Publicly Quoted or Traded Securities:

The goal of this section is to provide a clear understanding of the share information for its publicly quoted or traded equity securities. Use the fields below to provide the information, as applicable, for all outstanding classes of securities that are publicly traded/quoted.

*Trading symbol:	GGII (FINRA is currently processing the company's application for a new ticker symbol)		
Exact title and class of securities outstanding:	Common Stock		
CUSIP:	393048202		
Par or stated value:	$0.0001		
Total shares authorized:	75,000,000,000	as of date:	July 31, 2026
Total shares outstanding:	66,623,750,898	as of date:	July 31, 2026
Total number of shareholders of record:	298	as of date:	July 31, 2026

- *On October 15, 2024, an Issuer Related Action notification regarding the change of name and proposed ticker symbol change, was submitted to FINRA for approval. The Issuer has satisfied 13 of 15 demands for supporting documentation from FINRA. One of the two outstanding items requires an unrelated third party to provide written confirmation of a 4-year-old transaction, which this party has refused to provide on the advice of their Attorney. The Issuer has no means to enforce this party to provide the document that FINRA has requested, which has no bearing on the request for approval of a name change and ticker symbol change. Until this matter is resolved, the Issuer will continue to use the symbol GGII together with new legal name of Fast Moving Consumer Goods, Inc.*

  The second item relates to the provision of a resignation date of a former Director who served for a few months over 15 years ago. No Form 8K was filed with the SEC at that time. When the GGII shell was acquired in May 2021, no prior books or records were provided.

  On October 23, 2025, FINRA advised that unless all the requested documentation was supplied by December 1, 2025, our application would be considered terminated, and that we could re-apply at a later date.

  Considering the fact that the issuer has no authority to compel any person or persons unknown at this time who may or may not have acted as Directors in the early 2000's, and whose whereabouts are unknown, to provide signed resolutions supporting director and officer appointments made ten to fifteen years ago, it is highly likely that the company will continue to use the GGII ticker symbol.

Please provide the above-referenced information for all other publicly quoted or traded securities of the issuer.

N/A

Other classes of authorized or outstanding equity securities that do not have a trading symbol:

The goal of this section is to provide a clear understanding of the share information for its other classes of authorized or outstanding equity securities (e.g., preferred shares that do not have a trading symbol). Use the fields below to provide the information, as applicable, for all other authorized or outstanding equity securities.

Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

a. Common shareholders hold 1 vote per share. Voting follows Delaware corporate law and internal bylaws.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

a. Preferred C Stockholders earn 6% non-cumulative dividends and carry mandatory conversion

triggers including registration and time-based thresholds.

b. Mandatory conversion. 30 months from issue or upon effective resale registration with trading volume and price conditions met.

3. Describe any other material rights of common or preferred stockholders.

N/A

4. Describe any material modifications to the rights of holders of the company's securities that have occurred over the reporting period covered by this report.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Fast Moving Consumer Goods, Inc. (FMCG) — Consulting and Incubation Services

FMCG enters into written service agreements with clients for consulting, custom formulation, supply-chain management, brand-development, mentoring, mastermind programs, and related incubation services. These agreements typically include multiple distinct performance obligations, such as custom formulation (including up to three iterations and sample shipments), supply-chain coordination, brand-development and marketing support, retail outreach, PR and social-media management, mentoring and mastermind sessions, and project-management services.

Transaction prices may include fixed fees, monthly retainers, deposits, and milestone-based payments. FMCG allocates consideration to each performance obligation based on relative standalone selling prices and recognizes revenue when the related services are delivered. Deposits and advance payments are recorded as contract liabilities until the associated performance obligations are satisfied.

Lucky To Be Beverage Co. (LTBB) — Consumer-Product Operations

On January 5, 2024, the issuer formed the Lucky to Be Beverage Co. ("LTBB") a Nevada corporation wholly owned by Fast Moving Consumer Goods, Inc. LTBB operates pursuant to a Joint Venture Agreement between FMCG and Good Stuff Manufacturing, LLC ("GSM"), under which FMCG and GSM each hold a 50% contractual joint-venture interest. The JV was formed for the purposes of developing and manufacturing new beverage lines in the health space.

LTBB identifies each distinct performance obligation in its customer contracts, determines the transaction price (including variable consideration such as returns or discounts), allocates that price to each performance obligation, and recognizes revenue when control of the goods transfers to the customer, generally upon shipment or delivery. Revenue from licensing arrangements, where applicable, is recognized over time.

FMCG consolidates LTBB for financial reporting purposes in accordance with ASC 810 because FMCG is the primary beneficiary of LTBB's variable interests, GSM's contractual joint venture interest is reflected as a noncontrolling interest.

B. List any subsidiaries, parent company, or affiliated companies.

Lucky to Be Beverage Co.

C. Describe the issuers' principal products or services.

Fast Moving Consumer Goods offers white label, private label, R&D, and consulting services for manufacturing beverages, nutritional supplements, beauty products, and over-the-counter medications (OTC) through its affiliate.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

As of the date of this report the Company does not directly own or lease any business premises.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

7) Legal/Disciplinary History

A. Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years:

1. Been the subject of an indictment or conviction in a criminal proceeding or plea agreement or named as a defendant in a pending criminal proceeding (excluding minor traffic violations);

NO

2. Been the subject of the entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, financial- or investment-related, insurance or banking activities;

NO

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities or commodities law, or a foreign regulatory body or court, which finding or judgment has not been reversed, suspended, or vacated;

NO

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above; or

NO

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

NO

6. Been the subject of a U.S Postal Service false representation order, or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S mail.

NO

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding, and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

On January 17, 2025, a civil complaint titled Kelly Ann Bortman v. Green Star Labs, Inc., Hempacco Co., Inc., Sandro Piancone, and Green Globe International, Inc., Case No. 25STCV01453, was filed in the Superior Court of the State of California, County of Los Angeles. The action involves employment-related allegations asserted by the plaintiff against the named defendants. The complaint seeks damages typical of employment-related civil actions. Settlement discussions are in progress, and management does not believe this matter will have any material impact on the Company's operations or financial condition.

Notes to Condensed Consolidated Financial Statements

For the Three and Six Months Ended June 30, 2026 and 2025

(Unaudited)

NOTE 1 — BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Fast Moving Consumer Goods, Inc. ("FMCG" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") applicable to interim financial information. Although the Company is not currently subject to the reporting requirements of the Securities and Exchange Commission ("SEC"), management has elected to prepare these condensed consolidated financial statements by reference to the rules and interpretive guidance applicable to fully reporting companies, including the interim reporting framework and Article 10 of Regulation S-X. This voluntary approach is intended to ensure that, in the event of any future SEC registration requiring multiple years of audited financial statements, the Company's historical financial information will have been prepared to a standard consistent with that expected of SEC registrants. Accordingly, these financial statements are condensed and do not include all of the information and footnotes required by U.S. GAAP for complete annual financial statements.

These condensed consolidated financial statements should be read in conjunction with the Company's prior annual consolidated financial statements and accompanying notes for the fiscal year ended December 31, 2025, which were prepared under the same U.S. GAAP framework and by reference to SEC reporting guidance, even though the Company does not file periodic reports with the SEC. The condensed consolidated balance sheet as of December 31, 2025 has been derived from those annual financial statements.

FMCG is a Delaware corporation, originally incorporated on November 12, 1999. The condensed consolidated financial statements include the accounts of FMCG and its wholly owned subsidiary, Lucky To Be Beverage Co. ("LTBB"), a Nevada corporation incorporated on January 25, 2024. LTBB operates pursuant to a Joint Venture Agreement between FMCG and Good Stuff Manufacturing, LLC ("GSM"), under which FMCG and GSM each hold a 50% contractual joint-venture interest. FMCG consolidates LTBB in accordance with ASC 810 because FMCG is the primary beneficiary of LTBB's variable interests, having the power to direct the activities that most significantly affect LTBB's economic performance and having the obligation to absorb losses or the right to receive benefits that could be significant to LTBB. GSM's contractual joint-venture interest is reflected as a noncontrolling interest.

FMCG is a holding and consulting company that provides custom formulation, supply-chain management, brand development, mentoring, mastermind programs, and related commercial support services to consumer-product clients. LTBB is engaged in brand management, consumer-product manufacturing, distribution, and related commercial operations. Together, the Company operates a dual-model structure consisting of (i) consulting, formulation, incubation, and brand-development services conducted by FMCG, and (ii) consumer-product manufacturing and supply-chain operations conducted through LTBB. All intercompany balances, transactions, and profits have been eliminated in consolidation.

Hempacco Co., Inc. ("Hempacco"), previously consolidated as a majority-owned subsidiary, has been classified as discontinued operations in accordance with ASC 205-20. The results of Hempacco's operations have been excluded from continuing operations and are presented separately for all periods shown. Prior-period comparative financial information has been reclassified accordingly.

In management's opinion, all normal recurring adjustments necessary for a fair presentation have been included. Interim results are not necessarily indicative of full-year performance.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company recognizes revenue in accordance with ASC 606, *Revenue from Contracts with Customers*. Revenue is generated through both FMCG and LTBB.

FMCG — Consulting and Incubation Services

FMCG enters into written service agreements with clients for consulting, custom formulation, supply-chain management, brand-development, mentoring, mastermind programs, and related incubation services. These agreements typically include multiple distinct performance obligations, such as custom formulation (including up to three iterations and sample shipments), supply-chain coordination, brand-development and marketing support, retail outreach, PR and social-media management, mentoring and mastermind sessions, and project-management services.

Transaction prices may include fixed fees, monthly retainers, deposits, and milestone-based payments. FMCG allocates consideration to each performance obligation based on relative standalone selling prices and recognizes revenue when the related services are delivered. Deposits and advance payments are recorded as contract liabilities until the associated performance obligations are satisfied.

LTBB — Consumer-Product Operations

LTBB is a wholly owned subsidiary of FMCG that operates pursuant to a Joint Venture Agreement between FMCG and Good Stuff Manufacturing, LLC ("GSM"), under which FMCG and GSM each hold a 50% contractual joint-venture interest. FMCG consolidates LTBB under ASC 810 as FMCG is the primary beneficiary of LTBB's variable interests. GSM's contractual joint-venture interest is reflected as a noncontrolling interest.

LTBB identifies each distinct performance obligation in its customer contracts, determines the transaction price (including variable consideration such as returns or discounts), allocates that price to each performance obligation, and recognizes revenue when control of the goods transfers to the customer, generally upon shipment or delivery. Revenue from licensing arrangements, where applicable, is recognized over time.

Taxes collected from customers and remitted to governmental authorities are excluded from revenue.

Cash and Cash Equivalents

Cash and cash equivalents are held at both FMCG and LTBB, depending on the nature of the underlying operations.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable include consulting and formulation receivables at FMCG and product receivables at LTBB. The Company maintains an allowance for credit losses in accordance with ASC 326.

Inventory

Inventory is held exclusively by LTBB and consists of finished goods and raw materials associated with consumer-product operations.

Intangible Assets

Intangible assets reside at the LTBB level and include brand licenses, trademarks, trade names, and customer relationships. Finite-lived intangible assets are amortized over their estimated useful lives and tested for impairment under ASC 350.

Goodwill

Goodwill resides at the LTBB level and is tested for impairment annually or more frequently if indicators arise.

Fair Value Measurements

The Company measures and discloses fair value in accordance with ASC 820.

Income Taxes

The Company accounts for income taxes under ASC 740. FMCG files as a Delaware corporation; LTBB files as a Nevada corporation. A full valuation allowance is maintained against deferred tax assets.

Earnings (Loss) Per Share

EPS is computed in accordance with ASC 260. All potentially dilutive securities are antidilutive due to net losses.

Discontinued Operations

Hempacco is presented as discontinued operations under ASC 205-20.

Going Concern

Management's going-concern evaluation is presented in Note 3.

Recently Adopted and Recently Issued Standards

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires disclosure of incremental segment information on an annual basis and requires that public entities with a single reportable segment provide all segment disclosures required under Topic 280. The standard was effective for fiscal years beginning after December 15, 2023. The Company adopted ASU 2023-07 for the fiscal year ended December 31, 2025. Adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements, as the Company operates as a single reportable segment through LTBB.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which expands the disclosure requirements for income taxes, primarily related to the rate reconciliation and income taxes paid. The standard is effective for annual periods beginning after December 15, 2024, with early adoption permitted. The Company adopted ASU 2023-09 for the fiscal year beginning January 1, 2026. The adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements; however, it may result in incremental disclosures in the Company's annual report for the year ending December 31, 2026.

Recently Issued Accounting Standards Not Yet Adopted

In November 2024, the FASB issued ASU 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*, which requires disaggregated disclosure of certain expenses in the notes to the financial statements for interim and annual reporting periods. The standard is effective for annual periods beginning after December 15, 2026, and for interim periods beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the potential impact of this standard on its financial statement disclosures but does not expect the adoption to have a material effect on its condensed consolidated financial position or results of operations.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's condensed consolidated financial statements.

NOTE 3 — GOING CONCERN

The Company has incurred recurring losses and has limited liquidity. FMCG generates revenue from consulting, formulation, incubation, and brand-development services, while LTBB generates revenue from consumer-product manufacturing and supply-chain activities. FMCG now generates a significant portion of consolidated revenues. However, consolidated cash resources remain limited relative to obligations.

Management's plans include expanding FMCG's consulting operations, expanding LTBB's commercial operations, pursuing additional financing, and managing operating costs. There is no assurance these plans will be successful.

The financial statements do not include adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 — CONSOLIDATION OF LTBB, CO.

Lucky To Be Beverage Co. ("LTBB") is a Nevada corporation incorporated on January 25, 2024 and is wholly owned by FMCG. LTBB operates pursuant to a Joint Venture Agreement between FMCG and Good Stuff Manufacturing, LLC ("GSM"), under which FMCG and GSM each hold a 50% contractual joint-venture interest. FMCG consolidates LTBB in accordance with ASC 810 because FMCG is the primary beneficiary of LTBB's variable interests, having both (i) the power to direct the activities that most significantly affect LTBB's economic performance, and (ii) the obligation to absorb losses or the right to receive benefits that could be significant to LTBB.

Basis of Consolidation

LTBB is consolidated under the variable-interest entity ("VIE") model in ASC 810. FMCG's consolidation reflects FMCG's control over LTBB's operations, including product development, formulation, manufacturing oversight, supply-chain management, and commercial strategy. GSM's contractual joint-venture interest is reflected as a noncontrolling interest.

Allocation of Assets, Liabilities, and Operations

Consumer-product manufacturing assets, inventories, and related liabilities reside at LTBB. Consulting-related assets (cash, receivables, deposits) and consulting-related liabilities reside at FMCG.

Noncontrolling Interests

Noncontrolling interests represent GSM's contractual 50% joint-venture interest in LTBB.

NOTE 5 — DISCONTINUED OPERATIONS — HEMPACCO CO., INC.

Background and Disposal

Prior to the current fiscal year, the Company consolidated Hempacco Co., Inc. ("Hempacco") as a majority-owned subsidiary. Hempacco was engaged in the manufacturing and distribution of hemp-derived consumer products, including smokable hemp goods and related accessories. During the six months ended June 30, 2026, the Company disposed of its controlling interest in Hempacco, resulting in the deconsolidation of Hempacco from the Company's condensed consolidated financial statements. FMCG derecognized Hempacco's assets and liabilities as of the deconsolidation date in accordance with ASC 810-10-40.

Classification as Discontinued Operations

Management determined that the disposal of Hempacco represents a strategic shift in the Company's business. Accordingly, Hempacco's historical results of operations, financial position, and cash flows have been classified and presented as discontinued operations in accordance with ASC 205-20 for all periods presented. Prior-period comparative financial information has been reclassified to conform to this presentation.

Results of Discontinued Operations

Results attributable to Hempacco include revenues from hemp-derived consumer product sales, cost of revenues associated with hemp product manufacturing and procurement, and operating expenses including selling, general and administrative costs, depreciation, and any impairment charges recognized at the Hempacco entity level. For 2026, results are included only for the portion of the period during which FMCG maintained a controlling interest. For 2025, full-period results are presented as discontinued operations.

Assets and Liabilities of Discontinued Operations

Upon deconsolidation, FMCG derecognized all Hempacco assets and liabilities. As of June 30, 2026, no Hempacco assets or liabilities remain in the condensed consolidated balance sheet. As of December 31, 2025, Hempacco's assets and liabilities were presented as discontinued operations.

Gain or Loss on Deconsolidation

The gain or loss on deconsolidation was computed under ASC 810-10-40-4 as the difference between (i) the aggregate fair value of consideration received, the fair value of any retained noncontrolling investment, and amounts reclassified from accumulated other comprehensive income, and (ii) the carrying amount of Hempacco's net assets (including noncontrolling interest). The resulting gain or loss is included in discontinued operations for the six months ended June 30, 2026.

Cash Flows of Discontinued Operations

Operating, investing, and financing cash flows attributable to Hempacco are presented separately in the condensed consolidated statements of cash flows for all periods presented. Following deconsolidation, no further Hempacco cash flows are included.

Contingencies Retained After Deconsolidation

The Company evaluated whether any continuing obligations, guarantees, indemnifications, or legal contingencies related to Hempacco remain. Any retained obligations are disclosed herein and in Note 11. Management does not believe any such obligations are individually material at this time.

NOTE 6 — RELATED PARTY TRANSACTIONS

Related parties include officers, directors, significant shareholders, and entities controlled by such persons. Related parties also include Good Stuff Manufacturing, LLC (“GSM”), FMCG’s joint-venture partner in LTBB.

Intercompany Transactions — FMCG and LTBB

Intercompany transactions between FMCG and LTBB are eliminated in consolidation. FMCG may advance funds to LTBB for working capital; such advances are eliminated and not presented as assets or liabilities.

Transactions with GSM

GSM is FMCG’s joint-venture partner in LTBB and is considered a related party. Under the Joint Venture Agreement, GSM contributes bottling and canning equipment for LTBB’s use and provides certain sales-related services. GSM may remove equipment periodically to serve regulated-space clients. GSM’s contractual joint-venture interest is reflected as a noncontrolling interest.

No material related-party transactions occurred between LTBB and GSM during the three and six months ended June 30, 2026 other than those described in the Joint Venture Agreement.

Transactions with Officers and Directors

Officers and directors may receive compensation for services. No related-party transactions outside ordinary-course employment or consulting arrangements occurred during the period.

Related-Party Loans and Advances

Officers, directors, or significant shareholders may provide short-term advances or loans. Any outstanding related-party obligations are reflected in the condensed consolidated balance sheet.

Other Related-Party Arrangements

The Company identified no additional material related-party arrangements requiring disclosure.

NOTE 7 — COMMITMENTS AND CONTINGENCIES

The Company enters into commitments and contingencies in the ordinary course of business.

FMCG Commitments

FMCG’s commitments relate primarily to consulting and incubation service agreements, including obligations to provide custom formulation, supply-chain coordination, brand-development support, mentoring, mastermind programs, and related commercial services. These agreements typically include cancellation provisions permitting termination with 30 days’ notice. FMCG’s only guaranteed deliverable under certain agreements is the provision of a completed formulation.

LTBB Commitments

LTBB's commitments relate primarily to consumer-product manufacturing, supply-chain activities, and distribution arrangements. LTBB may enter into purchase commitments for raw materials, packaging, or finished goods. As of June 30, 2026, LTBB had no material non-cancelable purchase commitments.

Legal Proceedings

The Company evaluates legal contingencies under ASC 450-20. As of June 30, 2026, no legal proceedings are pending or threatened that are expected to result in a material adverse effect on the Company's condensed consolidated financial statements.

Indemnification Arrangements

The Company may enter into indemnification arrangements with officers, directors, service providers, and contractual counterparties. No indemnification liabilities have been accrued as of June 30, 2026.

Regulatory Environment

LTBB operates in the consumer-products industry and may be subject to federal, state, and local regulatory requirements, including those applicable to hemp-derived ingredients. Management monitors regulatory developments and believes no current regulatory matters are expected to result in material obligations.

NOTE 8 — DEBT AND FINANCING ARRANGEMENTS

The Company's debt and financing arrangements include obligations at both the FMCG parent-company level and the LTBB operating subsidiary level.

Convertible Notes Payable

The Company has entered into convertible promissory note agreements with third-party lenders and accredited investors. Convertible notes bear interest at stated rates, mature at specified dates, and include conversion features allowing holders to convert principal and accrued interest into FMCG common stock at fixed or variable conversion prices.

The Company evaluates embedded conversion features under ASC 815 and ASC 470. Features requiring bifurcation are recorded as derivative liabilities at fair value, with changes recognized in earnings.

Convertible notes are presented net of unamortized debt issuance costs and debt discounts. Discounts and issuance costs are amortized using the effective interest method.

Notes Payable — Other

The Company may also carry non-convertible promissory notes or other borrowing arrangements with third parties or related parties. Such notes bear interest at stated rates and have defined maturity dates. Material notes payable are reflected in the condensed consolidated balance sheet.

Default Provisions and Covenant Compliance

Certain debt instruments contain default provisions that may accelerate repayment. Obligations in default as of June 30, 2026 are classified as current liabilities under ASC 470-10-45.

Fair Value of Debt

The Company has not elected the fair value option under ASC 825. Floating-rate debt approximates fair value; fixed-rate convertible notes require Level 3 inputs, and reliable fair value estimates cannot be determined without undue cost and effort.

Debt Maturity Profile

Debt maturities range from near-term obligations to maturities beyond twelve months. Obligations maturing within twelve months are classified as current liabilities. The Company's ability to repay obligations depends on continued access to external financing. Refer to Note 3 for going-concern considerations.

NOTE 9 — STOCKHOLDERS' EQUITY (DEFICIT)

The following describes the composition and changes in the stockholders' equity (deficit) of Fast Moving Consumer Goods, Inc. ("FMCG"), a Delaware corporation, for the six months ended June 30, 2026.

Authorized Capital Stock

The Company's certificate of incorporation authorizes the issuance of common stock and preferred stock. The par values, authorized share counts, and rights and preferences of each class are established in FMCG's governing documents and any applicable certificates of designation filed with the Delaware Secretary of State.

Common Stock

Changes in common shares outstanding during the six months ended June 30, 2026 resulted from conversions of convertible promissory notes, issuances of shares for services, and issuances of shares in financing transactions, including private placements. All issuances were authorized by the Board of Directors and recorded as increases to common stock and additional paid-in capital.

Preferred Stock

Preferred stock, if designated and issued, carries rights and preferences as set forth in the applicable certificates of designation. No material changes to outstanding preferred stock occurred during the six months ended June 30, 2026 except as disclosed in Note 16.

Stock-Based Compensation

The Company accounts for stock-based compensation under ASC 718. Stock-based compensation expense is recognized for equity-classified awards based on grant-date fair value and amortized over the vesting period. Awards granted to LTBB employees are recognized at LTBB; awards granted to FMCG directors or officers are recognized at FMCG.

Warrants

The Company has issued warrants in connection with financing transactions. Warrants are classified as equity or liabilities under ASC 815-40. Equity-classified warrants are recorded in additional paid-in capital; liability-classified warrants are remeasured at fair value each reporting period.

Noncontrolling Interests

Noncontrolling interests represent GSM's contractual 50% joint-venture interest in LTBB. Changes in noncontrolling interests reflect GSM's proportionate share of LTBB's net income or loss and any contributions or distributions.

Accumulated Deficit

The accumulated deficit reflects cumulative losses from continuing operations and discontinued operations attributable to FMCG common shareholders.

NOTE 10 — INCOME TAXES

The Company accounts for income taxes under ASC 740.

Tax Filing Status

FMCG files federal income tax returns as a Delaware corporation. LTBB files as a Nevada corporation. Consolidated federal filing may occur if FMCG's ownership of LTBB satisfies affiliated group requirements. State filings occur in jurisdictions where FMCG or LTBB has nexus.

Effective Tax Rate

The statutory federal corporate tax rate is 21%. The Company's effective tax rate differs primarily due to:

- a full valuation allowance against deferred tax assets,
- permanent differences (non-deductible items),
- state-level minimum taxes.

Income tax expense for the period was not material.

Deferred Tax Assets and Liabilities

Deferred tax assets arise primarily from net operating loss carryforwards ("NOLs") and temporary differences. NOLs generated after 2017 are carried forward indefinitely, subject to an 80% taxable income limitation. A full valuation allowance is maintained due to cumulative losses and uncertainty regarding future taxable income.

Uncertain Tax Positions

The Company evaluated tax positions under ASC 740-10 and determined no material unrecognized tax benefits exist. No interest or penalties have been accrued.

Tax Years Subject to Examination

Federal returns are generally subject to examination for three years following filing. State examination periods vary by jurisdiction.

NOTE 11 — COMMITMENTS AND CONTINGENCIES

The Company evaluates commitments and contingencies under ASC 450.

Operating Leases

FMCG does not maintain physical premises and is not party to operating leases. LTBB may maintain operating leases for distribution or commercial activities. LTBB recognizes right-of-use (“ROU”) assets and lease liabilities under ASC 842 for leases exceeding twelve months. Short-term leases are expensed as incurred.

Legal Proceedings

The Company evaluates legal contingencies under ASC 450-20. As of June 30, 2026, no legal proceedings are pending or threatened that are expected to result in a material adverse effect.

Indemnification Arrangements

The Company may enter into indemnification arrangements with officers, directors, service providers, and contractual counterparties. No indemnification liabilities have been accrued.

Regulatory Environment

LTBB operates in the consumer-products industry and may be subject to regulatory requirements, including those applicable to hemp-derived ingredients. Management monitors regulatory developments and believes no current matters are expected to result in material obligations.

NOTE 12 — RELATED PARTY TRANSACTIONS

Related parties include officers, directors, significant shareholders, and entities controlled by such persons.

Intercompany Transactions — FMCG and LTBB

Intercompany transactions between FMCG and LTBB are eliminated in consolidation. FMCG may advance funds to LTBB for working capital; such advances are eliminated and not presented as assets or liabilities.

Transactions with Officers and Directors

Officers and directors may receive compensation for services. No related-party transactions outside ordinary-course employment or consulting arrangements occurred during the period.

Related-Party Loans and Advances

Officers, directors, or significant shareholders may provide short-term advances or loans. Any outstanding related-party obligations are reflected in the condensed consolidated balance sheet.

Other Related-Party Arrangements

The Company identified no additional material related-party arrangements requiring disclosure.

The following describes the composition and changes in the stockholders' equity (deficit) of Fast Moving Consumer Goods, Inc. ("FMCG"), a Delaware corporation, for the six months ended June 30, 2026.

Authorized Capital Stock

The Company's certificate of incorporation authorizes the issuance of common stock and preferred stock. The par values, authorized share counts, and rights and preferences of each class are established in FMCG's governing documents and any applicable certificates of designation filed with the Delaware Secretary of State. As of June 30, 2026, the Company's authorized capital includes both common shares and one or more series of preferred stock.

Common Stock

Changes in common shares outstanding during the six months ended June 30, 2026 resulted from:

- conversions of convertible promissory notes,
- issuances of shares for services,
- issuances of shares in financing transactions, including private placements.

All issuances were authorized by the Board of Directors and recorded as increases to common stock and additional paid-in capital.

Preferred Stock

Preferred stock, if designated and issued, carries rights and preferences as set forth in the applicable certificates of designation, including liquidation preferences, dividend rights, voting rights, anti-dilution protections, and conversion features. No material changes to outstanding preferred stock occurred during the six months ended June 30, 2026 except as disclosed in Note 16.

Stock-Based Compensation

The Company accounts for stock-based compensation under ASC 718. Stock-based compensation expense is recognized for equity-classified awards based on grant-date fair value and amortized over the vesting period. Awards granted to LTBB employees are recognized at LTBB; awards granted to FMCG directors or officers are recognized at FMCG. Stock-based compensation expense for the period was not individually material.

Warrants

The Company has issued warrants in connection with financing transactions. Warrants are classified as equity or liabilities under ASC 815-40. Equity-classified warrants are recorded in additional paid-in capital; liability-classified warrants are remeasured at fair value each reporting period. No warrant exercises during the period were individually material.

Noncontrolling Interests

Noncontrolling interests represent equity in LTBB not attributable to FMCG. The carrying amount is adjusted for the noncontrolling interest's proportionate share of LTBB's net income or loss and for any contributions or distributions.

Accumulated Deficit

The accumulated deficit of $18,433,396, reflects cumulative losses from continuing operations and discontinued operations attributable to FMCG common shareholders.

NOTE 10 — INCOME TAXES

The Company accounts for income taxes under ASC 740.

Tax Filing Status

FMCG files federal income tax returns as a Delaware corporation. LTBB files as a Nevada corporation. Consolidated federal filing may occur if FMCG's ownership of LTBB satisfies affiliated group requirements. State filings occur in jurisdictions where FMCG or LTBB has nexus.

Related-Party Loans and Advances

Officers, directors, or significant shareholders may provide short-term advances or loans. Any outstanding related-party obligations are reflected in the condensed consolidated balance sheet.

Other Related-Party Arrangements

The Company identified no additional material related-party arrangements requiring disclosure.

NOTE 13 — REVENUE RECOGNITION (Cross-Reference)

Revenue is recognized in accordance with ASC 606, Revenue from Contracts with Customers. The Company generates revenue through both FMCG and LTBB. FMCG provides consulting, formulation, incubation, brand-development, mentoring, mastermind, and related commercial services. LTBB generates revenue from consumer-product manufacturing, distribution, and related supply-chain activities.

A detailed discussion of the Company's revenue-recognition policies, including identification of performance obligations, allocation of transaction price, and timing of revenue recognition for both FMCG and LTBB, is presented in **Note 2 — Summary of Significant Accounting Policies**.

Contract liabilities at FMCG consist of deposits and advance payments received from consulting and incubation clients. Contract liabilities at LTBB consist of advance payments received for consumer-product manufacturing or distribution arrangements. Contract liabilities are recognized as revenue when the related performance obligations are satisfied.

NOTE 14 — EARNINGS (LOSS) PER SHARE

The Company computes earnings (loss) per share ("EPS") in accordance with ASC 260, Earnings Per Share.

Basic EPS is computed by dividing net income (loss) attributable to FMCG common shareholders by the weighted-average number of common shares outstanding during the period. Diluted EPS includes the effect of potentially dilutive securities unless their inclusion would be antidilutive.

Because the Company reported net losses attributable to common shareholders for all periods presented, the inclusion of potentially dilutive securities would be antidilutive. Accordingly, diluted EPS equals basic EPS for all periods presented.

Antidilutive Securities

Potentially dilutive securities outstanding as of June 30, 2026 include:

- warrants to purchase common stock (see Note 9),
- stock options outstanding (see Note 9),
- shares issuable upon conversion of convertible notes (see Note 8),
- shares issuable upon conversion of preferred stock (see Note 9).

These instruments were excluded from diluted EPS because their inclusion would reduce the net loss per share.

NOTE 15 — RISKS AND UNCERTAINTIES

The Company is subject to risks and uncertainties that may affect its financial condition, results of operations, and future prospects. The following risks are considered significant for the periods presented.

Early-Stage Operations

LTBB is an early-stage operating subsidiary with a limited operating history. The consolidated entity has generated limited revenues from continuing operations and has not yet achieved profitability. There is no assurance LTBB will grow its commercial operations to achieve positive operating cash flows or net income.

Liquidity

The Company relies on external financing, including equity offerings, convertible debt, and related-party loans, to fund operations. There is no assurance financing will be available in sufficient amounts or on commercially acceptable terms. If the Company is unable to obtain adequate financing, it may be required to curtail operations. Refer to **Note 3 — Going Concern**.

Customer and Supplier Concentration

LTBB's revenues may be concentrated among a limited number of customers, and its supply chain may depend on a limited number of suppliers. Loss of a key customer or disruption in supply could disproportionately affect revenues, gross margin, or operational continuity.

Regulatory Environment

LTBB's consumer-products operations are subject to federal, state, and local regulations governing product labeling, advertising, distribution, and safety. Product lines involving hemp-derived ingredients may be subject to additional regulatory requirements. Changes in laws or regulations could affect LTBB's operations.

Key Personnel

The Company's ability to execute its business strategy depends on key members of management at both FMCG and LTBB. Loss of key personnel could adversely affect operations, customer relationships, and capital-raising efforts.

Market Conditions

Macroeconomic factors, including changes in consumer spending, inflationary pressures, supply-chain disruptions, and competitive dynamics, may affect demand for LTBB's products and the cost structure of operations.

NOTE 16 — SUBSEQUENT EVENTS

The Company evaluated subsequent events in accordance with ASC 855, Subsequent Events, through the date these condensed consolidated financial statements were available to be issued.

These condensed consolidated financial statements were available to be issued on or about the date of filing of the Company's Quarterly Report for the quarter ended June 30, 2026 with OTC Markets.

On **July 16, 2026**, the Company executed a Certificate of Designation establishing **1,000,000 shares of Series D Preferred Stock**. The Certificate was filed with the Delaware Secretary of State on **July 28, 2026**, and the Company expects to receive the stamped and certified copy shortly.

Management will continue to monitor subsequent events through the filing date and will supplement disclosures if any material events occur or become known prior to filing.
