[6] The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any "blockers" or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

Any additional material details, including footnotes to the table are below:

Note 1: As of the date of preparation of this report, the full balance of the note is still outstanding and the Company is in active discussions with the holder for extension of maturity.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Through it's wholly owned subsidiary, Ainnova Tech, the Company is a health technology company pioneering early disease detection through artificial intelligence and advanced imaging. Its proprietary platform combines deep learning, multi-modal data integration, and cloud-based analytics to deliver predictive, accessible, and connected preventive health solutions for healthcare systems and consumers worldwide.

During the quarter ended June 30, 2026, Ainnova Tech entered into a commercial pilot agreement with Abbott to evaluate the implementation of an AI-assisted preventive screening program in Mexico organized by participating physicians who manage patients with cardiometabolic risk factors. The pilot commenced during the quarter. The parties continue to evaluate the program and discuss potential next steps, including opportunities for a broader collaboration in Mexico and other Latin American markets. No definitive agreement regarding any expansion has been entered into as of the date of this report.

B. List any subsidiaries, parent company, or affiliated companies.

The Company has acquired Ainnova Tech as a wholly owned subsidiary.

C. Describe the issuers' principal products or services.

Ainnova Tech's AI-powered platform enables fast and accurate detection of diabetic retinopathy and other retinal diseases through a simple, non-invasive fundus eye test. With results available in seconds, VisionAI plays a vital role in promoting early diagnosis, preventing vision loss, and supporting overall eye health. Now, VisionAI is part of a broader suite of AI solutions designed to support preventive healthcare beyond ophthalmology - including cardiovascular, metabolic, liver, and kidney risk assessments.

ZHONG HUI DAO MING COPPER HOLDING LIMITED (the “Company,” “we,” “us” or “our”), a Nevada corporation, has a fiscal year end of June 30th and is listed on the OTCID (Pink) Markets under the trading symbol ZHDM. The Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual tax from 2019 to 2024 which resulted in its delinquency with the Nevada Secretary of State. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated under the Securities Act of 1933, and was thus subject to revocation by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act. In May 2024, a shareholder filed a petition for custodianship with the District Court of Clark County, Nevada, and was appointed as the Custodian of the Company in July 2024. The custodian was not able to recover any of the Company’s accounting records from previous management but was able to get the shareholder information hence the Company’s outstanding common shares were reflected in the equity section of the accompanying financial statements for the years ended June 30, 2025 and 2024.

The Company was incorporated in the State of Nevada as “Zhong Hui Dao Ming Financial Group, Limited” on June 17th 2005.

On August 10th 2010, the Company filed a Certificate of Amendment in Nevada to change it’s name to “Zhong Hui Dao Ming Copper Holding Limited”.

On November 29th 2010, the Company filed a Certificate of Correction to the previous amendment for the sole purpose of adding a 1 for 2 reverse split with a record date of the original August 10th amendment.

Three calendar days later on December 2nd 2010, FINRA processed the name change and reverse split for the Company, despite no current information being publicly available via the SEC or OTC Markets Group filings.

On December 7th 2010, OTC Markets Group designated the Company as a “Caveat Emptor” security. Per OTC Market Group’s Caveat Emptor policy, the Company was seemingly “the subject of a corporate action, such as a reverse merger, stock split, or name change, without adequate current information being publicly available.”

On May 22nd 2024, shareholder JUDD Holding Corp filed a petition for custodianship in the District Court of Clark County, Nevada, case# A-24-893877-P.

On July 19th 2024, the District Court of Clark County, Nevada, case# A-24-893877-P, appointed JUDD Holding Corp, a Delaware Corporation controlled by David Duarte, as Custodian of Zhong Hui Dao Ming Copper Holding Limited.

On July 22nd 2024, the Custodian reinstated Zhong Hui Dao Ming Copper Holding Limited in Nevada, appointed a new Registered Agent in the state, and appointed David Duarte as President & CEO, Secretary, Treasurer and Director.

On July 22nd 2024, the Custodian filed Amended & Restated Articles of Incorporation with Nevada, raising the Authorized Shares of Common Stock to 750,000,000 and the Authorized Shares of Preferred Stock to 10,000,000, and amending par value of both classes to .0001.

On July 22nd 2024, the Custodian filed a Certificate of Designation for the Special 2024 Series A Preferred Stock with Nevada. Each preferred share has rights of 1,000 votes per share and is not convertible to Common Stock.

On August 9th 2024, the Custodian was issued 32,000,000 shares of Common Stock and 750,000 shares of Special 2024 Series A Preferred Stock at par in exchange for corporate revival services.

On August 30th 2024, the Custodian sent notice to the named stockholders of a Special Meeting of Stockholders of Zhong Hui Dao Ming Copper Holding Limited to be held on October 11th, 2024.

On October 11th 2024 at the Special Meeting Stockholders of Zhong Hui Dao Ming Copper Holding Limited and by majority vote, David Duarte was confirmed as sole Director, Amended & Restated Bylaws were adopted, and certain shares of Common Stock were deemed canceled.

On November 22nd 2024, the District Court in Clark Country, Nevada, granted the Custodian's motion to require proof of claims granted, ordering all claimants and creditors of the Company to submit proof of claims to the custodian within 30 days of entry of order starting on November 25th 2024. No claims were received.

On January 17th 2025, the Custodian filed motions to Bar All Unasserted Claims and a separate motion to Discharge the Custodian.

On March 5th 2025, the District Court in Clark County, Nevada granted the Custodian's Motions to Bar All Unasserted Claims and Discharge the Custodian, approving the actions taken by the Custodian which included cancelation of certain shares, and control was returned to the Board.

On March 25th 2025, the Company's transfer agent processed the cancellation of 24,445,000 shares granted by the Discharge Order.

On September 4th 2025, OTC Markets upgraded the Company to the OTCID tier and removed the historical Caveat Emptor designation.

On December 30th 2025, the Board filed with Nevada an amended Certificate of Designation for the Special 2024 Series A Preferred Stock which raised the Authorized Shares of the series from 750,000 to 5,000,000, amended the voting rights from a ratio of 1000:1 to 10:1, and added conversion rights at a ratio of 10:1.

On December 31st 2025, the Board authorized the issuance of 42,500,000 shares of Common Stock and 1,492,000 shares of Special 2024 Series A Preferred Stock to JUDD Holding Corp (controlled by David Duarte) for roughly $22,000 in corporate revival services provided.

On January 12th 2026, the Company experienced a change of control whereby Ainnova Tech acquired 64,825,000 shares of Common Stock and 1,949,500 shares of Special 2024 Series A Preferred Stock of the Company from JUDD Holding Corp, who retained 9,675,000 shares of Common Stock and 292,500 shares of Special 2024 Series A Preferred Stock. David Duarte resigned from all Officer positions of the Company and appointed certain Officers & Directors of Ainnova Tech. Duarte will remain on the Board until certain post-closing conditions are met.

As a result of the transaction, Ainnova Tech became a wholly owned subsidiary of the Company. Ainnova Tech is a health technology company pioneering early disease detection through artificial intelligence and advanced imaging. Its proprietary platform combines deep learning, multi-modal data integration, and cloud-based analytics to deliver predictive, accessible, and connected preventive health solutions for healthcare systems and consumers worldwide.

On June 2nd 2026, the Board of Zhong Hui Dao Ming Copper Holding Limited determined to change it's fiscal year end from June 30th to December 31st to align with the operating subsidiary, and the Officers & Directors of the Company were directed to implement such change. Subsequently, the Company filed on an Annual Disclosure & Financial Statements for the shortened six-month year ended December 31, 2025.

During the quarter ended June 30, 2026, Ainnova Tech entered into a commercial pilot agreement with Abbott to evaluate the implementation of an AI-assisted preventive screening program in Mexico organized by participating physicians who manage patients with cardiometabolic risk factors. The pilot commenced during the quarter. The parties continue to evaluate the program and discuss potential next steps, including opportunities for a broader collaboration in Mexico and other Latin American markets. No definitive agreement regarding any expansion has been entered into as of the date of this report.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The Company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Stock-based Compensation.
In June 2018, the FASB issued ASU 2018-07, *Compensation – Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting.* ASU 2018-07 allows companies to account for non-employee awards in the same manner as employee awards. The guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within those annual periods.

Related Party Transactions
Under ASC 850 "Related Party Transactions" an entity or person is considered to be a "related party" if it has control, significant influence or is a key member of management personnel or affiliate. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. The Company, in accordance with ASC 850 presents disclosures about related party transactions and outstanding balances with related parties.

Derivative Financial Instruments
The Company evaluates its convertible notes to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company uses a weighted-average Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period.

Fair Value of Financial Instruments
The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America under U.S. GAAP and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's notes payable approximate the fair value of such instruments as the notes bear interest rates that are consistent with current market rates.

Basic and Diluted Income (Loss) Per Share
The Company computes income (loss) per share in accordance with FASB ASC 260. Basic earnings (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed using the weighted-average number of common shares and the dilutive effect of contingent shares outstanding during the period.

Income Taxes
Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to tax net operating loss carry forwards. The deferred tax assets and liabilities represent the future tax return consequences of these differences, which will either be taxable or deductible when assets and liabilities are recovered or settled, as well as operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established against deferred tax assets when in the judgment of management, it is more likely than not that such deferred tax assets will not become available. Because the judgment about the level of future taxable income is dependent to a great extent on matters that may, at least in part, be beyond the Company's control, it is at least reasonably possible that management's judgment about the need for a valuation allowance for deferred taxes could change in the near term.

Tax benefits are recognized only for tax positions that are more likely than not to be sustained upon examination by tax authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely to be realized upon settlement. A liability for "unrecognized tax benefits" is recorded for any tax benefits claimed in the Company's tax returns that do not meet these recognition and measurement standards. As of June 30th, 2026 and 2025, no liability for unrecognized tax benefits was required to be reported.

Recently Issued Accounting Pronouncements
The Company has implemented all new applicable accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The Company's financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As of June 30th, 2026, the Company has an accumulated deficit of approximately $4,763,090 and requires additional funds to support its operations and to achieve its business development goals, the attainment of which are not assured.

These factors and uncertainties raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might incur in the event the Company cannot continue in existence. Management intends to seek additional capital from new equity securities offerings, debt financing and debt restructuring to provide funds needed to increase liquidity, fund internal growth and fully implement its business plan. However, management can give no assurance that these funds will be available in adequate amounts, or if available, on terms that would be satisfactory to the Company. The timing and amount of the Company's capital requirements will depend on a number of factors, including maintaining its status as a public company and supporting shareholder and investor relations.

NOTE 4 - RELATED PARTY NOTE

On December 13th 2025, Ainnova Tech issued a $65,000 interest-free, non-convertible Promissory Note maturing on June 30th 2026 to JUDD Holding Corp. As a result of the Company's change of control and acquisition of Ainnova Tech as a wholly owned subsidiary during the March 31st 2026 reporting period, the balance of Accounts Payable due to JUDD was deemed satisfied and the Promissory Note is now classified as a Related Party Note Payable. As of the date of preparation of this report, the full balance of the note is still outstanding and the Company is in active discussions with the holder for extension of maturity.

NOTE 5 – SUBSEQUENT EVENTS

The Company follows the guidance in Section 855-10-50 of the FASB Accounting Standards Codification for the disclosure of subsequent events. The Company will evaluate subsequent events through the date when the financial statements were issued.
