount before any payments or distributions are received by any class or series of preferred or common stock whether now existing or created in the future. There are no redemption rights or sinking fund provisions.

3. Describe any other material rights of common or preferred stockholders.

Please see above.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

ECOPLUS, INC.
NOTES TO UNAUDITED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED APRIL 30, 2026
AND THE YEAR ENDED OCTOBER 31, 2025

1. Nature of Operations

Ecoplus, Inc. and subsidiaries was incorporated in the state of Nevada on September 26, 2005. EcoPlus, Inc. (The Company) controlled a basic process and technology patent, US patent no. 7384562 issued on June 10, 2008, that dealt with Brown Grease – or more specifically with environmental waste including fats, oils and greases, typically generated as a waste product by Grease Generators. A second divisional patent, for producing a fuel by the treatment of brown grease, US Patent no 7,632,319 was issued on December 15, 2009. The company was redomiciled on July 27, 2010 into a Wyoming corporation.

On May 13, 2024, the Company entered into an Asset Purchase Agreement with HealthPoint Plus Holdings, LLC, to purchase the entirety of the Company’s assets. Those assets were purchased through the issuance of 10,000,000 shares of Class – C preferred stock, and \$50,000, due in 90 days.

On January 13, 2026 the Company entered into an Asset Purchase Agreement with Synaptic Scientific, to purchase the entirety of the Company’s assets. Those assets were purchased with cash, for \$10,000.

On February 3, 2026 the Company entered into an Asset Purchase Agreement with Longevity Formulas, Inc., to purchase the entirety of the Company’s physical and intangible assets. Those assets were purchased with cash, for \$215,000, and a future royalties agreement, for a total value of \$425,000.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant assumptions and estimates relate to the valuation of equity issued for services. Actual results could differ from these estimates.

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Update (“ASU”) 2014-09, “*Revenue from contracts with customers*,” (Topic 606). Revenue is recognized when a customer obtains control of promised goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods. The Company applies the following five-step model in order to determine this amount: (i) identification of the promised goods in the contract; (ii) determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company only applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods or services it transfers to the customer. Once a contract is determined to be within the scope of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 606 at contract inception, the Company reviews the

AND THE YEAR ENDED OCTOBER 31, 2025

contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company expects to recognize revenues as the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied.

Fair Value Measurements and Fair Value of Financial Instruments

The Company adopted ASC Topic 820, *Fair Value Measurements*. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2: Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3: Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The estimated fair value of certain financial instruments, including all current liabilities, are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

Fair Value of Financial Instruments

ASC subtopic 825-10, *Financial Instruments* ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying value of cash and cash equivalents, accounts payable and accrued liabilities when reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed. The Company follows ASC subtopic 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10") and ASC 825-10, which permits entities to choose to measure many financial instruments and certain other items at fair value.

Cash and Cash Equivalents

For purposes of the Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents. As of April 30, 2025 and October 31, 2024, the Company has no cash equivalents.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss, capital loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest and penalties related to

AND THE YEAR ENDED OCTOBER 31, 2025

unrecognized tax benefits as a component of general and administrative expenses. Our federal tax return and any state tax returns are not currently under examination.

The Company has adopted FASB ASC 740-10, *Accounting for Income Taxes*, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually from differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Net Income (Loss) Per Common Share

The Company computes loss per common share, in accordance with FASB ASC Topic 260, *Earnings Per Share*, which requires dual presentation of basic and diluted earnings per share. Basic income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding during the period. Diluted income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding, plus the issuance of common shares, if dilutive, that could result from the exercise of outstanding stock options and warrants.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

3. Going Concern

The accompanying financial statements have been prepared on a going concern basis. For the three months ended April 30, 2025 the Company had a net loss of \$0, no working capital, an accumulated deficit of \$4,068,219 and stockholders' equity of \$2,650,000. These matters raise substantial doubt about the Company's ability to continue as a going concern for a period of one year from the date of this filing. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due, to fund possible future acquisitions, and to generate profitable operations in the future. Management plans to provide for the Company's capital requirements by continuing to issue additional equity and debt securities. The outcome of these matters cannot be predicted at this time and there are no assurances that, if achieved, the Company will have sufficient funds to execute its business plan or generate positive operating results. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

4. Commitments and Contingencies

During the normal course of business, the Company may be exposed to litigation. When the Company becomes aware of potential litigation, it evaluates the merits of the case in accordance with FASB ASC 450-20-50, *Contingencies*. The Company evaluates its exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If the Company determines that an unfavorable outcome is probable and can be reasonably estimated, it establishes the necessary accruals. As of April 30, 2025 and October 31, 2024, the Company is not aware of any contingent liabilities that should be reflected in the financial statements.

5. Change of Control

On May 18, 2022 Benjamin Berry was elected and consented to serve as the sole officer and director of the company and William E. Scherffius and Zev Kaplan resigned all positions. Benjamin Berry through Synergy Management Group LLC purchased one (1) Class A Convertible Preferred Share of Ecoplus, Inc. as part of the transaction.

6. Notes Payable

Short-Term Notes Payable

On May 13, 2024 as part of its purchase agreement of HealthPlus Holdings, Inc., the Company issued a 90 day short-term loan of \$50,000 as partial payment of the purchase price.

7. Equity

Common Stock

The company reached a settlement with the Hick's family trust on January 4, 2023 to cancel 4,017,562,769 common shares held by the family. On February 22, 2023 the First Judicial District Court of Laramie County, Wyoming issued an order approving the settlement agreement. On March 21, 2023 the company's transfer agent processed the cancellation of the first 4,000,000,000 shares. As of January 31, 2025, the remaining 17,562,769 shares have not yet been retired and have recorded in common stock to be cancelled.

For the year ended October 31, 2024, the Company issued 2,392,344 shares of common stock for director services valued at \$50,000.
