**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2026 AND 2025**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Activities and Operating Cycle**

Global Seafood Technologies, Inc. (the Company) was incorporated on August 8, 2002, in the state of Mississippi. The Company processes and sells seafood through its wholly-owned subsidiary, Custom Pack, Inc. In addition, the Company manufactures and distributes fishing bait through its wholly-owned subsidiaries: Killer Bee, Inc. and Custom Pack, Inc. The accounting policies of the consolidated Company conform to accounting policies generally accepted in the United States of America. The Company's stock is traded on the Over-The-Counter Market (OTC).

**Variable Interest Entities**

Management analyzes the Company's variable interests, including loans, guarantees, and equity investments, to determine if the Company has any variable interests in variable interest entities (VIE). This analysis includes both qualitative and quantitative reviews. Qualitative analysis is based on an evaluation of the design of the entity, its organizational structure, including decision making ability, and financial agreements. Quantitative analysis is based on the entity's forecasted cash flows. Accounting principles generally accepted in the United States of America require a reporting entity to consolidate a variable interest entity when the reporting entity has a variable interest that provides it with a controlling financial interest in the variable interest entity. The entity that consolidates a variable interest entity is referred to as the primary beneficiary of that variable interest entity. The Company uses qualitative and quantitative analyses to determine if it is the primary beneficiary of variable interest entities. Management considers the following companies variable interest entities:

<u>Name of Entity</u>	<u>Type of Entity</u>
Clear Lake Development, LLC	Limited Liability Company
Custom Cold Storage, Inc.	Corporation
The Biloxi Realty Group, LLC	Limited Liability Company

However, management has determined that the Company is not the primary beneficiary of these entities and, therefore, has not consolidated the above variable interest entities.

**Principles of Consolidation**

Custom Pack, Inc. was incorporated in the state of Mississippi on February 15, 1988. Through a reverse merger completed on October 31, 1995, Custom Pack became a wholly owned subsidiary of International Custom Pack, Inc. On December 21, 1998, International Custom Pack, Inc. changed its name to Global Seafood Technologies, Inc. to reflect the expansion of business activities beyond the core business of seafood processing and packaging. Custom Pack is primarily a seafood processing company. It takes raw materials and packages them for wholesale and retail sales. The Company has the capability to cook, freeze and package various types of seafood products. The Company also provides seafood products to casino buffets and restaurants.

Killer Bee, Inc. has been manufacturing and distributing quality bait since 1998. The company has grown from a small business selling to local supermarkets and bait shops, to one of the largest bait distributors in the United States of America.

**FOR THE YEARS ENDED MARCH 31, 2026 AND 2025**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Revenue and Cost Recognition**

Revenue is generated substantially from the sales of products to customers. Those sales predominantly contain a single delivery element, which is when the performance obligation is met. Revenue is recognized at a single point in time when ownership, risks, and rewards transfer. The Company recognizes revenues and costs of goods sold upon shipment of products.

**Cost of Revenues**

Cost of goods sold consists of cost of inventory sold during the period, net of discounts and allowances, including shipping and freight costs, freezing costs, storage costs, nitrogen, and warehouse supplies.

**Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**Cash and Cash Equivalents**

For purposes of the consolidated statement of cash flow, cash comprises cash on hand and deposits held with financial institutions. Cash equivalents are time deposits with institutions that have an original maturity of less than 90 days. There are no cash equivalents at March 31, 2026 and 2025.

**Accounts Receivable**

The Company reports trade receivables at gross amounts due from customers. Typically, billings are determined by contract provisions and are paid within 90 days of billing. Accordingly, unless there is a billing dispute or other unusual circumstance, billings are expected to be paid. The Company has tracked historical loss information for its trade receivables and compiled historical credit loss percentages for different aging categories. Once issues occur related to a specific customer billing, an assessment is made of the circumstances, conditions, and expectations. Individual contract adjustments to the expected credit loss may be made as a result of such analysis unless a corrected billing is issued.

Management believes that the historical loss information it has compiled is a reasonable base on which to determine expected credit losses for trade receivables held as of March 31, 2026 and 2025, because the composition of the trade receivables at those dates are consistent with that used in developing the historical credit-loss percentage. However, management has determined that the current and supportable forecasted economic conditions have improved as compared with the economic conditions included in the historical information. Credit losses are included in operating expenses on the consolidated statement of income, if any.

**GLOBAL SEAFOOD TECHNOLOGIES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2026 AND 2025**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Allowance for Credit Losses**

The Company's financial assets subject to the Current Expected Credit Loss (CECL) model include trade receivables. In accordance with Accounting Standards Update (ASU) 2025-05, which amended and improved the guidance and measurement of credit losses arising from ASC 606 related revenue transactions, the Company elects the practical expedient to assume that current conditions as of the balance sheet date do not change for the remaining life of the asset. The Company also elects the accounting policy to consider collection activity after the balance sheet date for estimating expected credit losses. The Company considers collection activity through June 24, 2026, which is the date the financial statements are available to be issued.

The Company evaluates the collectability of the financial assets using a historical loss rate method adjusted for current economic conditions. As of March 31, 2026, no allowance for credit losses is considered necessary.

**Inventory**

The Company maintains an inventory of raw materials and finished goods to be used in the production and distribution of fishing bait and seafood. Inventory is maintained in accordance with generally accepted accounting principles utilizing the average cost method.

**Property and Equipment**

Property and equipment is stated at original cost. Maintenance and repairs, including the replacement of minor items, are expensed as incurred, and major additions to property and equipment are capitalized. Upon sale or retirement of items of property and equipment, the cost and related accumulated depreciation are eliminated from the accounts and the resulting gain or loss, if any, is reflected in income.

Depreciation and amortization is provided over the estimated useful lives of the related assets using the straight-line method of depreciation. The estimated lives for property and equipment used to compute depreciation and amortization are as follows:

<u>Assets</u>	<u>Useful Life</u>
Machinery & equipment	5-10 years
Vehicles	5-7 years
Leasehold improvements	15 years

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If these assets are considered to be impaired, the impairment loss recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

**Goodwill**

The Company amortizes goodwill on the straight-line method over fifteen years unless a shorter useful life can be demonstrated. Goodwill pertains to supplier-based intangibles.

**FOR THE YEARS ENDED MARCH 31, 2026 AND 2025**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Income Tax Status**

Income taxes are provided for the tax effects of transactions reported in the consolidated financial statements and consist of taxes currently due or refundable plus deferred taxes, if any. Deferred taxes are recognized for differences between the bases of assets and liabilities for financial statement and income tax purposes. The differences relate primarily to differences in methods of depreciation used for book and tax reporting. In addition, net operating losses result in deferred tax assets.

The Company adheres to the revised provisions of the Financial Accounting Standards Board ASC 740, relating to uncertain income tax positions. These standards require management to perform an evaluation of all income tax positions taken or expected to be taken in the course of preparing the Company's income tax returns to determine whether the income tax positions meet a "more likely than not" standard of being sustained under examination by the applicable taxing authorities. This evaluation is required to be performed for all open tax years, as defined by various statutes of limitation for federal and state purposes.

**Reclassifications**

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

**NOTE 2- INVENTORY**

Inventory held is summarized as follows:

**NOTE 7 – LEASES**

FASB Accounting Standards Update 2016-02, Leases (Topic 842) was adopted in 2022. The purpose of the update is to increase transparency by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing agreements. The Company rents equipment as needed. These equipment leases are terms of 12 months or less in duration and can be cancelled at any time. It was determined that none of the Company's current leases are long-term and non-cancelable. The Company elects the short-term lease recognition exemption available under ASC 842. Therefore, they do not require recognition of an asset and related liability. Lease expense is recognized as paid.
